FAM Evolution ICAV

Investment Manager's Report

Fineco AM Advisory 6 Target (the "Sub-Fund")

The Sub-Fund returned -12% (net of fees) in 2022. Year 2022 was negative for both Equities and Fixed Income, due to the rapidly deteriorated macro and geopolitical environment, high inflation, and rising interest rates. Our portfolio was exposed to North American equities, the largest region in global equities, and to the European Govies and Corporates. All these major building blocks performed negatively. On the positive side, we were exposed to Gold, which proved a diversifier in 2022. We were also exposed to Inflation-Linked Bonds, and we were short Duration, both of which helped on a relative basis.

On the fund level, most of the funds in the above-mentioned major building blocks performed negatively. For example, Smart Factors US FAM fund, Stoxx Europe 600 Index FAM fund, Investment Grade Euro Aggregate Bond FAM fund all posted negative returns in 2022. On the positive side, Amundi Physical Gold ETC, which we held through the year, performed positively.

During 2022, we entered JP Morgan Enhanced US Equity fund with an embedded protection, due to the continued negative environment. At the end of the year, we sold out of the Amundi Physical Gold ETC, locking in the positive gains, and also due to now-compelling interest rates in the Eurozone and across the globe. We sold out of Eurizon Absolute Active Return, MFS Prudent Capital FAM fund and from the Amundi EM LC Bond fund, due to the macro environment and the lack of conviction. In the US HY space, we switched from Janus Henderson High Yield fund into Fineco AM MSCI USD HY SRI Sustainable Corporate Bonds ETF, with a lower management fee. The Fund is now 72% invested in Equities now with the remaining 28% invested in Liquidity strategies and cash. Liquidity Strategies struggled over the course of 2022 in an environment of rising interest rates.

FAM Evolution ICAV

Investment Manager's Report (continued)

Fineco AM Advisory 9 Target (the "Sub-Fund")

The Sub-Fund returned -12% (net of fees) in 2022. Year 2022 was an extremely volatile year for risk assets as record high global inflation, hawkish central banks and growing concerns about the outlook for growth all weighed on investor sentiment and saw both equity and fixed income markets suffer. Global equities lost -14.7% over the year with EM and Asia the worst performers hurt by rolling covid lockdowns, Chinese real estate concerns and a strong dollar. Europe and Japan were the relative outperformers helped by more reasonable valuation levels and improved sentiment from the Chinese reopening and weaker USD in the last quarter of the year. Looking at factor performances Value and Yield were the clear winners as stubbornly high inflation and a higher for longer rates outlook saw growth and duration underperform.

The fund struggled against this backdrop with its EM and European Equity exposures faring worst, down 21% and 17% respectively over the year. The Funds US value strategies were the best contributors to performance in 2022 with the US Equity Value FAM fund up just under 2% on the year while the M&G North American Value FAM fund finished flat. The principal detractor was the JP Morgan China A Shares FAM Fund due to China's rolling covid lockdowns and real estate sector woes.

Over the course of 2022 the fund sold out of the Morgan Stanley US Advantage Fund and increased positions in its US and Global Value funds. The Fund is now 72% invested in Equities now with the remaining 28% invested in Liquidity strategies and cash. Liquidity Strategies struggled over the course of 2022 in an environment of rising interest rates.

FAM Evolution ICAV

Investment Manager's Report (continued)

FAM MegaTrends Target (the "Sub-Fund")

The Sub-Fund returned -16% (net of fees) in 2022. Global markets encountered several challenges in 2022 with both equity and bonds performing negatively amid an environment of rising inflation, hawkish monetary policy from the FED and Central Banks along with the Geopolitical crisis from Russia's invasion of Ukraine. This negative macro environment weighed on investor sentiment and particularly affected growth stocks and the Megatrends fund which has a growth tilt. These factors weighed on investor sentiment and economic expectations. However, investor sentiment has improved somewhat since November 2022.

Some exposures with technology exposure have dragged including the "Connectivity" and "Digital" themes. Funds which have contributed negatively has CPR Global Disruptive Opportunities FAM Fund and the Sustainable Future Connectivity FAM Fund. On the opposite side, the "Infrastructure" theme and our fund Global Listed Infrastructure FAM Fund benefited from the its positioning in utilities over the last 18 months which were much more resilient.

The liquidity bucket comprises short duration bonds and liquidity and some of the short duration bonds lost out last year due to interest rate increases. The Fund is now 72% invested in Equities now with the remaining 28% invested in Liquidity strategies and cash.

Investment Manager's Report (continued)

FAM Sustainable Target January 2025 (the "Sub-Fund")

The Sub-Fund returned -12% (net of fees) in 2022. Similar to FAM Megatrends Target 2023 IV, this fund has a growth tilt and was impacted rising inflation, geopolitics, and tightening monetary policy. This negative macro environment weighed on investor sentiment and particularly affected growth stocks and the fund is tilted towards growth. Its biggest sectors are tech, industrials and healthcare which all had a difficult year in 2022. We have seen a recovery year-to-date. These factors weighed on investor sentiment and economic expectations. Investor sentiment has improved somewhat year-to-date.

The Brown Advisory US Sustainable Growth Fund was the biggest detractor, due to a strong tilt toward Growth and an overweight in Technology. This fund has since been removed from the portfolio. Fidelity Sustainable Water and Waste FAM Fund also weighed on performance in 2022 due to an overweight in Consumer Cyclical and an important allocation to Industrials, which were particularly affected by an unfavourable macroeconomic and geo-political context.

The main positive contributor was the Global Sustainable Paris Aligned FAM fund, which despite having a significant growth tilt was underweight Technology and overweight Financials and Healthcare, and contributed c. 40bps of positive relative performance. Similarly, the Global Stars Equity FAM fund and the Global Listed Infrastructure funds benefitted from a more blend style and underweights in Technology.

The liquidity bucket comprises short duration bonds and liquidity and some of the short duration bonds lost out last year due to interest rate increases. The Fund is now 72% invested in Equities now with the remaining 28% invested in Liquidity strategies and cash.

Fineco AM Advisory 6 Target 2022 II (the “Sub-Fund”)

The Sub-Fund returned -14% (net of fees) in 2022. Year 2022 was negative for both Equities and Fixed Income, due to the rapidly deteriorated macro and geopolitical environment, high inflation, and rising interest rates. Our portfolio was exposed to North American equities, the largest region in global equities, and to the European Govies and Corporates. All these major building blocks performed negatively. On the positive side, we were exposed to Gold, which proved a diversifier in 2022. We were also exposed to Inflation-Linked Bonds, and we were short Duration, both of which helped on a relative basis.

On the fund level, most of the funds in the above-mentioned major building blocks performed negatively. For example, Smart Factors US FAM fund, Stoxx Europe 600 Index FAM fund, Investment Grade Euro Aggregate Bond FAM fund all posted negative returns in 2022. On the positive side, Amundi Physical Gold ETC, which we held through the year, performed positively.

During 2022, we entered JP Morgan Enhanced US Equity fund with an embedded protection, due to the continued negative environment. At the end of the year, we sold out of the Amundi Physical Gold ETC, locking in the positive gains, and also due to now-compelling interest rates in the Eurozone and across the globe. We sold out of Eurizon Absolute Active Return, MFS Prudent Capital FAM fund and from the Amundi EM LC Bond fund, due to the macro environment and the lack of conviction. In the US HY space, we switched from Janus Henderson High Yield fund into Fineco AM MSCI USD HY SRI Sustainable Corporate Bonds ETF, with a lower management fee. The Fund is now 98% invested in Equities now with the remaining 2% invested in Liquidity strategies and cash. Liquidity Strategies struggled over the course of 2022 in an environment of rising interest rates.

FAM MegaTrends Target 2022 II (the "Sub-Fund")

The Sub-Fund returned -19% (net of fees) in 2022. Global markets encountered several challenges in 2022 with both equity and bonds performing negatively amid an environment of rising inflation, hawkish monetary policy from the FED and Central Banks along with the Geopolitical crisis from Russia's invasion of Ukraine. This negative macro environment weighed on investor sentiment and particularly affected growth stocks and the Megatrends fund which has a growth tilt. These factors weighed on investor sentiment and economic expectations. However, investor sentiment has improved somewhat since November 2022.

Some exposures with technology exposure have dragged including the "Connectivity" and "Digital" themes. Funds which have contributed negatively has CPR Global Disruptive Opportunities FAM Fund and the Sustainable Future Connectivity FAM Fund. On the opposite side, the "Infrastructure" theme and our fund Global Listed Infrastructure FAM Fund benefited from the its positioning in utilities over the last 18 months which were much more resilient.

The liquidity bucket comprises short duration bonds and liquidity and some of the short duration bonds lost out last year due to interest rate increases. The Fund is now 98% invested in Equities now with the remaining 2% invested in Liquidity strategies and cash.

FAM Sustainable Target 2022 II (the "Sub-Fund")

The Sub-Fund returned -15% (net of fees) in 2022. Similar to FAM Megatrends Target 2023 IV, this fund has a growth tilt and was impacted rising inflation, geopolitics, and tightening monetary policy. This negative macro environment weighed on investor sentiment and particularly affected growth stocks and the fund is tilted towards growth. Its biggest sectors are tech, industrials and healthcare which all had a difficult year in 2022. We have seen a recovery year-to-date. These factors weighed on investor sentiment and economic expectations. Investor sentiment has improved somewhat year-to-date.

The Brown Advisory US Sustainable Growth Fund was the biggest detractor, due to a strong tilt toward Growth and an overweight in Technology. This fund has since been removed from the portfolio. Fidelity Sustainable Water and Waste FAM Fund also weighed on performance in 2022 due to an overweight in Consumer Cyclical and an important allocation to Industrials, which were particularly affected by an unfavourable macroeconomic and geo-political context.

The main positive contributor was the Global Sustainable Paris Aligned FAM fund, which despite having a significant growth tilt was underweight Technology and overweight Financials and Healthcare, and contributed c. 40bps of positive relative performance. Similarly, the Global Stars Equity FAM fund and the Global Listed Infrastructure funds benefitted from a more blend style and underweights in Technology.

The liquidity bucket comprises short duration bonds and liquidity and some of the short duration bonds lost out last year due to interest rate increases. The Fund is now 98% invested in Equities now with the remaining 2% invested in Liquidity strategies and cash.

FAM Strategic Allocation (the "Sub-Fund")

FAM Strategic Allocation returned -13.88% net of fees during 2022.

The fund launched in the second part of June and both the fixed income and equity components contributed negatively.

Of the fixed income assets, the SPDR Euro Government Bond ETF and Vanguard Eurozone Government Bond ETF were the worst performing followed by Euro Hedged Global Aggregate Bond Fund including the iShares Global Aggregate Bond ETF, SPFR Global Aggregate Bond ETF and the Vanguard Global Aggregate Bond ETF. Inflation linked Euro Fixed Income ETFs including Lyxor Core Euro Government Inflation-Linked Bond ETF and Vanguard Eurozone Inflation Linked Bond Fund.

On the equity side, the Vanguard FTSE Japan ETF was the worst performing fund, followed by UBS MSCI USA SRI ETF. The Vanguard FTSE Developed Europe ex UK ETF was the best performing equity fund, albeit falling over 13%.

ISHARES GLOBAL CORP BOND EUR HEDGED, FRANK LIB KOREA UCITS ETF was added to the fund in H2. LYXOR ETF TURKEY was sold from the fund.

FAM MegaTrends Target 2023 IV (the “Sub-Fund”)

The Sub-Fund returned -10% (net of fees) in 2022. Global markets encountered several challenges in 2022 with both equity and bonds performing negatively amid an environment of rising inflation, hawkish monetary policy from the FED and Central Banks along with the Geopolitical crisis from Russia’s invasion of Ukraine. This negative macro environment weighed on investor sentiment and particularly affected growth stocks and the Megatrends fund which has a growth tilt. These factors weighed on investor sentiment and economic expectations. However, investor sentiment has improved somewhat since November 2022.

Some exposures with technology exposure have dragged including the “Connectivity” and “Digital” themes. Funds which have contributed negatively has CPR Global Disruptive Opportunities FAM Fund and the Sustainable Future Connectivity FAM Fund. On the opposite side, the “Infrastructure” theme and our fund Global Listed Infrastructure FAM Fund benefited from the its positioning in utilities over the last 18 months which were much more resilient.

The liquidity bucket comprises short duration bonds and liquidity and some of the short duration bonds lost out last year due to interest rate increases. The Fund is now 73% invested in Equities now with the remaining 27% invested in Liquidity strategies and cash.

Investment Manager’s Report (continued)

FAM Sustainable Target 2023 IV (the “Sub-Fund”)

The Sub-Fund returned -8% (net of fees) in 2022. Similar to FAM Megatrends Target 2023 IV, this fund has a growth tilt and was impacted rising inflation, geopolitics, and tightening monetary policy. This negative macro environment weighed on investor sentiment and particularly affected growth stocks and the fund is tilted towards growth. Its biggest sectors are tech, industrials and healthcare which all had a difficult year in 2022. We have seen a recovery year-to-date. These factors weighed on investor sentiment and economic expectations. Investor sentiment has improved somewhat year-to-date.

The Brown Advisory US Sustainable Growth Fund was the biggest detractor, due to a strong tilt toward Growth and an overweight in Technology. This fund has since been removed from the portfolio. Fidelity Sustainable Water and Waste FAM Fund also weighed on performance in 2022 due to an overweight in Consumer Cyclical and an important allocation to Industrials, which were particularly affected by an unfavourable macroeconomic and geo-political context.

The main positive contributor was the Global Sustainable Paris Aligned FAM fund, which despite having a significant growth tilt was underweight Technology and overweight Financials and Healthcare, and contributed c. 40bps of positive relative performance. Similarly, the Global Stars Equity FAM fund and the Global Listed Infrastructure funds benefitted from a more blend style and underweights in Technology.

The liquidity bucket comprises short duration bonds and liquidity and some of the short duration bonds lost out last year due to interest rate increases. The Fund is now 38% invested in Equities now with the remaining 62% invested in Liquidity strategies and cash.

Investment Manager's Report (continued)

FAM Emerging Markets Target 2023 II (the "Sub-Fund")

The Sub-Fund returned -7% (net of fees) in 2022. Emerging Markets also faced several challenges in 2022 amid an environment of rising inflation, tightening monetary policy and Russia's invasion of Ukraine. China's real estate crisis affected financials and China's increased government oversight on big tech weighed on technology names. A lot of the large emerging market stocks were also affected by the China's zero Covid policy. These factors weighed on investor risk sentiment and economic expectations across the majority of Emerging Market regions.

Underlying funds such as Vontobel mtx Sustainable Emerging Market Leaders and JP Morgan Emerging Market equities underperformed as their growth tilted exposures in Chinese technology and green energy companies lagged. Constantly RBC Emerging Market Value did well with exposures to materials and financials helping protect on the downside in addition to an underweight to China.

The liquidity bucket comprises short duration bonds and liquidity and some of the short duration bonds lost out last year due to interest rate increases. The Fund is now 64% invested in Equities now with the remaining 36% invested in Liquidity strategies and cash.

FAM Evolution ICAV

Investment Manager's Report (continued)

Fineco AM Advisory 9 Target 2024 (the "Sub-Fund")

The Sub-Fund returned -1% (net of fees) in 2022. Year 2022 was an extremely volatile year for risk assets as record high global inflation, hawkish central banks and growing concerns about the outlook for growth all weighed on investor sentiment and saw both equity and fixed income markets suffer. Global equities lost -14.7% over the year with EM and Asia the worst performers hurt by rolling covid lockdowns, Chinese real estate concerns and a strong dollar. Europe and Japan were the relative outperformers helped by more reasonable valuation levels and improved sentiment from the Chinese reopening and weaker USD in the last quarter of the year. Looking at factor performances Value and Yield were the clear winners as stubbornly high inflation and a higher for longer rates outlook saw growth and duration underperform.

The fund struggled against this backdrop with its EM and European Equity exposures faring worst, down 21% and 17% respectively over the year. The Funds US value strategies were the best contributors to performance in 2022 with the US Equity Value FAM fund up just under 2% on the year while the M&G North American Value FAM fund finished flat. The principal detractor was the JP Morgan China A Shares FAM Fund due to China's rolling covid lockdowns and real estate sector woes.

Over the course of 2022 the fund sold out of the Morgan Stanley US Advantage Fund and increased positions in its US and Global Value funds. The Fund is now 5% invested in Equities now with the remaining 95% invested in Liquidity strategies and cash. Liquidity Strategies struggled over the course of 2022 in an environment of rising interest rates.

DEPOSITARY'S REPORT TO THE SHAREHOLDERS OF FAM EVOLUTION ICAV

We, BNP Paribas S.A., Dublin Branch, appointed Depositary to the ICAV provide this report solely in favour of the investors of the Fund as a body for the year ended 31 December 2022 (“the Accounting Period”). This report is provided in accordance with the UCITS Regulations – European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 (SI No 352 of 2011) as amended, (“the UCITS Regulations”). We do not, in the provision of this report, accept nor assume responsibility for any other purpose or person to whom this report is shown.

In accordance with our Depositary obligation as provided for under the UCITS Regulations, we have enquired into the conduct of the ICAV for the Accounting Period and we hereby report thereon to the investors of the Fund as follows;

We are of the opinion that the Fund has been managed during the Accounting Period, in all material respects:

- (i) in accordance with the limitations imposed on the investment and borrowing powers of the Sub-Fund by the constitutional documents, the Regulations and by the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019 (“the Central Bank UCITS Regulations”); and
- (ii) otherwise in accordance with the provisions of the constitutional documents, the Regulations and the Central Bank UCITS Regulations.

FAM Evolution ICAV

Directors' Report

For the financial year ended 31 December 2022

The Directors of FAM Evolution ICAV (the "ICAV") submit their report together with the audited Financial Statements for the financial year ended 31 December 2022.

Principal activities

The ICAV has been authorised by the Central Bank of Ireland (the "Central Bank") as an Irish Collective Asset-Management Vehicle pursuant to the Irish Collective Asset-Management Vehicles Act 2015 (the "ICAV Act"). The ICAV has been authorised pursuant to the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations, 2011 (as amended) and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019 (as amended).

The ICAV is structured as an umbrella entity composed of different Sub-Funds. Each Sub-Fund will represent a separate portfolio of assets of the ICAV and may have more than one Class or Series of Shares allocated to it.

Statement of Directors' Responsibilities in Respect of the Financial Statements

The Directors are responsible for preparing the Financial Statements in accordance with applicable Irish law and International Financial Reporting Standards ("IFRS") as adopted by the European Union ("EU").

Irish company law requires the Directors to prepare Financial Statements for each financial year, which give a true and fair view of the state of affairs of the ICAV and of the profit or loss of the ICAV for that year. In preparing those Financial Statements, the Directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgments and estimates that are reasonable and prudent;
- prepare the Financial Statements on the going concern basis unless it is inappropriate to presume that the ICAV will not continue in business; and
- state whether the Financial Statements have been prepared in accordance with applicable accounting standards, identify those standards, and note the effect and reasons for any material departure from those standards.

The Directors confirm that they have complied with the above requirements in preparing the Financial Statements for the year ended 31 December 2022 (the "Financial Statements"). In carrying out these requirements, the Directors have appointed BNP Paribas Fund Administration Services (Ireland) Limited (the "Administrator") to act as administrator to the ICAV.

Review of the business and future developments

A comprehensive overview of the ICAV's and its Sub-Funds' activities and its future developments are set out in the Investment Manager's reports. Investment objectives may change from time to time, these will be reflected in the prospectus of the ICAV and the relevant Sub-Fund supplement.

Risks and uncertainties

The principal risks and uncertainties which the ICAV faces relate to the use of financial instruments and are listed in Note 12 "Financial Instruments and Associated Risks".

Results and dividends

The results for the financial year are shown in the Statement of Comprehensive Income on pages 78 to 96.

Corporate Governance

The Directors have voluntarily adopted the 'Corporate Governance Code for Collective Investment Schemes and Management Companies', as published by Irish Funds in December 2011 (the "IF Code"), as the ICAV's corporate governance code. In respect of the financial year ended 31 December 2022, the Directors confirm compliance with the provisions of the IF Code.

Secretary

The Secretary that served during the financial year is listed on page 4.

FAM Evolution ICAV

Directors' Report (continued)

For the financial year ended 31 December 2022

Directors

The Directors of the ICAV at 31 December 2022 and throughout the year were:

Ciaran Brady (Irish resident)*

Aidan Cronin (Irish resident)*

Jim Finn (Irish resident)**

Fabio Melisso (Irish resident)*

Lorenzo Di Pietrantonio (Irish resident)*

* Non - executive Directors

** Independent non-executive Director

Transactions involving Directors

Other than as disclosed in Note 11 to the Financial Statements, there are no contracts or arrangements of any significance in relation to the business of the ICAV in which the Directors or the Secretary had any interest as defined in the ICAV Act 2015 at any time during the financial year. The Directors do not hold any shares in any of the Sub-Funds.

Connected Persons

In accordance with the requirements of the UCITS Regulations, all transactions carried out with the ICAV by the promoter, manager, trustee, investment adviser and associates/group companies ("connected persons") must be conducted at arm's length and be in the best interests of shareholders. The Directors are satisfied that there are arrangements (evidenced by written procedures) in place to ensure that the obligations set out in the UCITS Regulations are applied to all transactions with connected persons and that transactions with connected persons entered into during the year complied with the obligations set out in the UCITS Regulations.

Accounting Records

The measures taken by the Directors to secure compliance with the ICAV's obligation to keep adequate accounting records are the use of appropriate accounting systems and procedures and employment of competent persons through the appointment of the Administrator. The accounting records are kept at the registered address of the Administrator at Termini, 3 Arkle Road, Sandyford, Dublin 18, D18 T6T7, Ireland.

Statement of Relevant Audit Information

The Directors acknowledge that they are responsible for providing all relevant audit information to the ICAV's statutory auditors in connection with preparing their report. The Directors confirm that:

- so far as the Directors are aware, there is no relevant audit information of which the ICAV's statutory auditors are not aware, and
- each of the Directors has taken all the steps that ought to have been taken as a Director in order to make himself or herself aware of any relevant audit information and to establish that the ICAV's statutory auditors are aware of that information.

Going concern

The ICAV's management has made an assessment of the ICAV's ability to continue as a going concern and is satisfied that the ICAV has the resources to continue in business for the foreseeable future. Furthermore, management is not aware of any material uncertainties that may cast significant doubt upon the ICAV's ability to continue as a going concern.

Independent Auditors

Deloitte Ireland LLP, Chartered Accountants and Statutory Audit Firm were appointed auditors for the financial year.

FAM Evolution ICAV

Directors' Report (continued) For the financial year ended 31 December 2022

Events during the financial year

Russia/Ukraine Conflict and sanctions

The outbreak of war in Ukraine and the related sanctions targeted against the Russian Federation has impacted the European and Global economies. The direct exposure to Ukraine, Russia or Belarus was and continues to be not material to the overall ICAV. However, the impact on the general economic situation may require in the future revisions of certain assumptions and estimates. The Directors are carefully monitoring the situation as well as its potential impacts on the ICAV. The ICAV is fully capable of continuing its usual operations.

Covid 19

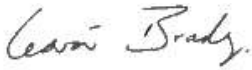

The impact of the coronavirus outbreak was profound across all aspects of society. In developed economies, it is clear that the worst of the impact is now over. However, there is an expectation that seasonal peaks and new variants could give rise to renewed travel restrictions, enhanced health screenings at ports of entry and elsewhere, disruption of and delays in healthcare service preparation and delivery and supply chain disruptions which will create ongoing challenges. Widescale and comprehensive vaccination programmes have been put in place in many countries which have had a positive effect. Nevertheless, the impact of COVID-19 continues to adversely affect the economies of many nations across the globe and this in turn may continue to impact investments held by each Fund.

All disclosures relating to events during the year ended 31 December 2022 are disclosed in Note 19 of the Financial Statements.

Events post financial year end

All disclosures relating to events after 31 December 2022 are disclosed in Note 20 of the Financial Statements.

Signed for and on behalf of the board of Directors by

Ciarán Brady

INDEPENDENT AUDITOR'S REPORT TO THE SHAREHOLDERS OF FAM EVOLUTION ICAV

Report on the audit of the annual accounts

Opinion on the annual accounts of FAM Evolution ICAV (the 'ICAV')

In our opinion the annual accounts:

- give a true and fair view of the assets, liabilities and financial position of the ICAV as at 31 December 2022 and of the result for the financial year then ended; and
- have been properly prepared in accordance with the relevant financial reporting framework and the applicable Regulations.

The annual accounts we have audited comprise:

- the Statement of Comprehensive Income;
- the Statement of Financial Position;
- the Statement of Changes in Net Assets attributable to holders of Redeemable Shares;
- the Statement of Cashflows; and
- the related notes 1 to 23, including a summary of significant accounting policies as set out in note 2.

The relevant financial reporting framework that has been applied in their preparation is the Irish Collective Asset-Management Acts 2015-2020 ("the ICAV Act") and International Financial Reporting Standards as adopted by the European Union ("IFRS") ("the relevant financial reporting framework").

The applicable regulations that have been applied in their preparation is the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations, 2011 and Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations, 2019 ("the applicable Regulations").

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (Ireland) (ISAs (Ireland)) and applicable law. Our responsibilities under those standards are described below in the "*Auditor's responsibilities for the audit of the annual accounts*" section of our report.

We are independent of the ICAV in accordance with the ethical requirements that are relevant to our audit of the annual accounts in Ireland, including the Ethical Standard issued by the Irish Auditing and Accounting Supervisory Authority, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Conclusions relating to going concern

In auditing the annual accounts, we have concluded that the directors' use of the going concern basis of accounting in the preparation of the annual accounts is appropriate.

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the ICAV's ability to continue as a going concern for a period of at least twelve months from when the annual accounts are authorised for issue.

Our responsibilities and the responsibilities of the directors with respect to going concern are described in the relevant sections of this report.

Other information

The other information comprises the information included in the Annual Report and Audited Financial Statements, other than the annual accounts and our auditor's report thereon. The directors are responsible for the other information contained within the Annual Report and Audited Financial Statements. Our opinion on the annual accounts does not cover the other information and, except to the extent otherwise explicitly stated in our report, we do not express any form of assurance conclusion thereon.

/Continued on next page

INDEPENDENT AUDITOR'S REPORT TO THE SHAREHOLDERS OF FAM EVOLUTION ICAV

Our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the annual accounts or our knowledge obtained in the audit or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether there is a material misstatement in the annual accounts or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in this regard.

Responsibilities of directors

As explained more fully in the Statement of Directors' Responsibilities, the directors are responsible for the preparation of annual accounts that give a true and fair view and have been properly prepared in accordance with the ICAV Act, and for such internal control as the directors determine is necessary to enable the preparation of annual accounts that are free from material misstatement, whether due to fraud or error.

In preparing the annual accounts, the directors are responsible for assessing the ICAV's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the ICAV or to cease operations, or have no realistic alternative but to do so.

Auditor's responsibilities for the audit of the annual accounts

Our objectives are to obtain reasonable assurance about whether the annual accounts as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (Ireland) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these annual accounts.

A further description of our responsibilities for the audit of the financial statements is located on IAASA's website at: <https://iaasa.ie/publications/description-of-the-auditors-responsibilities-for-the-audit-of-the-financial-statements>. This description forms part of our auditor's report.

Report on other legal and regulatory requirements

Matters on which we are required to report by the ICAV Act and the applicable Regulations

In our opinion, the information given in the directors' report is consistent with the annual accounts and the directors' report has been prepared in accordance with the ICAV Act.

Matters on which we are required to report by exception

Based on the knowledge and understanding of the ICAV and its environment obtained in the course of the audit, we have not identified material misstatements in the directors' report.

We have nothing to report in respect of the provisions in the ICAV Act which require us to report to you if, in our opinion, the disclosures of directors' remuneration specified by the ICAV Act are not made.

Opinion on other matters prescribed by the applicable Regulations

Based solely on the work undertaken in the course of the audit, we report that:

- We have obtained all the information and explanations which we consider necessary for the purposes of our audit.
- In our opinion the accounting records of the ICAV were sufficient to permit the annual accounts to be readily and properly audited.

Continued on next page/

/Continued from previous page

INDEPENDENT AUDITOR'S REPORT TO THE SHAREHOLDERS OF FAM EVOLUTION ICAV

- The annual accounts are in agreement with the accounting records.

Use of our report

This report is made solely to the ICAV's shareholders, as a body, in accordance with Section 120(1) (b) of the ICAV Act. Our audit work has been undertaken so that we might state to the ICAV's shareholders those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the ICAV and the ICAV's shareholders as a body, for our audit work, for this report, or for the opinions we have formed.

FAM Evolution ICAV

Notes to the Financial Statements for the financial year ended 31 December 2022

1. General Information

FAM Evolution ICAV (the “ICAV”) is an umbrella Irish Collective Asset-management Vehicle with segregated liability between its Sub-Funds and authorised pursuant to the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations, 2011 (as amended) and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019 (as amended). The ICAV was incorporated on 4 October 2018.

The ICAV is structured as an umbrella entity composed of different sub-funds (the “Sub-Funds”). Each Sub-Fund will represent a separate portfolio of assets of the ICAV and may have more than one Class or Series of Shares allocated to it.

The investment objective for the Sub-Funds is organised in a manner that it has two separate investment objectives for different time periods. During the subscription period, the investment objective is to provide capital appreciation whilst maintaining liquidity for the Sub-Fund and following the subscription period, the investment objective is to achieve long-term capital appreciation.

Fineco Asset Management Designated Activity Company (the “Manager”) manages the assets and investments of each Sub-Fund in conformity with each Sub-Fund’s investment objectives and policies.

The published Net Asset Value differed from the audited Net Asset Value (“NAV”) for certain Sub-Funds. Please refer to Note 22 for details.

Effective 11 October 2022, the following Sub-Funds of the ICAV changed their name:

Fineco AM Advisory 6 Target was formerly known as FAM Advisory 6 Target
Fineco AM Advisory 9 Target was formerly known as FAM Advisory 9 Target
Fineco AM Advisory 6 Target October 2024 was formerly known as FAM Advisory 6 Target October 2024
Fineco AM Advisory 9 Target October 2024 was formerly known as FAM Advisory 9 Target October 2024
Fineco AM Advisory 6 Target January 2025 was formerly known as FAM Advisory 6 Target January 2025
Fineco AM Advisory 6 Target Boost was formerly known as FAM Advisory 6 Target Boost
Fineco AM Advisory 6 Target 2022 was formerly known as FAM Advisory 6 Target 2022
Fineco AM Advisory 6 Target 2022 II was formerly known as FAM Advisory 6 Target 2022 II
Fineco AM Advisory 6 Target 2022 III was formerly known as FAM Advisory 6 Target 2022 III
Fineco AM Advisory 6 Target 2023 was formerly known as FAM Advisory 6 Target 2023

The following table provides the date of commencement of operations of the ICAV’s Sub-Funds:

Fineco AM Advisory 6 Target	24 July 2019

FAM Evolution ICAV

Notes to the Financial Statements for the financial year ended 31 December 2022 (continued)

1. General Information (continued)

(a) Basis of Preparation

These Financial Statements have been prepared in accordance with International Financial Reporting Standards ('IFRS') issued by the International Accounting Standards Board ("IASB"), as adopted by the European Union ("EU") and have been prepared on the historical cost basis except for certain financial instruments that are measured at fair values at the end of each reporting period.

Going Concern

The ICAV's management has made an assessment of the ICAV's ability to continue as a going concern and is satisfied that the ICAV has the resources to continue in business for the foreseeable future. Furthermore, the management is not aware of any material uncertainties that may cast significant doubt upon the ICAV's ability to continue as a going concern. Therefore, the Financial Statements are prepared on the going concern basis.

New standards and interpretations effective 1 January 2022

Onerous Contracts – Costs of Fulfilling a Contract – Amendments to IAS 37

In May 2020, the International Accounting Standards Board ("IASB") issued amendments to IAS 37 Provisions, Contingent Liabilities and Contingent Assets to specify which costs an entity needs to include when assessing whether a contract is onerous or loss-making.

In particular, the amendments 1 January 2022 clarify:

Entities that previously applied the incremental cost approach will see provisions increase to reflect the inclusion of costs related directly to contract activities, whilst entities that previously recognised contract loss provisions using the guidance from the former standard, IAS 11 Construction Contracts, will be required to exclude the allocation of indirect overheads from their provisions.

This amendment does not have a material impact on the ICAV.

There are no standards, interpretations or amendments to existing standards that are effective that would be expected to have a significant impact on the ICAV.

FAM Evolution ICAV

Notes to the Financial Statements for the financial year ended 31 December 2022 (continued)

1. General Information (continued)

(b) New standards, amendments and interpretations issued but not effective for the financial period beginning 1 January 2022 and not early adopted

Classification of Liabilities as Current or Non-current - Amendments to IAS 1

In January 2020, the Board issued amendments to paragraphs 69 to 76 of IAS 1 Presentation of Financial Statements to specify the requirements for classifying liabilities as current or non-current.

In particular, the amendments which will become effective 1 January 2023 clarify:

- What is meant by a right to defer settlement.
- That a right to defer must exist at the end of the reporting period.
- That classification is unaffected by the likelihood that an entity will exercise its deferral right.
- That only if an embedded derivative in a convertible liability is itself an equity instrument, would the terms of a liability not impact its classification.

This amendment does not expected to have a material impact on the ICAV.

Definition of Accounting Estimates - Amendments to IAS 8

In February 2021, the Board issued amendments to IAS 8, in which it introduces a new definition of ‘accounting estimates’.

In particular, the amendments which will become effective 1 January 2023 clarify:

- the distinction between changes in accounting estimates and changes in accounting policies and the correction of errors.
- how entities use measurement techniques and inputs to develop accounting estimates.

This amendment does not expected to have a material impact on the ICAV.

Disclosure of Accounting Policies - Amendments to IAS 1 and IFRS Practice Statement 2

In February 2021, the Board issued amendments to IAS 1 and IFRS Practice Statement 2 Making Materiality Judgements (the PS), in which it provides guidance and examples to help entities apply materiality judgements to accounting policy disclosures.

In particular, the amendments which will become effective 1 January 2023 clarify:

- that replacing the requirement for entities to disclose their ‘significant’ accounting policies with a requirement to disclose their ‘material’ accounting policies.
- that adding guidance on how entities apply the concept of materiality in making decisions about accounting policy disclosure.

This amendment does not expected to have a material impact on the ICAV.

There are no standards, interpretations or amendments to existing standards that are yet effective that would be expected to have a significant impact on the ICAV.

FAM Evolution ICAV

Notes to the Financial Statements for the financial year ended 31 December 2022 (continued)

2. Statement of Accounting Policies

The significant accounting policies adopted by the ICAV are as follows:

2.1 Accounting Policies

(a) Financial Assets and Liabilities at Fair Value through Profit or Loss (“FVTPL”)

(i) Classification

The ICAV classifies financial assets and financial liabilities into the following categories:

Financial assets at FVTPL:

- *Designated as at FVTPL: transferable securities.*

Financial assets at amortised cost:

- *Loans and receivables: cash and cash equivalents and other receivables.*

Financial liabilities at amortised cost:

- *Other liabilities: accrued expenses.*

The ICAV designates all funds at FVTPL on initial recognition because it manages these securities on a fair value basis in accordance with its documented investment strategy. Internal reporting and performance measurement of these securities are on a fair value basis.

(ii) Recognition

Financial assets and financial liabilities at FVTPL are initially recognised at fair value on the trade date, which is the date on which the ICAV becomes a party to the contractual provisions of the instrument. Other financial assets and financial liabilities are recognised on the date on which they are originated.

Purchases and sales of financial instruments are accounted for on the trade date. Realised gains and losses on disposals of financial instruments are calculated using the First In, First Out (“FIFO”) method.

(iii) Measurement

Financial instruments categorised at FVTPL are measured initially at fair value, with transaction costs for such instruments being recognised directly in the Statement of Comprehensive Income. Financial assets and financial liabilities are recognised on the Statement of Financial Position when the ICAV becomes party to the contractual provisions of the instrument. A regular purchase of financial assets is recognised using trade date accounting. From this date any gains or losses arising from changes in fair value of the financial assets or financial liabilities are recorded.

FAM Evolution ICAV

Notes to the Financial Statements for the financial year ended 31 December 2022 (continued)

2. Statement of Accounting Policies (continued)

2.1 Accounting Policies (continued)

(a) Financial Assets and Liabilities at Fair Value through Profit or Loss (“FVTPL”) (continued)

(iv) Fair Value Measurement

‘Fair value’ is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date in the principal or, in its absence, the most advantageous market to which the ICAV has access at that date. The fair value of a liability reflects its non-performance risk.

When available, the ICAV measures the fair value of an instrument using the quoted price in an active market for that instrument. A market is regarded as ‘active’ if transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an on-going basis.

If there is no quoted price in an active market, then the ICAV uses valuation techniques that maximise the use of relevant observable inputs and minimise the use of unobservable inputs. The chosen valuation technique incorporates all of the factors that market participants would take into account in pricing a transaction.

Investments in open-ended investment funds are valued at fair value at the latest available unaudited NAV for the shares or units obtained from the relevant administrator. The changes in the daily NAV of these shares are recognised as movement in unrealised gain/(losses) on financial assets held at FVTPL in the Statement of Comprehensive Income.

The ICAV recognises transfers between levels of the fair value hierarchy as at the end of the reporting period during which the change has occurred.

(v) Amortised Cost Measurement

The amortised cost of a financial asset or financial liability is the amount at which the financial asset or financial liability is measured at initial recognition, minus principal repayments, plus or minus the cumulative amortisation using the effective interest method of any difference between the initial amount recognised and the maturity amount, minus any reduction for impairment.

(vi) Impairment

IFRS 9 replaces the ‘incurred loss’ model in IAS 39 with an ‘expected credit loss’ (ECL) model. The new impairment model applies to financial assets measured at amortised cost and debt investments at FVOCI, but not to investments in equity instruments. Under IFRS 9, credit losses are recognised earlier than under IAS 39.

A financial asset not classified at FVTPL is assessed at each reporting date to determine whether there is objective evidence of impairment. A financial asset or a group of financial assets is ‘impaired’ if there is objective evidence of impairment as a result of one or more events that occurred after the initial recognition of the asset(s) and that loss event(s) had an impact on the estimated future cash flows of that asset(s) that can be estimated reliably.

Objective evidence that financial assets are impaired includes significant financial difficulty of the borrower or issuer, default or delinquency by a borrower, restructuring of the amount due on terms that the ICAV would not otherwise consider, indications that a borrower or issuer will enter bankruptcy, or adverse changes in the payment status of the borrower.

An impairment loss in respect of a financial asset measured at amortised cost is calculated as the difference between its carrying amount and the present value of the estimated future cash flows discounted at the asset’s original effective interest rate. Losses are recognised in profit or loss and reflected in an allowance account against receivables. Interest on the impaired asset continues to be recognised, if an event occurring after the impairment was recognised causes the amount of impairment loss to decrease, then the decrease in impairment loss is reversed through profit or loss.

FAM Evolution ICAV

Notes to the Financial Statements for the financial year ended 31 December 2022 (continued)

2. Statement of Accounting Policies (continued)

2.1 Accounting Policies (continued)

(a) Financial Assets and Liabilities at Fair Value through Profit or Loss (“FVTPL”) (continued)

(vii) Derecognition

The ICAV derecognises a financial asset when the contractual rights to the cash flows from the asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the ICAV neither transfers nor retains substantially all of the risks and rewards of ownership and does not retain control of the financial asset.

On derecognition of a financial asset, the difference between the carrying amount of the asset (or the carrying amount allocated to the portion of the asset that is derecognised) and the consideration received (including any new asset obtained less any new liability assumed) is recognised in Statement of Comprehensive Income. Any interest in such transferred financial assets that is created or retained by the ICAV is recognised as a separate asset or liability.

The ICAV enters into transactions whereby it transfers assets recognised on its Statement of Financial Position, but retains either all or substantially all of the risks and rewards of the transferred assets. If all or substantially all of the risks and rewards of the transferred assets are retained, then transferred assets are not derecognised. Transfer of assets usually includes sale and repurchase agreements where all or substantially all of the risks and rewards are retained.

The ICAV derecognises a financial liability when its contractual obligations are discharged, cancelled, or expire.

(b) Transferable Securities

Investment Funds

The Sub-Funds invest in a diversified portfolio of open ended regulated collective investment schemes (“CIS”), including investment companies, investment trusts and/or investment limited partnerships, which the Manager considers will give consistent returns to investors in line with the target returns of the Sub-Funds and which may include investment in the other Sub-Funds of the ICAV (“Underlying Funds”).

(c) Offsetting Financial Instruments

Financial assets and liabilities are offset and the net amount reported on the Statement of Financial Position when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis, or realise the assets and settle the liability simultaneously.

(d) Redeemable Participating Shares

The issued redeemable participating shares (“Shares”) is at all times equal to the NAV of the Sub-Funds. Shares are redeemable at the shareholders option and are classified as financial liabilities. Shares can be put back to the ICAV at any time for cash equal to a proportionate share of the ICAV’s NAV. The Shares is carried at the redemption amount that is payable at the Statement of Financial Position date if the holder exercises the right to put the share back to the ICAV. Each Sub-Fund’s NAV per share is calculated by dividing the NAV of that Sub-Fund, being the value of its assets less its liabilities, by the numbers of shares of that Sub-Fund then in issue.

(e) Use of Judgements and Estimates

The preparation of Financial Statements in conformity with IFRS as adopted by the EU requires management to make judgements, estimates and assumptions that affect reported amounts of assets and liabilities and disclosure of contingent assets and liabilities as at the date of the Financial Statements. Estimates also affect the reported amounts of income and expenses for the reporting period in the Statement of Comprehensive Income. Actual results could differ from those estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and in any future accounting periods affected. Information about assumptions and estimation uncertainties that have a significant risk of resulting in a material adjustment within the next financial year, as well as critical judgments in applying accounting policies that have the most significant effect on the amounts recognised in the Financial Statements are included in Note 12 and Note 13.

FAM Evolution ICAV

Notes to the Financial Statements for the financial year ended 31 December 2022 (continued)

2. Statement of Accounting Policies (continued)

2.1 Accounting Policies (continued)

(f) Foreign Exchange

Items included in the ICAV's Financial Statements are measured using the currency of the primary economic environment in which it operates (the "functional currency"). The functional currency for this ICAV and each Sub-Fund is Euro ("EUR" or "€") except for FAM MegaTrends Target and FAM MegaTrends Target October 2024 which are US Dollar ("USD" or "\$"). The ICAV has adopted the functional currency of each Sub-Fund as the presentation currency for these Financial Statements. Assets and liabilities expressed in currencies other than the functional currency are converted into the functional currency using the exchange rates prevailing as at the Statement of Financial Position date. Transactions in foreign currencies are translated into the Sub Fund's functional currency at the transaction dates. Gains and losses on foreign exchange transactions are recognised in the Statement of Comprehensive Income in determining the results for the financial period.

(g) Income

Interest income is recognised in the Statement of Comprehensive Income at the effective interest rate method.

Dividends are recognised in to the Statement of Comprehensive Income on a receipt basis from the relevant Investment Funds. Dividend income is shown gross of any non-recoverable withholding taxes, which is disclosed separately in the Statement of Comprehensive Income, and net of any tax credits.

(h) Expenses

All expenses are recognised in the Statement of Comprehensive Income on an accruals basis.

(i) Cash and Cash Equivalents

Cash comprises cash at banks and bank overdrafts which are all held with BNP Paribas Securities Services Luxembourg. Cash equivalents are short term (up to three months), highly liquid investments, that are readily convertible to known amounts of cash and which are subject to insignificant changes in value. They are held for the purpose of meeting short-term cash commitments rather than for investments or other purposes. The carrying amount of these assets is approximately equal to their fair value.

(j) Payable for Securities Purchased/Receivable for Securities Sold

Payable for securities purchased and receivable for securities sold include trades pending settlement.

(k) Redemptions Payable

Redemptions are recognized as liabilities when the amount requested by the unitholder in the irrevocable redemption notice becomes fixed.

(l) Subscriptions Receivable

Subscriptions receivable includes the amounts still to be collected from the investor before the Sub-Fund will issue the shares. Subscriptions are recorded on the basis of subscription forms (trade date).

(m) Due from/to Brokers

Due from/to brokers represent margin accounts and cash collateral for borrowed securities. Margin accounts represent cash deposits with brokers, transferred as collateral against open derivative contracts.

(n) Organisational Costs

Costs incurred in organising the ICAV were amortised over the first five accounting periods of the ICAV as disclosed in the prospectus. This is not in accordance with IFRS but Management assessed the costs to be immaterial to the ICAV. Refer to Note 3 for details.

(o) Rebate fees

The ICAV has rebate agreements with certain investment managers of the Underlying Funds. These rebates are recorded on an accruals basis in the Statement of Comprehensive Income.

6. Share Capital

The share capital of the ICAV shall be divided into share capital of 5,000,000,000,000 Shares of no par value and 2 Subscriber Shares of €1.00 each and shall at all times be equal to the value for the time being of the issued share capital of the ICAV.

Each of the Shares (with the exception of the Subscriber Shares) entitles the Shareholder to participate equally on a pro rata basis in the dividends and net assets of the relevant Sub-Fund attributable to the relevant class in respect of which they are issued save in the case of dividends declared prior to becoming a Shareholder.

The proceeds from the issue of Shares shall be applied in the ICAV to the relevant Sub-Fund and shall be used on behalf of such Sub-Fund for the acquisition of assets in which the Sub-Fund may invest. The records and accounts of each Sub-Fund shall be maintained separately.

The Directors reserve the right to re-designate any class of Shares from time to time, provided that Shareholders in that class shall first have been notified by the ICAV that the Shares will be re-designated and shall have been given the opportunity to have their Shares redeemed by the ICAV, except that this requirement shall not apply where the Directors re-designate Shares in issue in order to facilitate the creation of an additional class.

Each of the Shares entitles the holder to attend and vote at meetings of the ICAV and of the relevant Sub-Fund represented by those Shares. No class of Shares confers on the holder thereof any preferential or pre-emptive rights or any rights to participate in the profits and dividends of any other class of Shares or any voting rights in relation to matters relating solely to any other class of Shares.

Any resolution to alter the class rights of the Shares requires the approval of three quarters of the holders of the Shares of the relevant class represented or present and voting at a general meeting duly convened in accordance with the prospectus.

The prospectus of the ICAV empowers the Directors to issue fractional Shares in the ICAV. Fractional Shares will be issued where any part of the subscription monies for Shares represents less than the subscription price for one Share, provided however, that fractions shall not be less than 0.01 of a Share and shall not carry any voting rights at general meetings of the ICAV or a Sub-Fund and the NAV of any fractional Share shall be the NAV per Share adjusted in proportion to the fraction.

Fineco AM Advisory 9 Target 2024 and Fineco AM Emerging Markets Target 2027 I have a subscription period starting from each Sub-Funds' respective date of launch after which Shares will be available at the prevailing Net Asset Value of each Class of Shares.

8. Directors' Fees

The Directors are entitled to a fee by way of remuneration for their services at a rate to be determined from time to time by the Directors. The aggregate amount of Directors' remuneration in any one year shall not exceed €30,000 (excluding Value Added Tax, ("VAT"), if any).

All Directors will be entitled to reimbursement by the ICAV of expenses properly incurred in connection with the business of the ICAV or the discharge of their duties. Fees related to the ICAV are charged to the trading Sub-Funds. Mr. Jim Finn is the only Director of the ICAV in receipt of a director's fee. All other Directors of the ICAV have each waived their entitlement to receive a director's fee.

The directors' fees charged to the ICAV for the financial year amounted to €18,877 (2021: €7,177). This includes an adjustment of €15,000 from 2021 across the ICAV. The directors' fees payable as at 31 December 2022 was €13,573 (2021: €14,002).

9. Administration and Depositary Fee

The administration and depositary fee will be calculated using an all-in-fee rate of 0.03% of the NAV of the relevant Sub-Fund. All fees shall accrued daily and payable quarterly in arrears. The all-in-fee includes the following services:

- Fund administration services
- Custody services
- Depositary services
- Passive Currency Overlay calculation services

The table below shows the administration fee and depositary fees expense and payable for the year ended 31 December 2022.

FAM Evolution ICAV

Notes to the Financial Statements for the financial year ended 31 December 2022 (continued)

10. Auditors Remuneration

The remuneration to the statutory audit firm in respect of the services rendered to the ICAV for the financial year is as follows:

	31 December 2022 EUR	31 December 2021 EUR
Audit fee*	217,968	258,008

* Audit fee amount shown is excluding VAT of 23%. There were no other fees paid to the statutory audit firm for tax or other assurance or non-audit work during the year.

11. Related and Connected Persons Transactions

Parties are considered to be related if one party has the ability to control the other party or exercise significant influence over the other party in making financial or operational decisions.

In accordance with the requirements of the UCITS Regulations, all transactions carried out with the ICAV by the promoter, manager, trustee, investment adviser and associates/group companies (“connected persons”) must be conducted at arm’s length and be in the best interests of shareholders. The Directors are satisfied that there are arrangements (evidenced by written procedures) in place to ensure that the obligations set out in the UCITS Regulations are applied to all transactions with connected persons and that transactions with connected persons entered into during the year complied with the obligations set out in the UCITS Regulations.

Mr. Fabio Melisso, Mr. Aidan Cronin and Mr. Jim Firn (Independent director) are directors of the Manager and Mr. Ciaran Brady and Lorenzo Di Pietrantonio are employees of the Manager and will be considered to be interested in any agreement entered into by the ICAV with the Manager.

All Directors will be entitled to reimbursement by the ICAV of expenses properly incurred in connection with the business of the ICAV or the discharge of their duties. Fees related to the ICAV are charged to the trading Sub-Funds. Mr. Jim Firn is the only Director of the ICAV in receipt of a director’s fee. All other Directors of the ICAV have each waived their entitlement to receive a director’s fee. More details in Note 8.

The Investment Manager waived receipt of their management fee from Fineco AM Advisory 9 Target 2024 and Fineco AM Emerging Markets Target 2027 I from launch date. Effective 7 August 2022, the Investment Manager is in receipt of a management fee from Fineco AM Advisory 9 Target 2024 and Fineco AM Emerging Markets Target 2027 I. There was an adjustment to the NAV stated in these Financial Statements to account for an inaccurate booking of these management fees Refer to Note 22.

Management Fee

The Manager is entitled to receive out of the assets of the ICAV a management fee in respect of each Class, accrued daily and payable monthly in arrears at such annual percentage rate of the NAV of each Class as set out in the relevant Sub-Fund supplement. Any out of pocket expenses incurred by the Manager in carrying out its role on behalf of the ICAV and its Sub-Funds shall be for its own account.

The tables below show the management fees expense, management fees payable and management fee rates for the years ending 31 December 2022 and 31 December 2021. The fee rates have changed throughout the year 2022.

FAM Evolution ICAV

Notes to the Financial Statements for the financial year ended 31 December 2022 (continued)

12. Financial Instruments and Associated risks

Each Sub-Fund's investment activities expose them to the various types of risk which are associated with the financial instruments and markets in which it invests. The following information is not intended to be a comprehensive summary of all risks and investors should refer to the prospectus for a more detailed discussion of the risks inherent in investing in each Sub-Fund. The Sub-Funds' have exposure to the following risks from financial instruments:

- a) Market risk;
- b) Liquidity risk;
- c) Credit risk; and
- d) Operational risk

Risk Management framework

The Directors review quarterly risk and investment performance reports and presentations from the Manager covering the Sub-Fund performance and risk profile during the financial period.

The Manager is responsible for ensuring that each Sub-Fund is managed within the terms of their investment guidelines and limits set out in the prospectus. The Directors review the Manager's reporting on the investment performance, product risk monitoring and oversight activities and the monitoring and oversight of regulatory and operational risk for the Sub-Funds.

The Manager has been given discretionary authority to manage the assets in line with the investment objectives of each Sub-Fund. Compliance with the target asset allocations and the composition of the portfolio are monitored by the Directors on a quarterly basis. In instances where the portfolio has diverged from target asset allocations, the Manager is obliged to take actions to rebalance the portfolio in line with the established targets, within prescribed time limits.

(a) Market risk

Market risk arises mainly from uncertainty about future values of financial instruments influenced by price, interest rate and currency movements. It represents the potential loss each Sub-Fund may suffer through holding market positions in the face of market movements. The Manager's strategy for the management of market risk is driven by the Sub-Funds' investment objective as set out in Note 1. The ICAV's market risk is managed on a daily basis by the Manager. The Manager moderates this risk through a careful selection of securities and other financial instruments within specified limits. Details of the nature of the ICAV's investment portfolio at the Statement of Financial Position date are disclosed in the Schedule of Investments.

Value at Risk

The Manager uses three approaches to measure the Sub-Funds' global risk exposures. These are the commitment approach, Absolute Value at Risk ("VaR") and Relative VaR. These approaches are described in the prospectus and the approach each Sub-Fund uses is outlined in the table below.

Sub-Fund	Base Currency	Risk approach	Risk Basis
Fineco AM Advisory 6 Target	EUR	VAR	Relative

12. Financial Instruments and Associated risks (continued)

(a) Market risk (continued)

Value at Risk (continued)

Using the absolute VaR, the Manager estimates the potential loss in the Sub-Fund's portfolio over a set period at a certain confidence level, and is based on statistical analysis of historical price trends and volatilities. The VaR of the Sub-Funds shall be calculated daily and shall not exceed 13-20% per cent of the NAV of the Sub Fund, based on a 1 month holding period and a "one-tailed" 99 per cent confidence interval using a historical observation period of at least 1 year.

Using the relative VaR, the Manager estimates the potential loss in the Sub-Fund's portfolio over a set period at a certain confidence level, and based on statistical analysis of historical price trends and volatilities. The VaR of the Sub-Fund's portfolio is measured relative to the benchmark index which the Manager consider a comparable benchmark to the Sub-Fund's portfolio. In compliance with the UCITS Regulations, the relative VaR of the Sub Fund's portfolio shall not exceed twice the VaR of the index, as determined daily using a one-tailed confidence interval of 99%, a holding period of one month and a historical observation period of at least 1 year.

The 1 day VaR as of 31 December 2022 and 31 December 2021 based on a 99% confidence level is outlined in the table below:

Absolute VaR	31 December 2022	31 December 2021

Some limitations of VaR analysis are:

- The models are based on historical data and cannot take account of the fact that future market price movements, correlations between markets and levels of market liquidity in conditions of market stress may bear no relation to historical patterns. As a consequence, VaR can be highly variable and a single date point analysis can be of limited value. VaR can fluctuate significantly over time;
- The composition of the ICAV can change significantly over a short period of time and, as such, the ICAV's risk profile including VaR may also change materially over a short time frame;
- The market price risk information is a relative estimate of risk rather than a precise and accurate number;
- The market price information represents a hypothetical outcome and is not intended to be predictive (in the case of probability-based methods, such as VaR, profits and losses are almost certain to exceed the reported amount with a frequency depending on the confidence interval chosen);
- FX hedging for the benefit of a particular class are not included;
- Future market conditions could vary significantly from those experienced in the past.

(i) Price risk

Price risk is the risk that the fair value of a financial instrument will fluctuate because of changes in market prices (other than those arising from interest rate risk or currency risk), whether those changes are caused by factors specific to the individual financial instrument or its issuer, or factors affecting similar financial instruments traded in the market.

Management of price risk

The Manager chooses assets for investment and divestment by considering the potential contribution to portfolio volatility from the price risk of the asset considered in the transaction and in reference to the fund risk framework and the Sub-Funds' prospectus, supplement and marketing materials. The Risk Management department monitors that the ex post risk exposures are within any tolerances set out in the agreed fund risk framework.

(ii) Interest rate risk

Interest rate risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market interest rates.

Exposure to interest rate risk

Each Sub-Fund is exposed to interest rate risk through its cash and cash equivalent holdings and through their investments in interest bearing financial instruments which are disclosed in the schedules of investments. As of year ended 31 December 2022 and 31 December 2021, as the Sub-Funds' exposure to interest rate risk is coming through the cash and cash equivalent, the exposure to interest rate risk is assessed to be immaterial.

Each Sub-Fund also may also have indirect exposure to interest rate risk through their investments into CISs' whereby the value of an underlying asset may fluctuate as a result of a change in interest rates.

Management of interest rate risk

The Manager chooses assets for investment and divestment by considering the potential contribution to portfolio volatility from the interest rate risk of the asset considered in the transaction and in reference to the ICAV risk framework and the ICAV's prospectus, supplement and marketing materials. The Risk Management department monitors that the ex post risk exposures are within any tolerances set out in the agreed fund risk framework.

(iii) Currency risk

Foreign currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates.

Exposure to foreign currency risk

Each Sub-Fund may invest in securities denominated in currencies other than their functional currency. Consequently, each Sub-Fund is exposed, directly and/or indirectly, to risks that the exchange rate of their functional currency relative to other currencies may change in a manner which has an adverse effect on the value of the portion of each Sub-Fund's assets which are denominated in currencies other than their own currency.

In addition, certain Sub-Funds issued share classes denominated in currencies other than the functional currency of those Sub-Funds.

12. Financial Instruments and Associated risks (continued)

(a) Market risk (continued)

(iii) Currency risk (continued)

Management of foreign currency risk

The Manager chooses assets for investment and divestment by considering the potential contribution to portfolio volatility from the currency risk of the asset considered in the transaction and in reference to the ICAV risk framework and the ICAV's prospectus, supplement and marketing materials. The Risk Management department monitors that the ex post risk exposures are within any tolerances set out in the agreed fund risk framework.

Currency risk for Sub-Funds in the umbrella is controlled in either an absolute or relative (to a benchmark) manner as appropriate. In order to ensure Sub-Funds are not over exposed to currency risk one or more of the following Financial Derivative Instruments (FDIs) are employed: i) forward foreign exchange contracts, ii) swap contracts that reference foreign exchange rates or iii) currency futures.

The tables below also summarise the sensitivity of the Sub-Fund's monetary and non-monetary assets and liabilities to changes in foreign exchange movements at 31 December 2022 and 2021. The analysis is based on the assumptions that the relevant foreign exchange rate increased/decreased by the percentage disclosed, with all other variables held constant. This represents management's best estimate of a reasonable possible shift in the foreign exchange rates:

As at 31 December 2022 the Sub-Funds had the following currency exposures:

*The Sub-Funds were not exposed to currency risk at the Statement of Financial Position date as all of their assets and liabilities were held in their respective base currency.

Management of foreign currency risk

The Manager chooses assets for investment and divestment by considering the potential contribution to portfolio volatility from the currency risk of the asset considered in the transaction and in reference to the ICAV risk framework and the ICAV's prospectus, supplement and marketing materials. The Risk Management department monitors that the ex post risk exposures are within any tolerances set out in the agreed fund risk framework.

The table above also summarises the sensitivity of the Sub-Fund's monetary and non-monetary assets and liabilities to changes in foreign exchange movements at 31 December 2022 and 31 December 2021. The analysis is based on the assumptions that the relevant foreign exchange rate increased/decreased by the percentage disclosed in the table below, with all other variables held constant. This represents management's best estimate of a reasonable possible shift in the foreign exchange rates:

(b) Liquidity risk

Liquidity risk is the risk that the Sub-Funds' may not be able to generate sufficient cash resources to settle their obligations in full as they fall due or can do so only on terms that are materially disadvantageous.

Exposure to liquidity risk

Each Sub-Fund's principal liquidity risks arise from the ability of investors to effect redemption requests and the liquidity of the underlying investments each Sub-Fund has invested in.

Each Sub-Fund's Unitholders may redeem their units on the close of any daily dealing deadline for cash equal to a proportionate share of each Sub-Fund's NAV, excluding any duties and charges where applicable. Each Sub-Fund is therefore potentially exposed to the liquidity risk of meeting the unitholders' redemptions and may need to sell assets at prevailing market prices to meet liquidity demands.

Each Sub-Fund may invest in Investment Funds which can impose notice periods or other restrictions on redemptions and this may increase the liquidity risk of each Sub-Fund.

All of the Sub-Funds financial assets and liabilities as of 31 December 2022 can be received or paid within or less than 1 month. While the accrued expenses can be paid within or less than 1 month not all are and some can be paid at a later date due to frequency or delay of invoicing. This delay can at times exceed 1 year.

FAM Evolution ICAV

Notes to the Financial Statements for the financial year ended 31 December 2022 (continued)

12. Financial Instruments and Associated risks (continued)

Management of liquidity risk

The Manager chooses assets for investment and divestment by considering the potential contribution to portfolio liquidity from the liquidity risk of the asset considered in the transaction and in reference to the ICAV risk framework and the ICAV's prospectus, supplement and marketing materials. The Risk Management department monitors that the ex post risk exposures are within any tolerances set out in the agreed fund risk framework.

(c) Credit risk

Credit risk is the risk that a counterparty to a financial instrument will fail to discharge an obligation or commitment that it has entered into with the ICAV. The carrying amount of financial assets as per the Statement of Financial Position best represents the maximum credit risk exposure as at its date. Credit risk on transactions with brokers relates to transactions awaiting settlement. Risk relating to unsettled transactions is considered small due to the short settlement period involved and the high credit quality of the broker used. Substantially all of the assets of the ICAV are held by the Depositary. Bankruptcy or insolvency of the Depositary may cause the ICAV's rights with respect to securities or cash held by the Depositary to be delayed or limited. The ICAV manages its risk by monitoring the credit quality and financial position of the Depositary. The credit rating for the Depositary as at 31 December 2022 was A+ (2021: A+) published by Standard & Poor's. The cash is held with bank and financial institution counterparties, which are rated A+ (2021: A+), based on Standard & Poor's ratings.

The Manager manages issuer risk through building diversified portfolios to limit exposure to any one issuer in accordance with the ICAV's investment objectives. The ICAV employs well known counterparties and ensures that concentration of investment in any one stock or counterparty is monitored against set limits.

All transactions in listed securities are settled/paid upon delivery using approved brokers. The risk of default is considered minimal as delivery of securities sold is only made once the broker has received payment. Payment is made on a purchase once the securities have been received by the broker. The risk managers review counterparty credit ratings and approve the use of such counterparties.

(c) Credit risk (continued)

Offsetting and amounts subject to master netting arrangements

The ICAV has not offset any financial assets and financial liabilities in the statement of financial position. The disclosures set out in the tables below include financial assets and financial liabilities that are subject to an enforceable master netting or derivative clearing agreement that covers derivatives.

The International Swaps and Derivatives Association (“ISDA”) and similar master netting agreements do not meet the criteria for offsetting in the statement of financial position. This is because the ICAV does not have any currently legally enforceable right to offset recognised amounts, because the right to offset is enforceable only on the occurrence of future events such as a default of the ICAV or the counterparties or other credit events.

The collateral provided in respect of the above transactions is subject to the standard industry terms of ISDA’s Credit Support Annex. This means that securities received/given as collateral can be pledged or sold during the term of the transaction but have to be returned on maturity of the transaction. The terms also give each counterparty the right to terminate the related transactions on the counterparty’s failure to post collateral.

The following table discloses the derivative financial assets and liabilities subject to enforceable netting and similar arrangements, presented on an aggregate basis across multiple counterparties. Counterparties are analysed on an individual basis, offsetting assets and liabilities with individual counterparties where appropriate to do so while incorporating the collateral held by or posted by the Sub-Funds with respect to the open positions. The following table present the total net exposure to counterparties with respect to derivative assets and liabilities on a Sub-Fund by Sub-Fund basis.

Fineco AM Megatrends Target 2027

Financial assets subject to offsetting, enforceable master netting arrangements and similar agreements:

Description	Gross amounts of recognised financial assets	Gross amounts of recognised financial liabilities set-off in the statement of financial position	Net amounts of financial assets presented in the statement of financial position	Related amounts not set-off in the statement of financial position		Net amount
				Financial instruments	Cash collateral received	
	EUR	EUR	EUR	EUR	EUR	EUR
31 December 2022: Derivative financial assets	53,920	-	53,920	-	-	53,920

Notes to the Financial Statements for the financial year ended 31 December 2022 (continued)

12. Financial Instruments and Associated risks (continued)

(d) Operational risk

Operational risk is the risk of direct or indirect loss arising from a wide variety of causes associated with the processes, technology and infrastructure supporting the Sub-Fund activities with financial instruments, either internally within the Sub-Fund or externally at the Sub-Fund's service providers, and from external factors other than credit, market and liquidity risks such as those arising from legal and regulatory requirements and generally accepted standards of investment management behaviour.

The Sub-Funds' objectives are to manage operational risk so as to balance the limiting of financial losses and damage to its reputation with achieving its investment objective of generating returns to investors.

The primary responsibility for the development and implementation of controls over operational risk rests with the Directors. This responsibility is supported by the development of overall standards for the management of operational risk, which encompasses the controls and processes at the service providers and the establishment of service levels with the service providers, in the following areas:

- Documentation of controls and procedures;
- Requirements for:
 - Appropriate segregation of duties between various functions, roles and responsibilities;
 - Reconciliation and monitoring of transactions; and
 - Periodic assessment of operational risk faced.
- The adequacy of controls and procedures to address the risks identified;
- Compliance with regulatory and other legal requirements;
- Development of contingency plans;
- Training and professional development;
- Ethical and business standards; and
- Risk mitigation, including insurance if this is effective.

The Directors' assessment of the adequacy of the controls and processes in place at the service providers with respect to operational risk is carried out via regular discussions with the service providers and a review of the service providers' Service Organisation Controls reports on internal controls, if any are available.

FAM Evolution ICAV

Notes to the Financial Statements for the financial year ended 31 December 2022 (continued)

13. Fair Value of Financial Instruments

Each Sub-Fund classifies financial instruments measured at fair value using a fair value hierarchy. The fair value hierarchy has the following categories:

- Level 1: The unadjusted quoted price in an active market for identical assets or liabilities that the entity can access at the measurement date;
- Level 2: Inputs other than quoted prices included within Level 1 that are observable (i.e. developed using market data) for the asset or liability, either directly or indirectly. This category includes instruments valued using: quoted prices in active markets for similar instruments; quoted prices for similar instruments in markets that are considered less than active; or other valuation techniques where all significant inputs are directly or indirectly observable from market data; and
- Level 3: Inputs are unobservable (i.e. for which market data is unavailable) for the asset or liability. This category includes all instruments where the valuation techniques used include inputs not based on market data and these inputs could have a significant impact on the instrument's valuation. This category also includes instruments that are valued based on quoted prices for similar instruments where significant entity determined adjustments or assumptions are required to reflect differences between the instruments and instruments for which there is no active market.

For this purpose, the significance of an input is assessed against the fair value measurement in its entirety.

The determination of what constitutes 'observable' requires significant judgement. The Directors consider observable data to be that market data that is readily available, regularly distributed or updated, reliable, verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market.

The following tables provide an analysis of each Sub-Fund's financial assets measured at fair value as at 31 December 2022:

Investments are reviewed at each financial reporting point to ensure that they are correctly classified between Level 1, 2 and 3 in accordance with the fair value hierarchy outlined above. Where an investment's characteristics change during the year and investments no longer meet the criteria of a given level, they are transferred into a more appropriate level at the end of relevant financial reporting year.

For the financial year ended 31 December 2022 and 31 December 2021, there were no transfers between Level 1 and Level 2.

14. Exchange Rates

The following exchange rates against the EUR were used at the financial year end to translate foreign currency denominated assets and liabilities:

FAM Evolution ICAV

Notes to the Financial Statements for the financial year ended 31 December 2022 (continued)

15. Efficient Portfolio Management

The Manager on behalf of a Sub-Fund may employ techniques and instruments (meaning futures, forwards, options, swaps, warrants, money market derivatives (as described in the above section of the Prospectus titled “Financial Derivative Instruments (FDIs)”), repurchase and reverse repurchase agreements or securities lending arrangements) relating to transferable securities, money market instruments or other financial instruments (including FDI) in which a Sub-Fund invests for efficient portfolio management purposes, provided such techniques and instruments are consistent with a Sub-Fund’s investment objective and policies and comply with the requirements of the Central Bank and the UCITS Regulations.

The use of techniques and instruments for efficient portfolio management (“Efficient Portfolio Management Techniques”) is not expected to change a Sub-Fund’s investment objective. A Sub-Fund may enter into Efficient Portfolio Management Techniques only if, and to the extent, disclosed in the Supplement of the relevant Sub-Fund and only with respect to such transferable securities and such money market instruments in which the Sub-Fund is permitted to invest.

Efficient Portfolio Management Techniques will be entered into with the aim of (i) a reduction of risk, (ii) a reduction of cost, or (iii) generation of additional capital or income, taking into account the risk profile of a Sub-Fund as described in this Prospectus and the general provisions of the UCITS Regulations.

The Manager shall ensure all revenues from Efficient Portfolio Management Techniques, net of direct and indirect operational costs, will be returned to the relevant Sub-Fund. Direct and indirect operational costs and fees arising from Efficient Portfolio Management Techniques (which shall not include hidden revenue) will be paid to the counterparty, who shall be identified in the ICAV’s Financial Statements, who may or may not be related to the ICAV, the Manager or the Depository. During the year ended 31 December 2022 and 31 December 2021, the ICAV only invested in Investment Funds.

16. Involvement with unconsolidated structured entities

The Manager has concluded that the open-ended investment funds in which it invests, but that it does not consolidate, meet the definition of structured entities because:

- The voting rights in the underlying Investment Funds are not dominant rights in deciding who controls them because they relate to administrative tasks only;
- Each Investment Fund activities are restricted by its prospectus; and
- The Investment Funds have narrow and well-defined objectives to provide investment opportunities to investors.

The following table describes the types of structured entities that the Investment Funds do not consolidate but in which they hold an interest.

Type of structured entity	Nature and purpose	Interest held by the Fund
Investment Funds	To manage assets on behalf of third party investors and generate fees for the investment manager. These vehicles are financed through the issue of units to investors	Investments in units issued by the funds

FAM Evolution ICAV

Notes to the Financial Statements for the financial year ended 31 December 2022 (continued)

16. Involvement with unconsolidated structured entities (continued)

The table below sets out interests held in unconsolidated structured entities. The maximum exposure to loss is the carrying amount of the financial assets held.

17. Cross Liability

Liabilities incurred by the Sub-Funds of the ICAV may be discharged solely out of the assets of that Sub-Fund such that creditors of the Sub-Funds will not have recourse to the assets of the other Sub-Funds of the ICAV to settle any liabilities incurred.

FAM Evolution ICAV

Notes to the Financial Statements for the financial year ended 31 December 2022 (continued)

18. Taxation

Under current law and practice, the ICAV qualifies as an investment undertaking as defined in Section 739B of the Taxes Consolidation Act, 1997, as amended. It is not chargeable to Irish tax on its income or capital gains. However, the ICAV is obliged to apply a withholding tax on any distribution payments to Irish residents or ordinarily resident shareholders on any encashment, redemption or transfer of units by an Irish resident or ordinarily resident shareholder, unless the shareholder is exempted under Section 739D of the Taxes Consolidation Act, 1997, as amended. Shareholders who complete a declaration confirming that they are not Irish residents are not liable to Irish tax on the income or gains arising from their investment in the ICAV and no withholding tax will be deducted on any payments made to them. Where the ICAV has a concession from the Revenue Commissioners it may be possible to obtain an exemption from the requirement to have a valid non-resident declaration in place.

If the ICAV fails to deduct the tax or fails to collect the appropriate signed declaration from any non-resident or exempted shareholders, the ICAV will remain liable for the tax. In these circumstances, the ICAV would seek to recover the tax paid from the relevant shareholder. Capital gains and interest received by the ICAV may be subject to withholding taxes imposed by the country of origin and such taxes may not be recoverable by the ICAV or its shareholders.

19. Events during the financial year

Russia/Ukraine Conflict and sanctions

The outbreak of war in Ukraine and the related sanctions targeted against the Russian Federation has impacted the European and Global economies. The direct exposure to Ukraine, Russia or Belarus was and continues to be not material to the overall ICAV. However, the impact on the general economic situation may require in the future revisions of certain assumptions and estimates. The Directors are carefully monitoring the situation as well as its potential impacts on the ICAV. The ICAV is fully capable of continuing its usual operations.

Covid 19

The impact of the coronavirus outbreak was profound across all aspects of society. In developed economies, it is clear that the worst of the impact is now over. However, there is an expectation that seasonal peaks and new variants could give rise to renewed travel restrictions, enhanced health screenings at ports of entry and elsewhere, disruption of and delays in healthcare service preparation and delivery and supply chain disruptions which will create ongoing challenges. Widescale and comprehensive vaccination programmes have been put in place in many countries which have had a positive effect. Nevertheless, the impact of COVID-19 continues to adversely affect the economies of many nations across the globe and this in turn may continue to impact investments held by each Fund.

Effective 24 January 2022, Lorenzo Di Pietrantonio was appointed as a non-independent, non-executive Director of the ICAV.

The following Sub-Funds launched in 2022 as discussed below:

Fineco AM Megatrends Target 2027	7 March 2022

There were no other significant events during the financial year.

20. Events post financial year end

Fineco AM Passive Underlyings 8 Target 2026 launched on 16 February 2023.

There have been no other subsequent events since the Statement of Financial Position date.

21. Soft commission arrangements

There were no soft commission arrangements in existence for the financial year ended 31 December 2022 (2021: Nil).

22. Reconciliation to Published NAV

As at 31 December 2022, the NAV stated in these Financial Statements differ from the published NAV for certain Sub-Funds. This difference was not material on any Sub-Fund and therefore the NAV was not republished.

An adjustment was made to account for an inaccurate booking of the management fee and as a result Fee Caps were overstated. The underlying funds impacted are disclosed in the tables below

As at 31 December 2021, the NAV stated in these Financial Statements differ from the published NAV for certain Sub-Funds. This difference was not material on any Sub-Fund and therefore the NAV was not republished.

(i) Reconciliation of Net Asset Value

The following tables show the reconciliation between the NAV as per Financial Statements, Published NAV, and impact in basis points ("BPS"):

31 December 2022

Sub-Fund	Published NAV	NAV per financial statements	Fee adjustment	Adjustment BPS
FAM MegaTrends Target 2023 III	26,662,457	26,643,978	(18,479)	(0.07%)

In accordance with the UCITS Regulations the annual report documents material changes that have occurred in the disposition of the assets of the Sub-Funds during the year. A material change is defined as aggregate purchases of a security exceeding 1 per cent of the total value of purchases for the year or aggregate disposals greater than 1 per cent of the total value of sales. If there were fewer than 20 purchases that met the material changes definition, the Sub-Funds shall disclose those purchases and such number of the next largest purchases so that at least 20 purchases are disclosed. If there are fewer than 20 sales that met the material changes definition, the Sub-Funds shall disclose those sales and such number of the next largest sales so that at least 20 sales are disclosed.

In accordance with the UCITS Regulations the annual report documents material changes that have occurred in the disposition of the assets of the Sub-Funds during the year. A material change is defined as aggregate purchases of a security exceeding 1 per cent of the total value of purchases for the year or aggregate disposals greater than 1 per cent of the total value of sales. If there were fewer than 20 purchases that met the material changes definition, the Sub-Funds shall disclose those purchases and such number of the next largest purchases so that at least 20 purchases are disclosed. If there are fewer than 20 sales that met the material changes definition, the Sub-Funds shall disclose those sales and such number of the next largest sales so that at least 20 sales are disclosed.

In accordance with the UCITS Regulations the annual report documents material changes that have occurred in the disposition of the assets of the Sub-Funds during the year. A material change is defined as aggregate purchases of a security exceeding 1 per cent of the total value of purchases for the year or aggregate disposals greater than 1 per cent of the total value of sales. If there were fewer than 20 purchases that met the material changes definition, the Sub-Funds shall disclose those purchases and such number of the next largest purchases so that at least 20 purchases are disclosed. If there are fewer than 20 sales that met the material changes definition, the Sub-Funds shall disclose those sales and such number of the next largest sales so that at least 20 sales are disclosed.

In accordance with the UCITS Regulations the annual report documents material changes that have occurred in the disposition of the assets of the Sub-Funds during the year. A material change is defined as aggregate purchases of a security exceeding 1 per cent of the total value of purchases for the year or aggregate disposals greater than 1 per cent of the total value of sales. If there were fewer than 20 purchases that met the material changes definition, the Sub-Funds shall disclose those purchases and such number of the next largest purchases so that at least 20 purchases are disclosed. If there are fewer than 20 sales that met the material changes definition, the Sub-Funds shall disclose those sales and such number of the next largest sales so that at least 20 sales are disclosed.

In accordance with the UCITS Regulations the annual report documents material changes that have occurred in the disposition of the assets of the Sub-Funds during the year. A material change is defined as aggregate purchases of a security exceeding 1 per cent of the total value of purchases for the year or aggregate disposals greater than 1 per cent of the total value of sales. If there were fewer than 20 purchases that met the material changes definition, the Sub-Funds shall disclose those purchases and such number of the next largest purchases so that at least 20 purchases are disclosed. If there are fewer than 20 sales that met the material changes definition, the Sub-Funds shall disclose those sales and such number of the next largest sales so that at least 20 sales are disclosed.

In accordance with the UCITS Regulations the annual report documents material changes that have occurred in the disposition of the assets of the Sub-Funds during the year. A material change is defined as aggregate purchases of a security exceeding 1 per cent of the total value of purchases for the year or aggregate disposals greater than 1 per cent of the total value of sales. If there were fewer than 20 purchases that met the material changes definition, the Sub-Funds shall disclose those purchases and such number of the next largest purchases so that at least 20 purchases are disclosed. If there are fewer than 20 sales that met the material changes definition, the Sub-Funds shall disclose those sales and such number of the next largest sales so that at least 20 sales are disclosed.

In accordance with the UCITS Regulations the annual report documents material changes that have occurred in the disposition of the assets of the Sub-Funds during the year. A material change is defined as aggregate purchases of a security exceeding 1 per cent of the total value of purchases for the year or aggregate disposals greater than 1 per cent of the total value of sales. If there were fewer than 20 purchases that met the material changes definition, the Sub-Funds shall disclose those purchases and such number of the next largest purchases so that at least 20 purchases are disclosed. If there are fewer than 20 sales that met the material changes definition, the Sub-Funds shall disclose those sales and such number of the next largest sales so that at least 20 sales are disclosed.

In accordance with the UCITS Regulations the annual report documents material changes that have occurred in the disposition of the assets of the Sub-Funds during the year. A material change is defined as aggregate purchases of a security exceeding 1 per cent of the total value of purchases for the year or aggregate disposals greater than 1 per cent of the total value of sales. If there were fewer than 20 purchases that met the material changes definition, the Sub-Funds shall disclose those purchases and such number of the next largest purchases so that at least 20 purchases are disclosed. If there are fewer than 20 sales that met the material changes definition, the Sub-Funds shall disclose those sales and such number of the next largest sales so that at least 20 sales are disclosed.

In accordance with the UCITS Regulations the annual report documents material changes that have occurred in the disposition of the assets of the Sub-Funds during the year. A material change is defined as aggregate purchases of a security exceeding 1 per cent of the total value of purchases for the year or aggregate disposals greater than 1 per cent of the total value of sales. If there were fewer than 20 purchases that met the material changes definition, the Sub-Funds shall disclose those purchases and such number of the next largest purchases so that at least 20 purchases are disclosed. If there are fewer than 20 sales that met the material changes definition, the Sub-Funds shall disclose those sales and such number of the next largest sales so that at least 20 sales are disclosed.

Value at Risk Approach

Value at Risk (“VaR”) is a statistical risk measure that estimates the potential loss from adverse market movements in an ordinary market environment.

Please refer to the financial risks note 12 to the Financial Statements for further details on the measure of VaR.

The Directors use Relative VaR to monitor and manage the global exposure of some of the Funds and Absolute VaR for others as set out below. For Relative VaR, the VaR of the respective Fund’s portfolio will not exceed twice the VaR of the reference portfolio. For Absolute VaR, the monthly VaR will not exceed 20% of the Fund’s NAV. Where a VaR calculation is performed using a horizon other than the one-month regulatory limit, this 20% limit shall be rescaled to reflect the appropriate risk horizon period as directed by the relevant regulatory guidelines. Utilisation refers to the level of risk taken in this context.

The table below details the highest, lowest and average utilisation of the VaR limit, expressed as a percentage of the respective Absolute or Relative VaR regulatory limit.

Sub-Fund	Global Exposure Type	Risk Model	Reference Risk Portfolio	Highest utilisation of the VaR limit %	Lowest utilisation of the VaR limit %	Average utilisation of the VaR limit %

LEVERAGE

The use of FDIs may expose a Fund to a higher degree of risk. In particular, FDI contracts can be highly volatile, and the amount of initial margin is generally small relative to the size of the contract so that transactions may be leveraged in terms of market exposure. A relatively small market movement may have a potentially larger impact on FDIs than on standard bonds or equities.

Leveraged FDI positions can therefore increase a Fund's volatility. Disclosed in the table below is the level of leverage employed by each relevant Fund during the financial year ended 31 December 2022.

UCITS V Remuneration Disclosure

Fineco Asset Management Designated Activity Company (the “Management Company”), the Management Company of FAM Evolution ICAV acts as the Management Company for two other umbrella UCITS.

The Management Company follows a remuneration policy which complies with the requirements of the UCITS regulation in Ireland and in particular the S.I. 143/2016.

The remuneration policy and practices objectives are consistent with and promote sound and effective risk management, aligning remuneration with long-term performance and risks in order to avoid conflicts of interest. Fixed remuneration components are linked to the roles covered, the professional services rendered and the scope of responsibilities, reflecting the level of the talent, skills and competencies, market pay levels, experience and skills required for each position, as well as the level of excellence demonstrated. Variable remuneration is designed to promote a sustainable long-term development of the Management Company and a solid and effective risk management system. Variable remuneration awards consider the performance of the employee, her/his business unit and the Management Company as a whole, and it is based on both financial and non-financial criteria, among other criteria.

The total remuneration paid by the Management Company to its staff for the financial year end 31 December 2022 is as follows:

Financial Year End 31 December 2022

	<u>Fixed</u>	<u>Variable</u>	<u>Total</u>
Employees	6,259,835	2,080,091	8,339,926
Executive Directors	1,120,687	757,346	1,878,033
Non-Executive Directors	85,000	-	85,000

The ICAV represents as at 31 December 2022 around 18% of the Total AUM of the Management Company.

The remuneration policy is reviewed at least annually.

FAM Evolution ICAV

Securities Financing Transaction Regulations (SFTR)

A Securities Financing Transaction (SFT) is defined as per Article 3(11) of the SFTR as:

- a repurchase transaction;
- securities or commodities lending and securities or commodities borrowing;
- a buy-sell back transaction or sell-buy back transaction; or
- a margin lending transaction.

For the financial year ended 31 December 2022, the ICAV has not entered into any repos, total return swaps, securities borrowing and margin lending transactions.

Sustainable Finance Disclosure Regulation (SFDR)

Environmental, social and governance (“ESG”) Integration describes the mechanism by which the Manager, acting through the Investment Manager as its delegate, may integrate sustainability risks into investment decision-making, which may, where relevant, require the Investment Manager to assess the potential sustainability risks associated with the purchase of investments.

Sustainability Risk means an ESG event or condition that, if it occurs, could potentially or actually cause a material negative impact on the value of a Sub-Fund’s investment. Sustainability risks can either represent a risk of their own or have an impact on other risks and may contribute significantly to risks, such as market risks, operational risks, liquidity risks or counterparty risks

The ICAV reserves the right to reassess this classification at any time and shall keep this classification under review pending finalisation of the Regulatory Technical Standards (“RTS”) in relation to Regulation (EU) 2019/2088 (“SFDR”). RTS are standards for implementation of the provisions set forth in SFDR issued by the European Supervisory Authorities (“ESAs”) to market operators.

If the ICAV determines at any future point that the Fund does not meet the criteria to qualify as a Sustainable Investment Fund, this disclosure shall be updated or withdrawn as appropriate, in accordance with the revised classification of the Fund.

The following Sub-Funds are classified as Article 6 funds under the Sustainable Finance Disclosure Regulation (“SFDR”):

FAM Advisory 6 Target
FAM Advisory 9 Target October 2024
FAM Advisory 6 Target October 2024
FAM Advisory 6 Target Boost
FAM Advisory 6 Target 2022
FAM Strategic Allocation
FAM Advisory 6 Target 2022 II
FAM Advisory 6 Target 2022 III
FAM Advisory 6 Target January 2025
FAM Advisory 6 Target 2023
FAM Advisory 9 Target
FAM Emerging Markets Target 2023
FAM Emerging Markets Target 2023 II

The investments underlying the above named Sub-Funds do not take into account the EU criteria for environmentally sustainable economic activities. The classification of the above named Sub-Funds as Article 6 Funds means that the Sub-Funds do not promote environmental or social characteristics in a way that meets the specific criteria contained in Article 8 of SFDR or have Sustainable Investment as its objective in a way that meets the specific criteria contained in Article 9 of SFDR. Accordingly, the Sub-Funds do not deem Sustainability Risks to be relevant and does not integrate Sustainability Risks into its investment decisions due to the investment strategy of the Sub-Funds. Accordingly, it is not anticipated that Sustainability Risks will materially impact the expected risk or return characteristics of the Sub-Fund. Please refer to the section of the Prospectus entitled "Sustainable Finance Disclosure" for further information.

Sustainable Finance Disclosure Regulation (SFDR)

ANNEX IV

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/ What was the asset allocation 852

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Product name: FAM MegaTrends Target
Legal entity identifier: 635400RDHSNNEXU1LG29

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

Yes

It made **sustainable investments with an environmental objective:** ___%

- in economic activities that qualify as environmentally sustainable under the EU Taxonomy
- in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made **sustainable investments with a social objective:** ___%

No

It promoted **Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of 47.35% of sustainable investments

- with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
- with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
- with a social objective

It promoted E/S characteristics, but **did not make any sustainable investments**

All actual data within this periodic report are calculated on the closing date of the accounting year.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and/or social characteristics promoted by this financial product included;

FAM Evolution ICAV

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

a. Minimum investment in funds in scope of Article 8 and 9 of the SFDR

The Fund invested 92.84% in Underlying Funds which fall within the meaning of either Article 8 or Article 9 of the SFDR, which means, that the majority of the Underlying Funds which the Fund held promoted environmental and social characteristics while investing in companies which follow good governance practices.

b. Positive Screening

Consideration of ESG factors were a key element of portfolio construction/fund selection. Portfolio managers took a holistic approach which included the analysis of ESG factors as part of their overall risk adjusted valuation assessment. This supported the overall promotion of investment in funds which the Manager deems desirable on ESG grounds. By incorporating positive ESG factors as part of the overall portfolio construction/fund selection, the Fund through its investments, supported a tilt towards investment in Underlying Funds that have a more positive impact on the environment or society at large.

c. Fund Level ESG Scoring

A monthly independent analysis and classification of the Fund's ESG score was performed internally by the Manager. A minimum ESG score of "A" was applied at Fund Level to ensure that the Fund's ESG score did not fall below a level deemed by the Manager to be appropriate for a fund promoting environmental and/or social characteristics. This additional control served to highlight a minimum Fund level ESG score and promoted engagement and challenge of portfolio managers on ESG topics.

No reference benchmark was designated for the purpose of attaining the environmental or social characteristics promoted.

● *How did the sustainability indicators perform?*

The following sustainability indicators were used to measure the attainment of the environmental and social characteristics promoted by the Fund;

- i. The percentage of the Fund portfolio made in sustainable investments was 47.35% as at 31 December 2022.
- ii. the percentage of the Fund's Underlying Fund holdings rated A or above by MSCI ESG Manager (or another corresponding rating from a similar rating provider) was 98.90% of holdings as at 31 December 2022.

● *...and compared to previous periods?*

Not applicable for the first periodic report.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Sustainable Finance Disclosure Regulation (SFDR) (continued)

- *What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?*

Please note that the Fund currently follows a fund of funds investment approach and can invest principally in underlying open-ended UCIs and UCITS (as well as other permissible instruments). The Management Company therefore relies on data provided by the investment managers of the underlying fund investments when calculating the percentage proportion of sustainable investment of the Fund and when calculating the percentages required in the section below dealing with the asset allocation of the Fund.

The objectives of the sustainable investments that the Fund made was to promote environmental and/or social characteristics. On the basis that the Fund is currently following a fund of funds investment approach, the objectives of the sustainable investments that the Fund partially intends to make is linked to the sustainable investments made by the Underlying Funds. The Fund sought to make investments in Underlying Funds that committed/partially committed to invest in sustainable investments and who had a process for ensuring that their sustainable investments met the following criteria;

- a. Made in investee companies that demonstrate good governance;
- b. Made in a manner that demonstrates that they do no significant harm to other environmental objectives; and
- c. Made in investee companies that make a positive contribution towards an environmental or social objective. The Fund allocates between Underlying Funds which make sustainable investments of any type, i.e. investments with an environmental, and/or a social objective. The Fund did not favour any specific type of sustainable investment.

As at 31 December the Fund had a proportion of 47.35% of sustainable investments

- *How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?*

The sustainable investments that the Fund makes did not cause significant harm to any environmental or social sustainable investment objective based on the policies adopted by the relevant Underlying Fund investment managers. These policies are considered as part of the Manager's initial and ongoing investment due diligence procedures and are assessed for alignment with the indicators set out in Table 1 and any relevant additional indicator from Tables 2 and 3 of Annex I of the Delegated Regulation.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

FAM Evolution ICAV

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

— — — *How were the indicators for adverse impacts on sustainability factors taken into account?*

Principal adverse impact (“PAI”) indicators were calculated at both the Fund level and the Underlying Fund level. The results were compared with that of a chosen proxy benchmark representative of the Fund’s investment universe and/or peers. These calculations are used as the basis of assessment of adverse impacts on sustainability factors in order to determine whether the Manager could improve at Fund level and/or where Manager could engage with Underlying Fund investment managers to improve at the Underlying Fund level.

The Fund considered the following principal adverse sustainability impacts indicators for the proportion of assets qualified as sustainable investments:

Corporate mandatory indicators:

1. GreenHouse Gas (GHG) Emissions
2. Carbon footprint
3. GHG intensity of investee companies
4. Exposure to companies active in the fossil fuel sector
5. Share of non-renewable energy consumption and production
6. Energy consumption intensity per high impact climate sector
7. Activities negatively affecting biodiversity sensitive areas
8. Emissions to water
9. Hazardous waste ratio
10. Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises
11. Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact principles and OECD Guidelines for Multinational Enterprises
12. Unadjusted gender pay gap
13. Board gender diversity
14. Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons)

FAM Evolution ICAV

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

Corporate voluntary indicators: Environment

4. Investments in companies without carbon emission reduction initiatives Social

Corporate voluntary indicators: Social

9. Lack of a human rights policy

Sovereign mandatory indicator:

15. GHG intensity
16. Investee countries subject to social violations

— — — *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:*

The sustainable investments which the Fund made in the Underlying Funds and their alignment with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights were assessed in the following ways;

1. Via PAI monitoring of the following indicators;
 - Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises
 - Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact principles and OECD Guidelines for Multinational Enterprises
2. Through engagement with the Underlying Fund investment managers to ensure that the sustainable investments that the Underlying Funds made are:
 - a. Made in investee companies that demonstrate good governance;
 - b. Made in a manner that demonstrates that they do no significant harm to other environmental objectives; and
 - c. Made in investee companies that make a positive contribution towards an environmental or social objective.

FAM Evolution ICAV

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The Manager considered principal adverse impacts of its investment decisions on sustainability factors on an ongoing basis by monitoring the Fund portfolio against mandatory and additional PAI indicators and as part of its investment decision making process and investment due diligence process and procedures. Principal adverse impacts were prioritized based on materiality relative to the objectives or characteristics of the Fund, provided that all minimum standards are met. The results were compared with that of a chosen proxy benchmark representative of the Fund’s investment universe and/or peers. These calculations formed the basis of assessment of adverse impacts on sustainability factors in order to determine what the Portfolio Managers could improve at Fund level and where the Portfolio Managers could engage with relevant issuers to improve on such indicators.

The specific PAI indicators that were taken into consideration for this product were;

Corporate mandatory indicators:

1. GreenHouse Gas (GHG) Emissions
2. Carbon footprint
3. GHG intensity of investee companies
4. Exposure to companies active in the fossil fuel sector
5. Share of non-renewable energy consumption and production
6. Energy consumption intensity per high impact climate sector
7. Activities negatively affecting biodiversity sensitive areas
8. Emissions to water

What was the proportion of sustainability-related investments?

47.35%

● What was the asset allocation?

98.90% of the Fund's Investments are aligned with the environmental and/or social characteristics promoted by the Fund. The Fund also commits to a minimum proportion of 20% in sustainable investments and as at 31 December the Fund had a proportion of 47.35% of sustainable investments. The remaining investments of the Fund were invested in cash and cash equivalents for liquidity purposes and derivatives which may be used for investment, risk reduction and hedging purposes. Calculations may rely on incomplete or inaccurate underlying fund manager data and/or company or third-party data.

Asset allocation describes the share of investments in specific assets.

FAM Evolution ICAV

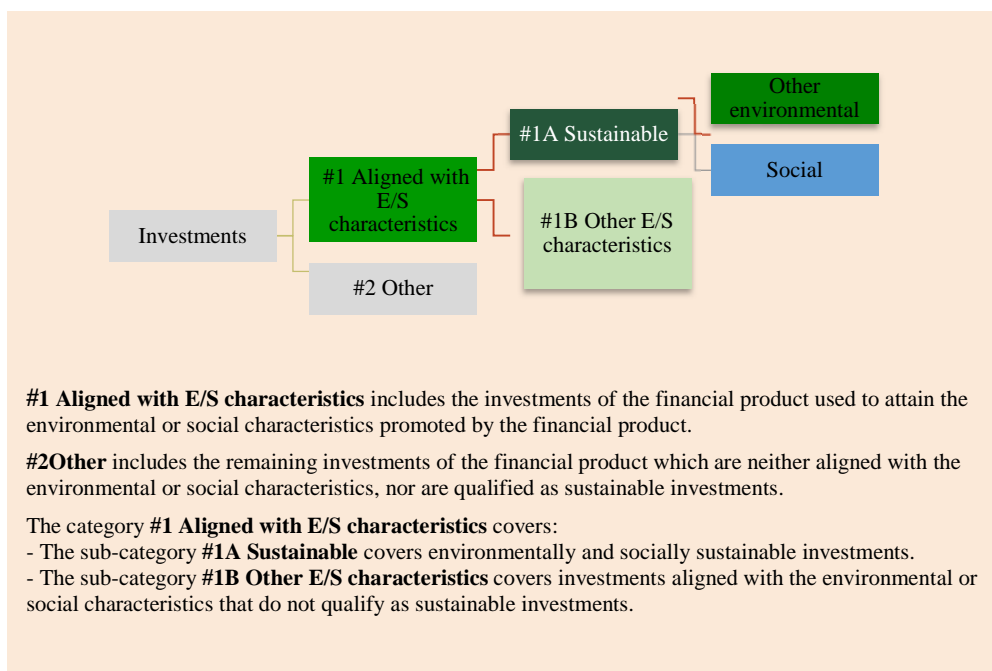

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● *In which economic sectors were the investments made?*

Largest investments	% Assets
Open-ended investment funds	98.90%

● **To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?**

As the investments underlying this Fund do not take into account the EU criteria for environmentally sustainable economic activities within the meaning of the Taxonomy Regulation, the Fund's portfolio alignment with the Taxonomy Regulation is not calculated. It follows that the Fund does not currently commit to investing more than 0% of its assets in investments aligned with the Taxonomy.

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?**

- Yes:
- In fossil gas In nuclear energy
- No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

FAM Evolution ICAV

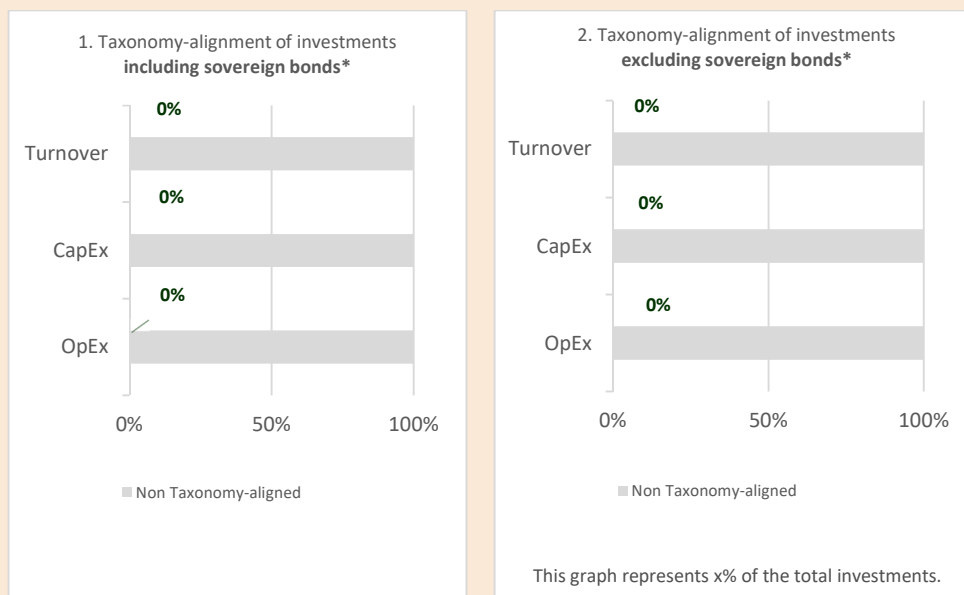

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

What was the share of investments made in transitional and enabling activities?

The share of investments in transitional and enabling activities within the meaning of the Regulations Taxonomy is 0% for transitional activities and 0% for enabling activities.

FAM Evolution ICAV

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

- *How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?*

Not applicable for the first periodic report.

 are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

The share of sustainable investments with an environmental objective that are not aligned with the European Taxonomy Regulation is 31.53%

What was the share of socially sustainable investments?

Socially sustainable investments represent 16.81% of the financial product.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The remaining investments of the Fund includes cash and cash equivalents for liquidity purposes and derivatives which may be used for investment, risk reduction and hedging purposes.

Any “#2 Other” potential investments, other than cash or cash equivalents are screened according to the managers exclusion policy.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Manager has integrated various house ESG policies and procedures to ensure the binding elements of the investment strategy used to select the investments to attain each of the environmental or social characteristics promoted by this product, such as a minimum investment in funds in scope of Article 8 and 9 of the SFDR, Positive Screening and Fund Level ESG Scoring have been implemented and are monitored regularly.

Furthermore, the Fund invested 47.35% of its assets in “sustainable investments” as defined in Article 2 (17) of SFDR. Criteria to qualify an investment as “sustainable investment” are indicated in the above question “*What are the objectives of the sustainable investments that the financial product partially intends to make and does the sustainable investments contribute to such objectives*”.

The Fund invested 92.84% in Underlying Funds which fall within the meaning of either Article 8 or Article 9 of the SFDR, which means, the majority of the Underlying Funds which the Fund held promoted environmental and social characteristics while investing in companies which follow good governance practices.

No reference benchmark was designated for the purpose of attaining the environmental or social characteristics promoted.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

ANNEX IV

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: FAM MegaTrends Target October 2024

Legal entity identifier: 635400DJYLXDTL2IUL43

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The EU Taxonomy is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

Yes

It made **sustainable investments with an environmental objective:** ___%

in economic activities that qualify as environmentally sustainable under the EU Taxonomy

in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made **sustainable investments with a social objective:** ___%

No

It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of 46.56% of sustainable investments

with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy

with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

with a social objective

It promoted E/S characteristics, but **did not make any sustainable investments**

All actual data within this periodic report are calculated on the closing date of the accounting year.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and/or social characteristics promoted by this financial product included;

FAM Evolution ICAV

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

a. Minimum investment in funds in scope of Article 8 and 9 of the SFDR

The Fund invested 92.22% in Underlying Funds which fall within the meaning of either Article 8 or Article 9 of the SFDR, which means, that the majority of the Underlying Funds which the Fund held promoted environmental and social characteristics while investing in companies which follow good governance practices.

b. Positive Screening

Consideration of ESG factors were a key element of portfolio construction/fund selection. Portfolio managers took a holistic approach which included the analysis of ESG factors as part of their overall risk adjusted valuation assessment. This supported the overall promotion of investment in funds which the Manager deems desirable on ESG grounds. By incorporating positive ESG factors as part of the overall portfolio construction/fund selection, the Fund through its investments, supported a tilt towards investment in Underlying Funds that have a more positive impact on the environment or society at large.

c. Fund Level ESG Scoring

A monthly independent analysis and classification of the Fund's ESG score was performed internally by the Manager. A minimum ESG score of "A" was applied at Fund Level to ensure that the Fund's ESG score did not fall below a level deemed by the Manager to be appropriate for a fund promoting environmental and/or social characteristics. This additional control served to highlight a minimum Fund level ESG score and promoted engagement and challenge of portfolio managers on ESG topics.

No reference benchmark was designated for the purpose of attaining the environmental or social characteristics promoted.

● ***How did the sustainability indicators perform?***

The following sustainability indicators were used to measure the attainment of the environmental and social characteristics promoted by the Fund;

- i. The percentage of the Fund portfolio made in sustainable investments was 46.56% as at 31 December 2022.
- ii. the percentage of the Fund's Underlying Fund holdings rated A or above by MSCI ESG Manager (or another corresponding rating from a similar rating provider) was 98.71% of holdings as at 31 December 2022.

● ***...and compared to previous periods?***

Not applicable for the first periodic report.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

- *What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?*

Please note that the Fund currently follows a fund of funds investment approach and can invest principally in underlying open-ended UCIs and UCITS (as well as other permissible instruments). The Management Company therefore relies on data provided by the investment managers of the underlying fund investments when calculating the percentage proportion of sustainable investment of the Fund and when calculating the percentages required in the section below dealing with the asset allocation of the Fund.

The objectives of the sustainable investments that the Fund made was to promote environmental and/or social characteristics. On the basis that the Fund is currently following a fund of funds investment approach, the objectives of the sustainable investments that the Fund partially intends to make is linked to the sustainable investments made by the Underlying Funds. The Fund sought to make investments in Underlying Funds that committed/partially committed to invest in sustainable investments and who had a process for ensuring that their sustainable investments met the following criteria;

- a. Made in investee companies that demonstrate good governance;
- b. Made in a manner that demonstrates that they do no significant harm to other environmental objectives; and
- c. Made in investee companies that make a positive contribution towards an environmental or social objective. The Fund allocates between Underlying Funds which make sustainable investments of any type, i.e. investments with an environmental, and/or a social objective. The Fund did not favour any specific type of sustainable investment.

As at 31 December the Fund had a proportion of 46.56% of sustainable investments

- *How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?*

The sustainable investments that the Fund makes did not cause significant harm to any environmental or social sustainable investment objective based on the policies adopted by the relevant Underlying Fund investment managers. These policies are considered as part of the Manager's initial and ongoing investment due diligence procedures and are assessed for alignment with the indicators set out in Table 1 and any relevant additional indicator from Tables 2 and 3 of Annex I of the Delegated Regulation.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

FAM Evolution ICAV

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

— — — *How were the indicators for adverse impacts on sustainability factors taken into account?*

Principal adverse impact (“PAI”) indicators were calculated at both the Fund level and the Underlying Fund level. The results were compared with that of a chosen proxy benchmark representative of the Fund’s investment universe and/or peers. These calculations are used as the basis of assessment of adverse impacts on sustainability factors in order to determine whether the Manager could improve at Fund level and/or where Manager could engage with Underlying Fund investment managers to improve at the Underlying Fund level.

The Fund considered the following principal adverse sustainability impacts indicators for the proportion of assets qualified as sustainable investments:

Corporate mandatory indicators:

1. GreenHouse Gas (GHG) Emissions
2. Carbon footprint
3. GHG intensity of investee companies
4. Exposure to companies active in the fossil fuel sector
5. Share of non-renewable energy consumption and production
6. Energy consumption intensity per high impact climate sector
7. Activities negatively affecting biodiversity sensitive areas
8. Emissions to water
9. Hazardous waste ratio
10. Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises
11. Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact principles and OECD Guidelines for Multinational Enterprises
12. Unadjusted gender pay gap
13. Board gender diversity
14. Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons)

FAM Evolution ICAV

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

Corporate voluntary indicators: Environment

4. Investments in companies without carbon emission reduction initiatives Social

Corporate voluntary indicators: Social

9. Lack of a human rights policy

Sovereign mandatory indicator:

15. GHG intensity
16. Investee countries subject to social violations

— — — *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:*

The sustainable investments which the Fund made in the Underlying Funds and their alignment with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights were assessed in the following ways;

1. Via PAI monitoring of the following indicators;
 - Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises
 - Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact principles and OECD Guidelines for Multinational Enterprises
2. Through engagement with the Underlying Fund investment managers to ensure that the sustainable investments that the Underlying Funds made are:
 - a. Made in investee companies that demonstrate good governance;
 - b. Made in a manner that demonstrates that they do no significant harm to other environmental objectives; and
 - c. Made in investee companies that make a positive contribution towards an environmental or social objective.

FAM Evolution ICAV

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The Manager considered principal adverse impacts of its investment decisions on sustainability factors on an ongoing basis by monitoring the Fund portfolio against mandatory and additional PAI indicators and as part of its investment decision making process and investment due diligence process and procedures. Principal adverse impacts were prioritized based on materiality relative to the objectives or characteristics of the Fund, provided that all minimum standards are met. The results were compared with that of a chosen proxy benchmark representative of the Fund’s investment universe and/or peers. These calculations formed the basis of assessment of adverse impacts on sustainability factors in order to determine what the Portfolio Managers could improve at Fund level and where the Portfolio Managers could engage with relevant issuers to improve on such indicators.

The specific PAI indicators that were taken into consideration for this product were;

Corporate mandatory indicators:

1. GreenHouse Gas (GHG) Emissions
2. Carbon footprint
3. GHG intensity of investee companies
4. Exposure to companies active in the fossil fuel sector
5. Share of non-renewable energy consumption and production
6. Energy consumption intensity per high impact climate sector
7. Activities negatively affecting biodiversity sensitive areas
8. Emissions to water

What was the proportion of sustainability-related investments?

46.56%

● What was the asset allocation?

98.71% of the Fund's Investments are aligned with the environmental and/or social characteristics promoted by the Fund. The Fund also commits to a minimum proportion of 20% in sustainable investments and as at 31 December the Fund had a proportion of 46.56% of sustainable investments. The remaining investments of the Fund were invested in cash and cash equivalents for liquidity purposes and derivatives which may be used for investment, risk reduction and hedging purposes. Calculations may rely on incomplete or inaccurate underlying fund manager data and/or company or third-party data.

Asset allocation describes the share of investments in specific assets.

FAM Evolution ICAV

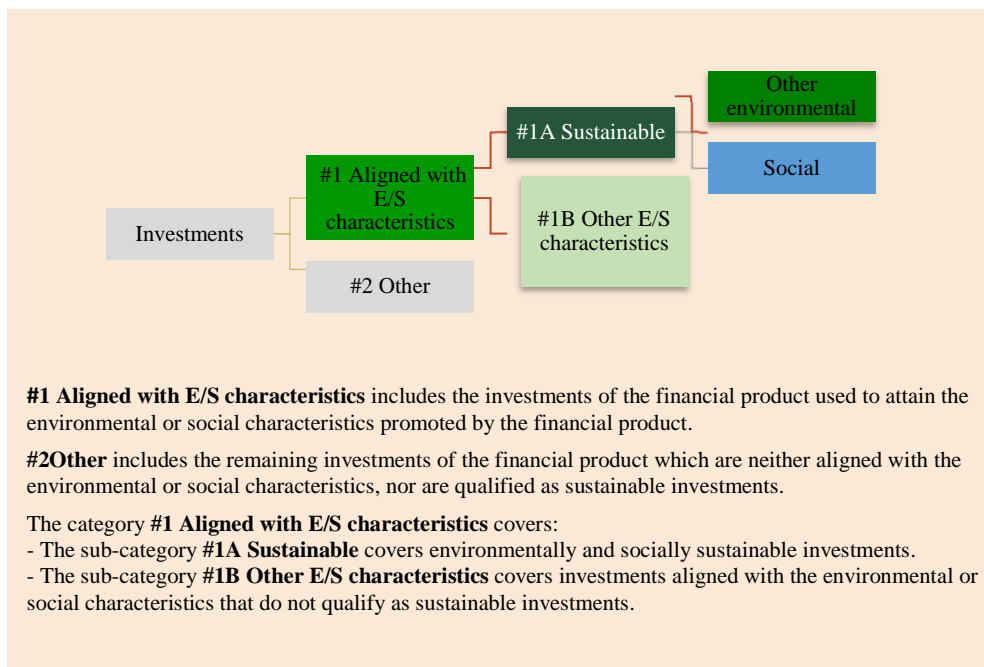

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● ***In which economic sectors were the investments made?***

Largest investments	% Assets
Open-ended investment funds	98.71%

● **To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?**

As the investments underlying this Fund do not take into account the EU criteria for environmentally sustainable economic activities within the meaning of the Taxonomy Regulation, the Fund’s portfolio alignment with the Taxonomy Regulation is not calculated. It follows that the Fund does not currently commit to investing more than 0% of its assets in investments aligned with the Taxonomy.

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?**

- Yes:
 - In fossil gas
 - In nuclear energy
- No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

- *How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?*

Not applicable for the first periodic report.

 are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

The share of sustainable investments with an environmental objective that are not aligned with the European Taxonomy Regulation is 33.08%

What was the share of socially sustainable investments?

Socially sustainable investments represent 16.70% of the financial product.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The remaining investments of the Fund includes cash and cash equivalents for liquidity purposes and derivatives which may be used for investment, risk reduction and hedging purposes.

Any “#2 Other” potential investments, other than cash or cash equivalents are screened according to the managers exclusion policy.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Manager has integrated various house ESG policies and procedures to ensure the binding elements of the investment strategy used to select the investments to attain each of the environmental or social characteristics promoted by this product, such as a minimum investment in funds in scope of Article 8 and 9 of the SFDR, Positive Screening and Fund Level ESG Scoring have been implemented and are monitored regularly.

Furthermore, the Fund invested 46.56% of its assets in “sustainable investments” as defined in Article 2 (17) of SFDR. Criteria to qualify an investment as “sustainable investment” are indicated in the above question “*What are the objectives of the sustainable investments that the financial product partially intends to make and does the sustainable investments contribute to such objectives*”.

The Fund invested 92.22% in Underlying Funds which fall within the meaning of either Article 8 or Article 9 of the SFDR, which means, the majority of the Underlying Funds which the Fund held promoted environmental and social characteristics while investing in companies which follow good governance practices.

No reference benchmark was designated for the purpose of attaining the environmental or social characteristics promoted.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

FAM Evolution ICAV

ANNEX IV

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: FAM MegaTrends Target January 2025

Legal entity identifier: 635400JOTVIITQCAW706

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

Yes

No

It made **sustainable investments with an environmental objective:** ___%

- in economic activities that qualify as environmentally sustainable under the EU Taxonomy
- in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made **sustainable investments with a social objective:** ___%

It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of 46.30% of sustainable investments

- with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
- with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
- with a social objective

It promoted E/S characteristics, but **did not make any sustainable investments**

All actual data within this periodic report are calculated on the closing date of the accounting year.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and/or social characteristics promoted by this financial product included;

FAM Evolution ICAV

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

a. Minimum investment in funds in scope of Article 8 and 9 of the SFDR

The Fund invested 92.92% in Underlying Funds which fall within the meaning of either Article 8 or Article 9 of the SFDR, which means, that the majority of the Underlying Funds which the Fund held promoted environmental and social characteristics while investing in companies which follow good governance practices.

b. Positive Screening

Consideration of ESG factors were a key element of portfolio construction/fund selection. Portfolio managers took a holistic approach which included the analysis of ESG factors as part of their overall risk adjusted valuation assessment. This supported the overall promotion of investment in funds which the Manager deems desirable on ESG grounds. By incorporating positive ESG factors as part of the overall portfolio construction/fund selection, the Fund through its investments, supported a tilt towards investment in Underlying Funds that have a more positive impact on the environment or society at large.

c. Fund Level ESG Scoring

A monthly independent analysis and classification of the Fund's ESG score was performed internally by the Manager. A minimum ESG score of "A" was applied at Fund Level to ensure that the Fund's ESG score did not fall below a level deemed by the Manager to be appropriate for a fund promoting environmental and/or social characteristics. This additional control served to highlight a minimum Fund level ESG score and promoted engagement and challenge of portfolio managers on ESG topics.

No reference benchmark was designated for the purpose of attaining the environmental or social characteristics promoted.

● ***How did the sustainability indicators perform?***

The following sustainability indicators were used to measure the attainment of the environmental and social characteristics promoted by the Fund;

- i. The percentage of the Fund portfolio made in sustainable investments was 46.30% as at 31 December 2022.
- ii. the percentage of the Fund's Underlying Fund holdings rated A or above by MSCI ESG Manager (or another corresponding rating from a similar rating provider) was 100.06% of holdings as at 31 December 2022.

● ***...and compared to previous periods?***

Not applicable for the first periodic report.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Sustainable Finance Disclosure Regulation (SFDR) (continued)

- *What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?*

Please note that the Fund currently follows a fund of funds investment approach and can invest principally in underlying open-ended UCIs and UCITS (as well as other permissible instruments). The Management Company therefore relies on data provided by the investment managers of the underlying fund investments when calculating the percentage proportion of sustainable investment of the Fund and when calculating the percentages required in the section below dealing with the asset allocation of the Fund.

The objectives of the sustainable investments that the Fund made was to promote environmental and/or social characteristics. On the basis that the Fund is currently following a fund of funds investment approach, the objectives of the sustainable investments that the Fund partially intends to make is linked to the sustainable investments made by the Underlying Funds. The Fund sought to make investments in Underlying Funds that committed/partially committed to invest in sustainable investments and who had a process for ensuring that their sustainable investments met the following criteria;

- a. Made in investee companies that demonstrate good governance;
- b. Made in a manner that demonstrates that they do no significant harm to other environmental objectives; and
- c. Made in investee companies that make a positive contribution towards an environmental or social objective. The Fund allocates between Underlying Funds which make sustainable investments of any type, i.e. investments with an environmental, and/or a social objective. The Fund did not favour any specific type of sustainable investment.

As at 31 December the Fund had a proportion of 46.30% of sustainable investments

- *How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?*

The sustainable investments that the Fund makes did not cause significant harm to any environmental or social sustainable investment objective based on the policies adopted by the relevant Underlying Fund investment managers. These policies are considered as part of the Manager's initial and ongoing investment due diligence procedures and are assessed for alignment with the indicators set out in Table 1 and any relevant additional indicator from Tables 2 and 3 of Annex I of the Delegated Regulation.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

FAM Evolution ICAV

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

— — — *How were the indicators for adverse impacts on sustainability factors taken into account?*

Principal adverse impact (“PAI”) indicators were calculated at both the Fund level and the Underlying Fund level. The results were compared with that of a chosen proxy benchmark representative of the Fund’s investment universe and/or peers. These calculations are used as the basis of assessment of adverse impacts on sustainability factors in order to determine whether the Manager could improve at Fund level and/or where Manager could engage with Underlying Fund investment managers to improve at the Underlying Fund level.

The Fund considered the following principal adverse sustainability impacts indicators for the proportion of assets qualified as sustainable investments:

Corporate mandatory indicators:

1. GreenHouse Gas (GHG) Emissions
2. Carbon footprint
3. GHG intensity of investee companies
4. Exposure to companies active in the fossil fuel sector
5. Share of non-renewable energy consumption and production
6. Energy consumption intensity per high impact climate sector
7. Activities negatively affecting biodiversity sensitive areas
8. Emissions to water
9. Hazardous waste ratio
10. Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises
11. Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact principles and OECD Guidelines for Multinational Enterprises
12. Unadjusted gender pay gap
13. Board gender diversity
14. Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons)

FAM Evolution ICAV

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

Corporate voluntary indicators: Environment

4. Investments in companies without carbon emission reduction initiatives Social

Corporate voluntary indicators: Social

9. Lack of a human rights policy

Sovereign mandatory indicator:

15. GHG intensity
16. Investee countries subject to social violations

— — — *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:*

The sustainable investments which the Fund made in the Underlying Funds and their alignment with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights were assessed in the following ways;

1. Via PAI monitoring of the following indicators;
 - Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises
 - Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact principles and OECD Guidelines for Multinational Enterprises
2. Through engagement with the Underlying Fund investment managers to ensure that the sustainable investments that the Underlying Funds made are:
 - a. Made in investee companies that demonstrate good governance;
 - b. Made in a manner that demonstrates that they do no significant harm to other environmental objectives; and
 - c. Made in investee companies that make a positive contribution towards an environmental or social objective.

FAM Evolution ICAV

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The Manager considered principal adverse impacts of its investment decisions on sustainability factors on an ongoing basis by monitoring the Fund portfolio against mandatory and additional PAI indicators and as part of its investment decision making process and investment due diligence process and procedures. Principal adverse impacts were prioritized based on materiality relative to the objectives or characteristics of the Fund, provided that all minimum standards are met. The results were compared with that of a chosen proxy benchmark representative of the Fund’s investment universe and/or peers. These calculations formed the basis of assessment of adverse impacts on sustainability factors in order to determine what the Portfolio Managers could improve at Fund level and where the Portfolio Managers could engage with relevant issuers to improve on such indicators.

The specific PAI indicators that were taken into consideration for this product were;

Corporate mandatory indicators:

1. GreenHouse Gas (GHG) Emissions
2. Carbon footprint
3. GHG intensity of investee companies
4. Exposure to companies active in the fossil fuel sector
5. Share of non-renewable energy consumption and production
6. Energy consumption intensity per high impact climate sector
7. Activities negatively affecting biodiversity sensitive areas
8. Emissions to water

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and/or social characteristics promoted by this financial product included;

FAM Evolution ICAV

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

a. Minimum investment in funds in scope of Article 8 and 9 of the SFDR

The Sub-Fund invested 92.77% in Underlying Funds which fall within the meaning of either Article 8 or Article 9 of the SFDR, which means, that the majority of the Underlying Funds which The Sub-Fund held promoted environmental and social characteristics while investing in companies which follow good governance practices.

b. Positive Screening

Consideration of ESG factors was a key element of portfolio construction/fund selection. Portfolio managers took a holistic approach which included the analysis of ESG factors as part of their overall risk adjusted valuation assessment. This supported the overall promotion of investment in funds which the Manager deems desirable on ESG grounds. By incorporating positive ESG factors as part of the overall portfolio construction/fund selection, The Sub-Fund through its investments, supported a tilt towards investment in Underlying Funds that have a more positive impact on the environment or society at large.

c. Fund Level ESG Scoring

A monthly independent analysis and classification of The Sub-Fund's ESG score was performed internally by the Manager. A minimum ESG score of "A" was applied at Fund Level to ensure that The Sub-Fund's ESG score did not fall below a level deemed by the Manager to be appropriate for a fund promoting environmental and/or social characteristics. This additional control served to highlight a minimum Fund level ESG score and promoted engagement and challenge of portfolio managers on ESG topics.

d. Negative Screening (Norm-based exclusions)

For any direct holdings the Manager applied norms-based exclusions based on its Exclusion Policy. Exclusion categories considered in the Exclusion Policy were:

- United Nations Global Compact Principles
- Controversial Weapons
- Tobacco
- Climate Change
- Forced Labour

No reference benchmark was designated for the purpose of attaining the environmental or social characteristics promoted.

● ***How did the sustainability indicators perform?***

The following sustainability indicators were used to measure the attainment of the environmental and social characteristics promoted by The Sub-Fund;

- i. the percentage of The Sub-Fund's Underlying Fund holdings rated A or above by MSCI ESG Manager (or another corresponding rating from a similar rating provider) which was 98.02% of holdings as at 31 December 2022

● ***...and compared to previous periods?***

Not applicable for the first periodic report.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

FAM Evolution ICAV

Sustainable Finance Disclosure Regulation (SFDR) (continued)

- *What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?*

Please note that The Sub-Fund currently follows a fund of funds investment approach and can invest principally in underlying open-ended UCIs and UCITS (as well as other permissible instruments). The Management Company therefore relies on data provided by the investment managers of the underlying fund investments when calculating the percentage proportion of sustainable investment of The Sub-Fund and when calculating the percentages required in the section below dealing with the asset allocation of The Sub-Fund.

The objectives of the sustainable investments that The Sub-Fund made was to promote environmental and/or social characteristics. On the basis that The Sub-Fund is currently following a fund of funds investment approach, the objectives of the sustainable investments that The Sub-Fund partially intends to make is linked to the sustainable investments made by the Underlying Funds. The Sub-Fund sought to make investments in Underlying Funds that committed/partially committed to invest in sustainable investments and who had a process for ensuring that their sustainable investments met the following criteria;

- Made in investee companies that demonstrate good governance;
- Made in a manner that demonstrates that they do no significant harm to other environmental objectives; and
- Made in investee companies that make a positive contribution towards an environmental or social objective. The Sub-Fund allocated between Underlying Funds which make sustainable investments of any type, i.e. investments with an environmental, and/or a social objective. The Sub-Fund did not favour any specific type of sustainable investment.

As at 31 December The Sub-Fund had a proportion of 54.50% of sustainable investments

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

FAM Evolution ICAV

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

The sustainable investments that the Sub-Fund made did not cause significant harm to any environmental or social sustainable investment objective based on the policies adopted by the relevant Underlying Fund investment managers. These policies are considered as part of the Manager's initial and ongoing investment due diligence procedures and are assessed for alignment with the indicators set out in Table 1 and any relevant additional indicator from Tables 2 and 3 of Annex I of the Delegated Regulation.

How were the indicators for adverse impacts on sustainability factors taken into account?

Principal adverse impact ("PAI") indicators were calculated at both the Sub-Fund level and the Underlying Fund level. The results were compared with that of a chosen proxy benchmark representative of The Sub-Fund's investment universe and/or peers. These calculations were used as the basis of assessment of adverse impacts on sustainability factors in order to determine whether the Manager could improve at Fund level and/or where Manager could engage with Underlying Fund investment managers to improve at the Underlying Fund level.

The Sub-Fund considered the following principal adverse sustainability impacts indicators for the proportion of assets qualified as sustainable investments:

Corporate mandatory indicators:

1. GreenHouse Gas (GHG) Emissions
2. Carbon footprint
3. GHG intensity of investee companies
4. Exposure to companies active in the fossil fuel sector
5. Share of non-renewable energy consumption and production
6. Energy consumption intensity per high impact climate sector
7. Activities negatively affecting biodiversity sensitive areas
8. Emissions to water

FAM Evolution ICAV

Sustainable Finance Disclosure Regulation (SFDR) (continued)

9. Hazardous waste ratio
10. Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises
11. Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact principles and OECD Guidelines for Multinational Enterprises
12. Unadjusted gender pay gap
13. Board gender diversity
14. Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons)

Corporate voluntary indicators: Environment

4. Investments in companies without carbon emission reduction initiatives Social

Corporate voluntary indicators: Social

9. Lack of a human rights policy

Sovereign mandatory indicator:

15. GHG intensity
16. Investee countries subject to social violations

— — — *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:*

The sustainable investments which the Sub-Fund made in the Underlying Funds and their alignment with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights were assessed in the following ways;

- a. Via PAI monitoring of the following indicators;
 - Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises
 - Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact principles and OECD Guidelines for Multinational Enterprises

FAM Evolution ICAV

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

- b. Through engagement with the Underlying Fund investment managers to ensure that the sustainable investments that the Underlying Funds made are:
- Made in investee companies that demonstrate good governance;
 - Made in a manner that demonstrates that they do no significant harm to other environmental objectives; and
 - Made in investee companies that make a positive contribution towards an environmental or social objective.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The Manager considered principal adverse impacts of its investment decisions on sustainability factors on an ongoing basis by monitoring The Sub-Fund portfolio against mandatory and additional PAI indicators and as part of its investment decision making process and investment due diligence process and procedures. Principal adverse impacts were prioritized based on materiality relative to the objectives or characteristics of The Sub-Fund, provided that all minimum standards are met. The results were compared with that of a chosen proxy benchmark representative of The Sub-Fund’s investment universe and/or peers. These calculations formed the basis of assessment of adverse impacts on sustainability factors in order to determine what the Portfolio Managers could improve at Fund level and where the Portfolio Managers could engage with relevant issuers to improve on such indicators.

The specific PAI indicators that were taken into consideration for this product were;

Corporate mandatory indicators:

1. GreenHouse Gas (GHG) Emissions

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● *In which economic sectors were the investments made?*

Largest investments	% Assets
Open-ended investment funds	100.00%

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

As the investments underlying this Fund do not take into account the EU criteria for environmentally sustainable economic activities within the meaning of the Taxonomy Regulation, The Sub-Fund's portfolio alignment with the Taxonomy Regulation was not calculated. It follows that The Sub-Fund does not currently commit to investing more than 0% of its assets in investments aligned with the Taxonomy.

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?**

- Yes:
- In fossil gas In nuclear energy
- No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Sustainable Finance Disclosure Regulation (SFDR) (continued)

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

● What was the share of investments made in transitional and enabling activities?

The share of investments in transitional and enabling activities within the meaning of the EU Taxonomy Regulations was 0% for transitional activities and 0% for enabling activities.

● How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not applicable for the first periodic report.

● What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

The share of sustainable investments with an environmental objective that was not aligned with the European Taxonomy Regulation is 35.64%.

 are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

FAM Evolution ICAV

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

What was the share of socially sustainable investments?

Socially sustainable investments represented 28.20% of the financial product.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The remaining investments of the Sub-Fund included cash and cash equivalents for liquidity purposes and derivatives which may be used for investment, risk reduction and hedging purposes.

Any “#2 Other” potential investments, other than cash or cash equivalents were screened according to the Manager’s exclusion policy.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Manager has integrated various house ESG policies and procedures to ensure the binding elements of the investment strategy used to select the investments to attain each of the environmental or social characteristics promoted by this product, such as a minimum investment in funds in scope of Article 8 and 9 of the SFDR, Positive Screening, Fund Level ESG Scoring and Negative Screening have been implemented and are monitored regularly.

Furthermore, The Sub-Fund invested 54.50% of its assets in “sustainable investments” as defined in Article 2 (17) of SFDR. Criteria to qualify an investment as “sustainable investment” are indicated in the above question “*What were the objectives of the sustainable investments that the financial product partially intends to make and does the sustainable investments contribute to such objectives?*”.

The Sub-Fund invested 92.77% in Underlying Funds which fall within the meaning of either Article 8 or Article 9 of the SFDR, which means, the majority of the Underlying Funds which The Sub-Fund held promoted environmental and social characteristics while investing in companies which follow good governance practices.

No reference benchmark was designated for the purpose of attaining the environmental or social characteristics promoted.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

ANNEX IV

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: FAM MegaTrends Target Boost
Legal entity identifier: 63540038YGAWX1RPBV64

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

Yes

It made **sustainable investments with an environmental objective**: ___%

in economic activities that qualify as environmentally sustainable under the EU Taxonomy

in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made **sustainable investments with a social objective**: ___%

No

It promoted **Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of 45.01% of sustainable investments

with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy

with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

with a social objective

It promoted E/S characteristics, but **did not make any sustainable investments**

All actual data within this periodic report are calculated on the closing date of the accounting year.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and/or social characteristics promoted by this financial product included;

FAM Evolution ICAV

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

a. Minimum investment in funds in scope of Article 8 and 9 of the SFDR

The Fund invested 91.22% in Underlying Funds which fall within the meaning of either Article 8 or Article 9 of the SFDR, which means, that the majority of the Underlying Funds which the Fund held promoted environmental and social characteristics while investing in companies which follow good governance practices.

b. Positive Screening

Consideration of ESG factors were a key element of portfolio construction/fund selection. Portfolio managers took a holistic approach which included the analysis of ESG factors as part of their overall risk adjusted valuation assessment. This supported the overall promotion of investment in funds which the Manager deems desirable on ESG grounds. By incorporating positive ESG factors as part of the overall portfolio construction/fund selection, the Fund through its investments, supported a tilt towards investment in Underlying Funds that have a more positive impact on the environment or society at large.

c. Fund Level ESG Scoring

A monthly independent analysis and classification of the Fund's ESG score was performed internally by the Manager. A minimum ESG score of "A" was applied at Fund Level to ensure that the Fund's ESG score did not fall below a level deemed by the Manager to be appropriate for a fund promoting environmental and/or social characteristics. This additional control served to highlight a minimum Fund level ESG score and promoted engagement and challenge of portfolio managers on ESG topics.

No reference benchmark was designated for the purpose of attaining the environmental or social characteristics promoted.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

● ***How did the sustainability indicators perform?***

The following sustainability indicators were used to measure the attainment of the environmental and social characteristics promoted by the Fund;

- i. The percentage of the Fund portfolio made in sustainable investments was 45.01% as at 31 December 2022.
- ii. the percentage of the Fund's Underlying Fund holdings rated A or above by MSCI ESG Manager (or another corresponding rating from a similar rating provider) was 98.66% of holdings as at 31 December 2022.

● ***...and compared to previous periods?***

Not applicable for the first periodic report.

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

- *What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?*

Please note that the Fund currently follows a fund of funds investment approach and can invest principally in underlying open-ended UCIs and UCITS (as well as other permissible instruments). The Management Company therefore relies on data provided by the investment managers of the underlying fund investments when calculating the percentage proportion of sustainable investment of the Fund and when calculating the percentages required in the section below dealing with the asset allocation of the Fund.

The objectives of the sustainable investments that the Fund made was to promote environmental and/or social characteristics. On the basis that the Fund is currently following a fund of funds investment approach, the objectives of the sustainable investments that the Fund partially intends to make is linked to the sustainable investments made by the Underlying Funds. The Fund sought to make investments in Underlying Funds that committed/partially committed to invest in sustainable investments and who had a process for ensuring that their sustainable investments met the following criteria;

- Made in investee companies that demonstrate good governance;
- Made in a manner that demonstrates that they do no significant harm to other environmental objectives; and
- Made in investee companies that make a positive contribution towards an environmental or social objective. The Fund allocates between Underlying Funds which make sustainable investments of any type, i.e. investments with an environmental, and/or a social objective. The Fund did not favour any specific type of sustainable investment.

As at 31 December the Fund had a proportion of 45.01% of sustainable investments

- *How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?*

The sustainable investments that the Fund makes did not cause significant harm to any environmental or social sustainable investment objective based on the policies adopted by the relevant Underlying Fund investment managers. These policies are considered as part of the Manager's initial and ongoing investment due diligence procedures and are assessed for alignment with the indicators set out in Table 1 and any relevant additional indicator from Tables 2 and 3 of Annex I of the Delegated Regulation.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

FAM Evolution ICAV

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

— — — *How were the indicators for adverse impacts on sustainability factors taken into account?*

Principal adverse impact (“PAI”) indicators were calculated at both the Fund level and the Underlying Fund level. The results were compared with that of a chosen proxy benchmark representative of the Fund’s investment universe and/or peers. These calculations are used as the basis of assessment of adverse impacts on sustainability factors in order to determine whether the Manager could improve at Fund level and/or where Manager could engage with Underlying Fund investment managers to improve at the Underlying Fund level.

The Fund considered the following principal adverse sustainability impacts indicators for the proportion of assets qualified as sustainable investments:

Corporate mandatory indicators:

1. GreenHouse Gas (GHG) Emissions
2. Carbon footprint
3. GHG intensity of investee companies
4. Exposure to companies active in the fossil fuel sector
5. Share of non-renewable energy consumption and production
6. Energy consumption intensity per high impact climate sector
7. Activities negatively affecting biodiversity sensitive areas
8. Emissions to water
9. Hazardous waste ratio
10. Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises
11. Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact principles and OECD Guidelines for Multinational Enterprises
12. Unadjusted gender pay gap
13. Board gender diversity
14. Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons)

FAM Evolution ICAV

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

Corporate voluntary indicators: Environment

4. Investments in companies without carbon emission reduction initiatives Social

Corporate voluntary indicators: Social

9. Lack of a human rights policy

Sovereign mandatory indicator:

15. GHG intensity
16. Investee countries subject to social violations

— — — *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:*

The sustainable investments which the Fund made in the Underlying Funds and their alignment with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights were assessed in the following ways;

1. Via PAI monitoring of the following indicators;
 - Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises
 - Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact principles and OECD Guidelines for Multinational Enterprises
2. Through engagement with the Underlying Fund investment managers to ensure that the sustainable investments that the Underlying Funds made are:
 - a. Made in investee companies that demonstrate good governance:
 - b. Made in a manner that demonstrates that they do no significant harm to other environmental objectives; and
 - c. Made in investee companies that make a positive contribution towards an environmental or social objective.

FAM Evolution ICAV

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The Manager considered principal adverse impacts of its investment decisions on sustainability factors on an ongoing basis by monitoring the Fund portfolio against mandatory and additional PAI indicators and as part of its investment decision making process and investment due diligence process and procedures. Principal adverse impacts were prioritized based on materiality relative to the objectives or characteristics of the Fund, provided that all minimum standards are met. The results were compared with that of a chosen proxy benchmark representative of the Fund’s investment universe and/or peers. These calculations formed the basis of assessment of adverse impacts on sustainability factors in order to determine what the Portfolio Managers could improve at Fund level and where the Portfolio Managers could engage with relevant issuers to improve on such indicators.

The specific PAI indicators that were taken into consideration for this product were;

Corporate mandatory indicators:

1. GreenHouse Gas (GHG) Emissions
2. Carbon footprint
3. GHG intensity of investee companies
4. Exposure to companies active in the fossil fuel sector
5. Share of non-renewable energy consumption and production
6. Energy consumption intensity per high impact climate sector
7. Activities negatively affecting biodiversity sensitive areas
8. Emissions to water

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● ***In which economic sectors were the investments made?***

Largest investments	% Assets
Open-ended investment funds	98.66%

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

As the investments underlying this Fund do not take into account the EU criteria for environmentally sustainable economic activities within the meaning of the Taxonomy Regulation, the Fund’s portfolio alignment with the Taxonomy Regulation is not calculated. It follows that the Fund does not currently commit to investing more than 0% of its assets in investments aligned with the Taxonomy.

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?**

- Yes:
- In fossil gas In nuclear energy
- No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

● What was the share of investments made in transitional and enabling activities?

The share of investments in transitional and enabling activities within the meaning of the Regulations Taxonomy is 0% for transitional activities and 0% for enabling activities.

FAM Evolution ICAV

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

- *How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?*

Not applicable for the first periodic report.

 are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

The share of sustainable investments with an environmental objective that are not aligned with the European Taxonomy Regulation is 32.07%

What was the share of socially sustainable investments?

Socially sustainable investments represent 16.23% of the financial product.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The remaining investments of the Fund includes cash and cash equivalents for liquidity purposes and derivatives which may be used for investment, risk reduction and hedging purposes.

Any “#2 Other” potential investments, other than cash or cash equivalents are screened according to the managers exclusion policy.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Manager has integrated various house ESG policies and procedures to ensure the binding elements of the investment strategy used to select the investments to attain each of the environmental or social characteristics promoted by this product, such as a minimum investment in funds in scope of Article 8 and 9 of the SFDR, Positive Screening and Fund Level ESG Scoring have been implemented and are monitored regularly.

Furthermore, the Fund invested 45.01% of its assets in “sustainable investments” as defined in Article 2 (17) of SFDR. Criteria to qualify an investment as “sustainable investment” are indicated in the above question “*What are the objectives of the sustainable investments that the financial product partially intends to make and does the sustainable investments contribute to such objectives?*”.

The Fund invested 91.22% in Underlying Funds which fall within the meaning of either Article 8 or Article 9 of the SFDR, which means, the majority of the Underlying Funds which the Fund held promoted environmental and social characteristics while investing in companies which follow good governance practices.

No reference benchmark was designated for the purpose of attaining the environmental or social characteristics promoted.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Sustainable Finance Disclosure Regulation (SFDR) (continued)

ANNEX IV

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: FAM Sustainable Target Boost
Legal entity identifier: 635400ECCUJ8A7UQ3H06

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?	
Yes	No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ____% <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy 	<input checked="" type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 68.93% of sustainable investments <ul style="list-style-type: none"> <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with a social objective
<input type="checkbox"/> It made sustainable investments with a social objective: ____%	<input type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

All actual data within this periodic report are calculated on the closing date of the accounting year.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and/or social characteristics promoted by this financial product included;

FAM Evolution ICAV

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

a. Minimum investment in funds in scope of Article 8 and 9 of the SFDR

The Sub-Fund invested 99.60% in Underlying Funds which fall within the meaning of either Article 8 or Article 9 of the SFDR, which means, that the majority of the Underlying Funds which The Sub-Fund held promoted environmental and social characteristics while investing in companies which follow good governance practices.

b. Positive Screening

Consideration of ESG factors was a key element of portfolio construction/fund selection. Portfolio managers took a holistic approach which included the analysis of ESG factors as part of their overall risk adjusted valuation assessment. This supported the overall promotion of investment in funds which the Manager deems desirable on ESG grounds. By incorporating positive ESG factors as part of the overall portfolio construction/fund selection, The Sub-Fund through its investments, supported a tilt towards investment in Underlying Funds that have a more positive impact on the environment or society at large.

c. Fund Level ESG Scoring

A monthly independent analysis and classification of The Sub-Fund's ESG score was performed internally by the Manager. A minimum ESG score of "A" was applied at Fund Level to ensure that The Sub-Fund's ESG score did not fall below a level deemed by the Manager to be appropriate for a fund promoting environmental and/or social characteristics. This additional control served to highlight a minimum Fund level ESG score and promoted engagement and challenge of portfolio managers on ESG topics.

d. Negative Screening (Norm-based exclusions)

For any direct holdings the Manager applied norms-based exclusions based on its Exclusion Policy. Exclusion categories considered in the Exclusion Policy were:

- United Nations Global Compact Principles
- Controversial Weapons
- Tobacco
- Climate Change
- Forced Labour

No reference benchmark was designated for the purpose of attaining the environmental or social characteristics promoted.

● ***How did the sustainability indicators perform?***

The following sustainability indicators were used to measure the attainment of the environmental and social characteristics promoted by The Sub-Fund;

- i. the percentage of The Sub-Fund's Underlying Fund holdings rated A or above by MSCI ESG Manager (or another corresponding rating from a similar rating provider) which was 99.60% of holdings as at 31 December 2022

● ***...and compared to previous periods?***

Not applicable for the first periodic report.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

FAM Evolution ICAV

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

- *What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?*

Please note that The Sub-Fund currently follows a fund of funds investment approach and can invest principally in underlying open-ended UCIs and UCITS (as well as other permissible instruments). The Management Company therefore relies on data provided by the investment managers of the underlying fund investments when calculating the percentage proportion of sustainable investment of The Sub-Fund and when calculating the percentages required in the section below dealing with the asset allocation of The Sub-Fund.

The objectives of the sustainable investments that The Sub-Fund made was to promote environmental and/or social characteristics. On the basis that The Sub-Fund is currently following a fund of funds investment approach, the objectives of the sustainable investments that The Sub-Fund partially intends to make is linked to the sustainable investments made by the Underlying Funds. The Sub-Fund sought to make investments in Underlying Funds that committed/partially committed to invest in sustainable investments and who had a process for ensuring that their sustainable investments met the following criteria;

- Made in investee companies that demonstrate good governance;
- Made in a manner that demonstrates that they do no significant harm to other environmental objectives; and
- Made in investee companies that make a positive contribution towards an environmental or social objective. The Sub-Fund allocated between Underlying Funds which make sustainable investments of any type, i.e. investments with an environmental, and/or a social objective. The Sub-Fund did not favour any specific type of sustainable investment.

As at 31 December The Sub-Fund had a proportion of 68.93% of sustainable investments

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

The sustainable investments that the Sub-Fund made did not cause significant harm to any environmental or social sustainable investment objective based on the policies adopted by the relevant Underlying Fund investment managers. These policies are considered as part of the Manager's initial and ongoing investment due diligence procedures and are assessed for alignment with the indicators set out in Table 1 and any relevant additional indicator from Tables 2 and 3 of Annex I of the Delegated Regulation.

How were the indicators for adverse impacts on sustainability factors taken into account?

Principal adverse impact ("PAI") indicators were calculated at both the Sub-Fund level and the Underlying Fund level. The results were compared with that of a chosen proxy benchmark representative of The Sub-Fund's investment universe and/or peers. These calculations were used as the basis of assessment of adverse impacts on sustainability factors in order to determine whether the Manager could improve at Fund level and/or where Manager could engage with Underlying Fund investment managers to improve at the Underlying Fund level.

The Sub-Fund considered the following principal adverse sustainability impacts indicators for the proportion of assets qualified as sustainable investments:

Corporate mandatory indicators:

1. GreenHouse Gas (GHG) Emissions
2. Carbon footprint
3. GHG intensity of investee companies
4. Exposure to companies active in the fossil fuel sector
5. Share of non-renewable energy consumption and production
6. Energy consumption intensity per high impact climate sector
7. Activities negatively affecting biodiversity sensitive areas
8. Emissions to water

FAM Evolution ICAV

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

9. Hazardous waste ratio
10. Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises
11. Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact principles and OECD Guidelines for Multinational Enterprises
12. Unadjusted gender pay gap
13. Board gender diversity
14. Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons)

Corporate voluntary indicators: Environment

4. Investments in companies without carbon emission reduction initiatives Social

Corporate voluntary indicators: Social

9. Lack of a human rights policy

Sovereign mandatory indicator:

15. GHG intensity
16. Investee countries subject to social violations

— — — *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:*

The sustainable investments which the Sub-Fund made in the Underlying Funds and their alignment with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights were assessed in the following ways;

- a. Via PAI monitoring of the following indicators;
 - Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises
 - Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact principles and OECD Guidelines for Multinational Enterprises

FAM Evolution ICAV

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

- b. Through engagement with the Underlying Fund investment managers to ensure that the sustainable investments that the Underlying Funds made are:
- Made in investee companies that demonstrate good governance;
 - Made in a manner that demonstrates that they do no significant harm to other environmental objectives; and
 - Made in investee companies that make a positive contribution towards an environmental or social objective.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The Manager considered principal adverse impacts of its investment decisions on sustainability factors on an ongoing basis by monitoring The Sub-Fund portfolio against mandatory and additional PAI indicators and as part of its investment decision making process and investment due diligence process and procedures. Principal adverse impacts were prioritized based on materiality relative to the objectives or characteristics of The Sub-Fund, provided that all minimum standards are met. The results were compared with that of a chosen proxy benchmark representative of The Sub-Fund’s investment universe and/or peers. These calculations formed the basis of assessment of adverse impacts on sustainability factors in order to determine what the Portfolio Managers could improve at Fund level and where the Portfolio Managers could engage with relevant issuers to improve on such indicators.

The specific PAI indicators that were taken into consideration for this product were;

Corporate mandatory indicators:

1. GreenHouse Gas (GHG) Emissions

FAM Evolution ICAV

Asset allocation describes the share of investments in specific assets.

What was the proportion of sustainability-related investments?

68.93%

● *What was the asset allocation?*

99.60% of The Sub-Fund's Investments were aligned with the environmental and/or social characteristics promoted by The Sub-Fund.

The Sub-Fund also committed to a minimum proportion of 45% in sustainable investments and as at 31 December the Fund had a proportion of 68.93% of sustainable investments. The remaining investments of the Sub-Fund were invested in cash and cash equivalents for liquidity purposes and derivatives which may be used for investment, risk reduction and hedging purposes. Calculations may rely on incomplete or inaccurate underlying fund manager data and/or company or third-party data.

FAM Evolution ICAV

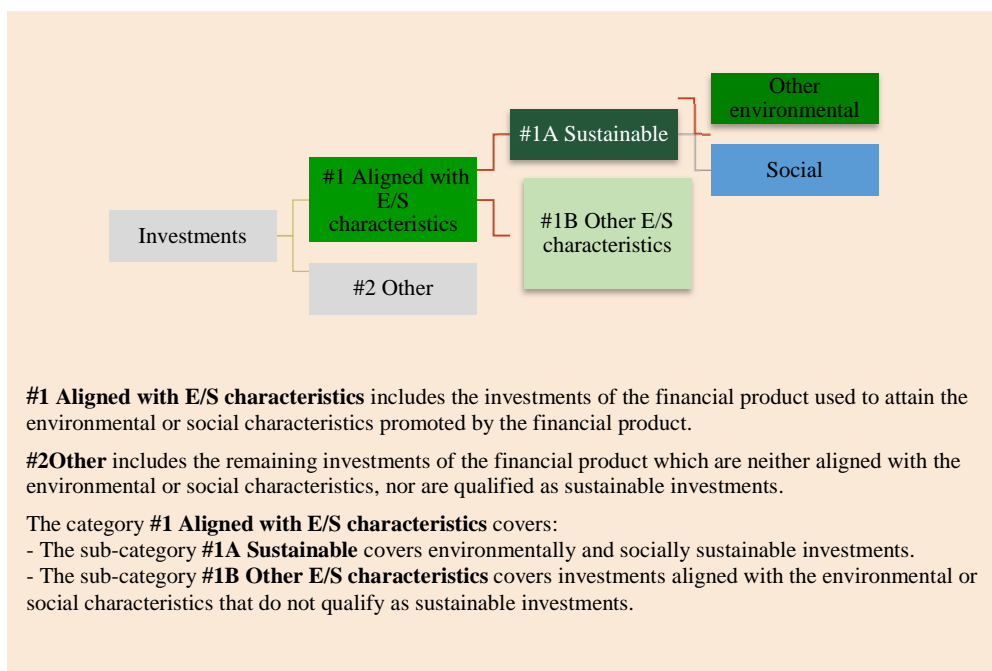

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● *In which economic sectors were the investments made?*

Largest investments	% Assets
Open-ended investment funds	99.60%

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

As the investments underlying this Fund do not take into account the EU criteria for environmentally sustainable economic activities within the meaning of the Taxonomy Regulation, The Sub-Fund's portfolio alignment with the Taxonomy Regulation was not calculated. It follows that The Sub-Fund does not currently commit to investing more than 0% of its assets in investments aligned with the Taxonomy.

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?**

- Yes:
- In fossil gas In nuclear energy
- No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

FAM Evolution ICAV

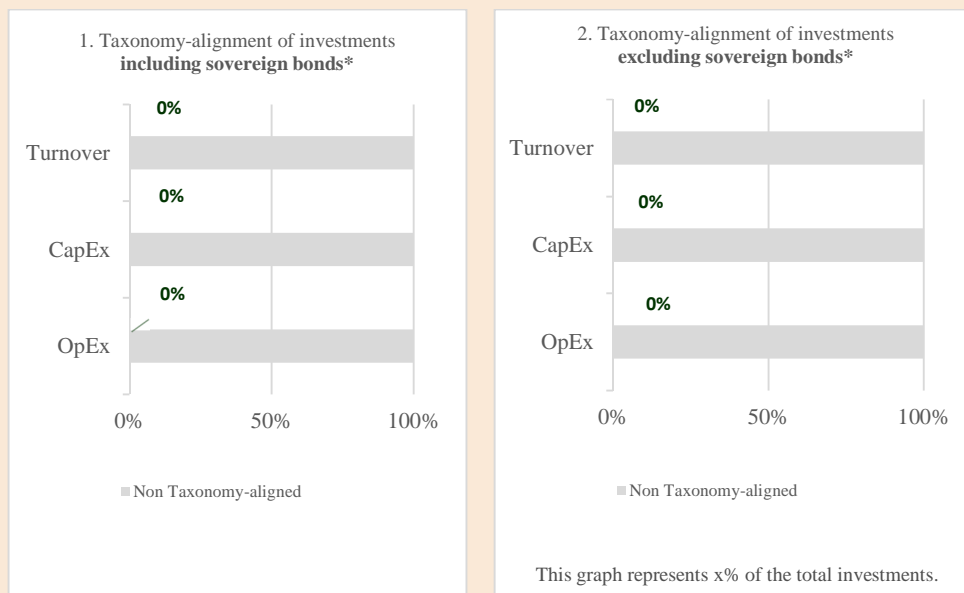

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

● What was the share of investments made in transitional and enabling activities?

The share of investments in transitional and enabling activities within the meaning of the EU Taxonomy Regulations was 0% for transitional activities and 0% for enabling activities.

● How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not applicable for the first periodic report.

● What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

The share of sustainable investments with an environmental objective that was not aligned with the European Taxonomy Regulation is 43.09%.

 are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

<p><input checked="" type="radio"/> <input checked="" type="radio"/> <input type="checkbox"/> Yes</p> <p><input type="checkbox"/> It made sustainable investments with an environmental objective: ___%</p> <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <p><input type="checkbox"/> It made sustainable investments with a social objective: ___%</p>	<p><input checked="" type="radio"/> <input type="radio"/> <input checked="" type="checkbox"/> No</p> <p><input checked="" type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 44.73% of sustainable investments</p> <ul style="list-style-type: none"> <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with a social objective <p><input type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments</p>

All actual data within this periodic report are calculated on the closing date of the accounting year.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and/or social characteristics promoted by this financial product included;

a. Minimum investment in funds in scope of Article 8 and 9 of the SFDR

The Fund invested 91.33% in Underlying Funds which fall within the meaning of either Article 8 or Article 9 of the SFDR, which means, that the majority of the Underlying Funds which the Fund held promoted environmental and social characteristics while investing in companies which follow good governance practices.

FAM Evolution ICAV

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

b. Positive Screening

Consideration of ESG factors were a key element of portfolio construction/fund selection. Portfolio managers took a holistic approach which included the analysis of ESG factors as part of their overall risk adjusted valuation assessment. This supported the overall promotion of investment in funds which the Manager deems desirable on ESG grounds. By incorporating positive ESG factors as part of the overall portfolio construction/fund selection, the Fund through its investments, supported a tilt towards investment in Underlying Funds that have a more positive impact on the environment or society at large.

c. Fund Level ESG Scoring

A monthly independent analysis and classification of the Fund's ESG score was performed internally by the Manager. A minimum ESG score of "A" was applied at Fund Level to ensure that the Fund's ESG score did not fall below a level deemed by the Manager to be appropriate for a fund promoting environmental and/or social characteristics. This additional control served to highlight a minimum Fund level ESG score and promoted engagement and challenge of portfolio managers on ESG topics.

d. Negative Screening (Norm-based exclusions)

For any potential direct holdings the Manager applied norms-based exclusions based on its Exclusion Policy. Exclusion categories considered in the Exclusion Policy were:

- United Nations Global Compact Principles
- Controversial Weapons
- Tobacco
- Climate Change
- Forced Labour

No reference benchmark was designated for the purpose of attaining the environmental or social characteristics promoted.

● *How did the sustainability indicators perform?*

The following sustainability indicators were used to measure the attainment of the environmental and social characteristics promoted by the Fund;

- i. The percentage of the Fund portfolio made in sustainable investments was 44.73% as at 31 December 2022.
- ii. the percentage of the Fund's Underlying Fund holdings rated A or above by MSCI ESG Manager (or another corresponding rating from a similar rating provider) was 99.11% of holdings as at 31 December 2022

● *...and compared to previous periods?*

Not applicable for the first periodic report.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

FAM Evolution ICAV

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

- *What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?*

Please note that the Fund currently follows a fund of funds investment approach and can invest principally in underlying open-ended UCIs and UCITS (as well as other permissible instruments). The Management Company therefore relies on data provided by the investment managers of the underlying fund investments when calculating the percentage proportion of sustainable investment of the Fund and when calculating the percentages required in the section below dealing with the asset allocation of the Fund.

The objectives of the sustainable investments that the Fund made was to promote environmental and/or social characteristics. On the basis that the Fund is currently following a fund of funds investment approach, the objectives of the sustainable investments that the Fund partially intends to make is linked to the sustainable investments made by the Underlying Funds. The Fund sought to make investments in Underlying Funds that committed/partially committed to invest in sustainable investments and who had a process for ensuring that their sustainable investments met the following criteria;

- Made in investee companies that demonstrate good governance;
- Made in a manner that demonstrates that they do no significant harm to other environmental objectives; and
- Made in investee companies that make a positive contribution towards an environmental or social objective. The Fund allocates between Underlying Funds which make sustainable investments of any type, i.e. investments with an environmental, and/or a social objective. The Fund did not favour any specific type of sustainable investment.

As at 31 December the Fund had a proportion of 44.73% of sustainable investments

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

FAM Evolution ICAV

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

The sustainable investments that the Fund makes did not cause significant harm to any environmental or social sustainable investment objective based on the policies adopted by the relevant Underlying Fund investment managers. These policies are considered as part of the Manager's initial and ongoing investment due diligence procedures and are assessed for alignment with the indicators set out in Table 1 and any relevant additional indicator from Tables 2 and 3 of Annex I of the Delegated Regulation.

How were the indicators for adverse impacts on sustainability factors taken into account?

Principal adverse impact ("PAI") indicators were calculated at both the Fund level and the Underlying Fund level. The results were compared with that of a chosen proxy benchmark representative of the Fund's investment universe and/or peers. These calculations are used as the basis of assessment of adverse impacts on sustainability factors in order to determine whether the Manager could improve at Fund level and/or where Manager could engage with Underlying Fund investment managers to improve at the Underlying Fund level.

The Fund considered the following principal adverse sustainability impacts indicators for the proportion of assets qualified as sustainable investments:

Corporate mandatory indicators:

1. GreenHouse Gas (GHG) Emissions
2. Carbon footprint
3. GHG intensity of investee companies
4. Exposure to companies active in the fossil fuel sector
5. Share of non-renewable energy consumption and production
6. Energy consumption intensity per high impact climate sector
7. Activities negatively affecting biodiversity sensitive areas
8. Emissions to water
9. Hazardous waste ratio
10. Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises

FAM Evolution ICAV

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

11. Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact principles and OECD Guidelines for Multinational Enterprises
12. Unadjusted gender pay gap
13. Board gender diversity
14. Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons)

Corporate voluntary indicators: Environment

4. Investments in companies without carbon emission reduction initiatives Social

Corporate voluntary indicators: Social

9. Lack of a human rights policy

Sovereign mandatory indicator:

15. GHG intensity
16. Investee countries subject to social violations

— — — *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:*

The sustainable investments which the Fund made in the Underlying Funds and their alignment with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights were assessed in the following ways;

1. Via PAI monitoring of the following indicators;
 - Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises
 - Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact principles and OECD Guidelines for Multinational Enterprises

FAM Evolution ICAV

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

2. Through engagement with the Underlying Fund investment managers to ensure that the sustainable investments that the Underlying Funds made are:
 - a. Made in investee companies that demonstrate good governance:
 - b. Made in a manner that demonstrates that they do no significant harm to other environmental objectives; and
 - c. Made in investee companies that make a positive contribution towards an environmental or social objective.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The Manager considered principal adverse impacts of its investment decisions on sustainability factors on an ongoing basis by monitoring the Fund portfolio against mandatory and additional PAI indicators and as part of its investment decision making process and investment due diligence process and procedures. Principal adverse impacts were prioritized based on materiality relative to the objectives or characteristics of the Fund, provided that all minimum standards are met. The results were compared with that of a chosen proxy benchmark representative of the Fund’s investment universe and/or peers. These calculations formed the basis of assessment of adverse impacts on sustainability factors in order to determine what the Portfolio Managers could improve at Fund level and where the Portfolio Managers could engage with relevant issuers to improve on such indicators.

What was the proportion of sustainability-related investments?

44.73%

● What was the asset allocation?

99.11% of the Fund's Investments are aligned with the environmental and/or social characteristics promoted by the Fund. The Fund also commits to a minimum proportion of 20% in sustainable investments and as at 31 December the Fund had a proportion of 44.73% of sustainable investments. The remaining investments of the Fund were invested in cash and cash equivalents for liquidity purposes and derivatives which may be used for investment, risk reduction and hedging purposes. Calculations may rely on incomplete or inaccurate underlying fund manager data and/or company or third-party data.

Asset allocation describes the share of investments in specific assets.

FAM Evolution ICAV

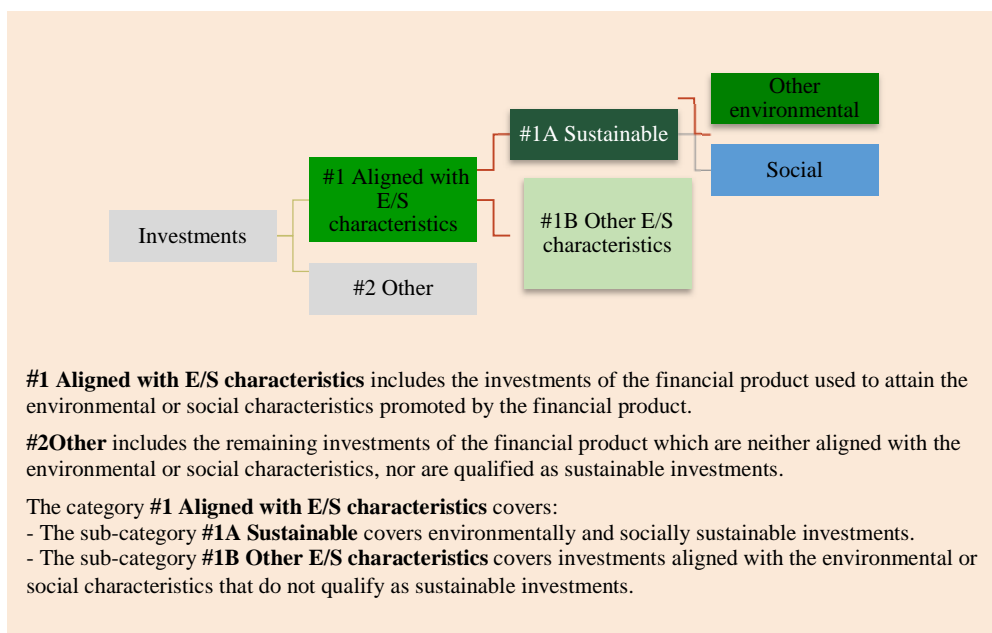

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● In which economic sectors were the investments made?

Largest investments	% Assets
Open-ended investment funds	99.11%

● To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

As the investments underlying this Fund do not take into account the EU criteria for environmentally sustainable economic activities within the meaning of the Taxonomy Regulation, the Fund's portfolio alignment with the Taxonomy Regulation is not calculated. It follows that the Fund does not currently commit to investing more than 0% of its assets in investments aligned with the Taxonomy.

● Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

- Yes:
- In fossil gas In nuclear energy
- No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

FAM Evolution ICAV

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

● What was the share of investments made in transitional and enabling activities?

The share of investments in transitional and enabling activities within the meaning of the Regulations Taxonomy is 0% for transitional activities and 0% for enabling activities.

● How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not applicable for the first periodic report.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

The share of sustainable investments with an environmental objective that are not aligned with the European Taxonomy Regulation is 31.69%.

What was the share of socially sustainable investments?

Socially sustainable investments represent 16.09% of the financial product.

 are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The remaining investments of the Fund includes cash and cash equivalents for liquidity purposes and derivatives which may be used for investment, risk reduction and hedging purposes.

Any “#2 Other” potential investments, other than cash or cash equivalents are screened according to the managers exclusion policy.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Manager has integrated various house ESG policies and procedures to ensure the binding elements of the investment strategy used to select the investments to attain each of the environmental or social characteristics promoted by this product, such as a minimum investment in funds in scope of Article 8 and 9 of the SFDR, Positive Screening, Fund Level ESG Scoring and Negative Screening have been implemented and are monitored regularly.

Furthermore, the Fund invested 44.73% of its assets in “sustainable investments” as defined in Article 2 (17) of SFDR. Criteria to qualify an investment as “sustainable investment” are indicated in the above question “*What are the objectives of the sustainable investments that the financial product partially intends to make and does the sustainable investments contribute to such objectives*”.

The Fund invested 91.33% in Underlying Funds which fall within the meaning of either Article 8 or Article 9 of the SFDR, which means, the majority of the Underlying Funds which the Fund held promoted environmental and social characteristics while investing in companies which follow good governance practices.

No reference benchmark was designated for the purpose of attaining the environmental or social characteristics promoted.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

How did this financial product perform compared to the reference benchmark?

- *How does the reference benchmark differ from a broad market index?*
Not applicable
- *How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?*
Not applicable
- *How did this financial product perform compared with the reference benchmark?*
Not applicable
- *How did this financial product perform compared with the broad market index?*
Not applicable

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

FAM Evolution ICAV

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

ANNEX IV

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: FAM Sustainable Target 2022

Legal entity identifier: 254900DMNS2CEBNTOH98

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

Yes

It made **sustainable investments with an environmental objective**: ___%

in economic activities that qualify as environmentally sustainable under the EU Taxonomy

in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made **sustainable investments with a social objective**: ___%

No

It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of 65.39% of sustainable investments

with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy

with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

with a social objective

It promoted E/S characteristics, but **did not make any sustainable investments**

All actual data within this periodic report are calculated on the closing date of the accounting year.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and/or social characteristics promoted by this financial product included;

FAM Evolution ICAV

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

a. Minimum investment in funds in scope of Article 8 and 9 of the SFDR

The Fund invested 98.77% in Underlying Funds which fall within the meaning of either Article 8 or Article 9 of the SFDR, which means, that the majority of the Underlying Funds which the Fund held promoted environmental and social characteristics while investing in companies which follow good governance practices.

b. Positive Screening

Consideration of ESG factors was a key element of portfolio construction/fund selection. Portfolio managers took a holistic approach which included the analysis of ESG factors as part of their overall risk adjusted valuation assessment. This supported the overall promotion of investment in funds which the Manager deems desirable on ESG grounds. By incorporating positive ESG factors as part of the overall portfolio construction/fund selection, the Fund through its investments, supported a tilt towards investment in Underlying Funds that have a more positive impact on the environment or society at large.

c. Fund Level ESG Scoring

A monthly independent analysis and classification of the Fund's ESG score was performed internally by the Manager. A minimum ESG score of "A" was applied at Fund Level to ensure that the Fund's ESG score did not fall below a level deemed by the Manager to be appropriate for a fund promoting environmental and/or social characteristics. This additional control served to highlight a minimum Fund level ESG score and promoted engagement and challenge of portfolio managers on ESG topics.

d. Negative Screening (Norm-based exclusions)

For any potential direct holdings the Manager applied norms-based exclusions based on its Exclusion Policy. Exclusion categories considered in the Exclusion Policy were:

- United Nations Global Compact Principles
- Controversial Weapons
- Tobacco
- Climate Change
- Forced Labour

No reference benchmark was designated for the purpose of attaining the environmental or social characteristics promoted.

● ***How did the sustainability indicators perform?***

The following sustainability indicators were used to measure the attainment of the environmental and social characteristics promoted by the Fund;

- i. The percentage of the Fund portfolio made in sustainable investments which was 65.39% as at 31 December 2022
- ii. the percentage of the Fund's Underlying Fund holdings rated A or above by MSCI ESG Manager (or another corresponding rating from a similar rating provider) which was 98.77% of holdings as at 31 December 2022

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

FAM Evolution ICAV

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

● *...and compared to previous periods?*

Not applicable for the first periodic report.

● *What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?*

Please note that the Fund currently follows a fund of funds investment approach and can invest principally in underlying open-ended UCIs and UCITS (as well as other permissible instruments). The Management Company therefore relies on data provided by the investment managers of the underlying fund investments when calculating the percentage proportion of sustainable investment of the Fund and when calculating the percentages required in the section below dealing with the asset allocation of the Fund.

The objectives of the sustainable investments that the Fund made was to promote environmental and/or social characteristics. On the basis that the Fund is currently following a fund of funds investment approach, the objectives of the sustainable investments that the Fund partially intends to make is linked to the sustainable investments made by the Underlying Funds. The Fund sought to make investments in Underlying Funds that committed/partially committed to invest in sustainable investments and who had a process for ensuring that their sustainable investments met the following criteria;

- a. Made in investee companies that demonstrate good governance;
- b. Made in a manner that demonstrates that they do no significant harm to other environmental objectives; and
- c. Made in investee companies that make a positive contribution towards an environmental or social objective. The Fund allocates between Underlying Funds which make sustainable investments of any type, i.e. investments with an environmental, and/or a social objective. The Fund did not favour any specific type of sustainable investment.

As at 31 December the Fund had a proportion of 65.39% of sustainable investments

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

The sustainable investments that the Fund made did not cause significant harm to any environmental or social sustainable investment objective based on the policies adopted by the relevant Underlying Fund investment managers. These policies are considered as part of the Manager's initial and ongoing investment due diligence procedures and are assessed for alignment with the indicators set out in Table 1 and any relevant additional indicator from Tables 2 and 3 of Annex I of the Delegated Regulation.

How were the indicators for adverse impacts on sustainability factors taken into account?

Principal adverse impact ("PAI") indicators were calculated at both the Fund level and the Underlying Fund level. The results were compared with that of a chosen proxy benchmark representative of the Fund's investment universe and/or peers. These calculations were used as the basis of assessment of adverse impacts on sustainability factors in order to determine whether the Manager could improve at Fund level and/or where Manager could engage with Underlying Fund investment managers to improve at the Underlying Fund level.

The Fund considered the following principal adverse sustainability impacts indicators for the proportion of assets qualified as sustainable investments:

Corporate mandatory indicators:

1. GreenHouse Gas (GHG) Emissions
2. Carbon footprint
3. GHG intensity of investee companies
4. Exposure to companies active in the fossil fuel sector
5. Share of non-renewable energy consumption and production
6. Energy consumption intensity per high impact climate sector
7. Activities negatively affecting biodiversity sensitive areas
8. Emissions to water
9. Hazardous waste ratio

FAM Evolution ICAV

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

10. Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises
11. Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact principles and OECD Guidelines for Multinational Enterprises
12. Unadjusted gender pay gap
13. Board gender diversity
14. Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons)

Corporate voluntary indicators: Environment

4. Investments in companies without carbon emission reduction initiatives Social

Corporate voluntary indicators: Social

9. Lack of a human rights policy

Sovereign mandatory indicator:

15. GHG intensity
16. Investee countries subject to social violations

— — — *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:*

The sustainable investments which the Fund made in the Underlying Funds and their alignment with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights were assessed in the following ways;

1. Via PAI monitoring of the following indicators;
 - Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises
 - Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact principles and OECD Guidelines for Multinational Enterprises

FAM Evolution ICAV

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

2. Through engagement with the Underlying Fund investment managers to ensure that the sustainable investments that the Underlying Funds made are:
 - a. Made in investee companies that demonstrate good governance;
 - b. Made in a manner that demonstrates that they do no significant harm to other environmental objectives; and
 - c. Made in investee companies that make a positive contribution towards an environmental or social objective.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The Manager considered principal adverse impacts of its investment decisions on sustainability factors on an ongoing basis by monitoring the Fund portfolio against mandatory and additional PAI indicators and as part of its investment decision making process and investment due diligence process and procedures. Principal adverse impacts were prioritized based on materiality relative to the objectives or characteristics of the Fund, provided that all minimum standards are met. The results were compared with that of a chosen proxy benchmark representative of the Fund’s investment universe and/or peers. These calculations formed the basis of assessment of adverse impacts on sustainability factors in order to determine what the Portfolio Managers could improve at Fund level and where the Portfolio Managers could engage with relevant issuers to improve on such indicators.

The specific PAI indicators that were taken into consideration for this product were;

Corporate mandatory indicators:

1. GreenHouse Gas (GHG) Emissions

FAM Evolution ICAV

ANNEX IV

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

<input type="checkbox"/> It made sustainable investments with an environmental objective: ___% <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input checked="" type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 52.84% of sustainable investments <ul style="list-style-type: none"> <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with a social objective <input type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

All actual data within this periodic report are calculated on the closing date of the accounting year.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and/or social characteristics promoted by this financial product included;

a. Minimum investment in funds in scope of Article 8 and 9 of the SFDR

The Fund invested 96.93% in Underlying Funds which fall within the meaning of either Article 8 or Article 9 of the SFDR, which means, that the majority of the Underlying Funds which the Fund held promoted environmental and social characteristics while investing in companies which follow good governance practices.

FAM Evolution ICAV

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

b. Positive Screening

Consideration of ESG factors were a key element of portfolio construction/fund selection. Portfolio managers took a holistic approach which included the analysis of ESG factors as part of their overall risk adjusted valuation assessment. This supported the overall promotion of investment in funds which the Manager deems desirable on ESG grounds. By incorporating positive ESG factors as part of the overall portfolio construction/fund selection, the Fund through its investments, supported a tilt towards investment in Underlying Funds that have a more positive impact on the environment or society at large.

c. Fund Level ESG Scoring

A monthly independent analysis and classification of the Fund's ESG score was performed internally by the Manager. A minimum ESG score of "A" was applied at Fund Level to ensure that the Fund's ESG score did not fall below a level deemed by the Manager to be appropriate for a fund promoting environmental and/or social characteristics. This additional control served to highlight a minimum Fund level ESG score and promoted engagement and challenge of portfolio managers on ESG topics.

d. Negative Screening (Norm-based exclusions)

For any potential direct holdings the Manager applied norms-based exclusions based on its Exclusion Policy. Exclusion categories considered in the Exclusion Policy were:

- United Nations Global Compact Principles
- Controversial Weapons
- Tobacco
- Climate Change
- Forced Labour

No reference benchmark was designated for the purpose of attaining the environmental or social characteristics promoted.

● ***How did the sustainability indicators perform?***

The following sustainability indicators were used to measure the attainment of the environmental and social characteristics promoted by the Fund;

- i. The percentage of the Fund portfolio made in sustainable investments was 52.84% as at 31 December 2022.
- ii. the percentage of the Fund's Underlying Fund holdings rated A or above by MSCI ESG Manager (or another corresponding rating from a similar rating provider) was 99.76% of holdings as at 31 December 2022.

● ***...and compared to previous periods?***

Not applicable for the first periodic report.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

FAM Evolution ICAV

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

- *What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?*

Please note that the Fund currently follows a fund of funds investment approach and can invest principally in underlying open-ended UCIs and UCITS (as well as other permissible instruments). The Management Company therefore relies on data provided by the investment managers of the underlying fund investments when calculating the percentage proportion of sustainable investment of the Fund and when calculating the percentages required in the section below dealing with the asset allocation of the Fund.

The objectives of the sustainable investments that the Fund made was to promote environmental and/or social characteristics. On the basis that the Fund is currently following a fund of funds investment approach, the objectives of the sustainable investments that the Fund partially intends to make is linked to the sustainable investments made by the Underlying Funds. The Fund sought to make investments in Underlying Funds that committed/partially committed to invest in sustainable investments and who had a process for ensuring that their sustainable investments met the following criteria;

- a. Made in investee companies that demonstrate good governance;
- b. Made in a manner that demonstrates that they do no significant harm to other environmental objectives; and
- c. Made in investee companies that make a positive contribution towards an environmental or social objective. The Fund allocates between Underlying Funds which make sustainable investments of any type, i.e. investments with an environmental, and/or a social objective. The Fund did not favour any specific type of sustainable investment.

As at 31 December the Fund had a proportion of 52.84% of sustainable investments

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

FAM Evolution ICAV

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

The sustainable investments that the Fund makes did not cause significant harm to any environmental or social sustainable investment objective based on the policies adopted by the relevant Underlying Fund investment managers. These policies are considered as part of the Manager's initial and ongoing investment due diligence procedures and are assessed for alignment with the indicators set out in Table 1 and any relevant additional indicator from Tables 2 and 3 of Annex I of the Delegated Regulation.

How were the indicators for adverse impacts on sustainability factors taken into account?

Principal adverse impact ("PAI") indicators were calculated at both the Fund level and the Underlying Fund level. The results were compared with that of a chosen proxy benchmark representative of the Fund's investment universe and/or peers. These calculations are used as the basis of assessment of adverse impacts on sustainability factors in order to determine whether the Manager could improve at Fund level and/or where Manager could engage with Underlying Fund investment managers to improve at the Underlying Fund level.

The Fund considered the following principal adverse sustainability impacts indicators for the proportion of assets qualified as sustainable investments:

Corporate mandatory indicators:

1. GreenHouse Gas (GHG) Emissions
2. Carbon footprint
3. GHG intensity of investee companies
4. Exposure to companies active in the fossil fuel sector
5. Share of non-renewable energy consumption and production
6. Energy consumption intensity per high impact climate sector
7. Activities negatively affecting biodiversity sensitive areas
8. Emissions to water
9. Hazardous waste ratio
10. Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises

FAM Evolution ICAV

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

11. Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact principles and OECD Guidelines for Multinational Enterprises
12. Unadjusted gender pay gap
13. Board gender diversity
14. Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons)

Corporate voluntary indicators: Environment

4. Investments in companies without carbon emission reduction initiatives Social

Corporate voluntary indicators: Social

9. Lack of a human rights policy

Sovereign mandatory indicator:

15. GHG intensity
16. Investee countries subject to social violations

— — — *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:*

The sustainable investments which the Fund made in the Underlying Funds and their alignment with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights were assessed in the following ways;

1. Via PAI monitoring of the following indicators;
 - Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises
 - Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact principles and OECD Guidelines for Multinational Enterprises

FAM Evolution ICAV

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

2. Through engagement with the Underlying Fund investment managers to ensure that the sustainable investments that the Underlying Funds made are:
 - a. Made in investee companies that demonstrate good governance;
 - b. Made in a manner that demonstrates that they do no significant harm to other environmental objectives; and
 - c. Made in investee companies that make a positive contribution towards an environmental or social objective.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The Manager considered principal adverse impacts of its investment decisions on sustainability factors on an ongoing basis by monitoring the Fund portfolio against mandatory and additional PAI indicators and as part of its investment decision making process and investment due diligence process and procedures. Principal adverse impacts were prioritized based on materiality relative to the objectives or characteristics of the Fund, provided that all minimum standards are met. The results were compared with that of a chosen proxy benchmark representative of the Fund’s investment universe and/or peers. These calculations formed the basis of assessment of adverse impacts on sustainability factors in order to determine what the Portfolio Managers could improve at Fund level and where the Portfolio Managers could engage with relevant issuers to improve on such indicators.

FAM Evolution ICAV

What was the proportion of sustainability-related investments?

52.84%

● What was the asset allocation?

99.76% of the Fund’s Investments are aligned with the environmental and/or social characteristics promoted by the Fund. The Fund also commits to a minimum proportion of 20% in sustainable investments and as at 31 December the Fund had a proportion of 52.84% of sustainable investments. The remaining investments of the Fund were invested in cash and cash equivalents for liquidity purposes and derivatives which may be used for investment, risk reduction and hedging purposes. Calculations may rely on incomplete or inaccurate underlying fund manager data and/or company or third-party data.

Asset allocation describes the share of investments in specific assets.

FAM Evolution ICAV

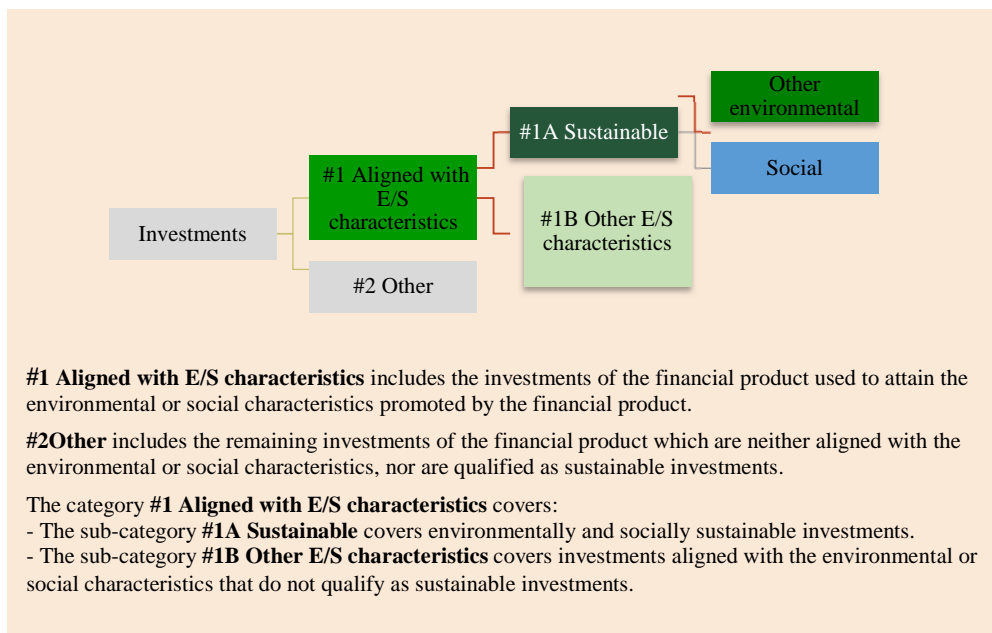

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● In which economic sectors were the investments made?

Largest investments	% Assets
Open-ended investment funds	99.76%

● To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

As the investments underlying this Fund do not take into account the EU criteria for environmentally sustainable economic activities within the meaning of the Taxonomy Regulation, the Fund's portfolio alignment with the Taxonomy Regulation is not calculated. It follows that the Fund does not currently commit to investing more than 0% of its assets in investments aligned with the Taxonomy.

● Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

- Yes:
- In fossil gas In nuclear energy
- No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

FAM Evolution ICAV

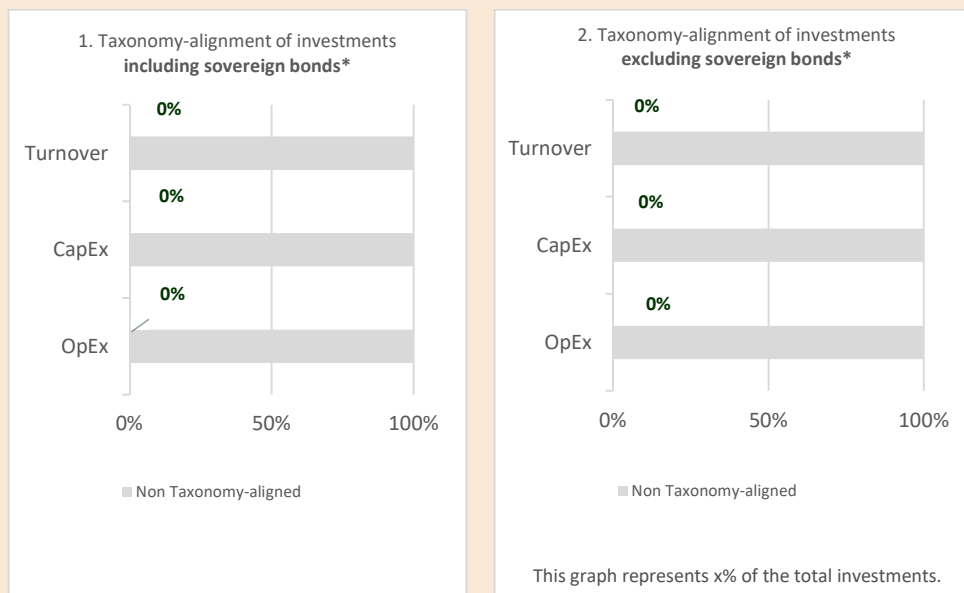

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

● What was the share of investments made in transitional and enabling activities?

The share of investments in transitional and enabling activities within the meaning of the Regulations Taxonomy is 0% for transitional activities and 0% for enabling activities.

● How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not applicable for the first periodic report.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

The share of sustainable investments with an environmental objective that are not aligned with the European Taxonomy Regulation is 36.82%.

What was the share of socially sustainable investments?

Socially sustainable investments represent 18.78% of the financial product.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

FAM Evolution ICAV

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The remaining investments of the Fund includes cash and cash equivalents for liquidity purposes and derivatives which may be used for investment, risk reduction and hedging purposes.

Any “#2 Other” potential investments, other than cash or cash equivalents are screened according to the managers exclusion policy.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Manager has integrated various house ESG policies and procedures to ensure the binding elements of the investment strategy used to select the investments to attain each of the environmental or social characteristics promoted by this product, such as a minimum investment in funds in scope of Article 8 and 9 of the SFDR, Positive Screening, Fund Level ESG Scoring and Negative Screening have been implemented and are monitored regularly.

Furthermore, the Fund invested 52.84% of its assets in “sustainable investments” as defined in Article 2 (17) of SFDR. Criteria to qualify an investment as “sustainable investment” are indicated in the above question “*What are the objectives of the sustainable investments that the financial product partially intends to make and does the sustainable investments contribute to such objectives?*”.

The Fund invested 96.93% in Underlying Funds which fall within the meaning of either Article 8 or Article 9 of the SFDR, which means, the majority of the Underlying Funds which the Fund held promoted environmental and social characteristics while investing in companies which follow good governance practices.

No reference benchmark was designated for the purpose of attaining the environmental or social characteristics promoted.

How did this financial product perform compared to the reference benchmark?

- *How does the reference benchmark differ from a broad market index?*

Not applicable

- *How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?*

Not applicable

- *How did this financial product perform compared with the reference benchmark?*

Not applicable

- *How did this financial product perform compared with the broad market index?*

Not applicable

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: FAM MegaTrends Target 2022 II
Legal entity identifier: 254900F095V0IVSF1Y33

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?	
<p><input checked="" type="radio"/> <input type="radio"/> <input type="checkbox"/> Yes</p> <p><input type="checkbox"/> It made sustainable investments with an environmental objective: ___%</p> <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <p><input type="checkbox"/> It made sustainable investments with a social objective: ___%</p>	<p><input type="radio"/> <input checked="" type="radio"/> <input checked="" type="checkbox"/> No</p> <p><input checked="" type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 52.66% of sustainable investments</p> <ul style="list-style-type: none"> <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with a social objective <p><input type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments</p>

All actual data within this periodic report are calculated on the closing date of the accounting year.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and/or social characteristics promoted by this financial product included;

a. Minimum investment in funds in scope of Article 8 and 9 of the SFDR

The Fund invested 96.58% in Underlying Funds which fall within the meaning of either Article 8 or Article 9 of the SFDR, which means, that the majority of the Underlying Funds which the Fund held promoted environmental and social characteristics while investing in companies which follow good governance practices.

FAM Evolution ICAV

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

b. Positive Screening

Consideration of ESG factors were a key element of portfolio construction/fund selection. Portfolio managers took a holistic approach which included the analysis of ESG factors as part of their overall risk adjusted valuation assessment. This supported the overall promotion of investment in funds which the Manager deems desirable on ESG grounds. By incorporating positive ESG factors as part of the overall portfolio construction/fund selection, the Fund through its investments, supported a tilt towards investment in Underlying Funds that have a more positive impact on the environment or society at large.

c. Fund Level ESG Scoring

A monthly independent analysis and classification of the Fund's ESG score was performed internally by the Manager. A minimum ESG score of "A" was applied at Fund Level to ensure that the Fund's ESG score did not fall below a level deemed by the Manager to be appropriate for a fund promoting environmental and/or social characteristics. This additional control served to highlight a minimum Fund level ESG score and promoted engagement and challenge of portfolio managers on ESG topics.

d. Negative Screening (Norm-based exclusions)

For any potential direct holdings the Manager applied norms-based exclusions based on its Exclusion Policy. Exclusion categories considered in the Exclusion Policy were:

- United Nations Global Compact Principles
- Controversial Weapons
- Tobacco
- Climate Change
- Forced Labour

No reference benchmark was designated for the purpose of attaining the environmental or social characteristics promoted.

● *How did the sustainability indicators perform?*

The following sustainability indicators were used to measure the attainment of the environmental and social characteristics promoted by the Fund;

- i. The percentage of the Fund portfolio made in sustainable investments was 52.66% as at 31 December 2022.
- ii. the percentage of the Fund's Underlying Fund holdings rated A or above by MSCI ESG Manager (or another corresponding rating from a similar rating provider) was 99.40% of holdings as at 31 December 2022.

● *...and compared to previous periods?*

Not applicable for the first periodic report.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Sustainable Finance Disclosure Regulation (SFDR) (continued)

- *What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?*

Please note that the Fund currently follows a fund of funds investment approach and can invest principally in underlying open-ended UCIs and UCITS (as well as other permissible instruments). The Management Company therefore relies on data provided by the investment managers of the underlying fund investments when calculating the percentage proportion of sustainable investment of the Fund and when calculating the percentages required in the section below dealing with the asset allocation of the Fund.

The objectives of the sustainable investments that the Fund made was to promote environmental and/or social characteristics. On the basis that the Fund is currently following a fund of funds investment approach, the objectives of the sustainable investments that the Fund partially intends to make is linked to the sustainable investments made by the Underlying Funds. The Fund sought to make investments in Underlying Funds that committed/partially committed to invest in sustainable investments and who had a process for ensuring that their sustainable investments met the following criteria;

- Made in investee companies that demonstrate good governance;
- Made in a manner that demonstrates that they do no significant harm to other environmental objectives; and
- Made in investee companies that make a positive contribution towards an environmental or social objective. The Fund allocates between Underlying Funds which make sustainable investments of any type, i.e. investments with an environmental, and/or a social objective. The Fund did not favour any specific type of sustainable investment.

As at 31 December the Fund had a proportion of 52.66% of sustainable investments

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

● *How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?*

The sustainable investments that the Fund makes did not cause significant harm to any environmental or social sustainable investment objective based on the policies adopted by the relevant Underlying Fund investment managers. These policies are considered as part of the Manager's initial and ongoing investment due diligence procedures and are assessed for alignment with the indicators set out in Table 1 and any relevant additional indicator from Tables 2 and 3 of Annex I of the Delegated Regulation.

— — *How were the indicators for adverse impacts on sustainability factors taken into account?*

Principal adverse impact ("PAI") indicators were calculated at both the Fund level and the Underlying Fund level. The results were compared with that of a chosen proxy benchmark representative of the Fund's investment universe and/or peers. These calculations are used as the basis of assessment of adverse impacts on sustainability factors in order to determine whether the Manager could improve at Fund level and/or where Manager could engage with Underlying Fund investment managers to improve at the Underlying Fund level.

The Fund considered the following principal adverse sustainability impacts indicators for the proportion of assets qualified as sustainable investments:

Corporate mandatory indicators:

1. GreenHouse Gas (GHG) Emissions
2. Carbon footprint
3. GHG intensity of investee companies
4. Exposure to companies active in the fossil fuel sector
5. Share of non-renewable energy consumption and production
6. Energy consumption intensity per high impact climate sector
7. Activities negatively affecting biodiversity sensitive areas
8. Emissions to water
9. Hazardous waste ratio
10. Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises

FAM Evolution ICAV

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

11. Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact principles and OECD Guidelines for Multinational Enterprises
12. Unadjusted gender pay gap
13. Board gender diversity
14. Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons)

Corporate voluntary indicators: Environment

4. Investments in companies without carbon emission reduction initiatives Social

Corporate voluntary indicators: Social

9. Lack of a human rights policy

Sovereign mandatory indicator:

15. GHG intensity
16. Investee countries subject to social violations

— — — *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:*

The sustainable investments which the Fund made in the Underlying Funds and their alignment with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights were assessed in the following ways;

1. Via PAI monitoring of the following indicators;
 - Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises
 - Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact principles and OECD Guidelines for Multinational Enterprises

FAM Evolution ICAV

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

2. Through engagement with the Underlying Fund investment managers to ensure that the sustainable investments that the Underlying Funds made are:
 - a. Made in investee companies that demonstrate good governance;
 - b. Made in a manner that demonstrates that they do no significant harm to other environmental objectives; and
 - c. Made in investee companies that make a positive contribution towards an environmental or social objective.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The Manager considered principal adverse impacts of its investment decisions on sustainability factors on an ongoing basis by monitoring the Fund portfolio against mandatory and additional PAI indicators and as part of its investment decision making process and investment due diligence process and procedures. Principal adverse impacts were prioritized based on materiality relative to the objectives or characteristics of the Fund, provided that all minimum standards are met. The results were compared with that of a chosen proxy benchmark representative of the Fund’s investment universe and/or peers. These calculations formed the basis of assessment of adverse impacts on sustainability factors in order to determine what the Portfolio Managers could improve at Fund level and where the Portfolio Managers could engage with relevant issuers to improve on such indicators.

FAM MSCI WSS EQUIPMENT UCITS ETF AAC	Open-ended investment funds	IRELAND	0.40%
FAM ACWI IMI CS UCITS ETF	Open-ended investment funds	IRELAND	0.37%

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: as at 31 December 2022

What was the proportion of sustainability-related investments?

52.66%

● What was the asset allocation?

99.40% of the Fund's Investments are aligned with the environmental and/or social characteristics promoted by the Fund. The Fund also commits to a minimum proportion of 20% in sustainable investments and as at 31 December the Fund had a proportion of 52.66% of sustainable investments. The remaining investments of the Fund were invested in cash and cash equivalents for liquidity purposes and derivatives which may be used for investment, risk reduction and hedging purposes. Calculations may rely on incomplete or inaccurate underlying fund manager data and/or company or third-party data.

Asset allocation describes the share of investments in specific assets.

FAM Evolution ICAV

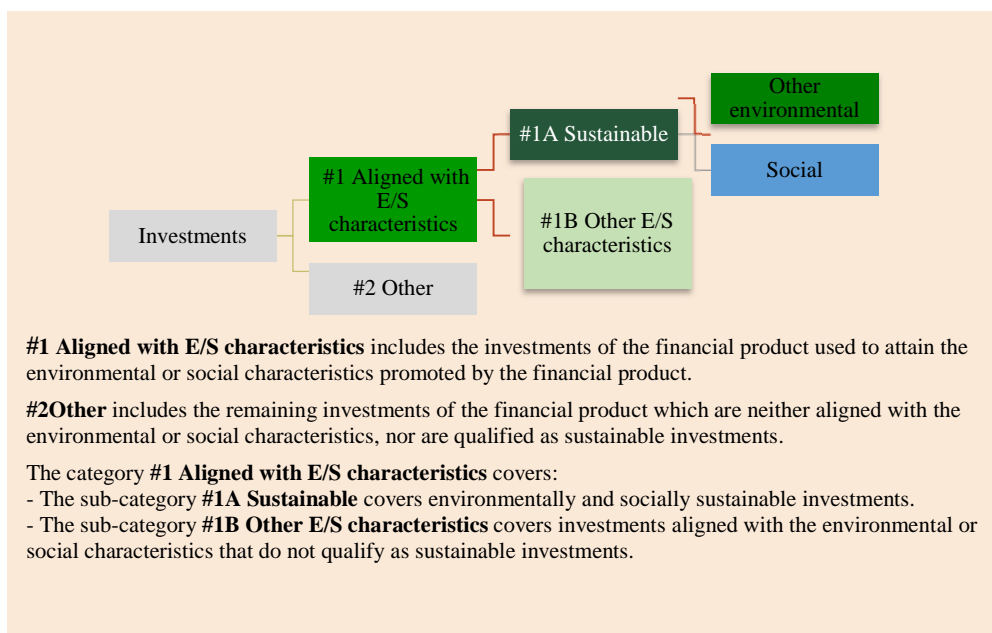

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● In which economic sectors were the investments made?

Largest investments	% Assets
Open-ended investment funds	99.41%

● To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

As the investments underlying this Fund do not take into account the EU criteria for environmentally sustainable economic activities within the meaning of the Taxonomy Regulation, the Fund's portfolio alignment with the Taxonomy Regulation is not calculated. It follows that the Fund does not currently commit to investing more than 0% of its assets in investments aligned with the Taxonomy.

● Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

- Yes:
- In fossil gas In nuclear energy
- No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

FAM Evolution ICAV

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

● What was the share of investments made in transitional and enabling activities?

The share of investments in transitional and enabling activities within the meaning of the Regulations Taxonomy is 0% for transitional activities and 0% for enabling activities.

● How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not applicable for the first periodic report.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

The share of sustainable investments with an environmental objective that are not aligned with the European Taxonomy Regulation is 33.90%.

What was the share of socially sustainable investments?

Socially sustainable investments represent 16.42% of the financial product.

 are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The remaining investments of the Fund includes cash and cash equivalents for liquidity purposes and derivatives which may be used for investment, risk reduction and hedging purposes.

Any “#2 Other” potential investments, other than cash or cash equivalents are screened according to the managers exclusion policy.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Manager has integrated various house ESG policies and procedures to ensure the binding elements of the investment strategy used to select the investments to attain each of the environmental or social characteristics promoted by this product, such as a minimum investment in funds in scope of Article 8 and 9 of the SFDR, Positive Screening, Fund Level ESG Scoring and Negative Screening have been implemented and are monitored regularly.

Furthermore, the Fund invested 52.66% of its assets in “sustainable investments” as defined in Article 2 (17) of SFDR. Criteria to qualify an investment as “sustainable investment” are indicated in the above question “*What are the objectives of the sustainable investments that the financial product partially intends to make and does the sustainable investments contribute to such objectives?*”.

The Fund invested 96.58% in Underlying Funds which fall within the meaning of either Article 8 or Article 9 of the SFDR, which means, the majority of the Underlying Funds which the Fund held promoted environmental and social characteristics while investing in companies which follow good governance practices.

No reference benchmark was designated for the purpose of attaining the environmental or social characteristics promoted.

How did this financial product perform compared to the reference benchmark?

- *How does the reference benchmark differ from a broad market index?*
Not applicable
- *How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?*
Not applicable
- *How did this financial product perform compared with the reference benchmark?*
Not applicable
- *How did this financial product perform compared with the broad market index?*
Not applicable

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

Sustainable Finance Disclosure Regulation (SFDR) (continued)

ANNEX IV

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: FAM MegaTrends Target 2025 II
Legal entity identifier: 254900LV8MNRGWMBQM68

Environmental and/or social characteristics

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the

Did this financial product have a sustainable investment objective?

Yes

It made **sustainable investments with an environmental objective:** ___%

- in economic activities that qualify as environmentally sustainable under the EU Taxonomy
- in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made **sustainable investments with a social objective:** ___%

No

It promoted **Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of 43.76% of sustainable investments

- with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
- with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
- with a social objective

It promoted E/S characteristics, but **did not make any sustainable investments**

All actual data within this periodic report are calculated on the closing date of the accounting year.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and/or social characteristics promoted by this financial product included;

a. Minimum investment in funds in scope of Article 8 and 9 of the SFDR

The Fund invested 90.47% in Underlying Funds which fall within the meaning of either Article 8 or Article 9 of the SFDR, which means, that the majority of the Underlying Funds which the Fund held promoted environmental and social characteristics while investing in companies which follow good governance practices.

FAM Evolution ICAV

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

b. Positive Screening

Consideration of ESG factors were a key element of portfolio construction/fund selection. Portfolio managers took a holistic approach which included the analysis of ESG factors as part of their overall risk adjusted valuation assessment. This supported the overall promotion of investment in funds which the Manager deems desirable on ESG grounds. By incorporating positive ESG factors as part of the overall portfolio construction/fund selection, the Fund through its investments, supported a tilt towards investment in Underlying Funds that have a more positive impact on the environment or society at large.

c. Fund Level ESG Scoring

A monthly independent analysis and classification of the Fund's ESG score was performed internally by the Manager. A minimum ESG score of "A" was applied at Fund Level to ensure that the Fund's ESG score did not fall below a level deemed by the Manager to be appropriate for a fund promoting environmental and/or social characteristics. This additional control served to highlight a minimum Fund level ESG score and promoted engagement and challenge of portfolio managers on ESG topics.

d. Negative Screening (Norm-based exclusions)

For any potential direct holdings the Manager applied norms-based exclusions based on its Exclusion Policy. Exclusion categories considered in the Exclusion Policy were:

- United Nations Global Compact Principles
- Controversial Weapons
- Tobacco
- Climate Change
- Forced Labour

No reference benchmark was designated for the purpose of attaining the environmental or social characteristics promoted.

● *How did the sustainability indicators perform?*

The following sustainability indicators were used to measure the attainment of the environmental and social characteristics promoted by the Fund;

- i. The percentage of the Fund portfolio made in sustainable investments was 43.76% as at 31 December 2022.
- ii. the percentage of the Fund's Underlying Fund holdings rated A or above by MSCI ESG Manager (or another corresponding rating from a similar rating provider) was 98.69% of holdings as at 31 December 2022.

● *...and compared to previous periods?*

Not applicable for the first periodic report.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

FAM Evolution ICAV

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

- *What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?*

Please note that the Fund currently follows a fund of funds investment approach and can invest principally in underlying open-ended UCIs and UCITS (as well as other permissible instruments). The Management Company therefore relies on data provided by the investment managers of the underlying fund investments when calculating the percentage proportion of sustainable investment of the Fund and when calculating the percentages required in the section below dealing with the asset allocation of the Fund.

The objectives of the sustainable investments that the Fund made was to promote environmental and/or social characteristics. On the basis that the Fund is currently following a fund of funds investment approach, the objectives of the sustainable investments that the Fund partially intends to make is linked to the sustainable investments made by the Underlying Funds. The Fund sought to make investments in Underlying Funds that committed/partially committed to invest in sustainable investments and who had a process for ensuring that their sustainable investments met the following criteria;

- a. Made in investee companies that demonstrate good governance;
- b. Made in a manner that demonstrates that they do no significant harm to other environmental objectives; and
- c. Made in investee companies that make a positive contribution towards an environmental or social objective. The Fund allocates between Underlying Funds which make sustainable investments of any type, i.e. investments with an environmental, and/or a social objective. The Fund did not favour any specific type of sustainable investment.

As at 31 December the Fund had a proportion of 43.76% of sustainable investments

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

● *How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?*

The sustainable investments that the Fund makes did not cause significant harm to any environmental or social sustainable investment objective based on the policies adopted by the relevant Underlying Fund investment managers. These policies are considered as part of the Manager's initial and ongoing investment due diligence procedures and are assessed for alignment with the indicators set out in Table 1 and any relevant additional indicator from Tables 2 and 3 of Annex I of the Delegated Regulation.

— — *How were the indicators for adverse impacts on sustainability factors taken into account?*

Principal adverse impact ("PAI") indicators were calculated at both the Fund level and the Underlying Fund level. The results were compared with that of a chosen proxy benchmark representative of the Fund's investment universe and/or peers. These calculations are used as the basis of assessment of adverse impacts on sustainability factors in order to determine whether the Manager could improve at Fund level and/or where Manager could engage with Underlying Fund investment managers to improve at the Underlying Fund level.

The Fund considered the following principal adverse sustainability impacts indicators for the proportion of assets qualified as sustainable investments:

Corporate mandatory indicators:

1. GreenHouse Gas (GHG) Emissions
2. Carbon footprint
3. GHG intensity of investee companies
4. Exposure to companies active in the fossil fuel sector
5. Share of non-renewable energy consumption and production
6. Energy consumption intensity per high impact climate sector
7. Activities negatively affecting biodiversity sensitive areas
8. Emissions to water
9. Hazardous waste ratio
10. Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises

FAM Evolution ICAV

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

11. Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact principles and OECD Guidelines for Multinational Enterprises
12. Unadjusted gender pay gap
13. Board gender diversity
14. Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons)

Corporate voluntary indicators: Environment

4. Investments in companies without carbon emission reduction initiatives Social

Corporate voluntary indicators: Social

9. Lack of a human rights policy

Sovereign mandatory indicator:

15. GHG intensity
16. Investee countries subject to social violations

— — — *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:*

The sustainable investments which the Fund made in the Underlying Funds and their alignment with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights were assessed in the following ways;

1. Via PAI monitoring of the following indicators;
 - Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises
 - Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact principles and OECD Guidelines for Multinational Enterprises

FAM Evolution ICAV

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

2. Through engagement with the Underlying Fund investment managers to ensure that the sustainable investments that the Underlying Funds made are:
 - a. Made in investee companies that demonstrate good governance;
 - b. Made in a manner that demonstrates that they do no significant harm to other environmental objectives; and
 - c. Made in investee companies that make a positive contribution towards an environmental or social objective.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The Manager considered principal adverse impacts of its investment decisions on sustainability factors on an ongoing basis by monitoring the Fund portfolio against mandatory and additional PAI indicators and as part of its investment decision making process and investment due diligence process and procedures. Principal adverse impacts were prioritized based on materiality relative to the objectives or characteristics of the Fund, provided that all minimum standards are met. The results were compared with that of a chosen proxy benchmark representative of the Fund’s investment universe and/or peers. These calculations formed the basis of assessment of adverse impacts on sustainability factors in order to determine what the Portfolio Managers could improve at Fund level and where the Portfolio Managers could engage with relevant issuers to improve on such indicators.

FAM Evolution ICAV

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

● What was the share of investments made in transitional and enabling activities?

The share of investments in transitional and enabling activities within the meaning of the Regulations Taxonomy is 0% for transitional activities and 0% for enabling activities.

● How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not applicable for the first periodic report.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

The share of sustainable investments with an environmental objective that are not aligned with the European Taxonomy Regulation is 31.26%.

What was the share of socially sustainable investments?

Socially sustainable investments represent 15.87% of the financial product.

 are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The remaining investments of the Fund includes cash and cash equivalents for liquidity purposes and derivatives which may be used for investment, risk reduction and hedging purposes.

Any “#2 Other” potential investments, other than cash or cash equivalents are screened according to the managers exclusion policy.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Manager has integrated various house ESG policies and procedures to ensure the binding elements of the investment strategy used to select the investments to attain each of the environmental or social characteristics promoted by this product, such as a minimum investment in funds in scope of Article 8 and 9 of the SFDR, Positive Screening, Fund Level ESG Scoring and Negative Screening have been implemented and are monitored regularly.

Furthermore, the Fund invested 43.76% of its assets in “sustainable investments” as defined in Article 2 (17) of SFDR. Criteria to qualify an investment as “sustainable investment” are indicated in the above question “*What are the objectives of the sustainable investments that the financial product partially intends to make and does the sustainable investments contribute to such objectives?*”.

The Fund invested 90.47% in Underlying Funds which fall within the meaning of either Article 8 or Article 9 of the SFDR, which means, the majority of the Underlying Funds which the Fund held promoted environmental and social characteristics while investing in companies which follow good governance practices.

No reference benchmark was designated for the purpose of attaining the environmental or social characteristics promoted.

How did this financial product perform compared to the reference benchmark?

Sustainable Finance Disclosure Regulation (SFDR) (continued)

ANNEX IV

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: FAM Sustainable Target 2022 II
Legal entity identifier: 254900V68E14179O3E20

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The EU Taxonomy is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

Yes

It made **sustainable investments with an environmental objective**: ___%

in economic activities that qualify as environmentally sustainable under the EU Taxonomy

in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made **sustainable investments with a social objective**: ___%

No

It promoted **Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of 68.08% of sustainable investments

with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy

with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

with a social objective

It promoted E/S characteristics, but **did not make any sustainable investments**

All actual data within this periodic report are calculated on the closing date of the accounting year.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and/or social characteristics promoted by this financial product included;

FAM Evolution ICAV

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

a. Minimum investment in funds in scope of Article 8 and 9 of the SFDR

The Fund invested 98.72% in Underlying Funds which fall within the meaning of either Article 8 or Article 9 of the SFDR, which means, that the majority of the Underlying Funds which the Fund held promoted environmental and social characteristics while investing in companies which follow good governance practices.

b. Positive Screening

Consideration of ESG factors was a key element of portfolio construction/fund selection. Portfolio managers took a holistic approach which included the analysis of ESG factors as part of their overall risk adjusted valuation assessment. This supported the overall promotion of investment in funds which the Manager deems desirable on ESG grounds. By incorporating positive ESG factors as part of the overall portfolio construction/fund selection, the Fund through its investments, supported a tilt towards investment in Underlying Funds that have a more positive impact on the environment or society at large.

c. Fund Level ESG Scoring

A monthly independent analysis and classification of the Fund's ESG score was performed internally by the Manager. A minimum ESG score of "A" was applied at Fund Level to ensure that the Fund's ESG score did not fall below a level deemed by the Manager to be appropriate for a fund promoting environmental and/or social characteristics. This additional control served to highlight a minimum Fund level ESG score and promoted engagement and challenge of portfolio managers on ESG topics.

d. Negative Screening (Norm-based exclusions)

For any potential direct holdings the Manager applied norms-based exclusions based on its Exclusion Policy. Exclusion categories considered in the Exclusion Policy were:

- United Nations Global Compact Principles
- Controversial Weapons
- Tobacco
- Climate Change
- Forced Labour

No reference benchmark was designated for the purpose of attaining the environmental or social characteristics promoted.

● ***How did the sustainability indicators perform?***

The following sustainability indicators were used to measure the attainment of the environmental and social characteristics promoted by the Fund;

- i. The percentage of the Fund portfolio made in sustainable investments which was 68.08% as at 31 December 2022
- ii. the percentage of the Fund's Underlying Fund holdings rated A or above by MSCI ESG Manager (or another corresponding rating from a similar rating provider) which was 98.72% of holdings as at 31 December 2022

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

FAM Evolution ICAV

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

● *...and compared to previous periods?*

Not applicable for the first periodic report.

● *What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?*

Please note that the Fund currently follows a fund of funds investment approach and can invest principally in underlying open-ended UCIs and UCITS (as well as other permissible instruments). The Management Company therefore relies on data provided by the investment managers of the underlying fund investments when calculating the percentage proportion of sustainable investment of the Fund and when calculating the percentages required in the section below dealing with the asset allocation of the Fund.

The objectives of the sustainable investments that the Fund made was to promote environmental and/or social characteristics. On the basis that the Fund is currently following a fund of funds investment approach, the objectives of the sustainable investments that the Fund partially intends to make is linked to the sustainable investments made by the Underlying Funds. The Fund sought to make investments in Underlying Funds that committed/partially committed to invest in sustainable investments and who had a process for ensuring that their sustainable investments met the following criteria;

- a. Made in investee companies that demonstrate good governance;
- b. Made in a manner that demonstrates that they do no significant harm to other environmental objectives; and
- c. Made in investee companies that make a positive contribution towards an environmental or social objective. The Fund allocates between Underlying Funds which make sustainable investments of any type, i.e. investments with an environmental, and/or a social objective. The Fund did not favour any specific type of sustainable investment.

As at 31 December the Fund had a proportion of 68.08% of sustainable investments

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

Sustainable Finance Disclosure Regulation (SFDR) (continued)

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

The sustainable investments that the Fund made did not cause significant harm to any environmental or social sustainable investment objective based on the policies adopted by the relevant Underlying Fund investment managers. These policies are considered as part of the Manager's initial and ongoing investment due diligence procedures and are assessed for alignment with the indicators set out in Table 1 and any relevant additional indicator from Tables 2 and 3 of Annex I of the Delegated Regulation.

How were the indicators for adverse impacts on sustainability factors taken into account?

Principal adverse impact ("PAI") indicators were calculated at both the Fund level and the Underlying Fund level. The results were compared with that of a chosen proxy benchmark representative of the Fund's investment universe and/or peers. These calculations were used as the basis of assessment of adverse impacts on sustainability factors in order to determine whether the Manager could improve at Fund level and/or where Manager could engage with Underlying Fund investment managers to improve at the Underlying Fund level.

The Fund considered the following principal adverse sustainability impacts indicators for the proportion of assets qualified as sustainable investments:

Corporate mandatory indicators:

1. GreenHouse Gas (GHG) Emissions
2. Carbon footprint
3. GHG intensity of investee companies
4. Exposure to companies active in the fossil fuel sector
5. Share of non-renewable energy consumption and production
6. Energy consumption intensity per high impact climate sector
7. Activities negatively affecting biodiversity sensitive areas
8. Emissions to water
9. Hazardous waste ratio

FAM Evolution ICAV

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

10. Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises
11. Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact principles and OECD Guidelines for Multinational Enterprises
12. Unadjusted gender pay gap
13. Board gender diversity
14. Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons)

Corporate voluntary indicators: Environment

4. Investments in companies without carbon emission reduction initiatives Social

Corporate voluntary indicators: Social

9. Lack of a human rights policy

Sovereign mandatory indicator:

15. GHG intensity
16. Investee countries subject to social violations

— — — *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:*

The sustainable investments which the Fund made in the Underlying Funds and their alignment with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights were assessed in the following ways;

1. Via PAI monitoring of the following indicators;
 - Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises
 - Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact principles and OECD Guidelines for Multinational Enterprises

FAM Evolution ICAV

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

2. Through engagement with the Underlying Fund investment managers to ensure that the sustainable investments that the Underlying Funds made are:
 - a. Made in investee companies that demonstrate good governance;
 - b. Made in a manner that demonstrates that they do no significant harm to other environmental objectives; and
 - c. Made in investee companies that make a positive contribution towards an environmental or social objective.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The Manager considered principal adverse impacts of its investment decisions on sustainability factors on an ongoing basis by monitoring the Fund portfolio against mandatory and additional PAI indicators and as part of its investment decision making process and investment due diligence process and procedures. Principal adverse impacts were prioritized based on materiality relative to the objectives or characteristics of the Fund, provided that all minimum standards are met. The results were compared with that of a chosen proxy benchmark representative of the Fund’s investment universe and/or peers. These calculations formed the basis of assessment of adverse impacts on sustainability factors in order to determine what the Portfolio Managers could improve at Fund level and where the Portfolio Managers could engage with relevant issuers to improve on such indicators.

The specific PAI indicators that were taken into consideration for this product were;

Corporate mandatory indicators:

1. GreenHouse Gas (GHG) Emissions

FAM Evolution ICAV

Asset allocation describes the share of investments in specific assets.

What was the proportion of sustainability-related investments?

68.08%

● *What was the asset allocation?*

98.72% of the Fund's Investments were aligned with the environmental and/or social characteristics promoted by the Fund. The Fund also committed to a minimum proportion of 30% in sustainable investments and as at 31 December the Fund had a proportion of 68.08% of sustainable investments. The remaining investments of the Fund were invested in cash and cash equivalents for liquidity purposes and derivatives which may be used for investment, risk reduction and hedging purposes. Calculations may rely on incomplete or inaccurate underlying fund manager data and/or company or third-party data.

FAM Evolution ICAV

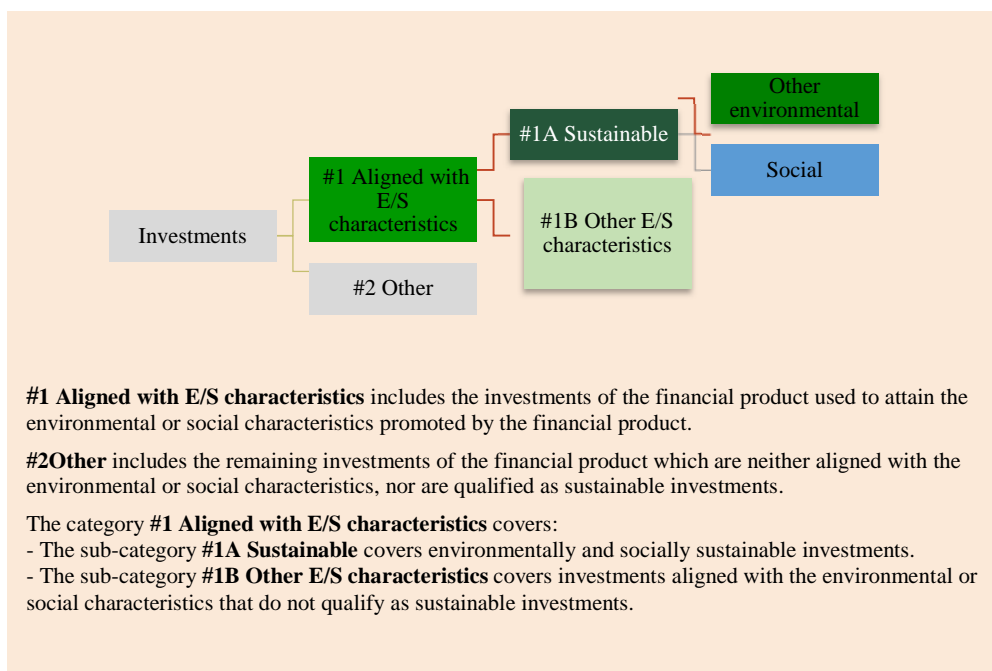

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● In which economic sectors were the investments made?

Largest investments	% Assets
Open-ended investment funds	98.72%

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

As the investments underlying this Fund do not take into account the EU criteria for environmentally sustainable economic activities within the meaning of the Taxonomy Regulation, the Fund's portfolio alignment with the Taxonomy Regulation was not calculated. It follows that the Fund does not currently commit to investing more than 0% of its assets in investments aligned with the Taxonomy.

● Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

- Yes:
- In fossil gas In nuclear energy
- No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

FAM Evolution ICAV

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

● What was the share of investments made in transitional and enabling activities?

The share of investments in transitional and enabling activities within the meaning of the EU Taxonomy Regulations was 0% for transitional activities and 0% for enabling activities.

● How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not applicable for the first periodic report.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

The share of sustainable investments with an environmental objective that was not aligned with the European Taxonomy Regulation is 42.54%.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

FAM Evolution ICAV

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

What was the share of socially sustainable investments?

Socially sustainable investments represented 39.45% of the financial product.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The remaining investments of the Fund included cash and cash equivalents for liquidity purposes and derivatives which may be used for investment, risk reduction and hedging purposes.

Any “#2 Other” potential investments, other than cash or cash equivalents were screened according to the Manager’s exclusion policy.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Manager has integrated various house ESG policies and procedures to ensure the binding elements of the investment strategy used to select the investments to attain each of the environmental or social characteristics promoted by this product, such as a minimum investment in funds in scope of Article 8 and 9 of the SFDR, Positive Screening, Fund Level ESG Scoring and Negative Screening have been implemented and are monitored regularly.

Furthermore, the Fund invested 68.08% of its assets in “sustainable investments” as defined in Article 2 (17) of SFDR. Criteria to qualify an investment as “sustainable investment” are indicated in the above question “*What were the objectives of the sustainable investments that the financial product partially intends to make and does the sustainable investments contribute to such objectives?*”.

The Fund invested 98.72% in Underlying Funds which fall within the meaning of either Article 8 or Article 9 of the SFDR, which means, the majority of the Underlying Funds which the Fund held promoted environmental and social characteristics while investing in companies which follow good governance practices.

No reference benchmark was designated for the purpose of attaining the environmental or social characteristics promoted.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: FAM MegaTrends Target 2022 III
Legal entity identifier: 254900L4O63J4Y631H71

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The EU Taxonomy is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Environmental and/or social characteristics

<p><input checked="" type="radio"/> <input type="radio"/> <input type="checkbox"/> Yes</p> <p><input type="checkbox"/> It made sustainable investments with an environmental objective: ___%</p> <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <p><input type="checkbox"/> It made sustainable investments with a social objective: ___%</p>	<p><input checked="" type="radio"/> <input type="radio"/> <input checked="" type="checkbox"/> No</p> <p><input checked="" type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 52.71% of sustainable investments</p> <ul style="list-style-type: none"> <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with a social objective <p><input type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments</p>

All actual data within this periodic report are calculated on the closing date of the accounting year.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and/or social characteristics promoted by this financial product included;

a. Minimum investment in funds in scope of Article 8 and 9 of the SFDR

The Fund invested 96.66% in Underlying Funds which fall within the meaning of either Article 8 or Article 9 of the SFDR, which means, that the majority of the Underlying Funds which the Fund held promoted environmental and social characteristics while investing in companies which follow good governance practices.

FAM Evolution ICAV

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

b. Positive Screening

Consideration of ESG factors were a key element of portfolio construction/fund selection. Portfolio managers took a holistic approach which included the analysis of ESG factors as part of their overall risk adjusted valuation assessment. This supported the overall promotion of investment in funds which the Manager deems desirable on ESG grounds. By incorporating positive ESG factors as part of the overall portfolio construction/fund selection, the Fund through its investments, supported a tilt towards investment in Underlying Funds that have a more positive impact on the environment or society at large.

c. Fund Level ESG Scoring

A monthly independent analysis and classification of the Fund's ESG score was performed internally by the Manager. A minimum ESG score of "A" was applied at Fund Level to ensure that the Fund's ESG score did not fall below a level deemed by the Manager to be appropriate for a fund promoting environmental and/or social characteristics. This additional control served to highlight a minimum Fund level ESG score and promoted engagement and challenge of portfolio managers on ESG topics.

d. Negative Screening (Norm-based exclusions)

For any potential direct holdings the Manager applied norms-based exclusions based on its Exclusion Policy. Exclusion categories considered in the Exclusion Policy were:

- United Nations Global Compact Principles
- Controversial Weapons
- Tobacco
- Climate Change
- Forced Labour

No reference benchmark was designated for the purpose of attaining the environmental or social characteristics promoted.

● ***How did the sustainability indicators perform?***

The following sustainability indicators were used to measure the attainment of the environmental and social characteristics promoted by the Fund;

- i. The percentage of the Fund portfolio made in sustainable investments was 52.71% as at 31 December 2022.
- ii. the percentage of the Fund's Underlying Fund holdings rated A or above by MSCI ESG Manager (or another corresponding rating from a similar rating provider) was 99.49% of holdings as at 31 December 2022.

● ***...and compared to previous periods?***

Not applicable for the first periodic report.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

FAM Evolution ICAV

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

- *What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?*

Please note that the Fund currently follows a fund of funds investment approach and can invest principally in underlying open-ended UCIs and UCITS (as well as other permissible instruments). The Management Company therefore relies on data provided by the investment managers of the underlying fund investments when calculating the percentage proportion of sustainable investment of the Fund and when calculating the percentages required in the section below dealing with the asset allocation of the Fund.

The objectives of the sustainable investments that the Fund made was to promote environmental and/or social characteristics. On the basis that the Fund is currently following a fund of funds investment approach, the objectives of the sustainable investments that the Fund partially intends to make is linked to the sustainable investments made by the Underlying Funds. The Fund sought to make investments in Underlying Funds that committed/partially committed to invest in sustainable investments and who had a process for ensuring that their sustainable investments met the following criteria;

- a. Made in investee companies that demonstrate good governance;
- b. Made in a manner that demonstrates that they do no significant harm to other environmental objectives; and
- c. Made in investee companies that make a positive contribution towards an environmental or social objective. The Fund allocates between Underlying Funds which make sustainable investments of any type, i.e. investments with an environmental, and/or a social objective. The Fund did not favour any specific type of sustainable investment.

As at 31 December the Fund had a proportion of 52.71% of sustainable investments

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

● *How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?*

The sustainable investments that the Fund makes did not cause significant harm to any environmental or social sustainable investment objective based on the policies adopted by the relevant Underlying Fund investment managers. These policies are considered as part of the Manager's initial and ongoing investment due diligence procedures and are assessed for alignment with the indicators set out in Table 1 and any relevant additional indicator from Tables 2 and 3 of Annex I of the Delegated Regulation.

— — *How were the indicators for adverse impacts on sustainability factors taken into account?*

Principal adverse impact ("PAI") indicators were calculated at both the Fund level and the Underlying Fund level. The results were compared with that of a chosen proxy benchmark representative of the Fund's investment universe and/or peers. These calculations are used as the basis of assessment of adverse impacts on sustainability factors in order to determine whether the Manager could improve at Fund level and/or where Manager could engage with Underlying Fund investment managers to improve at the Underlying Fund level.

The Fund considered the following principal adverse sustainability impacts indicators for the proportion of assets qualified as sustainable investments:

Corporate mandatory indicators:

1. GreenHouse Gas (GHG) Emissions
2. Carbon footprint
3. GHG intensity of investee companies
4. Exposure to companies active in the fossil fuel sector
5. Share of non-renewable energy consumption and production
6. Energy consumption intensity per high impact climate sector
7. Activities negatively affecting biodiversity sensitive areas
8. Emissions to water
9. Hazardous waste ratio
10. Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises

FAM Evolution ICAV

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

11. Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact principles and OECD Guidelines for Multinational Enterprises
12. Unadjusted gender pay gap
13. Board gender diversity
14. Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons)

Corporate voluntary indicators: Environment

4. Investments in companies without carbon emission reduction initiatives Social

Corporate voluntary indicators: Social

9. Lack of a human rights policy

Sovereign mandatory indicator:

15. GHG intensity
16. Investee countries subject to social violations

— — — *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:*

The sustainable investments which the Fund made in the Underlying Funds and their alignment with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights were assessed in the following ways;

1. Via PAI monitoring of the following indicators;
 - Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises
 - Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact principles and OECD Guidelines for Multinational Enterprises

FAM Evolution ICAV

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

2. Through engagement with the Underlying Fund investment managers to ensure that the sustainable investments that the Underlying Funds made are:
 - a. Made in investee companies that demonstrate good governance;
 - b. Made in a manner that demonstrates that they do no significant harm to other environmental objectives; and
 - c. Made in investee companies that make a positive contribution towards an environmental or social objective.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The Manager considered principal adverse impacts of its investment decisions on sustainability factors on an ongoing basis by monitoring the Fund portfolio against mandatory and additional PAI indicators and as part of its investment decision making process and investment due diligence process and procedures. Principal adverse impacts were prioritized based on materiality relative to the objectives or characteristics of the Fund, provided that all minimum standards are met. The results were compared with that of a chosen proxy benchmark representative of the Fund’s investment universe and/or peers. These calculations formed the basis of assessment of adverse impacts on sustainability factors in order to determine what the Portfolio Managers could improve at Fund level and where the Portfolio Managers could engage with relevant issuers to improve on such indicators.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● In which economic sectors were the investments made?

Largest investments	% Assets
Open-ended investment funds	99.48%

● To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

As the investments underlying this Fund do not take into account the EU criteria for environmentally sustainable economic activities within the meaning of the Taxonomy Regulation, the Fund's portfolio alignment with the Taxonomy Regulation is not calculated. It follows that the Fund does not currently commit to investing more than 0% of its assets in investments aligned with the Taxonomy.

● Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

- Yes:
- In fossil gas In nuclear energy
- No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

FAM Evolution ICAV

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

● What was the share of investments made in transitional and enabling activities?

The share of investments in transitional and enabling activities within the meaning of the Regulations Taxonomy is 0% for transitional activities and 0% for enabling activities.

● How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not applicable for the first periodic report.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

The share of sustainable investments with an environmental objective that are not aligned with the European Taxonomy Regulation is 37.07%.

What was the share of socially sustainable investments?

Socially sustainable investments represent 18.70% of the financial product.

 are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The remaining investments of the Fund includes cash and cash equivalents for liquidity purposes and derivatives which may be used for investment, risk reduction and hedging purposes.

Any “#2 Other” potential investments, other than cash or cash equivalents are screened according to the managers exclusion policy.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Manager has integrated various house ESG policies and procedures to ensure the binding elements of the investment strategy used to select the investments to attain each of the environmental or social characteristics promoted by this product, such as a minimum investment in funds in scope of Article 8 and 9 of the SFDR, Positive Screening, Fund Level ESG Scoring and Negative Screening have been implemented and are monitored regularly.

Furthermore, the Fund invested 52.71% of its assets in “sustainable investments” as defined in Article 2 (17) of SFDR. Criteria to qualify an investment as “sustainable investment” are indicated in the above question “*What are the objectives of the sustainable investments that the financial product partially intends to make and does the sustainable investments contribute to such objectives?*”.

The Fund invested 96.66% in Underlying Funds which fall within the meaning of either Article 8 or Article 9 of the SFDR, which means, the majority of the Underlying Funds which the Fund held promoted environmental and social characteristics while investing in companies which follow good governance practices.

No reference benchmark was designated for the purpose of attaining the environmental or social characteristics promoted.

How did this financial product perform compared to the reference benchmark?

- *How does the reference benchmark differ from a broad market index?*
Not applicable
- *How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?*
Not applicable
- *How did this financial product perform compared with the reference benchmark?*
Not applicable
- *How did this financial product perform compared with the broad market index?*
Not applicable

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: FAM MegaTrends Target 2025 III
Legal entity identifier: 254900L86F5FVBG0Z340

Environmental and/or social characteristics

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Did this financial product have a sustainable investment objective?

Yes

It made **sustainable investments with an environmental objective:** ___%

- in economic activities that qualify as environmentally sustainable under the EU Taxonomy
- in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made **sustainable investments with a social objective:** ___%

No

It promoted **Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of 43.08% of sustainable investments

- with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
- with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
- with a social objective

It promoted E/S characteristics, but **did not make any sustainable investments**

All actual data within this periodic report are calculated on the closing date of the accounting year.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and/or social characteristics promoted by this financial product included;

a. Minimum investment in funds in scope of Article 8 and 9 of the SFDR

The Fund invested 89.77% in Underlying Funds which fall within the meaning of either Article 8 or Article 9 of the SFDR, which means, that the majority of the Underlying Funds which the Fund held promoted environmental and social characteristics while investing in companies which follow good governance practices.

FAM Evolution ICAV

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

b. Positive Screening

Consideration of ESG factors were a key element of portfolio construction/fund selection. Portfolio managers took a holistic approach which included the analysis of ESG factors as part of their overall risk adjusted valuation assessment. This supported the overall promotion of investment in funds which the Manager deems desirable on ESG grounds. By incorporating positive ESG factors as part of the overall portfolio construction/fund selection, the Fund through its investments, supported a tilt towards investment in Underlying Funds that have a more positive impact on the environment or society at large.

c. Fund Level ESG Scoring

A monthly independent analysis and classification of the Fund's ESG score was performed internally by the Manager. A minimum ESG score of "A" was applied at Fund Level to ensure that the Fund's ESG score did not fall below a level deemed by the Manager to be appropriate for a fund promoting environmental and/or social characteristics. This additional control served to highlight a minimum Fund level ESG score and promoted engagement and challenge of portfolio managers on ESG topics.

d. Negative Screening (Norm-based exclusions)

For any potential direct holdings the Manager applied norms-based exclusions based on its Exclusion Policy. Exclusion categories considered in the Exclusion Policy were:

- United Nations Global Compact Principles
- Controversial Weapons
- Tobacco
- Climate Change
- Forced Labour

No reference benchmark was designated for the purpose of attaining the environmental or social characteristics promoted.

● ***How did the sustainability indicators perform?***

The following sustainability indicators were used to measure the attainment of the environmental and social characteristics promoted by the Fund;

- i. The percentage of the Fund portfolio made in sustainable investments was 43.08% as at 31 December 2022.
- ii. the percentage of the Fund's Underlying Fund holdings rated A or above by MSCI ESG Manager (or another corresponding rating from a similar rating provider) was 98.26% of holdings as at 31 December 2022.

● ***...and compared to previous periods?***

Not applicable for the first periodic report.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

FAM Evolution ICAV

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

- *What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?*

Please note that the Fund currently follows a fund of funds investment approach and can invest principally in underlying open-ended UCIs and UCITS (as well as other permissible instruments). The Management Company therefore relies on data provided by the investment managers of the underlying fund investments when calculating the percentage proportion of sustainable investment of the Fund and when calculating the percentages required in the section below dealing with the asset allocation of the Fund.

The objectives of the sustainable investments that the Fund made was to promote environmental and/or social characteristics. On the basis that the Fund is currently following a fund of funds investment approach, the objectives of the sustainable investments that the Fund partially intends to make is linked to the sustainable investments made by the Underlying Funds. The Fund sought to make investments in Underlying Funds that committed/partially committed to invest in sustainable investments and who had a process for ensuring that their sustainable investments met the following criteria;

- Made in investee companies that demonstrate good governance;
- Made in a manner that demonstrates that they do no significant harm to other environmental objectives; and
- Made in investee companies that make a positive contribution towards an environmental or social objective. The Fund allocates between Underlying Funds which make sustainable investments of any type, i.e. investments with an environmental, and/or a social objective. The Fund did not favour any specific type of sustainable investment.

As at 31 December the Fund had a proportion of 43.08% of sustainable investments

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

FAM Evolution ICAV

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

● *How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?*

The sustainable investments that the Fund makes did not cause significant harm to any environmental or social sustainable investment objective based on the policies adopted by the relevant Underlying Fund investment managers. These policies are considered as part of the Manager's initial and ongoing investment due diligence procedures and are assessed for alignment with the indicators set out in Table 1 and any relevant additional indicator from Tables 2 and 3 of Annex I of the Delegated Regulation.

— — *How were the indicators for adverse impacts on sustainability factors taken into account?*

Principal adverse impact ("PAI") indicators were calculated at both the Fund level and the Underlying Fund level. The results were compared with that of a chosen proxy benchmark representative of the Fund's investment universe and/or peers. These calculations are used as the basis of assessment of adverse impacts on sustainability factors in order to determine whether the Manager could improve at Fund level and/or where Manager could engage with Underlying Fund investment managers to improve at the Underlying Fund level.

The Fund considered the following principal adverse sustainability impacts indicators for the proportion of assets qualified as sustainable investments:

Corporate mandatory indicators:

1. GreenHouse Gas (GHG) Emissions
2. Carbon footprint
3. GHG intensity of investee companies
4. Exposure to companies active in the fossil fuel sector
5. Share of non-renewable energy consumption and production
6. Energy consumption intensity per high impact climate sector
7. Activities negatively affecting biodiversity sensitive areas
8. Emissions to water
9. Hazardous waste ratio
10. Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises

FAM Evolution ICAV

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

11. Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact principles and OECD Guidelines for Multinational Enterprises
12. Unadjusted gender pay gap
13. Board gender diversity
14. Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons)

Corporate voluntary indicators: Environment

4. Investments in companies without carbon emission reduction initiatives Social

Corporate voluntary indicators: Social

9. Lack of a human rights policy

Sovereign mandatory indicator:

15. GHG intensity
16. Investee countries subject to social violations

— — — *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:*

The sustainable investments which the Fund made in the Underlying Funds and their alignment with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights were assessed in the following ways;

1. Via PAI monitoring of the following indicators;
 - Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises
 - Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact principles and OECD Guidelines for Multinational Enterprises

FAM Evolution ICAV

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

2. Through engagement with the Underlying Fund investment managers to ensure that the sustainable investments that the Underlying Funds made are:
 - a. Made in investee companies that demonstrate good governance:
 - b. Made in a manner that demonstrates that they do no significant harm to other environmental objectives; and
 - c. Made in investee companies that make a positive contribution towards an environmental or social objective.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The Manager considered principal adverse impacts of its investment decisions on sustainability factors on an ongoing basis by monitoring the Fund portfolio against mandatory and additional PAI indicators and as part of its investment decision making process and investment due diligence process and procedures. Principal adverse impacts were prioritized based on materiality relative to the objectives or characteristics of the Fund, provided that all minimum standards are met. The results were compared with that of a chosen proxy benchmark representative of the Fund’s investment universe and/or peers. These calculations formed the basis of assessment of adverse impacts on sustainability factors in order to determine what the Portfolio Managers could improve at Fund level and where the Portfolio Managers could engage with relevant issuers to improve on such indicators.

What was the proportion of sustainability-related investments?

43.08%

● What was the asset allocation?

98.26% of the Fund’s Investments are aligned with the environmental and/or social characteristics promoted by the Fund. The Fund also commits to a minimum proportion of 20% in sustainable investments and as at 31 December the Fund had a proportion of 43.08% of sustainable investments. The remaining investments of the Fund were invested in cash and cash equivalents for liquidity purposes and derivatives which may be used for investment, risk reduction and hedging purposes. Calculations may rely on incomplete or inaccurate underlying fund manager data and/or company or third-party data.

Asset allocation describes the share of investments in specific assets.

FAM Evolution ICAV

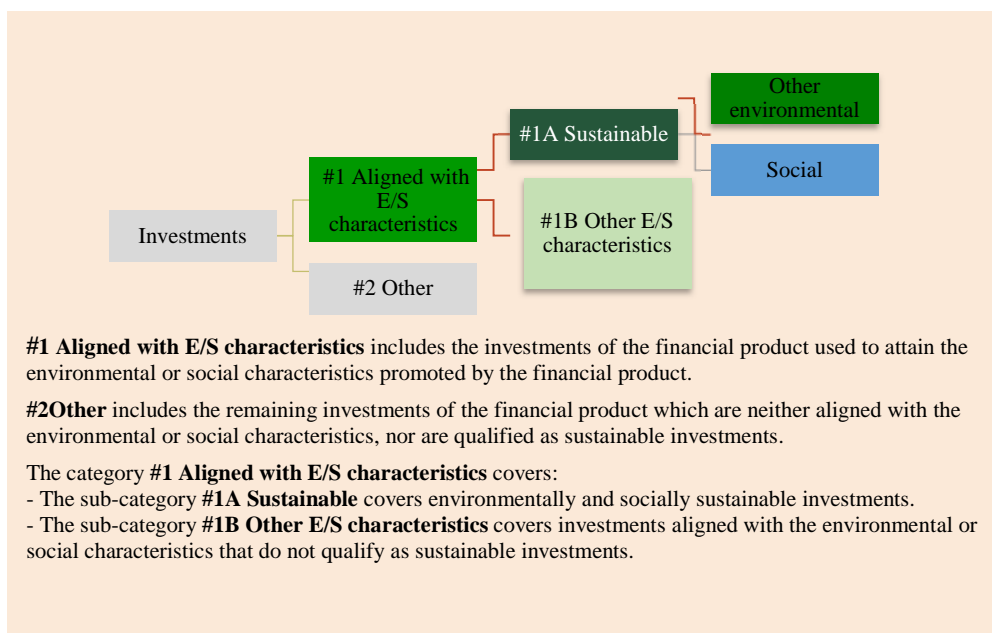

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● In which economic sectors were the investments made?

Largest investments	% Assets
Open-ended investment funds	98.26%

● To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

As the investments underlying this Fund do not take into account the EU criteria for environmentally sustainable economic activities within the meaning of the Taxonomy Regulation, the Fund's portfolio alignment with the Taxonomy Regulation is not calculated. It follows that the Fund does not currently commit to investing more than 0% of its assets in investments aligned with the Taxonomy.

● Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

- Yes:
- In fossil gas In nuclear energy
- No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

FAM Evolution ICAV

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

● What was the share of investments made in transitional and enabling activities?

The share of investments in transitional and enabling activities within the meaning of the Regulations Taxonomy is 0% for transitional activities and 0% for enabling activities.

● How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not applicable for the first periodic report.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

The share of sustainable investments with an environmental objective that are not aligned with the European Taxonomy Regulation is 30.80%.

What was the share of socially sustainable investments?

Socially sustainable investments represent 15.67% of the financial product.

 are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

FAM Evolution ICAV

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The remaining investments of the Fund includes cash and cash equivalents for liquidity purposes and derivatives which may be used for investment, risk reduction and hedging purposes.

Any “#2 Other” potential investments, other than cash or cash equivalents are screened according to the managers exclusion policy.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Manager has integrated various house ESG policies and procedures to ensure the binding elements of the investment strategy used to select the investments to attain each of the environmental or social characteristics promoted by this product, such as a minimum investment in funds in scope of Article 8 and 9 of the SFDR, Positive Screening, Fund Level ESG Scoring and Negative Screening have been implemented and are monitored regularly.

Furthermore, the Fund invested 43.08% of its assets in “sustainable investments” as defined in Article 2 (17) of SFDR. Criteria to qualify an investment as “sustainable investment” are indicated in the above question “*What are the objectives of the sustainable investments that the financial product partially intends to make and does the sustainable investments contribute to such objectives?*”.

The Fund invested 89.77% in Underlying Funds which fall within the meaning of either Article 8 or Article 9 of the SFDR, which means, the majority of the Underlying Funds which the Fund held promoted environmental and social characteristics while investing in companies which follow good governance practices.

No reference benchmark was designated for the purpose of attaining the environmental or social characteristics promoted.

How did this financial product perform compared to the reference benchmark?

- *How does the reference benchmark differ from a broad market index?*

Not applicable

- *How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?*

Not applicable

- *How did this financial product perform compared with the reference benchmark?*

Not applicable

- *How did this financial product perform compared with the broad market index?*

Not applicable

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

FAM Evolution ICAV

Sustainable Finance Disclosure Regulation (SFDR) (continued)

ANNEX IV

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: FAM Sustainable Target 2022 III
Legal entity identifier: 254900I8V2AOYZ7IYD73

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

Yes

It made **sustainable investments with an environmental objective:** ___%

in economic activities that qualify as environmentally sustainable under the EU Taxonomy

in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made **sustainable investments with a social objective:** ___%

No

It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of 68.09% of sustainable investments

with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy

with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

with a social objective

It promoted E/S characteristics, but **did not make any sustainable investments**

All actual data within this periodic report are calculated on the closing date of the accounting year.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and/or social characteristics promoted by this financial product included;

FAM Evolution ICAV

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

a. Minimum investment in funds in scope of Article 8 and 9 of the SFDR

The Fund invested 98.55% in Underlying Funds which fall within the meaning of either Article 8 or Article 9 of the SFDR, which means, that the majority of the Underlying Funds which the Fund held promoted environmental and social characteristics while investing in companies which follow good governance practices.

b. Positive Screening

Consideration of ESG factors was a key element of portfolio construction/fund selection. Portfolio managers took a holistic approach which included the analysis of ESG factors as part of their overall risk adjusted valuation assessment. This supported the overall promotion of investment in funds which the Manager deems desirable on ESG grounds. By incorporating positive ESG factors as part of the overall portfolio construction/fund selection, the Fund through its investments, supported a tilt towards investment in Underlying Funds that have a more positive impact on the environment or society at large.

c. Fund Level ESG Scoring

A monthly independent analysis and classification of the Fund's ESG score was performed internally by the Manager. A minimum ESG score of "A" was applied at Fund Level to ensure that the Fund's ESG score did not fall below a level deemed by the Manager to be appropriate for a fund promoting environmental and/or social characteristics. This additional control served to highlight a minimum Fund level ESG score and promoted engagement and challenge of portfolio managers on ESG topics.

d. Negative Screening (Norm-based exclusions)

For any potential direct holdings the Manager applied norms-based exclusions based on its Exclusion Policy. Exclusion categories considered in the Exclusion Policy were:

- United Nations Global Compact Principles
- Controversial Weapons
- Tobacco
- Climate Change
- Forced Labour

No reference benchmark was designated for the purpose of attaining the environmental or social characteristics promoted.

● ***How did the sustainability indicators perform?***

The following sustainability indicators were used to measure the attainment of the environmental and social characteristics promoted by the Fund;

- i. The percentage of the Fund portfolio made in sustainable investments which was 68.09% as at 31 December 2022
- ii. the percentage of the Fund's Underlying Fund holdings rated A or above by MSCI ESG Manager (or another corresponding rating from a similar rating provider) which was 98.55% of holdings as at 31 December 2022

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

FAM Evolution ICAV

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

● *...and compared to previous periods?*

Not applicable for the first periodic report.

● *What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?*

Please note that the Fund currently follows a fund of funds investment approach and can invest principally in underlying open-ended UCIs and UCITS (as well as other permissible instruments). The Management Company therefore relies on data provided by the investment managers of the underlying fund investments when calculating the percentage proportion of sustainable investment of the Fund and when calculating the percentages required in the section below dealing with the asset allocation of the Fund.

The objectives of the sustainable investments that the Fund made was to promote environmental and/or social characteristics. On the basis that the Fund is currently following a fund of funds investment approach, the objectives of the sustainable investments that the Fund partially intends to make is linked to the sustainable investments made by the Underlying Funds. The Fund sought to make investments in Underlying Funds that committed/partially committed to invest in sustainable investments and who had a process for ensuring that their sustainable investments met the following criteria;

- a. Made in investee companies that demonstrate good governance;
- b. Made in a manner that demonstrates that they do no significant harm to other environmental objectives; and
- c. Made in investee companies that make a positive contribution towards an environmental or social objective. The Fund allocates between Underlying Funds which make sustainable investments of any type, i.e. investments with an environmental, and/or a social objective. The Fund did not favour any specific type of sustainable investment.

As at 31 December the Fund had a proportion of 68.09% of sustainable investments

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

FAM Evolution ICAV

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

The sustainable investments that the Fund made did not cause significant harm to any environmental or social sustainable investment objective based on the policies adopted by the relevant Underlying Fund investment managers. These policies are considered as part of the Manager's initial and ongoing investment due diligence procedures and are assessed for alignment with the indicators set out in Table 1 and any relevant additional indicator from Tables 2 and 3 of Annex I of the Delegated Regulation.

How were the indicators for adverse impacts on sustainability factors taken into account?

Principal adverse impact ("PAI") indicators were calculated at both the Fund level and the Underlying Fund level. The results were compared with that of a chosen proxy benchmark representative of the Fund's investment universe and/or peers. These calculations were used as the basis of assessment of adverse impacts on sustainability factors in order to determine whether the Manager could improve at Fund level and/or where Manager could engage with Underlying Fund investment managers to improve at the Underlying Fund level.

The Fund considered the following principal adverse sustainability impacts indicators for the proportion of assets qualified as sustainable investments:

Corporate mandatory indicators:

1. GreenHouse Gas (GHG) Emissions
2. Carbon footprint
3. GHG intensity of investee companies
4. Exposure to companies active in the fossil fuel sector
5. Share of non-renewable energy consumption and production
6. Energy consumption intensity per high impact climate sector
7. Activities negatively affecting biodiversity sensitive areas
8. Emissions to water
9. Hazardous waste ratio

FAM Evolution ICAV

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

10. Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises
11. Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact principles and OECD Guidelines for Multinational Enterprises
12. Unadjusted gender pay gap
13. Board gender diversity
14. Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons)

Corporate voluntary indicators: Environment

4. Investments in companies without carbon emission reduction initiatives Social

Corporate voluntary indicators: Social

9. Lack of a human rights policy

Sovereign mandatory indicator:

15. GHG intensity
16. Investee countries subject to social violations

— — — *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:*

The sustainable investments which the Fund made in the Underlying Funds and their alignment with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights were assessed in the following ways;

1. Via PAI monitoring of the following indicators;
 - Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises
 - Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact principles and OECD Guidelines for Multinational Enterprises

FAM Evolution ICAV

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

2. Through engagement with the Underlying Fund investment managers to ensure that the sustainable investments that the Underlying Funds made are:
 - a. Made in investee companies that demonstrate good governance;
 - b. Made in a manner that demonstrates that they do no significant harm to other environmental objectives; and
 - c. Made in investee companies that make a positive contribution towards an environmental or social objective.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The Manager considered principal adverse impacts of its investment decisions on sustainability factors on an ongoing basis by monitoring the Fund portfolio against mandatory and additional PAI indicators and as part of its investment decision making process and investment due diligence process and procedures. Principal adverse impacts were prioritized based on materiality relative to the objectives or characteristics of the Fund, provided that all minimum standards are met. The results were compared with that of a chosen proxy benchmark representative of the Fund’s investment universe and/or peers. These calculations formed the basis of assessment of adverse impacts on sustainability factors in order to determine what the Portfolio Managers could improve at Fund level and where the Portfolio Managers could engage with relevant issuers to improve on such indicators.

The specific PAI indicators that were taken into consideration for this product were;

Corporate mandatory indicators:

1. GreenHouse Gas (GHG) Emissions

What was the proportion of sustainability-related investments?

68.09%

● *What was the asset allocation?*

98.55% of the Fund's Investments were aligned with the environmental and/or social characteristics promoted by the Fund. The Fund also committed to a minimum proportion of 30% in sustainable investments and as at 31 December the Fund had a proportion of 68.09% of sustainable investments. The remaining investments of the Fund were invested in cash and cash equivalents for liquidity purposes and derivatives which may be used for investment, risk reduction and hedging purposes. Calculations may rely on incomplete or inaccurate underlying fund manager data and/or company or third-party data.

Asset allocation describes the share of investments in specific assets.

FAM Evolution ICAV

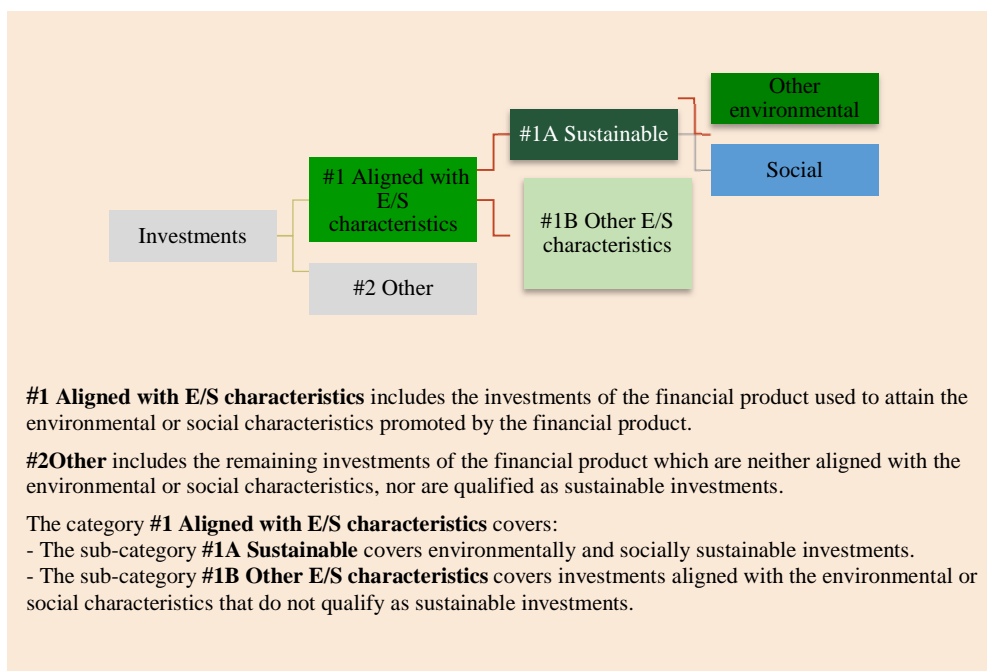

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● *In which economic sectors were the investments made?*

Largest investments	% Assets
Open-ended investment funds	100.00%

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

As the investments underlying this Fund do not take into account the EU criteria for environmentally sustainable economic activities within the meaning of the Taxonomy Regulation, the Fund’s portfolio alignment with the Taxonomy Regulation was not calculated. It follows that the Fund does not currently commit to investing more than 0% of its assets in investments aligned with the Taxonomy.

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?**

- Yes:
 - In fossil gas In nuclear energy
- No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

FAM Evolution ICAV

Sustainable Finance Disclosure Regulation (SFDR) (continued)

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

● What was the share of investments made in transitional and enabling activities?

The share of investments in transitional and enabling activities within the meaning of the EU Taxonomy Regulations was 0% for transitional activities and 0% for enabling activities.

● How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not applicable for the first periodic report.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

The share of sustainable investments with an environmental objective that was not aligned with the European Taxonomy Regulation is 42.57%.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

FAM Evolution ICAV

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

What was the share of socially sustainable investments?

Socially sustainable investments represented 39.45% of the financial product.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The remaining investments of the Fund included cash and cash equivalents for liquidity purposes and derivatives which may be used for investment, risk reduction and hedging purposes.

Any “#2 Other” potential investments, other than cash or cash equivalents were screened according to the Manager’s exclusion policy.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Manager has integrated various house ESG policies and procedures to ensure the binding elements of the investment strategy used to select the investments to attain each of the environmental or social characteristics promoted by this product, such as a minimum investment in funds in scope of Article 8 and 9 of the SFDR, Positive Screening, Fund Level ESG Scoring and Negative Screening have been implemented and are monitored regularly.

Furthermore, the Fund invested 68.09% of its assets in “sustainable investments” as defined in Article 2 (17) of SFDR. Criteria to qualify an investment as “sustainable investment” are indicated in the above question “*What were the objectives of the sustainable investments that the financial product partially intends to make and does the sustainable investments contribute to such objectives?*”.

The Fund invested 98.55% in Underlying Funds which fall within the meaning of either Article 8 or Article 9 of the SFDR, which means, the majority of the Underlying Funds which the Fund held promoted environmental and social characteristics while investing in companies which follow good governance practices.

No reference benchmark was designated for the purpose of attaining the environmental or social characteristics promoted.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

How did this financial product perform compared to the reference benchmark?

- *How does the reference benchmark differ from a broad market index?*
Not applicable
- *How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?*
Not applicable
- *How did this financial product perform compared with the reference benchmark?*
Not applicable
- *How did this financial product perform compared with the broad market index?*
Not applicable

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: FAM MegaTrends Target 2023 II
Legal entity identifier: 254900CGGO46RJM4YA73

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?	
<p><input checked="" type="radio"/> <input type="radio"/> <input type="checkbox"/> Yes</p> <p><input type="checkbox"/> It made sustainable investments with an environmental objective: ___%</p> <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <p><input type="checkbox"/> It made sustainable investments with a social objective: ___%</p>	<p><input checked="" type="radio"/> <input type="radio"/> <input checked="" type="checkbox"/> No</p> <p><input checked="" type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 48.80% of sustainable investments</p> <ul style="list-style-type: none"> <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with a social objective <p><input type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments</p>

All actual data within this periodic report are calculated on the closing date of the accounting year.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and/or social characteristics promoted by this financial product included;

a. Minimum investment in funds in scope of Article 8 and 9 of the SFDR

The Fund invested 92.80% in Underlying Funds which fall within the meaning of either Article 8 or Article 9 of the SFDR, which means, that the majority of the Underlying Funds which the Fund held promoted environmental and social characteristics while investing in companies which follow good governance practices.

FAM Evolution ICAV

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

b. Positive Screening

Consideration of ESG factors were a key element of portfolio construction/fund selection. Portfolio managers took a holistic approach which included the analysis of ESG factors as part of their overall risk adjusted valuation assessment. This supported the overall promotion of investment in funds which the Manager deems desirable on ESG grounds. By incorporating positive ESG factors as part of the overall portfolio construction/fund selection, the Fund through its investments, supported a tilt towards investment in Underlying Funds that have a more positive impact on the environment or society at large.

c. Fund Level ESG Scoring

A monthly independent analysis and classification of the Fund's ESG score was performed internally by the Manager. A minimum ESG score of "A" was applied at Fund Level to ensure that the Fund's ESG score did not fall below a level deemed by the Manager to be appropriate for a fund promoting environmental and/or social characteristics. This additional control served to highlight a minimum Fund level ESG score and promoted engagement and challenge of portfolio managers on ESG topics.

d. Negative Screening (Norm-based exclusions)

For any potential direct holdings the Manager applied norms-based exclusions based on its Exclusion Policy. Exclusion categories considered in the Exclusion Policy were:

- United Nations Global Compact Principles
- Controversial Weapons
- Tobacco
- Climate Change
- Forced Labour

No reference benchmark was designated for the purpose of attaining the environmental or social characteristics promoted.

● ***How did the sustainability indicators perform?***

The following sustainability indicators were used to measure the attainment of the environmental and social characteristics promoted by the Fund;

- i. The percentage of the Fund portfolio made in sustainable investments was 48.80% as at 31 December 2022.
- ii. the percentage of the Fund's Underlying Fund holdings rated A or above by MSCI ESG Manager (or another corresponding rating from a similar rating provider) was 97.68% of holdings as at 31 December 2022.

● ***...and compared to previous periods?***

Not applicable for the first periodic report.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

FAM Evolution ICAV

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

- *What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?*

Please note that the Fund currently follows a fund of funds investment approach and can invest principally in underlying open-ended UCIs and UCITS (as well as other permissible instruments). The Management Company therefore relies on data provided by the investment managers of the underlying fund investments when calculating the percentage proportion of sustainable investment of the Fund and when calculating the percentages required in the section below dealing with the asset allocation of the Fund.

The objectives of the sustainable investments that the Fund made was to promote environmental and/or social characteristics. On the basis that the Fund is currently following a fund of funds investment approach, the objectives of the sustainable investments that the Fund partially intends to make is linked to the sustainable investments made by the Underlying Funds. The Fund sought to make investments in Underlying Funds that committed/partially committed to invest in sustainable investments and who had a process for ensuring that their sustainable investments met the following criteria;

- a. Made in investee companies that demonstrate good governance;
- b. Made in a manner that demonstrates that they do no significant harm to other environmental objectives; and
- c. Made in investee companies that make a positive contribution towards an environmental or social objective. The Fund allocates between Underlying Funds which make sustainable investments of any type, i.e. investments with an environmental, and/or a social objective. The Fund did not favour any specific type of sustainable investment.

As at 31 December the Fund had a proportion of 48.80% of sustainable investments

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

FAM Evolution ICAV

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

The sustainable investments that the Fund makes did not cause significant harm to any environmental or social sustainable investment objective based on the policies adopted by the relevant Underlying Fund investment managers. These policies are considered as part of the Manager's initial and ongoing investment due diligence procedures and are assessed for alignment with the indicators set out in Table 1 and any relevant additional indicator from Tables 2 and 3 of Annex I of the Delegated Regulation.

How were the indicators for adverse impacts on sustainability factors taken into account?

Principal adverse impact ("PAI") indicators were calculated at both the Fund level and the Underlying Fund level. The results were compared with that of a chosen proxy benchmark representative of the Fund's investment universe and/or peers. These calculations are used as the basis of assessment of adverse impacts on sustainability factors in order to determine whether the Manager could improve at Fund level and/or where Manager could engage with Underlying Fund investment managers to improve at the Underlying Fund level.

The Fund considered the following principal adverse sustainability impacts indicators for the proportion of assets qualified as sustainable investments:

Corporate mandatory indicators:

1. GreenHouse Gas (GHG) Emissions
2. Carbon footprint
3. GHG intensity of investee companies
4. Exposure to companies active in the fossil fuel sector
5. Share of non-renewable energy consumption and production
6. Energy consumption intensity per high impact climate sector
7. Activities negatively affecting biodiversity sensitive areas
8. Emissions to water
9. Hazardous waste ratio
10. Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises

FAM Evolution ICAV

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

11. Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact principles and OECD Guidelines for Multinational Enterprises
12. Unadjusted gender pay gap
13. Board gender diversity
14. Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons)

Corporate voluntary indicators: Environment

4. Investments in companies without carbon emission reduction initiatives Social

Corporate voluntary indicators: Social

9. Lack of a human rights policy

Sovereign mandatory indicator:

15. GHG intensity
16. Investee countries subject to social violations

— — — *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:*

The sustainable investments which the Fund made in the Underlying Funds and their alignment with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights were assessed in the following ways;

1. Via PAI monitoring of the following indicators;
 - Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises
 - Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact principles and OECD Guidelines for Multinational Enterprises

FAM Evolution ICAV

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

2. Through engagement with the Underlying Fund investment managers to ensure that the sustainable investments that the Underlying Funds made are:
 - a. Made in investee companies that demonstrate good governance;
 - b. Made in a manner that demonstrates that they do no significant harm to other environmental objectives; and
 - c. Made in investee companies that make a positive contribution towards an environmental or social objective.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The Manager considered principal adverse impacts of its investment decisions on sustainability factors on an ongoing basis by monitoring the Fund portfolio against mandatory and additional PAI indicators and as part of its investment decision making process and investment due diligence process and procedures. Principal adverse impacts were prioritized based on materiality relative to the objectives or characteristics of the Fund, provided that all minimum standards are met. The results were compared with that of a chosen proxy benchmark representative of the Fund’s investment universe and/or peers. These calculations formed the basis of assessment of adverse impacts on sustainability factors in order to determine what the Portfolio Managers could improve at Fund level and where the Portfolio Managers could engage with relevant issuers to improve on such indicators.

Sustainable Finance Disclosure Regulation (SFDR) (continued)

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● *In which economic sectors were the investments made?*

Largest Investments	% Assets
Open-ended investment funds	97.68 %

● **To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?**

As the investments underlying this Fund do not take into account the EU criteria for environmentally sustainable economic activities within the meaning of the Taxonomy Regulation, the Fund's portfolio alignment with the Taxonomy Regulation is not calculated. It follows that the Fund does not currently commit to investing more than 0% of its assets in investments aligned with the Taxonomy.

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?**

- Yes:
- In fossil gas In nuclear energy
- No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Sustainable Finance Disclosure Regulation (SFDR) (continued)

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

● What was the share of investments made in transitional and enabling activities?

The share of investments in transitional and enabling activities within the meaning of the Regulations Taxonomy is 0% for transitional activities and 0% for enabling activities.

● How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not applicable for the first periodic report.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

The share of sustainable investments with an environmental objective that are not aligned with the European Taxonomy Regulation is 34.95%.

What was the share of socially sustainable investments?

Socially sustainable investments represent 17.46% of the financial product.

 are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The remaining investments of the Fund includes cash and cash equivalents for liquidity purposes and derivatives which may be used for investment, risk reduction and hedging purposes.

Any “#2 Other” potential investments, other than cash or cash equivalents are screened according to the managers exclusion policy.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Manager has integrated various house ESG policies and procedures to ensure the binding elements of the investment strategy used to select the investments to attain each of the environmental or social characteristics promoted by this product, such as a minimum investment in funds in scope of Article 8 and 9 of the SFDR, Positive Screening, Fund Level ESG Scoring and Negative Screening have been implemented and are monitored regularly.

Furthermore, the Fund invested 48.80% of its assets in “sustainable investments” as defined in Article 2 (17) of SFDR. Criteria to qualify an investment as “sustainable investment” are indicated in the above question “*What are the objectives of the sustainable investments that the financial product partially intends to make and does the sustainable investments contribute to such objectives*”.

The Fund invested 92.80% in Underlying Funds which fall within the meaning of either Article 8 or Article 9 of the SFDR, which means, the majority of the Underlying Funds which the Fund held promoted environmental and social characteristics while investing in companies which follow good governance practices.

No reference benchmark was designated for the purpose of attaining the environmental or social characteristics promoted.

How did this financial product perform compared to the reference benchmark?

- *How does the reference benchmark differ from a broad market index?*
Not applicable
- *How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?*
Not applicable
- *How did this financial product perform compared with the reference benchmark?*
Not applicable
- *How did this financial product perform compared with the broad market index?*

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: FAM MegaTrends Target 2026 II
Legal entity identifier: 254900IZL5062SUWC016

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?	
<p><input checked="" type="radio"/> <input type="radio"/> <input type="checkbox"/> Yes</p> <p><input type="checkbox"/> It made sustainable investments with an environmental objective: ___%</p> <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <p><input type="checkbox"/> It made sustainable investments with a social objective: ___%</p>	<p><input type="radio"/> <input checked="" type="radio"/> <input checked="" type="checkbox"/> No</p> <p><input checked="" type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and While it did not have as its objective a sustainable investment, it had a proportion of 42.01% of sustainable investments</p> <ul style="list-style-type: none"> <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with a social objective <p><input type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments</p>

All actual data within this periodic report are calculated on the closing date of the accounting year.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and/or social characteristics promoted by this financial product included;

a. Minimum investment in funds in scope of Article 8 and 9 of the SFDR

The Fund invested 89.03% in Underlying Funds which fall within the meaning of either Article 8 or Article 9 of the SFDR, which means, that the majority of the Underlying Funds which the Fund held promoted environmental and social characteristics while investing in companies which follow good governance practices.

FAM Evolution ICAV

b. Positive Screening

Consideration of ESG factors were a key element of portfolio construction/fund selection. Portfolio managers took a holistic approach which included the analysis of ESG factors as part of their overall risk adjusted valuation assessment. This supported the overall promotion of investment in funds which the Manager deems desirable on ESG grounds. By incorporating positive ESG factors as part of the overall portfolio construction/fund selection, the Fund through its investments, supported a tilt towards investment in Underlying Funds that have a more positive impact on the environment or society at large.

c. Fund Level ESG Scoring

A monthly independent analysis and classification of the Fund's ESG score was performed internally by the Manager. A minimum ESG score of "A" was applied at Fund Level to ensure that the Fund's ESG score did not fall below a level deemed by the Manager to be appropriate for a fund promoting environmental and/or social characteristics. This additional control served to highlight a minimum Fund level ESG score and promoted engagement and challenge of portfolio managers on ESG topics.

d. Negative Screening (Norm-based exclusions)

For any potential direct holdings the Manager applied norms-based exclusions based on its Exclusion Policy. Exclusion categories considered in the Exclusion Policy were:

- United Nations Global Compact Principles
- Controversial Weapons
- Tobacco
- Climate Change
- Forced Labour

No reference benchmark was designated for the purpose of attaining the environmental or social characteristics promoted.

● ***How did the sustainability indicators perform?***

The following sustainability indicators were used to measure the attainment of the environmental and social characteristics promoted by the Fund;

- i. The percentage of the Fund portfolio made in sustainable investments was 42.01% as at 31 December 2022.
- ii. the percentage of the Fund's Underlying Fund holdings rated A or above by MSCI ESG Manager (or another corresponding rating from a similar rating provider) was 98.12% of holdings as at 31 December 2022.

● ***...and compared to previous periods?***

Not applicable for the first periodic report.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

FAM Evolution ICAV

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

- *What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?*

Please note that the Fund currently follows a fund of funds investment approach and can invest principally in underlying open-ended UCIs and UCITS (as well as other permissible instruments). The Management Company therefore relies on data provided by the investment managers of the underlying fund investments when calculating the percentage proportion of sustainable investment of the Fund and when calculating the percentages required in the section below dealing with the asset allocation of the Fund.

The objectives of the sustainable investments that the Fund made was to promote environmental and/or social characteristics. On the basis that the Fund is currently following a fund of funds investment approach, the objectives of the sustainable investments that the Fund partially intends to make is linked to the sustainable investments made by the Underlying Funds. The Fund sought to make investments in Underlying Funds that committed/partially committed to invest in sustainable investments and who had a process for ensuring that their sustainable investments met the following criteria;

- a. Made in investee companies that demonstrate good governance;
- b. Made in a manner that demonstrates that they do no significant harm to other environmental objectives; and
- c. Made in investee companies that make a positive contribution towards an environmental or social objective. The Fund allocates between Underlying Funds which make sustainable investments of any type, i.e. investments with an environmental, and/or a social objective. The Fund did not favour any specific type of sustainable investment.

As at 31 December the Fund had a proportion of 42.01% of sustainable investments

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

FAM Evolution ICAV

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

The sustainable investments that the Fund makes did not cause significant harm to any environmental or social sustainable investment objective based on the policies adopted by the relevant Underlying Fund investment managers. These policies are considered as part of the Manager's initial and ongoing investment due diligence procedures and are assessed for alignment with the indicators set out in Table 1 and any relevant additional indicator from Tables 2 and 3 of Annex I of the Delegated Regulation.

How were the indicators for adverse impacts on sustainability factors taken into account?

Principal adverse impact ("PAI") indicators were calculated at both the Fund level and the Underlying Fund level. The results were compared with that of a chosen proxy benchmark representative of the Fund's investment universe and/or peers. These calculations are used as the basis of assessment of adverse impacts on sustainability factors in order to determine whether the Manager could improve at Fund level and/or where Manager could engage with Underlying Fund investment managers to improve at the Underlying Fund level.

The Fund considered the following principal adverse sustainability impacts indicators for the proportion of assets qualified as sustainable investments:

Corporate mandatory indicators:

1. GreenHouse Gas (GHG) Emissions
2. Carbon footprint
3. GHG intensity of investee companies
4. Exposure to companies active in the fossil fuel sector
5. Share of non-renewable energy consumption and production
6. Energy consumption intensity per high impact climate sector
7. Activities negatively affecting biodiversity sensitive areas
8. Emissions to water
9. Hazardous waste ratio
10. Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises

FAM Evolution ICAV

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

11. Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact principles and OECD Guidelines for Multinational Enterprises
12. Unadjusted gender pay gap
13. Board gender diversity
14. Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons)

Corporate voluntary indicators: Environment

4. Investments in companies without carbon emission reduction initiatives Social

Corporate voluntary indicators: Social

9. Lack of a human rights policy

Sovereign mandatory indicator:

15. GHG intensity
16. Investee countries subject to social violations

— — — *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:*

The sustainable investments which the Fund made in the Underlying Funds and their alignment with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights were assessed in the following ways;

1. Via PAI monitoring of the following indicators;
 - Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises
 - Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact principles and OECD Guidelines for Multinational Enterprises

FAM Evolution ICAV

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

2. Through engagement with the Underlying Fund investment managers to ensure that the sustainable investments that the Underlying Funds made are:
 - a. Made in investee companies that demonstrate good governance;
 - b. Made in a manner that demonstrates that they do no significant harm to other environmental objectives; and
 - c. Made in investee companies that make a positive contribution towards an environmental or social objective.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The Manager considered principal adverse impacts of its investment decisions on sustainability factors on an ongoing basis by monitoring the Fund portfolio against mandatory and additional PAI indicators and as part of its investment decision making process and investment due diligence process and procedures. Principal adverse impacts were prioritized based on materiality relative to the objectives or characteristics of the Fund, provided that all minimum standards are met. The results were compared with that of a chosen proxy benchmark representative of the Fund’s investment universe and/or peers. These calculations formed the basis of assessment of adverse impacts on sustainability factors in order to determine what the Portfolio Managers could improve at Fund level and where the Portfolio Managers could engage with relevant issuers to improve on such indicators.

FAM Evolution ICAV

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

The specific PAI indicators that were taken into consideration for this product were;

Corporate mandatory indicators:

1. GreenHouse Gas (GHG) Emissions
2. Carbon footprint
3. GHG intensity of investee companies
4. Exposure to companies active in the fossil fuel sector
5. Share of non-renewable energy consumption and production
6. Energy consumption intensity per high impact climate sector
7. Activities negatively affecting biodiversity sensitive areas
8. Emissions to water
9. Hazardous waste ratio
10. Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises
11. Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact principles and OECD Guidelines for Multinational Enterprises
12. Unadjusted gender pay gap
13. Board gender diversity
14. Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons)

Corporate voluntary indicators: Environment

4. Investments in companies without carbon emission reduction initiatives Social

Corporate voluntary indicators: Social

9. Lack of a human rights policy

What was the proportion of sustainability-related investments?

42.01%

● What was the asset allocation?

98.12% of the Fund's Investments are aligned with the environmental and/or social characteristics promoted by the Fund. The Fund also commits to a minimum proportion of 20% in sustainable investments and as at 31 December the Fund had a proportion of 42.01% of sustainable investments. The remaining investments of the Fund were invested in cash and cash equivalents for liquidity purposes and derivatives which may be used for investment, risk reduction and hedging purposes. Calculations may rely on incomplete or inaccurate underlying fund manager data and/or company or third-party data.

Asset allocation describes the share of investments in specific assets.

FAM Evolution ICAV

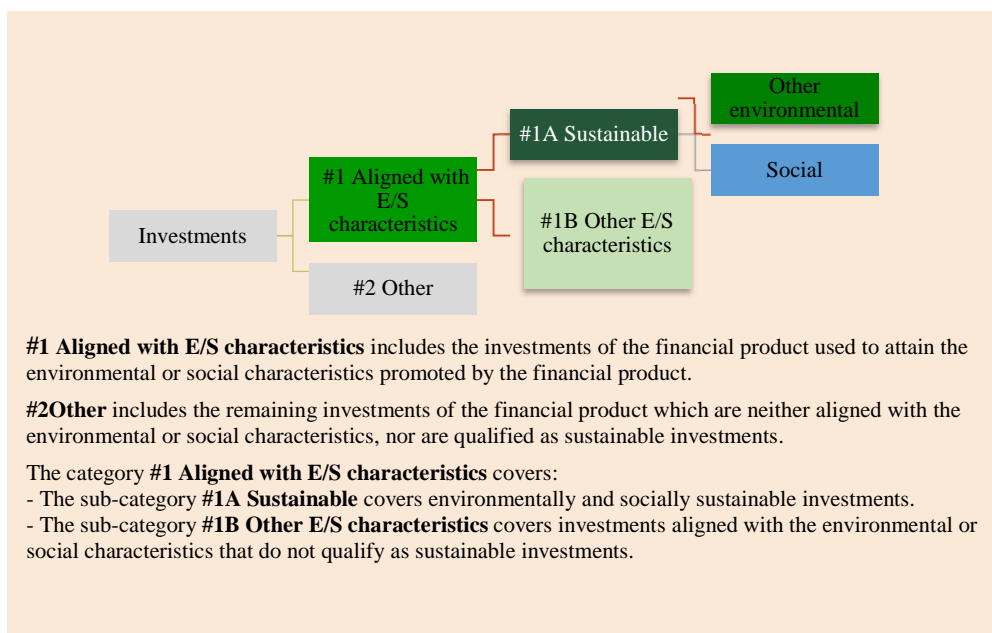

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● *In which economic sectors were the investments made?*

Largest Investments	% Assets
Open-ended investment funds	98.12%

● **To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?**

As the investments underlying this Fund do not take into account the EU criteria for environmentally sustainable economic activities within the meaning of the Taxonomy Regulation, the Fund's portfolio alignment with the Taxonomy Regulation is not calculated. It follows that the Fund does not currently commit to investing more than 0% of its assets in investments aligned with the Taxonomy.

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?**

- Yes:
- In fossil gas In nuclear energy
- No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

FAM Evolution ICAV

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

● What was the share of investments made in transitional and enabling activities?

The share of investments in transitional and enabling activities within the meaning of the Regulations Taxonomy is 0% for transitional activities and 0% for enabling activities.

● How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not applicable for the first periodic report.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

The share of sustainable investments with an environmental objective that are not aligned with the European Taxonomy Regulation is 30.10%.

What was the share of socially sustainable investments?

Socially sustainable investments represent 15.35% of the financial product.

 are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The remaining investments of the Fund includes cash and cash equivalents for liquidity purposes and derivatives which may be used for investment, risk reduction and hedging purposes.

Any “#2 Other” potential investments, other than cash or cash equivalents are screened according to the managers exclusion policy.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Manager has integrated various house ESG policies and procedures to ensure the binding elements of the investment strategy used to select the investments to attain each of the environmental or social characteristics promoted by this product, such as a minimum investment in funds in scope of Article 8 and 9 of the SFDR, Positive Screening, Fund Level ESG Scoring and Negative Screening have been implemented and are monitored regularly.

Furthermore, the Fund invested 42.01% of its assets in “sustainable investments” as defined in Article 2 (17) of SFDR. Criteria to qualify an investment as “sustainable investment” are indicated in the above question “*What are the objectives of the sustainable investments that the financial product partially intends to make and does the sustainable investments contribute to such objectives?*”.

The Fund invested 89.03% in Underlying Funds which fall within the meaning of either Article 8 or Article 9 of the SFDR, which means, the majority of the Underlying Funds which the Fund held promoted environmental and social characteristics while investing in companies which follow good governance practices.

No reference benchmark was designated for the purpose of attaining the environmental or social characteristics promoted.

How did this financial product perform compared to the reference benchmark?

- *How does the reference benchmark differ from a broad market index?*
Not applicable
- *How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?*
Not applicable
- *How did this financial product perform compared with the reference benchmark?*
Not applicable
- *How did this financial product perform compared with the broad market index?*
Not applicable

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

FAM Evolution ICAV

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

ANNEX IV

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: FAM Sustainable Target 2023 II
Legal entity identifier: 254900YQQU7KALIQEI80

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The EU Taxonomy is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

Yes

It made **sustainable investments with an environmental objective:** ___%

in economic activities that qualify as environmentally sustainable under the EU Taxonomy

in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made **sustainable investments with a social objective:** ___%

No

It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of 62.85% of sustainable investments

with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy

with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

with a social objective

It promoted E/S characteristics, but **did not make any sustainable investments**

All actual data within this periodic report are calculated on the closing date of the accounting year.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and/or social characteristics promoted by this financial product included;

FAM Evolution ICAV

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

a. Minimum investment in funds in scope of Article 8 and 9 of the SFDR

The Fund invested 95.18% in Underlying Funds which fall within the meaning of either Article 8 or Article 9 of the SFDR, which means, that the majority of the Underlying Funds which the Fund held promoted environmental and social characteristics while investing in companies which follow good governance practices.

b. Positive Screening

Consideration of ESG factors was a key element of portfolio construction/fund selection. Portfolio managers took a holistic approach which included the analysis of ESG factors as part of their overall risk adjusted valuation assessment. This supported the overall promotion of investment in funds which the Manager deems desirable on ESG grounds. By incorporating positive ESG factors as part of the overall portfolio construction/fund selection, the Fund through its investments, supported a tilt towards investment in Underlying Funds that have a more positive impact on the environment or society at large.

c. Fund Level ESG Scoring

A monthly independent analysis and classification of the Fund's ESG score was performed internally by the Manager. A minimum ESG score of "A" was applied at Fund Level to ensure that the Fund's ESG score did not fall below a level deemed by the Manager to be appropriate for a fund promoting environmental and/or social characteristics. This additional control served to highlight a minimum Fund level ESG score and promoted engagement and challenge of portfolio managers on ESG topics.

d. Negative Screening (Norm-based exclusions)

For any potential direct holdings the Manager applied norms-based exclusions based on its Exclusion Policy. Exclusion categories considered in the Exclusion Policy were:

- United Nations Global Compact Principles
- Controversial Weapons
- Tobacco
- Climate Change
- Forced Labour

No reference benchmark was designated for the purpose of attaining the environmental or social characteristics promoted.

● ***How did the sustainability indicators perform?***

The following sustainability indicators were used to measure the attainment of the environmental and social characteristics promoted by the Fund;

- i. The percentage of the Fund portfolio made in sustainable investments which was 62.85% as at 31 December 2022
- ii. the percentage of the Fund's Underlying Fund holdings rated A or above by MSCI ESG Manager (or another corresponding rating from a similar rating provider) which was 97.40% of holdings as at 31 December 2022

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

FAM Evolution ICAV

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

● *...and compared to previous periods?*

Not applicable for the first periodic report.

● *What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?*

Please note that the Fund currently follows a fund of funds investment approach and can invest principally in underlying open-ended UCIs and UCITS (as well as other permissible instruments). The Management Company therefore relies on data provided by the investment managers of the underlying fund investments when calculating the percentage proportion of sustainable investment of the Fund and when calculating the percentages required in the section below dealing with the asset allocation of the Fund.

The objectives of the sustainable investments that the Fund made was to promote environmental and/or social characteristics. On the basis that the Fund is currently following a fund of funds investment approach, the objectives of the sustainable investments that the Fund partially intends to make is linked to the sustainable investments made by the Underlying Funds. The Fund sought to make investments in Underlying Funds that committed/partially committed to invest in sustainable investments and who had a process for ensuring that their sustainable investments met the following criteria;

- a. Made in investee companies that demonstrate good governance;
- b. Made in a manner that demonstrates that they do no significant harm to other environmental objectives; and
- c. Made in investee companies that make a positive contribution towards an environmental or social objective. The Fund allocates between Underlying Funds which make sustainable investments of any type, i.e. investments with an environmental, and/or a social objective. The Fund did not favour any specific type of sustainable investment.

As at 31 December the Fund had a proportion of 62.85% of sustainable investments

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

FAM Evolution ICAV

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

The sustainable investments that the Fund made did not cause significant harm to any environmental or social sustainable investment objective based on the policies adopted by the relevant Underlying Fund investment managers. These policies are considered as part of the Manager's initial and ongoing investment due diligence procedures and are assessed for alignment with the indicators set out in Table 1 and any relevant additional indicator from Tables 2 and 3 of Annex I of the Delegated Regulation.

How were the indicators for adverse impacts on sustainability factors taken into account?

Principal adverse impact ("PAI") indicators were calculated at both the Fund level and the Underlying Fund level. The results were compared with that of a chosen proxy benchmark representative of the Fund's investment universe and/or peers. These calculations were used as the basis of assessment of adverse impacts on sustainability factors in order to determine whether the Manager could improve at Fund level and/or where Manager could engage with Underlying Fund investment managers to improve at the Underlying Fund level.

The Fund considered the following principal adverse sustainability impacts indicators for the proportion of assets qualified as sustainable investments:

Corporate mandatory indicators:

1. GreenHouse Gas (GHG) Emissions
2. Carbon footprint
3. GHG intensity of investee companies
4. Exposure to companies active in the fossil fuel sector
5. Share of non-renewable energy consumption and production
6. Energy consumption intensity per high impact climate sector
7. Activities negatively affecting biodiversity sensitive areas
8. Emissions to water
9. Hazardous waste ratio

FAM Evolution ICAV

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

10. Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises
11. Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact principles and OECD Guidelines for Multinational Enterprises
12. Unadjusted gender pay gap
13. Board gender diversity
14. Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons)

Corporate voluntary indicators: Environment

4. Investments in companies without carbon emission reduction initiatives Social

Corporate voluntary indicators: Social

9. Lack of a human rights policy

Sovereign mandatory indicator:

15. GHG intensity
16. Investee countries subject to social violations

— — — *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:*

The sustainable investments which the Fund made in the Underlying Funds and their alignment with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights were assessed in the following ways;

1. Via PAI monitoring of the following indicators;
 - Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises
 - Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact principles and OECD Guidelines for Multinational Enterprises

FAM Evolution ICAV

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

2. Through engagement with the Underlying Fund investment managers to ensure that the sustainable investments that the Underlying Funds made are:
 - a. Made in investee companies that demonstrate good governance;
 - b. Made in a manner that demonstrates that they do no significant harm to other environmental objectives; and
 - c. Made in investee companies that make a positive contribution towards an environmental or social objective.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The Manager considered principal adverse impacts of its investment decisions on sustainability factors on an ongoing basis by monitoring the Fund portfolio against mandatory and additional PAI indicators and as part of its investment decision making process and investment due diligence process and procedures. Principal adverse impacts were prioritized based on materiality relative to the objectives or characteristics of the Fund, provided that all minimum standards are met. The results were compared with that of a chosen proxy benchmark representative of the Fund’s investment universe and/or peers. These calculations formed the basis of assessment of adverse impacts on sustainability factors in order to determine what the Portfolio Managers could improve at Fund level and where the Portfolio Managers could engage with relevant issuers to improve on such indicators.

The specific PAI indicators that were taken into consideration for this product were;

Corporate mandatory indicators:

1. GreenHouse Gas (GHG) Emissions

FAM Evolution ICAV

Sustainable Finance Disclosure Regulation (SFDR) (continued)

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● *In which economic sectors were the investments made?*

Largest investments	% Assets
Open-ended investment funds	98.89%

● **To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?**

As the investments underlying this Fund do not take into account the EU criteria for environmentally sustainable economic activities within the meaning of the Taxonomy Regulation, the Fund's portfolio alignment with the Taxonomy Regulation was not calculated. It follows that the Fund does not currently commit to investing more than 0% of its assets in investments aligned with the Taxonomy.

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?**

- Yes:
- In fossil gas In nuclear energy
- No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

FAM Evolution ICAV

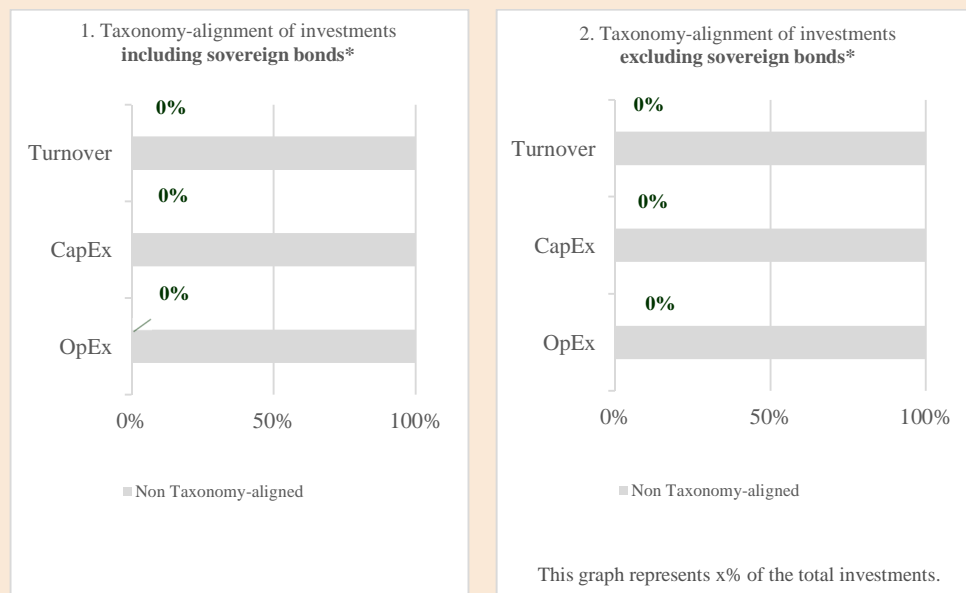

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

● What was the share of investments made in transitional and enabling activities?

The share of investments in transitional and enabling activities within the meaning of the EU Taxonomy Regulations was 0% for transitional activities and 0% for enabling activities.

● How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not applicable for the first periodic report.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

The share of sustainable investments with an environmental objective that was not aligned with the European Taxonomy Regulation is 40.06%.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

FAM Evolution ICAV

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

What was the share of socially sustainable investments?

Socially sustainable investments represented 35.84% of the financial product.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The remaining investments of the Fund included cash and cash equivalents for liquidity purposes and derivatives which may be used for investment, risk reduction and hedging purposes.

Any “#2 Other” potential investments, other than cash or cash equivalents were screened according to the Manager’s exclusion policy.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Manager has integrated various house ESG policies and procedures to ensure the binding elements of the investment strategy used to select the investments to attain each of the environmental or social characteristics promoted by this product, such as a minimum investment in funds in scope of Article 8 and 9 of the SFDR, Positive Screening, Fund Level ESG Scoring and Negative Screening have been implemented and are monitored regularly.

Furthermore, the Fund invested 62.85% of its assets in “sustainable investments” as defined in Article 2 (17) of SFDR. Criteria to qualify an investment as “sustainable investment” are indicated in the above question “*What were the objectives of the sustainable investments that the financial product partially intends to make and does the sustainable investments contribute to such objectives?*”.

The Fund invested 95.18% in Underlying Funds which fall within the meaning of either Article 8 or Article 9 of the SFDR, which means, the majority of the Underlying Funds which the Fund held promoted environmental and social characteristics while investing in companies which follow good governance practices.

No reference benchmark was designated for the purpose of attaining the environmental or social characteristics promoted.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

How did this financial product perform compared to the reference benchmark?

- *How does the reference benchmark differ from a broad market index?*
Not applicable
- *How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?*

Sustainable Finance Disclosure Regulation (SFDR) (continued)

ANNEX IV

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: FAM Sustainable Target 2026
Legal entity identifier: 2549000E26G61JPN0M76

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

Yes

It made **sustainable investments with an environmental objective:** ___%

in economic activities that qualify as environmentally sustainable under the EU Taxonomy

in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made **sustainable investments with a social objective:** ___%

No

It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of 47.33% of sustainable investments

with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy

with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

with a social objective

It promoted E/S characteristics, but **did not make any sustainable investments**

All actual data within this periodic report are calculated on the closing date of the accounting year.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and/or social characteristics promoted by this financial product included;

FAM Evolution ICAV

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

a. Minimum investment in funds in scope of Article 8 and 9 of the SFDR

The Fund invested 89.95% in Underlying Funds which fall within the meaning of either Article 8 or Article 9 of the SFDR, which means, that the majority of the Underlying Funds which the Fund held promoted environmental and social characteristics while investing in companies which follow good governance practices.

b. Positive Screening

Consideration of ESG factors was a key element of portfolio construction/fund selection. Portfolio managers took a holistic approach which included the analysis of ESG factors as part of their overall risk adjusted valuation assessment. This supported the overall promotion of investment in funds which the Manager deems desirable on ESG grounds. By incorporating positive ESG factors as part of the overall portfolio construction/fund selection, the Fund through its investments, supported a tilt towards investment in Underlying Funds that have a more positive impact on the environment or society at large.

c. Fund Level ESG Scoring

A monthly independent analysis and classification of the Fund's ESG score was performed internally by the Manager. A minimum ESG score of "A" was applied at Fund Level to ensure that the Fund's ESG score did not fall below a level deemed by the Manager to be appropriate for a fund promoting environmental and/or social characteristics. This additional control served to highlight a minimum Fund level ESG score and promoted engagement and challenge of portfolio managers on ESG topics.

d. Negative Screening (Norm-based exclusions)

For any potential direct holdings the Manager applied norms-based exclusions based on its Exclusion Policy. Exclusion categories considered in the Exclusion Policy were:

- United Nations Global Compact Principles
- Controversial Weapons
- Tobacco
- Climate Change
- Forced Labour

No reference benchmark was designated for the purpose of attaining the environmental or social characteristics promoted.

● ***How did the sustainability indicators perform?***

The following sustainability indicators were used to measure the attainment of the environmental and social characteristics promoted by the Fund;

- i. The percentage of the Fund portfolio made in sustainable investments which was 47.33% as at 31 December 2022
- ii. the percentage of the Fund's Underlying Fund holdings rated A or above by MSCI ESG Manager (or another corresponding rating from a similar rating provider) which was 98.04% of holdings as at 31 December 2022

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

FAM Evolution ICAV

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

● *...and compared to previous periods?*

Not applicable for the first periodic report.

● *What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?*

Please note that the Fund currently follows a fund of funds investment approach and can invest principally in underlying open-ended UCIs and UCITS (as well as other permissible instruments). The Management Company therefore relies on data provided by the investment managers of the underlying fund investments when calculating the percentage proportion of sustainable investment of the Fund and when calculating the percentages required in the section below dealing with the asset allocation of the Fund.

The objectives of the sustainable investments that the Fund made was to promote environmental and/or social characteristics. On the basis that the Fund is currently following a fund of funds investment approach, the objectives of the sustainable investments that the Fund partially intends to make is linked to the sustainable investments made by the Underlying Funds. The Fund sought to make investments in Underlying Funds that committed/partially committed to invest in sustainable investments and who had a process for ensuring that their sustainable investments met the following criteria;

- a. Made in investee companies that demonstrate good governance;
- b. Made in a manner that demonstrates that they do no significant harm to other environmental objectives; and
- c. Made in investee companies that make a positive contribution towards an environmental or social objective. The Fund allocates between Underlying Funds which make sustainable investments of any type, i.e. investments with an environmental, and/or a social objective. The Fund did not favour any specific type of sustainable investment.

As at 31 December the Fund had a proportion of 47.33% of sustainable investments

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

The sustainable investments that the Fund made did not cause significant harm to any environmental or social sustainable investment objective based on the policies adopted by the relevant Underlying Fund investment managers. These policies are considered as part of the Manager's initial and ongoing investment due diligence procedures and are assessed for alignment with the indicators set out in Table 1 and any relevant additional indicator from Tables 2 and 3 of Annex I of the Delegated Regulation.

How were the indicators for adverse impacts on sustainability factors taken into account?

Principal adverse impact ("PAI") indicators were calculated at both the Fund level and the Underlying Fund level. The results were compared with that of a chosen proxy benchmark representative of the Fund's investment universe and/or peers. These calculations were used as the basis of assessment of adverse impacts on sustainability factors in order to determine whether the Manager could improve at Fund level and/or where Manager could engage with Underlying Fund investment managers to improve at the Underlying Fund level.

The Fund considered the following principal adverse sustainability impacts indicators for the proportion of assets qualified as sustainable investments:

Corporate mandatory indicators:

1. GreenHouse Gas (GHG) Emissions
2. Carbon footprint
3. GHG intensity of investee companies
4. Exposure to companies active in the fossil fuel sector
5. Share of non-renewable energy consumption and production
6. Energy consumption intensity per high impact climate sector
7. Activities negatively affecting biodiversity sensitive areas
8. Emissions to water
9. Hazardous waste ratio

FAM Evolution ICAV

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

10. Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises
11. Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact principles and OECD Guidelines for Multinational Enterprises
12. Unadjusted gender pay gap
13. Board gender diversity
14. Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons)

Corporate voluntary indicators: Environment

4. Investments in companies without carbon emission reduction initiatives Social

Corporate voluntary indicators: Social

9. Lack of a human rights policy

Sovereign mandatory indicator:

15. GHG intensity
16. Investee countries subject to social violations

— — — *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:*

The sustainable investments which the Fund made in the Underlying Funds and their alignment with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights were assessed in the following ways;

1. Via PAI monitoring of the following indicators;
 - Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises
 - Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact principles and OECD Guidelines for Multinational Enterprises

FAM Evolution ICAV

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

2. Through engagement with the Underlying Fund investment managers to ensure that the sustainable investments that the Underlying Funds made are:
 - a. Made in investee companies that demonstrate good governance;
 - b. Made in a manner that demonstrates that they do no significant harm to other environmental objectives; and
 - c. Made in investee companies that make a positive contribution towards an environmental or social objective.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The Manager considered principal adverse impacts of its investment decisions on sustainability factors on an ongoing basis by monitoring the Fund portfolio against mandatory and additional PAI indicators and as part of its investment decision making process and investment due diligence process and procedures. Principal adverse impacts were prioritized based on materiality relative to the objectives or characteristics of the Fund, provided that all minimum standards are met. The results were compared with that of a chosen proxy benchmark representative of the Fund’s investment universe and/or peers. These calculations formed the basis of assessment of adverse impacts on sustainability factors in order to determine what the Portfolio Managers could improve at Fund level and where the Portfolio Managers could engage with relevant issuers to improve on such indicators.

The specific PAI indicators that were taken into consideration for this product were;

Corporate mandatory indicators:

1. GreenHouse Gas (GHG) Emissions

FAM Evolution ICAV

What was the proportion of sustainability-related investments?

47.33%

● *What was the asset allocation?*

98.04% of the Fund's Investments were aligned with the environmental and/or social characteristics promoted by the Fund. The Fund also committed to a minimum proportion of 30% in sustainable investments and as at 31 December the Fund had a proportion of 47.33% of sustainable investments. The remaining investments of the Fund were invested in cash and cash equivalents for liquidity purposes and derivatives which may be used for investment, risk reduction and hedging purposes. Calculations may rely on incomplete or inaccurate underlying fund manager data and/or company or third-party data.

Asset allocation describes the share of investments in specific assets.

FAM Evolution ICAV

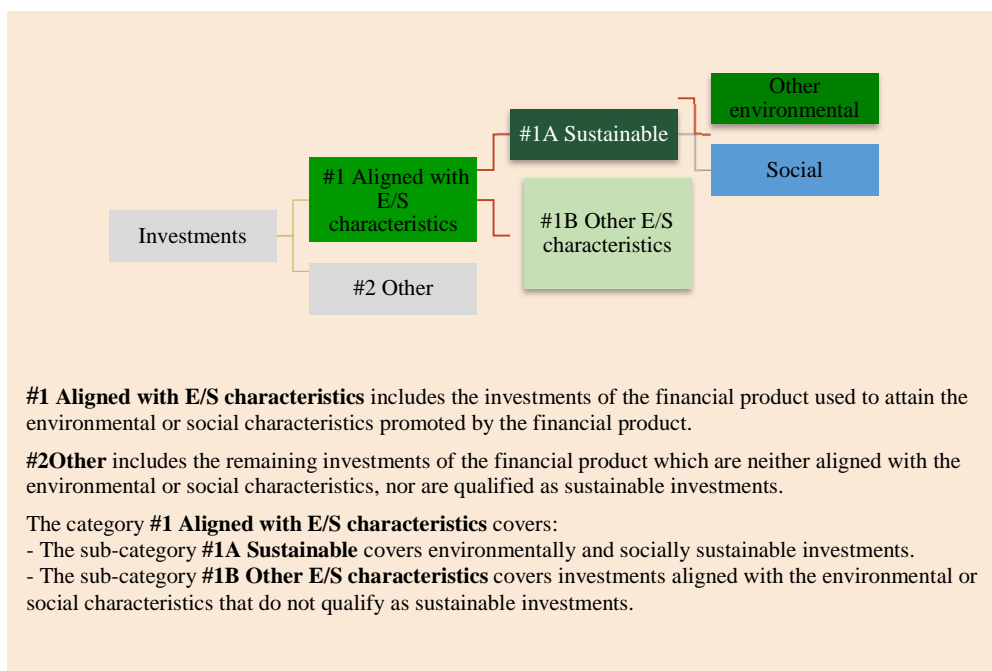

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● *In which economic sectors were the investments made?*

Largest investments	% Assets
Open-ended investment funds	100.00%

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

As the investments underlying this Fund do not take into account the EU criteria for environmentally sustainable economic activities within the meaning of the Taxonomy Regulation, the Fund’s portfolio alignment with the Taxonomy Regulation was not calculated. It follows that the Fund does not currently commit to investing more than 0% of its assets in investments aligned with the Taxonomy.

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?**

- Yes:
 - In fossil gas In nuclear energy
- No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

FAM Evolution ICAV

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

● What was the share of investments made in transitional and enabling activities?

The share of investments in transitional and enabling activities within the meaning of the EU Taxonomy Regulations was 0% for transitional activities and 0% for enabling activities.

● How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not applicable for the first periodic report.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

The share of sustainable investments with an environmental objective that was not aligned with the European Taxonomy Regulation is 32.03%.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

FAM Evolution ICAV

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

What was the share of socially sustainable investments?

Socially sustainable investments represented 22.21% of the financial product.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The remaining investments of the Fund included cash and cash equivalents for liquidity purposes and derivatives which may be used for investment, risk reduction and hedging purposes.

Any “#2 Other” potential investments, other than cash or cash equivalents were screened according to the Manager’s exclusion policy.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Manager has integrated various house ESG policies and procedures to ensure the binding elements of the investment strategy used to select the investments to attain each of the environmental or social characteristics promoted by this product, such as a minimum investment in funds in scope of Article 8 and 9 of the SFDR, Positive Screening, Fund Level ESG Scoring and Negative Screening have been implemented and are monitored regularly.

Furthermore, the Fund invested 47.33% of its assets in “sustainable investments” as defined in Article 2 (17) of SFDR. Criteria to qualify an investment as “sustainable investment” are indicated in the above question “*What were the objectives of the sustainable investments that the financial product partially intends to make and does the sustainable investments contribute to such objectives?*”.

The Fund invested 89.95% in Underlying Funds which fall within the meaning of either Article 8 or Article 9 of the SFDR, which means, the majority of the Underlying Funds which the Fund held promoted environmental and social characteristics while investing in companies which follow good governance practices.

No reference benchmark was designated for the purpose of attaining the environmental or social characteristics promoted.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

How did this financial product perform compared to the reference benchmark?

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

- *How does the reference benchmark differ from a broad market index?*

ANNEX IV

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The EU Taxonomy is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Product name: FAM MegaTrends Target 2023
Legal entity identifier: 254900ONQ81O6QE4IP75

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

Yes

No

It made **sustainable investments with an environmental objective:** ___%

- in economic activities that qualify as environmentally sustainable under the EU Taxonomy
- in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made **sustainable investments with a social objective:** ___%

It promoted **Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of 50.97% of sustainable investments

- with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
- with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
- with a social objective

It promoted E/S characteristics, but **did not make any sustainable investments**

All actual data within this periodic report are calculated on the closing date of the accounting year.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and/or social characteristics promoted by this financial product included;

a. Minimum investment in funds in scope of Article 8 and 9 of the SFDR

The Fund invested 94.56% in Underlying Funds which fall within the meaning of either Article 8 or Article 9 of the SFDR, which means, that the majority of the Underlying Funds which the Fund held promoted environmental and social characteristics while investing in companies which follow good governance practices.

FAM Evolution ICAV

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

b. Positive Screening

Consideration of ESG factors were a key element of portfolio construction/fund selection. Portfolio managers took a holistic approach which included the analysis of ESG factors as part of their overall risk adjusted valuation assessment. This supported the overall promotion of investment in funds which the Manager deems desirable on ESG grounds. By incorporating positive ESG factors as part of the overall portfolio construction/fund selection, the Fund through its investments, supported a tilt towards investment in Underlying Funds that have a more positive impact on the environment or society at large.

c. Fund Level ESG Scoring

A monthly independent analysis and classification of the Fund's ESG score was performed internally by the Manager. A minimum ESG score of "A" was applied at Fund Level to ensure that the Fund's ESG score did not fall below a level deemed by the Manager to be appropriate for a fund promoting environmental and/or social characteristics. This additional control served to highlight a minimum Fund level ESG score and promoted engagement and challenge of portfolio managers on ESG topics.

d. Negative Screening (Norm-based exclusions)

For any potential direct holdings the Manager applied norms-based exclusions based on its Exclusion Policy. Exclusion categories considered in the Exclusion Policy were:

- United Nations Global Compact Principles
- Controversial Weapons
- Tobacco
- Climate Change
- Forced Labour

No reference benchmark was designated for the purpose of attaining the environmental or social characteristics promoted.

● *How did the sustainability indicators perform?*

The following sustainability indicators were used to measure the attainment of the environmental and social characteristics promoted by the Fund;

- i. The percentage of the Fund portfolio made in sustainable investments was 50.97% as at 31 December 2022.
- ii. the percentage of the Fund's Underlying Fund holdings rated A or above by MSCI ESG Manager (or another corresponding rating from a similar rating provider) was 98.05% of holdings as at 31 December 2022.

● *...and compared to previous periods?*

Not applicable for the first periodic report.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

FAM Evolution ICAV

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

- *What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?*

Please note that the Fund currently follows a fund of funds investment approach and can invest principally in underlying open-ended UCIs and UCITS (as well as other permissible instruments). The Management Company therefore relies on data provided by the investment managers of the underlying fund investments when calculating the percentage proportion of sustainable investment of the Fund and when calculating the percentages required in the section below dealing with the asset allocation of the Fund.

The objectives of the sustainable investments that the Fund made was to promote environmental and/or social characteristics. On the basis that the Fund is currently following a fund of funds investment approach, the objectives of the sustainable investments that the Fund partially intends to make is linked to the sustainable investments made by the Underlying Funds. The Fund sought to make investments in Underlying Funds that committed/partially committed to invest in sustainable investments and who had a process for ensuring that their sustainable investments met the following criteria;

- a. Made in investee companies that demonstrate good governance;
- b. Made in a manner that demonstrates that they do no significant harm to other environmental objectives; and
- c. Made in investee companies that make a positive contribution towards an environmental or social objective. The Fund allocates between Underlying Funds which make sustainable investments of any type, i.e. investments with an environmental, and/or a social objective. The Fund did not favour any specific type of sustainable investment.

As at 31 December the Fund had a proportion of 50.97% of sustainable investments

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

FAM Evolution ICAV

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

The sustainable investments that the Fund makes did not cause significant harm to any environmental or social sustainable investment objective based on the policies adopted by the relevant Underlying Fund investment managers. These policies are considered as part of the Manager's initial and ongoing investment due diligence procedures and are assessed for alignment with the indicators set out in Table 1 and any relevant additional indicator from Tables 2 and 3 of Annex I of the Delegated Regulation.

How were the indicators for adverse impacts on sustainability factors taken into account?

Principal adverse impact ("PAI") indicators were calculated at both the Fund level and the Underlying Fund level. The results were compared with that of a chosen proxy benchmark representative of the Fund's investment universe and/or peers. These calculations are used as the basis of assessment of adverse impacts on sustainability factors in order to determine whether the Manager could improve at Fund level and/or where Manager could engage with Underlying Fund investment managers to improve at the Underlying Fund level.

The Fund considered the following principal adverse sustainability impacts indicators for the proportion of assets qualified as sustainable investments:

Corporate mandatory indicators:

1. GreenHouse Gas (GHG) Emissions
2. Carbon footprint
3. GHG intensity of investee companies
4. Exposure to companies active in the fossil fuel sector
5. Share of non-renewable energy consumption and production
6. Energy consumption intensity per high impact climate sector
7. Activities negatively affecting biodiversity sensitive areas
8. Emissions to water
9. Hazardous waste ratio
10. Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises

FAM Evolution ICAV

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

11. Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact principles and OECD Guidelines for Multinational Enterprises
12. Unadjusted gender pay gap
13. Board gender diversity
14. Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons)

Corporate voluntary indicators: Environment

4. Investments in companies without carbon emission reduction initiatives Social

Corporate voluntary indicators: Social

9. Lack of a human rights policy

Sovereign mandatory indicator:

15. GHG intensity
16. Investee countries subject to social violations

— — — *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:*

The sustainable investments which the Fund made in the Underlying Funds and their alignment with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights were assessed in the following ways;

1. Via PAI monitoring of the following indicators;
 - Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises
 - Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact principles and OECD Guidelines for Multinational Enterprises

FAM Evolution ICAV

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

2. Through engagement with the Underlying Fund investment managers to ensure that the sustainable investments that the Underlying Funds made are:
 - a. Made in investee companies that demonstrate good governance;
 - b. Made in a manner that demonstrates that they do no significant harm to other environmental objectives; and
 - c. Made in investee companies that make a positive contribution towards an environmental or social objective.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The Manager considered principal adverse impacts of its investment decisions on sustainability factors on an ongoing basis by monitoring the Fund portfolio against mandatory and additional PAI indicators and as part of its investment decision making process and investment due diligence process and procedures. Principal adverse impacts were prioritized based on materiality relative to the objectives or characteristics of the Fund, provided that all minimum standards are met. The results were compared with that of a chosen proxy benchmark representative of the Fund’s investment universe and/or peers. These calculations formed the basis of assessment of adverse impacts on sustainability factors in order to determine what the Portfolio Managers could improve at Fund level and where the Portfolio Managers could engage with relevant issuers to improve on such indicators.

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: as at 31 December 2022

What was the proportion of sustainability-related investments?

50.97%

● What was the asset allocation?

98.05% of the Fund’s Investments are aligned with the environmental and/or social characteristics promoted by the Fund. The Fund also commits to a minimum proportion of 20% in sustainable investments and as at 31 December the Fund had a proportion of 50.97% of sustainable investments. The remaining investments of the Fund were invested in cash and cash equivalents for liquidity purposes and derivatives which may be used for investment, risk reduction and hedging purposes. Calculations may rely on incomplete or inaccurate underlying fund manager data and/or company or third-party data.

Asset allocation describes the share of investments in specific assets.

Sustainable Finance Disclosure Regulation (SFDR) (continued)

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● *In which economic sectors were the investments made?*

Largest investments	% Assets
Open-ended investment funds	98.02%

● **To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?**

As the investments underlying this Fund do not take into account the EU criteria for environmentally sustainable economic activities within the meaning of the Taxonomy Regulation, the Fund's portfolio alignment with the Taxonomy Regulation is not calculated. It follows that the Fund does not currently commit to investing more than 0% of its assets in investments aligned with the Taxonomy.

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?**

- Yes:
- In fossil gas In nuclear energy
- No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

FAM Evolution ICAV

Sustainable Finance Disclosure Regulation (SFDR) (continued)

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

● What was the share of investments made in transitional and enabling activities?

The share of investments in transitional and enabling activities within the meaning of the Regulations Taxonomy is 0% for transitional activities and 0% for enabling activities.

● How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not applicable for the first periodic report.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

The share of sustainable investments with an environmental objective that are not aligned with the European Taxonomy Regulation is 35.75%.

What was the share of socially sustainable investments?

Socially sustainable investments represent 18.01% of the financial product.

 are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The remaining investments of the Fund includes cash and cash equivalents for liquidity purposes and derivatives which may be used for investment, risk reduction and hedging purposes.

Any “#2 Other” potential investments, other than cash or cash equivalents are screened according to the managers exclusion policy.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Manager has integrated various house ESG policies and procedures to ensure the binding elements of the investment strategy used to select the investments to attain each of the environmental or social characteristics promoted by this product, such as a minimum investment in funds in scope of Article 8 and 9 of the SFDR, Positive Screening, Fund Level ESG Scoring and Negative Screening have been implemented and are monitored regularly.

Furthermore, the Fund invested 50.97% of its assets in “sustainable investments” as defined in Article 2 (17) of SFDR. Criteria to qualify an investment as “sustainable investment” are indicated in the above question “*What are the objectives of the sustainable investments that the financial product partially intends to make and does the sustainable investments contribute to such objectives?*”.

The Fund invested 94.56% in Underlying Funds which fall within the meaning of either Article 8 or Article 9 of the SFDR, which means, the majority of the Underlying Funds which the Fund held promoted environmental and social characteristics while investing in companies which follow good governance practices.

No reference benchmark was designated for the purpose of attaining the environmental or social characteristics promoted.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

How did this financial product perform compared to the reference benchmark?

- *How does the reference benchmark differ from a broad market index?*
Not applicable
- *How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?*
Not applicable
- *How did this financial product perform compared with the reference benchmark?*
Not applicable
- *How did this financial product perform compared with the broad market index?*
Not applicable

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

Sustainable Finance Disclosure Regulation (SFDR) (continued)

ANNEX IV

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: FAM MegaTrends Target 2026
Legal entity identifier: 254900Q1DQ0LPY28UG31

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The EU Taxonomy is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?	
<input checked="" type="radio"/> <input type="radio"/> <input type="checkbox"/> Yes	<input type="radio"/> <input type="radio"/> <input checked="" type="checkbox"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___% <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy 	<input checked="" type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 42.72% of sustainable investments <ul style="list-style-type: none"> <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with a social objective
<input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

All actual data within this periodic report are calculated on the closing date of the accounting year.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and/or social characteristics promoted by this financial product included;

a. Minimum investment in funds in scope of Article 8 and 9 of the SFDR

The Fund invested 89.76% in Underlying Funds which fall within the meaning of either Article 8 or Article 9 of the SFDR, which means, that the majority of the Underlying Funds which the Fund held promoted environmental and social characteristics while investing in companies which follow good governance practices.

FAM Evolution ICAV

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

b. Positive Screening

Consideration of ESG factors were a key element of portfolio construction/fund selection. Portfolio managers took a holistic approach which included the analysis of ESG factors as part of their overall risk adjusted valuation assessment. This supported the overall promotion of investment in funds which the Manager deems desirable on ESG grounds. By incorporating positive ESG factors as part of the overall portfolio construction/fund selection, the Fund through its investments, supported a tilt towards investment in Underlying Funds that have a more positive impact on the environment or society at large.

c. Fund Level ESG Scoring

A monthly independent analysis and classification of the Fund's ESG score was performed internally by the Manager. A minimum ESG score of "A" was applied at Fund Level to ensure that the Fund's ESG score did not fall below a level deemed by the Manager to be appropriate for a fund promoting environmental and/or social characteristics. This additional control served to highlight a minimum Fund level ESG score and promoted engagement and challenge of portfolio managers on ESG topics.

d. Negative Screening (Norm-based exclusions)

For any potential direct holdings the Manager applied norms-based exclusions based on its Exclusion Policy. Exclusion categories considered in the Exclusion Policy were:

- United Nations Global Compact Principles
- Controversial Weapons
- Tobacco
- Climate Change
- Forced Labour

No reference benchmark was designated for the purpose of attaining the environmental or social characteristics promoted.

● ***How did the sustainability indicators perform?***

The following sustainability indicators were used to measure the attainment of the environmental and social characteristics promoted by the Fund;

- i. The percentage of the Fund portfolio made in sustainable investments was 42.72% as at 31 December 2022.
- ii. the percentage of the Fund's Underlying Fund holdings rated A or above by MSCI ESG Manager (or another corresponding rating from a similar rating provider) was 98.57% of holdings as at 31 December 2022.

● ***...and compared to previous periods?***

Not applicable for the first periodic report.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

FAM Evolution ICAV

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

- *What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?*

Please note that the Fund currently follows a fund of funds investment approach and can invest principally in underlying open-ended UCIs and UCITS (as well as other permissible instruments). The Management Company therefore relies on data provided by the investment managers of the underlying fund investments when calculating the percentage proportion of sustainable investment of the Fund and when calculating the percentages required in the section below dealing with the asset allocation of the Fund.

The objectives of the sustainable investments that the Fund made was to promote environmental and/or social characteristics. On the basis that the Fund is currently following a fund of funds investment approach, the objectives of the sustainable investments that the Fund partially intends to make is linked to the sustainable investments made by the Underlying Funds. The Fund sought to make investments in Underlying Funds that committed/partially committed to invest in sustainable investments and who had a process for ensuring that their sustainable investments met the following criteria;

- Made in investee companies that demonstrate good governance;
- Made in a manner that demonstrates that they do no significant harm to other environmental objectives; and
- Made in investee companies that make a positive contribution towards an environmental or social objective. The Fund allocates between Underlying Funds which make sustainable investments of any type, i.e. investments with an environmental, and/or a social objective. The Fund did not favour any specific type of sustainable investment.

As at 31 December the Fund had a proportion of 42.72% of sustainable investments

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

FAM Evolution ICAV

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

The sustainable investments that the Fund makes did not cause significant harm to any environmental or social sustainable investment objective based on the policies adopted by the relevant Underlying Fund investment managers. These policies are considered as part of the Manager's initial and ongoing investment due diligence procedures and are assessed for alignment with the indicators set out in Table 1 and any relevant additional indicator from Tables 2 and 3 of Annex I of the Delegated Regulation.

How were the indicators for adverse impacts on sustainability factors taken into account?

Principal adverse impact ("PAI") indicators were calculated at both the Fund level and the Underlying Fund level. The results were compared with that of a chosen proxy benchmark representative of the Fund's investment universe and/or peers. These calculations are used as the basis of assessment of adverse impacts on sustainability factors in order to determine whether the Manager could improve at Fund level and/or where Manager could engage with Underlying Fund investment managers to improve at the Underlying Fund level.

The Fund considered the following principal adverse sustainability impacts indicators for the proportion of assets qualified as sustainable investments:

Corporate mandatory indicators:

1. GreenHouse Gas (GHG) Emissions
2. Carbon footprint
3. GHG intensity of investee companies
4. Exposure to companies active in the fossil fuel sector
5. Share of non-renewable energy consumption and production
6. Energy consumption intensity per high impact climate sector
7. Activities negatively affecting biodiversity sensitive areas
8. Emissions to water
9. Hazardous waste ratio
10. Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises

FAM Evolution ICAV

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

11. Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact principles and OECD Guidelines for Multinational Enterprises
12. Unadjusted gender pay gap
13. Board gender diversity
14. Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons)

Corporate voluntary indicators: Environment

4. Investments in companies without carbon emission reduction initiatives Social

Corporate voluntary indicators: Social

9. Lack of a human rights policy

Sovereign mandatory indicator:

15. GHG intensity
16. Investee countries subject to social violations

— — — *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:*

The sustainable investments which the Fund made in the Underlying Funds and their alignment with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights were assessed in the following ways;

1. Via PAI monitoring of the following indicators;
 - Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises
 - Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact principles and OECD Guidelines for Multinational Enterprises

FAM Evolution ICAV

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

2. Through engagement with the Underlying Fund investment managers to ensure that the sustainable investments that the Underlying Funds made are:
 - a. Made in investee companies that demonstrate good governance;
 - b. Made in a manner that demonstrates that they do no significant harm to other environmental objectives; and
 - c. Made in investee companies that make a positive contribution towards an environmental or social objective.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The Manager considered principal adverse impacts of its investment decisions on sustainability factors on an ongoing basis by monitoring the Fund portfolio against mandatory and additional PAI indicators and as part of its investment decision making process and investment due diligence process and procedures. Principal adverse impacts were prioritized based on materiality relative to the objectives or characteristics of the Fund, provided that all minimum standards are met. The results were compared with that of a chosen proxy benchmark representative of the Fund’s investment universe and/or peers. These calculations formed the basis of assessment of adverse impacts on sustainability factors in order to determine what the Portfolio Managers could improve at Fund level and where the Portfolio Managers could engage with relevant issuers to improve on such indicators.

FAM Evolution ICAV

What was the proportion of sustainability-related investments?

42.72%

● What was the asset allocation?

98.57% of the Fund’s Investments are aligned with the environmental and/or social characteristics promoted by the Fund. The Fund also commits to a minimum proportion of 20% in sustainable investments and as at 31 December the Fund had a proportion of 42.72% of sustainable investments. The remaining investments of the Fund were invested in cash and cash equivalents for liquidity purposes and derivatives which may be used for investment, risk reduction and hedging purposes. Calculations may rely on incomplete or inaccurate underlying fund manager data and/or company or third-party data.

Asset allocation describes the share of investments in specific assets.

FAM Evolution ICAV

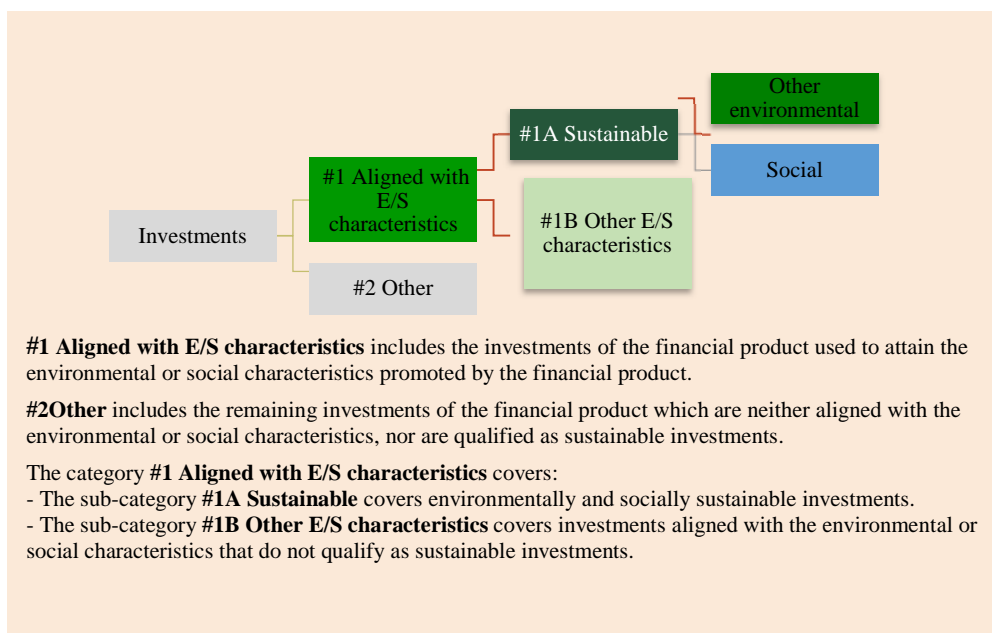

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● In which economic sectors were the investments made?

Largest investments	% Assets
Open-ended investment funds	98.57 %

● To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

As the investments underlying this Fund do not take into account the EU criteria for environmentally sustainable economic activities within the meaning of the Taxonomy Regulation, the Fund's portfolio alignment with the Taxonomy Regulation is not calculated. It follows that the Fund does not currently commit to investing more than 0% of its assets in investments aligned with the Taxonomy.

● Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

- Yes:
- In fossil gas In nuclear energy
- No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

FAM Evolution ICAV

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

● What was the share of investments made in transitional and enabling activities?

The share of investments in transitional and enabling activities within the meaning of the Regulations Taxonomy is 0% for transitional activities and 0% for enabling activities.

● How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not applicable for the first periodic report.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

The share of sustainable investments with an environmental objective that are not aligned with the European Taxonomy Regulation is 30.57%.

What was the share of socially sustainable investments?

Socially sustainable investments represent 15.58% of the financial product.

 are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The remaining investments of the Fund includes cash and cash equivalents for liquidity purposes and derivatives which may be used for investment, risk reduction and hedging purposes.

Any “#2 Other” potential investments, other than cash or cash equivalents are screened according to the managers exclusion policy.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Manager has integrated various house ESG policies and procedures to ensure the binding elements of the investment strategy used to select the investments to attain each of the environmental or social characteristics promoted by this product, such as a minimum investment in funds in scope of Article 8 and 9 of the SFDR, Positive Screening, Fund Level ESG Scoring and Negative Screening have been implemented and are monitored regularly.

Furthermore, the Fund invested 42.72% of its assets in “sustainable investments” as defined in Article 2 (17) of SFDR. Criteria to qualify an investment as “sustainable investment” are indicated in the above question “*What are the objectives of the sustainable investments that the financial product partially intends to make and does the sustainable investments contribute to such objectives*”.

The Fund invested 89.76% in Underlying Funds which fall within the meaning of either Article 8 or Article 9 of the SFDR, which means, the majority of the Underlying Funds which the Fund held promoted environmental and social characteristics while investing in companies which follow good governance practices.

No reference benchmark was designated for the purpose of attaining the environmental or social characteristics promoted.

How did this financial product perform compared to the reference benchmark?

- *How does the reference benchmark differ from a broad market index?*
Not applicable
- *How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?*
Not applicable
- *How did this financial product perform compared with the reference benchmark?*
Not applicable
- *How did this financial product perform compared with the broad market index?*
Not applicable

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

Sustainable Finance Disclosure Regulation (SFDR) (continued)

ANNEX IV

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: FAM Sustainable Target 2023
Legal entity identifier: 254900SYB0X17BVTMV92

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The EU Taxonomy is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

Yes

It made **sustainable investments with an environmental objective:** ___%

in economic activities that qualify as environmentally sustainable under the EU Taxonomy

in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made **sustainable investments with a social objective:** ___%

No

It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of 66.51% of sustainable investments

with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy

with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

with a social objective

It promoted E/S characteristics, but **did not make any sustainable investments**

All actual data within this periodic report are calculated on the closing date of the accounting year.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and/or social characteristics promoted by this financial product included;

FAM Evolution ICAV

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

a. Minimum investment in funds in scope of Article 8 and 9 of the SFDR

The Fund invested 96.91% in Underlying Funds which fall within the meaning of either Article 8 or Article 9 of the SFDR, which means, that the majority of the Underlying Funds which the Fund held promoted environmental and social characteristics while investing in companies which follow good governance practices.

b. Positive Screening

Consideration of ESG factors was a key element of portfolio construction/fund selection. Portfolio managers took a holistic approach which included the analysis of ESG factors as part of their overall risk adjusted valuation assessment. This supported the overall promotion of investment in funds which the Manager deems desirable on ESG grounds. By incorporating positive ESG factors as part of the overall portfolio construction/fund selection, the Fund through its investments, supported a tilt towards investment in Underlying Funds that have a more positive impact on the environment or society at large.

c. Fund Level ESG Scoring

A monthly independent analysis and classification of the Fund's ESG score was performed internally by the Manager. A minimum ESG score of "A" was applied at Fund Level to ensure that the Fund's ESG score did not fall below a level deemed by the Manager to be appropriate for a fund promoting environmental and/or social characteristics. This additional control served to highlight a minimum Fund level ESG score and promoted engagement and challenge of portfolio managers on ESG topics.

d. Negative Screening (Norm-based exclusions)

For any potential direct holdings the Manager applied norms-based exclusions based on its Exclusion Policy. Exclusion categories considered in the Exclusion Policy were:

- United Nations Global Compact Principles
- Controversial Weapons
- Tobacco
- Climate Change
- Forced Labour

No reference benchmark was designated for the purpose of attaining the environmental or social characteristics promoted.

● ***How did the sustainability indicators perform?***

The following sustainability indicators were used to measure the attainment of the environmental and social characteristics promoted by the Fund;

- i. The percentage of the Fund portfolio made in sustainable investments which was 66.51% as at 31 December 2022
- ii. the percentage of the Fund's Underlying Fund holdings rated A or above by MSCI ESG Manager (or another corresponding rating from a similar rating provider) which was 97.40% of holdings as at 31 December 2022

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

FAM Evolution ICAV

Sustainable Finance Disclosure Regulation (SFDR) (continued)

● *...and compared to previous periods?*

Not applicable for the first periodic report.

● *What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?*

Please note that the Fund currently follows a fund of funds investment approach and can invest principally in underlying open-ended UCIs and UCITS (as well as other permissible instruments). The Management Company therefore relies on data provided by the investment managers of the underlying fund investments when calculating the percentage proportion of sustainable investment of the Fund and when calculating the percentages required in the section below dealing with the asset allocation of the Fund.

The objectives of the sustainable investments that the Fund made was to promote environmental and/or social characteristics. On the basis that the Fund is currently following a fund of funds investment approach, the objectives of the sustainable investments that the Fund partially intends to make is linked to the sustainable investments made by the Underlying Funds. The Fund sought to make investments in Underlying Funds that committed/partially committed to invest in sustainable investments and who had a process for ensuring that their sustainable investments met the following criteria;

- a. Made in investee companies that demonstrate good governance;
- b. Made in a manner that demonstrates that they do no significant harm to other environmental objectives; and
- c. Made in investee companies that make a positive contribution towards an environmental or social objective. The Fund allocates between Underlying Funds which make sustainable investments of any type, i.e. investments with an environmental, and/or a social objective. The Fund did not favour any specific type of sustainable investment.

As at 31 December the Fund had a proportion of 66.51% of sustainable investments

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

FAM Evolution ICAV

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

The sustainable investments that the Fund made did not cause significant harm to any environmental or social sustainable investment objective based on the policies adopted by the relevant Underlying Fund investment managers. These policies are considered as part of the Manager's initial and ongoing investment due diligence procedures and are assessed for alignment with the indicators set out in Table 1 and any relevant additional indicator from Tables 2 and 3 of Annex I of the Delegated Regulation.

How were the indicators for adverse impacts on sustainability factors taken into account?

Principal adverse impact ("PAI") indicators were calculated at both the Fund level and the Underlying Fund level. The results were compared with that of a chosen proxy benchmark representative of the Fund's investment universe and/or peers. These calculations were used as the basis of assessment of adverse impacts on sustainability factors in order to determine whether the Manager could improve at Fund level and/or where Manager could engage with Underlying Fund investment managers to improve at the Underlying Fund level.

The Fund considered the following principal adverse sustainability impacts indicators for the proportion of assets qualified as sustainable investments:

Corporate mandatory indicators:

1. GreenHouse Gas (GHG) Emissions
2. Carbon footprint
3. GHG intensity of investee companies
4. Exposure to companies active in the fossil fuel sector
5. Share of non-renewable energy consumption and production
6. Energy consumption intensity per high impact climate sector
7. Activities negatively affecting biodiversity sensitive areas
8. Emissions to water
9. Hazardous waste ratio

FAM Evolution ICAV

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

10. Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises
11. Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact principles and OECD Guidelines for Multinational Enterprises
12. Unadjusted gender pay gap
13. Board gender diversity
14. Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons)

Corporate voluntary indicators: Environment

4. Investments in companies without carbon emission reduction initiatives Social

Corporate voluntary indicators: Social

9. Lack of a human rights policy

Sovereign mandatory indicator:

15. GHG intensity
16. Investee countries subject to social violations

— — — *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:*

The sustainable investments which the Fund made in the Underlying Funds and their alignment with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights were assessed in the following ways;

1. Via PAI monitoring of the following indicators;
 - Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises
 - Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact principles and OECD Guidelines for Multinational Enterprises

FAM Evolution ICAV

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

2. Through engagement with the Underlying Fund investment managers to ensure that the sustainable investments that the Underlying Funds made are:
 - a. Made in investee companies that demonstrate good governance;
 - b. Made in a manner that demonstrates that they do no significant harm to other environmental objectives; and
 - c. Made in investee companies that make a positive contribution towards an environmental or social objective.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The Manager considered principal adverse impacts of its investment decisions on sustainability factors on an ongoing basis by monitoring the Fund portfolio against mandatory and additional PAI indicators and as part of its investment decision making process and investment due diligence process and procedures. Principal adverse impacts were prioritized based on materiality relative to the objectives or characteristics of the Fund, provided that all minimum standards are met. The results were compared with that of a chosen proxy benchmark representative of the Fund’s investment universe and/or peers. These calculations formed the basis of assessment of adverse impacts on sustainability factors in order to determine what the Portfolio Managers could improve at Fund level and where the Portfolio Managers could engage with relevant issuers to improve on such indicators.

The specific PAI indicators that were taken into consideration for this product were;

Corporate mandatory indicators:

1. GreenHouse Gas (GHG) Emissions

FAM Evolution ICAV

Asset allocation describes the share of investments in specific assets.

What was the proportion of sustainability-related investments?

66.51%

● *What was the asset allocation?*

97.40% of the Fund's Investments were aligned with the environmental and/or social characteristics promoted by the Fund. The Fund also committed to a minimum proportion of 30% in sustainable investments and as at 31 December the Fund had a proportion of 66.51% of sustainable investments. The remaining investments of the Fund were invested in cash and cash equivalents for liquidity purposes and derivatives which may be used for investment, risk reduction and hedging purposes. Calculations may rely on incomplete or inaccurate underlying fund manager data and/or company or third-party data.

FAM Evolution ICAV

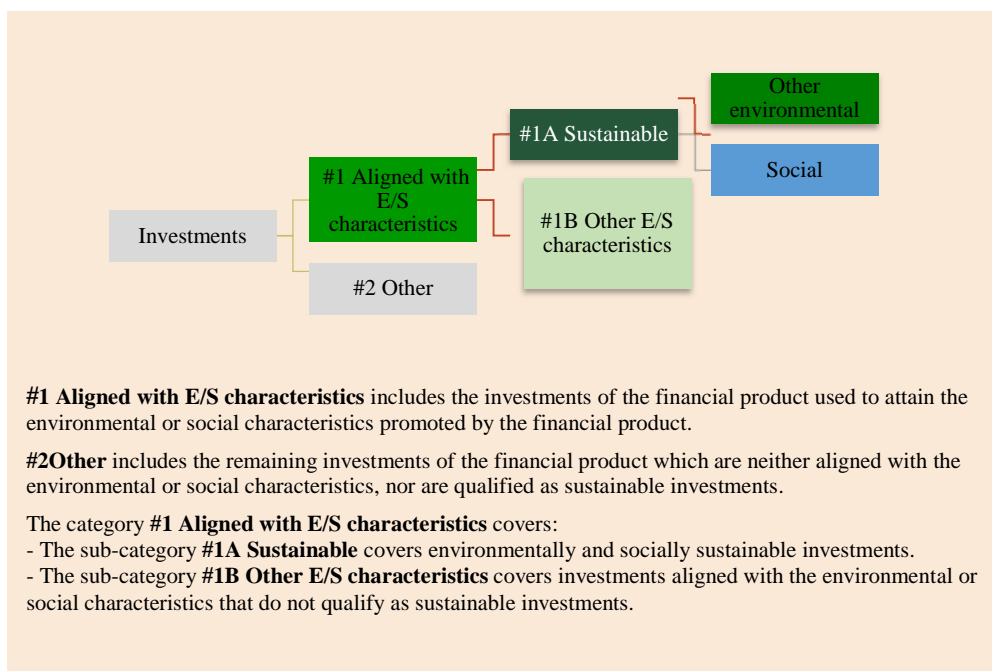

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● *In which economic sectors were the investments made?*

Largest investments	% Assets
Open-ended investment funds	100.00%

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

As the investments underlying this Fund do not take into account the EU criteria for environmentally sustainable economic activities within the meaning of the Taxonomy Regulation, the Fund's portfolio alignment with the Taxonomy Regulation was not calculated. It follows that the Fund does not currently commit to investing more than 0% of its assets in investments aligned with the Taxonomy.

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?**

- Yes:
- In fossil gas In nuclear energy
- No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

FAM Evolution ICAV

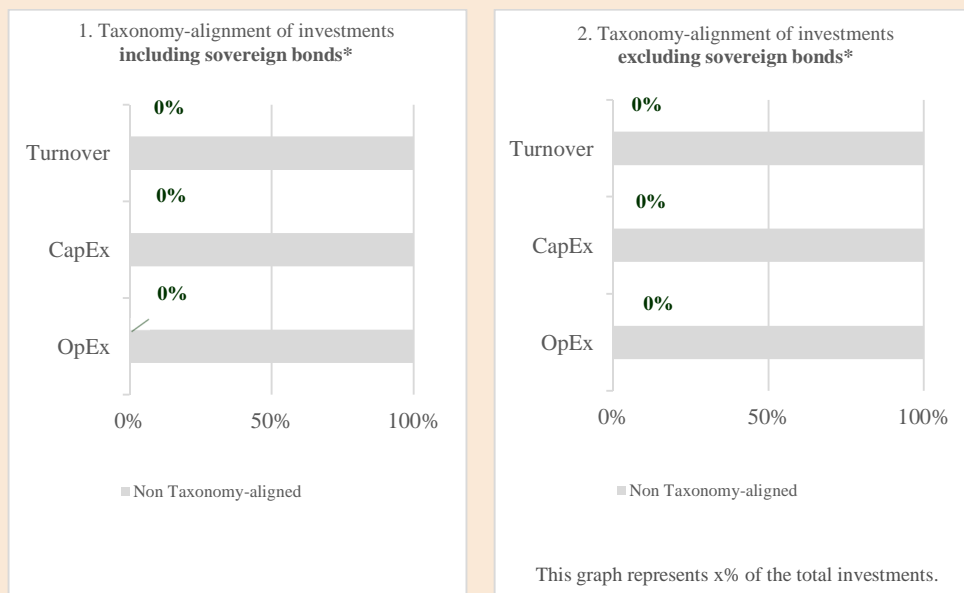

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

● What was the share of investments made in transitional and enabling activities?

The share of investments in transitional and enabling activities within the meaning of the EU Taxonomy Regulations was 0% for transitional activities and 0% for enabling activities.

● How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not applicable for the first periodic report.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

The share of sustainable investments with an environmental objective that was not aligned with the European Taxonomy Regulation is 41.71%.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

FAM Evolution ICAV

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

What was the share of socially sustainable investments?

Socially sustainable investments represented 38.36% of the financial product.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The remaining investments of the Fund included cash and cash equivalents for liquidity purposes and derivatives which may be used for investment, risk reduction and hedging purposes.

Any “#2 Other” potential investments, other than cash or cash equivalents were screened according to the Manager’s exclusion policy.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Manager has integrated various house ESG policies and procedures to ensure the binding elements of the investment strategy used to select the investments to attain each of the environmental or social characteristics promoted by this product, such as a minimum investment in funds in scope of Article 8 and 9 of the SFDR, Positive Screening, Fund Level ESG Scoring and Negative Screening have been implemented and are monitored regularly.

Furthermore, the Fund invested 66.51% of its assets in “sustainable investments” as defined in Article 2 (17) of SFDR. Criteria to qualify an investment as “sustainable investment” are indicated in the above question “*What were the objectives of the sustainable investments that the financial product partially intends to make and does the sustainable investments contribute to such objectives?*”.

The Fund invested 96.91% in Underlying Funds which fall within the meaning of either Article 8 or Article 9 of the SFDR, which means, the majority of the Underlying Funds which the Fund held promoted environmental and social characteristics while investing in companies which follow good governance practices.

No reference benchmark was designated for the purpose of attaining the environmental or social characteristics promoted.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

How did this financial product perform compared to the reference benchmark?

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

- *How does the reference benchmark differ from a broad market index?*
Not applicable
- *How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?*
Not applicable
- *How did this financial product perform compared with the reference benchmark?*
Not applicable
- *How did this financial product perform compared with the broad market index?*
Not applicable

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: FAM MegaTrends Target 2023 III
Legal entity identifier: 254900AO8WP2AOGZT981

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

Yes

It made **sustainable investments with an environmental objective:** ___%

- in economic activities that qualify as environmentally sustainable under the EU Taxonomy
- in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made **sustainable investments with a social objective:** ___%

No

It promoted **Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of 45.79% of sustainable investments

- with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
- with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
- with a social objective

It promoted E/S characteristics, but **did not make any sustainable investments**

All actual data within this periodic report are calculated on the closing date of the accounting year.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and/or social characteristics promoted by this financial product included;

a. Minimum investment in funds in scope of Article 8 and 9 of the SFDR

The Fund invested 90.91% in Underlying Funds which fall within the meaning of either Article 8 or Article 9 of the SFDR, which means, that the majority of the Underlying Funds which the Fund held promoted environmental and social characteristics while investing in companies which follow good governance practices.

FAM Evolution ICAV

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

b. Positive Screening

Consideration of ESG factors were a key element of portfolio construction/fund selection. Portfolio managers took a holistic approach which included the analysis of ESG factors as part of their overall risk adjusted valuation assessment. This supported the overall promotion of investment in funds which the Manager deems desirable on ESG grounds. By incorporating positive ESG factors as part of the overall portfolio construction/fund selection, the Fund through its investments, supported a tilt towards investment in Underlying Funds that have a more positive impact on the environment or society at large.

c. Fund Level ESG Scoring

A monthly independent analysis and classification of the Fund's ESG score was performed internally by the Manager. A minimum ESG score of "A" was applied at Fund Level to ensure that the Fund's ESG score did not fall below a level deemed by the Manager to be appropriate for a fund promoting environmental and/or social characteristics. This additional control served to highlight a minimum Fund level ESG score and promoted engagement and challenge of portfolio managers on ESG topics.

d. Negative Screening (Norm-based exclusions)

For any potential direct holdings the Manager applied norms-based exclusions based on its Exclusion Policy. Exclusion categories considered in the Exclusion Policy were:

- United Nations Global Compact Principles
- Controversial Weapons
- Tobacco
- Climate Change
- Forced Labour

No reference benchmark was designated for the purpose of attaining the environmental or social characteristics promoted.

● ***How did the sustainability indicators perform?***

The following sustainability indicators were used to measure the attainment of the environmental and social characteristics promoted by the Fund;

- i. The percentage of the Fund portfolio made in sustainable investments was 45.79% as at 31 December 2022.
- ii. the percentage of the Fund's Underlying Fund holdings rated A or above by MSCI ESG Manager (or another corresponding rating from a similar rating provider) was 97.87% of holdings as at 31 December 2022.

● ***...and compared to previous periods?***

Not applicable for the first periodic report.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

FAM Evolution ICAV

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

- *What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?*

Please note that the Fund currently follows a fund of funds investment approach and can invest principally in underlying open-ended UCIs and UCITS (as well as other permissible instruments). The Management Company therefore relies on data provided by the investment managers of the underlying fund investments when calculating the percentage proportion of sustainable investment of the Fund and when calculating the percentages required in the section below dealing with the asset allocation of the Fund.

The objectives of the sustainable investments that the Fund made was to promote environmental and/or social characteristics. On the basis that the Fund is currently following a fund of funds investment approach, the objectives of the sustainable investments that the Fund partially intends to make is linked to the sustainable investments made by the Underlying Funds. The Fund sought to make investments in Underlying Funds that committed/partially committed to invest in sustainable investments and who had a process for ensuring that their sustainable investments met the following criteria;

- Made in investee companies that demonstrate good governance;
- Made in a manner that demonstrates that they do no significant harm to other environmental objectives; and
- Made in investee companies that make a positive contribution towards an environmental or social objective. The Fund allocates between Underlying Funds which make sustainable investments of any type, i.e. investments with an environmental, and/or a social objective. The Fund did not favour any specific type of sustainable investment.

As at 31 December the Fund had a proportion of 45.79% of sustainable investments

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

● *How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?*

The sustainable investments that the Fund makes did not cause significant harm to any environmental or social sustainable investment objective based on the policies adopted by the relevant Underlying Fund investment managers. These policies are considered as part of the Manager's initial and ongoing investment due diligence procedures and are assessed for alignment with the indicators set out in Table 1 and any relevant additional indicator from Tables 2 and 3 of Annex I of the Delegated Regulation.

— — *How were the indicators for adverse impacts on sustainability factors taken into account?*

Principal adverse impact ("PAI") indicators were calculated at both the Fund level and the Underlying Fund level. The results were compared with that of a chosen proxy benchmark representative of the Fund's investment universe and/or peers. These calculations are used as the basis of assessment of adverse impacts on sustainability factors in order to determine whether the Manager could improve at Fund level and/or where Manager could engage with Underlying Fund investment managers to improve at the Underlying Fund level.

The Fund considered the following principal adverse sustainability impacts indicators for the proportion of assets qualified as sustainable investments:

Corporate mandatory indicators:

1. GreenHouse Gas (GHG) Emissions
2. Carbon footprint
3. GHG intensity of investee companies
4. Exposure to companies active in the fossil fuel sector
5. Share of non-renewable energy consumption and production
6. Energy consumption intensity per high impact climate sector
7. Activities negatively affecting biodiversity sensitive areas
8. Emissions to water
9. Hazardous waste ratio
10. Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises

FAM Evolution ICAV

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

11. Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact principles and OECD Guidelines for Multinational Enterprises
12. Unadjusted gender pay gap
13. Board gender diversity
14. Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons)

Corporate voluntary indicators: Environment

4. Investments in companies without carbon emission reduction initiatives Social

Corporate voluntary indicators: Social

9. Lack of a human rights policy

Sovereign mandatory indicator:

15. GHG intensity
16. Investee countries subject to social violations

— — — *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:*

The sustainable investments which the Fund made in the Underlying Funds and their alignment with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights were assessed in the following ways;

1. Via PAI monitoring of the following indicators;
 - Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises
 - Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact principles and OECD Guidelines for Multinational Enterprises

FAM Evolution ICAV

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

2. Through engagement with the Underlying Fund investment managers to ensure that the sustainable investments that the Underlying Funds made are:
 - a. Made in investee companies that demonstrate good governance;
 - b. Made in a manner that demonstrates that they do no significant harm to other environmental objectives; and
 - c. Made in investee companies that make a positive contribution towards an environmental or social objective.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The Manager considered principal adverse impacts of its investment decisions on sustainability factors on an ongoing basis by monitoring the Fund portfolio against mandatory and additional PAI indicators and as part of its investment decision making process and investment due diligence process and procedures. Principal adverse impacts were prioritized based on materiality relative to the objectives or characteristics of the Fund, provided that all minimum standards are met. The results were compared with that of a chosen proxy benchmark representative of the Fund’s investment universe and/or peers. These calculations formed the basis of assessment of adverse impacts on sustainability factors in order to determine what the Portfolio Managers could improve at Fund level and where the Portfolio Managers could engage with relevant issuers to improve on such indicators.

Sustainable Finance Disclosure Regulation (SFDR) (continued)

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● *In which economic sectors were the investments made?*

Largest investments	% Assets
Open-ended investment funds	97.87%

● **To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?**

As the investments underlying this Fund do not take into account the EU criteria for environmentally sustainable economic activities within the meaning of the Taxonomy Regulation, the Fund's portfolio alignment with the Taxonomy Regulation is not calculated. It follows that the Fund does not currently commit to investing more than 0% of its assets in investments aligned with the Taxonomy.

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?**

- Yes:
- In fossil gas In nuclear energy
- No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

FAM Evolution ICAV

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

● What was the share of investments made in transitional and enabling activities?

The share of investments in transitional and enabling activities within the meaning of the Regulations Taxonomy is 0% for transitional activities and 0% for enabling activities.

● How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not applicable for the first periodic report.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

The share of sustainable investments with an environmental objective that are not aligned with the European Taxonomy Regulation is 32.42%.

What was the share of socially sustainable investments?

Socially sustainable investments represent 16.71% of the financial product.

 are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The remaining investments of the Fund includes cash and cash equivalents for liquidity purposes and derivatives which may be used for investment, risk reduction and hedging purposes.

Any “#2 Other” potential investments, other than cash or cash equivalents are screened according to the managers exclusion policy.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Manager has integrated various house ESG policies and procedures to ensure the binding elements of the investment strategy used to select the investments to attain each of the environmental or social characteristics promoted by this product, such as a minimum investment in funds in scope of Article 8 and 9 of the SFDR, Positive Screening, Fund Level ESG Scoring and Negative Screening have been implemented and are monitored regularly.

Furthermore, the Fund invested 45.79% of its assets in “sustainable investments” as defined in Article 2 (17) of SFDR. Criteria to qualify an investment as “sustainable investment” are indicated in the above question “*What are the objectives of the sustainable investments that the financial product partially intends to make and does the sustainable investments contribute to such objectives*”.

The Fund invested 90.91% in Underlying Funds which fall within the meaning of either Article 8 or Article 9 of the SFDR, which means, the majority of the Underlying Funds which the Fund held promoted environmental and social characteristics while investing in companies which follow good governance practices.

No reference benchmark was designated for the purpose of attaining the environmental or social characteristics promoted.

How did this financial product perform compared to the reference benchmark?

- *How does the reference benchmark differ from a broad market index?*
Not applicable
- *How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?*
Not applicable
- *How did this financial product perform compared with the reference benchmark?*
Not applicable
- *How did this financial product perform compared with the broad market index?*
Not applicable

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: FAM MegaTrends Target 2026 III
Legal entity identifier: 254900X8KABA2IRJ0003

Environmental and/or social characteristics

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The EU Taxonomy is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Did this financial product have a sustainable investment objective?

Yes

It made **sustainable investments with an environmental objective:** ___%

- in economic activities that qualify as environmentally sustainable under the EU Taxonomy
- in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made **sustainable investments with a social objective:** ___%

No

It promoted **Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of 41.16% of sustainable investments

- with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
- with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
- with a social objective

It promoted E/S characteristics, but **did not make any sustainable investments**

All actual data within this periodic report are calculated on the closing date of the accounting year.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and/or social characteristics promoted by this financial product included;

a. Minimum investment in funds in scope of Article 8 and 9 of the SFDR

The Fund invested 88.33% in Underlying Funds which fall within the meaning of either Article 8 or Article 9 of the SFDR, which means, that the majority of the Underlying Funds which the Fund held promoted environmental and social characteristics while investing in companies which follow good governance practices.

b. Positive Screening

FAM Evolution ICAV

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

Consideration of ESG factors were a key element of portfolio construction/fund selection. Portfolio managers took a holistic approach which included the analysis of ESG factors as part of their overall risk adjusted valuation assessment. This supported the overall promotion of investment in funds which the Manager deems desirable on ESG grounds. By incorporating positive ESG factors as part of the overall portfolio construction/fund selection, the Fund through its investments, supported a tilt towards investment in Underlying Funds that have a more positive impact on the environment or society at large.

c. Fund Level ESG Scoring

A monthly independent analysis and classification of the Fund's ESG score was performed internally by the Manager. A minimum ESG score of "A" was applied at Fund Level to ensure that the Fund's ESG score did not fall below a level deemed by the Manager to be appropriate for a fund promoting environmental and/or social characteristics. This additional control served to highlight a minimum Fund level ESG score and promoted engagement and challenge of portfolio managers on ESG topics.

d. Negative Screening (Norm-based exclusions)

For any potential direct holdings the Manager applied norms-based exclusions based on its Exclusion Policy. Exclusion categories considered in the Exclusion Policy were:

- United Nations Global Compact Principles
- Controversial Weapons
- Tobacco
- Climate Change
- Forced Labour

No reference benchmark was designated for the purpose of attaining the environmental or social characteristics promoted.

● ***How did the sustainability indicators perform?***

The following sustainability indicators were used to measure the attainment of the environmental and social characteristics promoted by the Fund;

- i. The percentage of the Fund portfolio made in sustainable investments was 41.16% as at 31 December 2022.
- ii. the percentage of the Fund's Underlying Fund holdings rated A or above by MSCI ESG Manager (or another corresponding rating from a similar rating provider) was 97.86% of holdings as at 31 December 2022.

● ***...and compared to previous periods?***

Not applicable for the first periodic report.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

FAM Evolution ICAV

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

- *What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?*

Please note that the Fund currently follows a fund of funds investment approach and can invest principally in underlying open-ended UCIs and UCITS (as well as other permissible instruments). The Management Company therefore relies on data provided by the investment managers of the underlying fund investments when calculating the percentage proportion of sustainable investment of the Fund and when calculating the percentages required in the section below dealing with the asset allocation of the Fund.

The objectives of the sustainable investments that the Fund made was to promote environmental and/or social characteristics. On the basis that the Fund is currently following a fund of funds investment approach, the objectives of the sustainable investments that the Fund partially intends to make is linked to the sustainable investments made by the Underlying Funds. The Fund sought to make investments in Underlying Funds that committed/partially committed to invest in sustainable investments and who had a process for ensuring that their sustainable investments met the following criteria;

- a. Made in investee companies that demonstrate good governance;
- b. Made in a manner that demonstrates that they do no significant harm to other environmental objectives; and
- c. Made in investee companies that make a positive contribution towards an environmental or social objective. The Fund allocates between Underlying Funds which make sustainable investments of any type, i.e. investments with an environmental, and/or a social objective. The Fund did not favour any specific type of sustainable investment.

As at 31 December the Fund had a proportion of 41.16% of sustainable investments

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

● *How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?*

The sustainable investments that the Fund makes did not cause significant harm to any environmental or social sustainable investment objective based on the policies adopted by the relevant Underlying Fund investment managers. These policies are considered as part of the Manager's initial and ongoing investment due diligence procedures and are assessed for alignment with the indicators set out in Table 1 and any relevant additional indicator from Tables 2 and 3 of Annex I of the Delegated Regulation.

— — *How were the indicators for adverse impacts on sustainability factors taken into account?*

Principal adverse impact ("PAI") indicators were calculated at both the Fund level and the Underlying Fund level. The results were compared with that of a chosen proxy benchmark representative of the Fund's investment universe and/or peers. These calculations are used as the basis of assessment of adverse impacts on sustainability factors in order to determine whether the Manager could improve at Fund level and/or where Manager could engage with Underlying Fund investment managers to improve at the Underlying Fund level.

The Fund considered the following principal adverse sustainability impacts indicators for the proportion of assets qualified as sustainable investments:

Corporate mandatory indicators:

1. GreenHouse Gas (GHG) Emissions
2. Carbon footprint
3. GHG intensity of investee companies
4. Exposure to companies active in the fossil fuel sector
5. Share of non-renewable energy consumption and production
6. Energy consumption intensity per high impact climate sector
7. Activities negatively affecting biodiversity sensitive areas
8. Emissions to water
9. Hazardous waste ratio
10. Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises

FAM Evolution ICAV

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

11. Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact principles and OECD Guidelines for Multinational Enterprises
12. Unadjusted gender pay gap
13. Board gender diversity
14. Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons)

Corporate voluntary indicators: Environment

4. Investments in companies without carbon emission reduction initiatives Social

Corporate voluntary indicators: Social

9. Lack of a human rights policy

Sovereign mandatory indicator:

15. GHG intensity
16. Investee countries subject to social violations

— — — *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:*

The sustainable investments which the Fund made in the Underlying Funds and their alignment with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights were assessed in the following ways;

1. Via PAI monitoring of the following indicators;
 - Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises
 - Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact principles and OECD Guidelines for Multinational Enterprises

FAM Evolution ICAV

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

2. Through engagement with the Underlying Fund investment managers to ensure that the sustainable investments that the Underlying Funds made are:
 - a. Made in investee companies that demonstrate good governance;
 - b. Made in a manner that demonstrates that they do no significant harm to other environmental objectives; and
 - c. Made in investee companies that make a positive contribution towards an environmental or social objective.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The Manager considered principal adverse impacts of its investment decisions on sustainability factors on an ongoing basis by monitoring the Fund portfolio against mandatory and additional PAI indicators and as part of its investment decision making process and investment due diligence process and procedures. Principal adverse impacts were prioritized based on materiality relative to the objectives or characteristics of the Fund, provided that all minimum standards are met. The results were compared with that of a chosen proxy benchmark representative of the Fund’s investment universe and/or peers. These calculations formed the basis of assessment of adverse impacts on sustainability factors in order to determine what the Portfolio Managers could improve at Fund level and where the Portfolio Managers could engage with relevant issuers to improve on such indicators.

FAM Evolution ICAV

What was the proportion of sustainability-related investments?

41.16%

● What was the asset allocation?

97.86% of the Fund's Investments are aligned with the environmental and/or social characteristics promoted by the Fund. The Fund also commits to a minimum proportion of 20% in sustainable investments and as at 31 December the Fund had a proportion of 41.16% of sustainable investments. The remaining investments of the Fund were invested in cash and cash equivalents for liquidity purposes and derivatives which may be used for investment, risk reduction and hedging purposes. Calculations may rely on incomplete or inaccurate underlying fund manager data and/or company or third-party data.

Asset allocation describes the share of investments in specific assets.

FAM Evolution ICAV

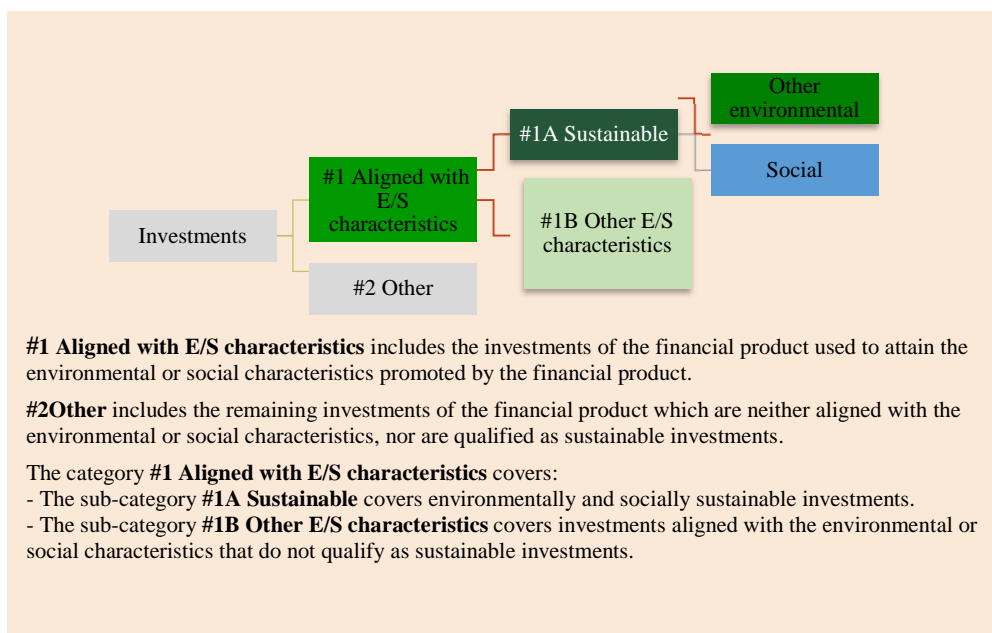

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● In which economic sectors were the investments made?

Largest investments	% Assets
Open-ended investment funds	97.86%

● To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

As the investments underlying this Fund do not take into account the EU criteria for environmentally sustainable economic activities within the meaning of the Taxonomy Regulation, the Fund's portfolio alignment with the Taxonomy Regulation is not calculated. It follows that the Fund does not currently commit to investing more than 0% of its assets in investments aligned with the Taxonomy.

● Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

- Yes:
- In fossil gas In nuclear energy
- No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

● What was the share of investments made in transitional and enabling activities?

The share of investments in transitional and enabling activities within the meaning of the Regulations Taxonomy is 0% for transitional activities and 0% for enabling activities.

● How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not applicable for the first periodic report.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

The share of sustainable investments with an environmental objective that are not aligned with the European Taxonomy Regulation is 29.54%.

What was the share of socially sustainable investments?

Socially sustainable investments represent 15.09% of the financial product.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The remaining investments of the Fund includes cash and cash equivalents for liquidity purposes and derivatives which may be used for investment, risk reduction and hedging purposes.

Any “#2 Other” potential investments, other than cash or cash equivalents are screened according to the managers exclusion policy.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Manager has integrated various house ESG policies and procedures to ensure the binding elements of the investment strategy used to select the investments to attain each of the environmental or social characteristics promoted by this product, such as a minimum investment in funds in scope of Article 8 and 9 of the SFDR, Positive Screening, Fund Level ESG Scoring and Negative Screening have been implemented and are monitored regularly.

Furthermore, the Fund invested 41.16% of its assets in “sustainable investments” as defined in Article 2 (17) of SFDR. Criteria to qualify an investment as “sustainable investment” are indicated in the above question “*What are the objectives of the sustainable investments that the financial product partially intends to make and does the sustainable investments contribute to such objectives*”.

The Fund invested 88.33% in Underlying Funds which fall within the meaning of either Article 8 or Article 9 of the SFDR, which means, the majority of the Underlying Funds which the Fund held promoted environmental and social characteristics while investing in companies which follow good governance practices.

No reference benchmark was designated for the purpose of attaining the environmental or social characteristics promoted.

How did this financial product perform compared to the reference benchmark?

- *How does the reference benchmark differ from a broad market index?*

- *How did this financial product perform compared with the broad market index?*
Not applicable

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

FAM Evolution ICAV

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

ANNEX IV

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: FAM Sustainable Target 2023 III
Legal entity identifier: 2549006QZFJMMZRVQP71

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The EU Taxonomy is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

Yes

It made **sustainable investments with an environmental objective:** ___%

in economic activities that qualify as environmentally sustainable under the EU Taxonomy

in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made **sustainable investments with a social objective:** ___%

No

It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of 57.33% of sustainable investments

with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy

with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

with a social objective

It promoted E/S characteristics, but **did not make any sustainable investments**

All actual data within this periodic report are calculated on the closing date of the accounting year.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and/or social characteristics promoted by this financial product included;

FAM Evolution ICAV

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

a. Minimum investment in funds in scope of Article 8 and 9 of the SFDR

The Fund invested 92.55% in Underlying Funds which fall within the meaning of either Article 8 or Article 9 of the SFDR, which means, that the majority of the Underlying Funds which the Fund held promoted environmental and social characteristics while investing in companies which follow good governance practices.

b. Positive Screening

Consideration of ESG factors was a key element of portfolio construction/fund selection. Portfolio managers took a holistic approach which included the analysis of ESG factors as part of their overall risk adjusted valuation assessment. This supported the overall promotion of investment in funds which the Manager deems desirable on ESG grounds. By incorporating positive ESG factors as part of the overall portfolio construction/fund selection, the Fund through its investments, supported a tilt towards investment in Underlying Funds that have a more positive impact on the environment or society at large.

c. Fund Level ESG Scoring

A monthly independent analysis and classification of the Fund's ESG score was performed internally by the Manager. A minimum ESG score of "A" was applied at Fund Level to ensure that the Fund's ESG score did not fall below a level deemed by the Manager to be appropriate for a fund promoting environmental and/or social characteristics. This additional control served to highlight a minimum Fund level ESG score and promoted engagement and challenge of portfolio managers on ESG topics.

d. Negative Screening (Norm-based exclusions)

For any potential direct holdings the Manager applied norms-based exclusions based on its Exclusion Policy. Exclusion categories considered in the Exclusion Policy were:

- United Nations Global Compact Principles
- Controversial Weapons
- Tobacco
- Climate Change
- Forced Labour

No reference benchmark was designated for the purpose of attaining the environmental or social characteristics promoted.

● ***How did the sustainability indicators perform?***

The following sustainability indicators were used to measure the attainment of the environmental and social characteristics promoted by the Fund;

- i. The percentage of the Fund portfolio made in sustainable investments which was 57.33% as at 31 December 2022
- ii. the percentage of the Fund's Underlying Fund holdings rated A or above by MSCI ESG Manager (or another corresponding rating from a similar rating provider) which was 97.33% of holdings as at 31 December 2022

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

FAM Evolution ICAV

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

● *...and compared to previous periods?*

Not applicable for the first periodic report.

● *What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?*

Please note that the Fund currently follows a fund of funds investment approach and can invest principally in underlying open-ended UCIs and UCITS (as well as other permissible instruments). The Management Company therefore relies on data provided by the investment managers of the underlying fund investments when calculating the percentage proportion of sustainable investment of the Fund and when calculating the percentages required in the section below dealing with the asset allocation of the Fund.

The objectives of the sustainable investments that the Fund made was to promote environmental and/or social characteristics. On the basis that the Fund is currently following a fund of funds investment approach, the objectives of the sustainable investments that the Fund partially intends to make is linked to the sustainable investments made by the Underlying Funds. The Fund sought to make investments in Underlying Funds that committed/partially committed to invest in sustainable investments and who had a process for ensuring that their sustainable investments met the following criteria;

- a. Made in investee companies that demonstrate good governance;
- b. Made in a manner that demonstrates that they do no significant harm to other environmental objectives; and
- c. Made in investee companies that make a positive contribution towards an environmental or social objective. The Fund allocates between Underlying Funds which make sustainable investments of any type, i.e. investments with an environmental, and/or a social objective. The Fund did not favour any specific type of sustainable investment.

As at 31 December the Fund had a proportion of 57.33% of sustainable investments

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

The sustainable investments that the Fund made did not cause significant harm to any environmental or social sustainable investment objective based on the policies adopted by the relevant Underlying Fund investment managers. These policies are considered as part of the Manager's initial and ongoing investment due diligence procedures and are assessed for alignment with the indicators set out in Table 1 and any relevant additional indicator from Tables 2 and 3 of Annex I of the Delegated Regulation.

How were the indicators for adverse impacts on sustainability factors taken into account?

Principal adverse impact ("PAI") indicators were calculated at both the Fund level and the Underlying Fund level. The results were compared with that of a chosen proxy benchmark representative of the Fund's investment universe and/or peers. These calculations were used as the basis of assessment of adverse impacts on sustainability factors in order to determine whether the Manager could improve at Fund level and/or where Manager could engage with Underlying Fund investment managers to improve at the Underlying Fund level.

The Fund considered the following principal adverse sustainability impacts indicators for the proportion of assets qualified as sustainable investments:

Corporate mandatory indicators:

1. GreenHouse Gas (GHG) Emissions
2. Carbon footprint
3. GHG intensity of investee companies
4. Exposure to companies active in the fossil fuel sector
5. Share of non-renewable energy consumption and production
6. Energy consumption intensity per high impact climate sector
7. Activities negatively affecting biodiversity sensitive areas
8. Emissions to water
9. Hazardous waste ratio

2. Through engagement with the Underlying Fund investment managers to ensure that the sustainable investments that the Underlying Funds made are:
 - a. Made in investee companies that demonstrate good governance;
 - b. Made in a manner that demonstrates that they do no significant harm to other environmental objectives; and
 - c. Made in investee companies that make a positive contribution towards an environmental or social objective.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The Manager considered principal adverse impacts of its investment decisions on sustainability factors on an ongoing basis by monitoring the Fund portfolio against mandatory and additional PAI indicators and as part of its investment decision making process and investment due diligence process and procedures. Principal adverse impacts were prioritized based on materiality relative to the objectives or characteristics of the Fund, provided that all minimum standards are met. The results were compared with that of a chosen proxy benchmark representative of the Fund’s investment universe and/or peers. These calculations formed the basis of assessment of adverse impacts on sustainability factors in order to determine what the Portfolio Managers could improve at Fund level and where the Portfolio Managers could engage with relevant issuers to improve on such indicators.

The specific PAI indicators that were taken into consideration for this product were;

Corporate mandatory indicators:

1. GreenHouse Gas (GHG) Emissions

What was the proportion of sustainability-related investments?

57.33%

● *What was the asset allocation?*

97.33% of the Fund's Investments were aligned with the environmental and/or social characteristics promoted by the Fund. The Fund also committed to a minimum proportion of 30% in sustainable investments and as at 31 December the Fund had a proportion of 57.33% of sustainable investments. The remaining investments of the Fund were invested in cash and cash equivalents for liquidity purposes and derivatives which may be used for investment, risk reduction and hedging purposes. Calculations may rely on incomplete or inaccurate underlying fund manager data and/or company or third-party data.

Asset allocation describes the share of investments in specific assets.

Sustainable Finance Disclosure Regulation (SFDR) (continued)

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● *In which economic sectors were the investments made?*

Largest investments	% Assets
Open-ended investment funds	100.00%

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

As the investments underlying this Fund do not take into account the EU criteria for environmentally sustainable economic activities within the meaning of the Taxonomy Regulation, the Fund’s portfolio alignment with the Taxonomy Regulation was not calculated. It follows that the Fund does not currently commit to investing more than 0% of its assets in investments aligned with the Taxonomy.

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?**

- Yes:
 - In fossil gas In nuclear energy
- No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Sustainable Finance Disclosure Regulation (SFDR) (continued)

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

● What was the share of investments made in transitional and enabling activities?

The share of investments in transitional and enabling activities within the meaning of the EU Taxonomy Regulations was 0% for transitional activities and 0% for enabling activities.

● How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not applicable for the first periodic report.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

The share of sustainable investments with an environmental objective that was not aligned with the European Taxonomy Regulation is 37.53%.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

FAM Evolution ICAV

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

What was the share of socially sustainable investments?

Socially sustainable investments represented 32.07% of the financial product.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The remaining investments of the Fund included cash and cash equivalents for liquidity purposes and derivatives which may be used for investment, risk reduction and hedging purposes.

Any “#2 Other” potential investments, other than cash or cash equivalents were screened according to the Manager’s exclusion policy.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Manager has integrated various house ESG policies and procedures to ensure the binding elements of the investment strategy used to select the investments to attain each of the environmental or social characteristics promoted by this product, such as a minimum investment in funds in scope of Article 8 and 9 of the SFDR, Positive Screening, Fund Level ESG Scoring and Negative Screening have been implemented and are monitored regularly.

Furthermore, the Fund invested 57.33% of its assets in “sustainable investments” as defined in Article 2 (17) of SFDR. Criteria to qualify an investment as “sustainable investment” are indicated in the above question “*What were the objectives of the sustainable investments that the financial product partially intends to make and does the sustainable investments contribute to such objectives?*”.

The Fund invested 92.55% in Underlying Funds which fall within the meaning of either Article 8 or Article 9 of the SFDR, which means, the majority of the Underlying Funds which the Fund held promoted environmental and social characteristics while investing in companies which follow good governance practices.

No reference benchmark was designated for the purpose of attaining the environmental or social characteristics promoted.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

How did this financial product perform compared to the reference benchmark?

Sustainable Finance Disclosure Regulation (SFDR) (continued)

ANNEX IV

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: FAM Sustainable Target 2026 II
Legal entity identifier: 254900S079XEG3803H83

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

Yes

It made **sustainable investments with an environmental objective**: ___%

in economic activities that qualify as environmentally sustainable under the EU Taxonomy

in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made **sustainable investments with a social objective**: ___%

No

It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of 45.65% of sustainable investments

with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy

with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

with a social objective

It promoted E/S characteristics, but **did not make any sustainable investments**

All actual data within this periodic report are calculated on the closing date of the accounting year.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and/or social characteristics promoted by this financial product included;

FAM Evolution ICAV

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

a. Minimum investment in funds in scope of Article 8 and 9 of the SFDR

The Fund invested 89.35% in Underlying Funds which fall within the meaning of either Article 8 or Article 9 of the SFDR, which means, that the majority of the Underlying Funds which the Fund held promoted environmental and social characteristics while investing in companies which follow good governance practices.

b. Positive Screening

Consideration of ESG factors was a key element of portfolio construction/fund selection. Portfolio managers took a holistic approach which included the analysis of ESG factors as part of their overall risk adjusted valuation assessment. This supported the overall promotion of investment in funds which the Manager deems desirable on ESG grounds. By incorporating positive ESG factors as part of the overall portfolio construction/fund selection, the Fund through its investments, supported a tilt towards investment in Underlying Funds that have a more positive impact on the environment or society at large.

c. Fund Level ESG Scoring

A monthly independent analysis and classification of the Fund's ESG score was performed internally by the Manager. A minimum ESG score of "A" was applied at Fund Level to ensure that the Fund's ESG score did not fall below a level deemed by the Manager to be appropriate for a fund promoting environmental and/or social characteristics. This additional control served to highlight a minimum Fund level ESG score and promoted engagement and challenge of portfolio managers on ESG topics.

d. Negative Screening (Norm-based exclusions)

For any potential direct holdings the Manager applied norms-based exclusions based on its Exclusion Policy. Exclusion categories considered in the Exclusion Policy were:

- United Nations Global Compact Principles
- Controversial Weapons
- Tobacco
- Climate Change
- Forced Labour

No reference benchmark was designated for the purpose of attaining the environmental or social characteristics promoted.

● ***How did the sustainability indicators perform?***

The following sustainability indicators were used to measure the attainment of the environmental and social characteristics promoted by the Fund;

- i. The percentage of the Fund portfolio made in sustainable investments which was 45.65% as at 31 December 2022
- ii. the percentage of the Fund's Underlying Fund holdings rated A or above by MSCI ESG Manager (or another corresponding rating from a similar rating provider) which was 98.06% of holdings as at 31 December 2022

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

FAM Evolution ICAV

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

● *...and compared to previous periods?*

Not applicable for the first periodic report.

● *What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?*

Please note that the Fund currently follows a fund of funds investment approach and can invest principally in underlying open-ended UCIs and UCITS (as well as other permissible instruments). The Management Company therefore relies on data provided by the investment managers of the underlying fund investments when calculating the percentage proportion of sustainable investment of the Fund and when calculating the percentages required in the section below dealing with the asset allocation of the Fund.

The objectives of the sustainable investments that the Fund made was to promote environmental and/or social characteristics. On the basis that the Fund is currently following a fund of funds investment approach, the objectives of the sustainable investments that the Fund partially intends to make is linked to the sustainable investments made by the Underlying Funds. The Fund sought to make investments in Underlying Funds that committed/partially committed to invest in sustainable investments and who had a process for ensuring that their sustainable investments met the following criteria;

- a. Made in investee companies that demonstrate good governance;
- b. Made in a manner that demonstrates that they do no significant harm to other environmental objectives; and
- c. Made in investee companies that make a positive contribution towards an environmental or social objective. The Fund allocates between Underlying Funds which make sustainable investments of any type, i.e. investments with an environmental, and/or a social objective. The Fund did not favour any specific type of sustainable investment.

As at 31 December the Fund had a proportion of 45.65% of sustainable investments

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

FAM Evolution ICAV

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

The sustainable investments that the Fund made did not cause significant harm to any environmental or social sustainable investment objective based on the policies adopted by the relevant Underlying Fund investment managers. These policies are considered as part of the Manager's initial and ongoing investment due diligence procedures and are assessed for alignment with the indicators set out in Table 1 and any relevant additional indicator from Tables 2 and 3 of Annex I of the Delegated Regulation.

How were the indicators for adverse impacts on sustainability factors taken into account?

Principal adverse impact ("PAI") indicators were calculated at both the Fund level and the Underlying Fund level. The results were compared with that of a chosen proxy benchmark representative of the Fund's investment universe and/or peers. These calculations were used as the basis of assessment of adverse impacts on sustainability factors in order to determine whether the Manager could improve at Fund level and/or where Manager could engage with Underlying Fund investment managers to improve at the Underlying Fund level.

The Fund considered the following principal adverse sustainability impacts indicators for the proportion of assets qualified as sustainable investments:

Corporate mandatory indicators:

1. GreenHouse Gas (GHG) Emissions
2. Carbon footprint
3. GHG intensity of investee companies
4. Exposure to companies active in the fossil fuel sector
5. Share of non-renewable energy consumption and production
6. Energy consumption intensity per high impact climate sector
7. Activities negatively affecting biodiversity sensitive areas
8. Emissions to water
9. Hazardous waste ratio

FAM Evolution ICAV

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

10. Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises
11. Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact principles and OECD Guidelines for Multinational Enterprises
12. Unadjusted gender pay gap
13. Board gender diversity
14. Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons)

Corporate voluntary indicators: Environment

4. Investments in companies without carbon emission reduction initiatives Social

Corporate voluntary indicators: Social

9. Lack of a human rights policy

Sovereign mandatory indicator:

15. GHG intensity
16. Investee countries subject to social violations

— — — *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:*

The sustainable investments which the Fund made in the Underlying Funds and their alignment with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights were assessed in the following ways;

1. Via PAI monitoring of the following indicators;
 - Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises
 - Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact principles and OECD Guidelines for Multinational Enterprises

FAM Evolution ICAV

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

2. Through engagement with the Underlying Fund investment managers to ensure that the sustainable investments that the Underlying Funds made are:
 - a. Made in investee companies that demonstrate good governance;
 - b. Made in a manner that demonstrates that they do no significant harm to other environmental objectives; and
 - c. Made in investee companies that make a positive contribution towards an environmental or social objective.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The Manager considered principal adverse impacts of its investment decisions on sustainability factors on an ongoing basis by monitoring the Fund portfolio against mandatory and additional PAI indicators and as part of its investment decision making process and investment due diligence process and procedures. Principal adverse impacts were prioritized based on materiality relative to the objectives or characteristics of the Fund, provided that all minimum standards are met. The results were compared with that of a chosen proxy benchmark representative of the Fund’s investment universe and/or peers. These calculations formed the basis of assessment of adverse impacts on sustainability factors in order to determine what the Portfolio Managers could improve at Fund level and where the Portfolio Managers could engage with relevant issuers to improve on such indicators.

The specific PAI indicators that were taken into consideration for this product were;

Corporate mandatory indicators:

1. GreenHouse Gas (GHG) Emissions

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

● What was the share of investments made in transitional and enabling activities?

The share of investments in transitional and enabling activities within the meaning of the EU Taxonomy Regulations was 0% for transitional activities and 0% for enabling activities.

● How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not applicable for the first periodic report.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

The share of sustainable investments with an environmental objective that was not aligned with the European Taxonomy Regulation is 31.23%.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

FAM Evolution ICAV

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

What was the share of socially sustainable investments?

Socially sustainable investments represented 20.91% of the financial product.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The remaining investments of the Fund included cash and cash equivalents for liquidity purposes and derivatives which may be used for investment, risk reduction and hedging purposes.

Any “#2 Other” potential investments, other than cash or cash equivalents were screened according to the Manager’s exclusion policy.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Manager has integrated various house ESG policies and procedures to ensure the binding elements of the investment strategy used to select the investments to attain each of the environmental or social characteristics promoted by this product, such as a minimum investment in funds in scope of Article 8 and 9 of the SFDR, Positive Screening, Fund Level ESG Scoring and Negative Screening have been implemented and are monitored regularly.

Furthermore, the Fund invested 45.65% of its assets in “sustainable investments” as defined in Article 2 (17) of SFDR. Criteria to qualify an investment as “sustainable investment” are indicated in the above question “*What were the objectives of the sustainable investments that the financial product partially intends to make and does the sustainable investments contribute to such objectives?*”.

The Fund invested 89.35% in Underlying Funds which fall within the meaning of either Article 8 or Article 9 of the SFDR, which means, the majority of the Underlying Funds which the Fund held promoted environmental and social characteristics while investing in companies which follow good governance practices.

No reference benchmark was designated for the purpose of attaining the environmental or social characteristics promoted.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

How did this financial product perform compared to the reference benchmark?

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

- *How does the reference benchmark differ from a broad market index?*
Not applicable
- *How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?*

ANNEX IV

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: FAM MegaTrends Target 2023 IV
Legal entity identifier: 254900R5WK097PCYYI29

Environmental and/or social characteristics

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Did this financial product have a sustainable investment objective?

Yes

It made **sustainable investments with an environmental objective:** ___%

- in economic activities that qualify as environmentally sustainable under the EU Taxonomy
- in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made **sustainable investments with a social objective:** ___%

No

It promoted **Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of 42.55% of sustainable investments

- with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
- with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
- with a social objective

It promoted E/S characteristics, but **did not make any sustainable investments**

All actual data within this periodic report are calculated on the closing date of the accounting year.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and/or social characteristics promoted by this financial product included;

a. Minimum investment in funds in scope of Article 8 and 9 of the SFDR

The Fund invested 88.47% in Underlying Funds which fall within the meaning of either Article 8 or Article 9 of the SFDR, which means, that the majority of the Underlying Funds which the Fund held promoted environmental and social characteristics while investing in companies which follow good governance practices.

FAM Evolution ICAV

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

b. Positive Screening

Consideration of ESG factors were a key element of portfolio construction/fund selection. Portfolio managers took a holistic approach which included the analysis of ESG factors as part of their overall risk adjusted valuation assessment. This supported the overall promotion of investment in funds which the Manager deems desirable on ESG grounds. By incorporating positive ESG factors as part of the overall portfolio construction/fund selection, the Fund through its investments, supported a tilt towards investment in Underlying Funds that have a more positive impact on the environment or society at large.

c. Fund Level ESG Scoring

A monthly independent analysis and classification of the Fund's ESG score was performed internally by the Manager. A minimum ESG score of "A" was applied at Fund Level to ensure that the Fund's ESG score did not fall below a level deemed by the Manager to be appropriate for a fund promoting environmental and/or social characteristics. This additional control served to highlight a minimum Fund level ESG score and promoted engagement and challenge of portfolio managers on ESG topics.

d. Negative Screening (Norm-based exclusions)

For any potential direct holdings the Manager applied norms-based exclusions based on its Exclusion Policy. Exclusion categories considered in the Exclusion Policy were:

- United Nations Global Compact Principles
- Controversial Weapons
- Tobacco
- Climate Change
- Forced Labour

No reference benchmark was designated for the purpose of attaining the environmental or social characteristics promoted.

● *How did the sustainability indicators perform?*

The following sustainability indicators were used to measure the attainment of the environmental and social characteristics promoted by the Fund;

- i. The percentage of the Fund portfolio made in sustainable investments was 42.55% as at 31 December 2022.
- ii. the percentage of the Fund's Underlying Fund holdings rated A or above by MSCI ESG Manager (or another corresponding rating from a similar rating provider) was 97.52% of holdings as at 31 December 2022.

● *...and compared to previous periods?*

Not applicable for the first periodic report.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

FAM Evolution ICAV

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

- *What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?*

Please note that the Fund currently follows a fund of funds investment approach and can invest principally in underlying open-ended UCIs and UCITS (as well as other permissible instruments). The Management Company therefore relies on data provided by the investment managers of the underlying fund investments when calculating the percentage proportion of sustainable investment of the Fund and when calculating the percentages required in the section below dealing with the asset allocation of the Fund.

The objectives of the sustainable investments that the Fund made was to promote environmental and/or social characteristics. On the basis that the Fund is currently following a fund of funds investment approach, the objectives of the sustainable investments that the Fund partially intends to make is linked to the sustainable investments made by the Underlying Funds. The Fund sought to make investments in Underlying Funds that committed/partially committed to invest in sustainable investments and who had a process for ensuring that their sustainable investments met the following criteria;

- Made in investee companies that demonstrate good governance;
- Made in a manner that demonstrates that they do no significant harm to other environmental objectives; and
- Made in investee companies that make a positive contribution towards an environmental or social objective. The Fund allocates between Underlying Funds which make sustainable investments of any type, i.e. investments with an environmental, and/or a social objective. The Fund did not favour any specific type of sustainable investment.

As at 31 December the Fund had a proportion of 42.55% of sustainable investments

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

● *How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?*

The sustainable investments that the Fund makes did not cause significant harm to any environmental or social sustainable investment objective based on the policies adopted by the relevant Underlying Fund investment managers. These policies are considered as part of the Manager's initial and ongoing investment due diligence procedures and are assessed for alignment with the indicators set out in Table 1 and any relevant additional indicator from Tables 2 and 3 of Annex I of the Delegated Regulation.

— — *How were the indicators for adverse impacts on sustainability factors taken into account?*

Principal adverse impact ("PAI") indicators were calculated at both the Fund level and the Underlying Fund level. The results were compared with that of a chosen proxy benchmark representative of the Fund's investment universe and/or peers. These calculations are used as the basis of assessment of adverse impacts on sustainability factors in order to determine whether the Manager could improve at Fund level and/or where Manager could engage with Underlying Fund investment managers to improve at the Underlying Fund level.

The Fund considered the following principal adverse sustainability impacts indicators for the proportion of assets qualified as sustainable investments:

Corporate mandatory indicators:

1. GreenHouse Gas (GHG) Emissions
2. Carbon footprint
3. GHG intensity of investee companies
4. Exposure to companies active in the fossil fuel sector
5. Share of non-renewable energy consumption and production
6. Energy consumption intensity per high impact climate sector
7. Activities negatively affecting biodiversity sensitive areas
8. Emissions to water
9. Hazardous waste ratio
10. Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises

FAM Evolution ICAV

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

11. Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact principles and OECD Guidelines for Multinational Enterprises
12. Unadjusted gender pay gap
13. Board gender diversity
14. Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons)

Corporate voluntary indicators: Environment

4. Investments in companies without carbon emission reduction initiatives Social

Corporate voluntary indicators: Social

9. Lack of a human rights policy

Sovereign mandatory indicator:

15. GHG intensity
16. Investee countries subject to social violations

— — — *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:*

The sustainable investments which the Fund made in the Underlying Funds and their alignment with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights were assessed in the following ways;

1. Via PAI monitoring of the following indicators;
 - Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises
 - Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact principles and OECD Guidelines for Multinational Enterprises

FAM Evolution ICAV

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

2. Through engagement with the Underlying Fund investment managers to ensure that the sustainable investments that the Underlying Funds made are:
 - a. Made in investee companies that demonstrate good governance;
 - b. Made in a manner that demonstrates that they do no significant harm to other environmental objectives; and
 - c. Made in investee companies that make a positive contribution towards an environmental or social objective.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The Manager considered principal adverse impacts of its investment decisions on sustainability factors on an ongoing basis by monitoring the Fund portfolio against mandatory and additional PAI indicators and as part of its investment decision making process and investment due diligence process and procedures. Principal adverse impacts were prioritized based on materiality relative to the objectives or characteristics of the Fund, provided that all minimum standards are met. The results were compared with that of a chosen proxy benchmark representative of the Fund’s investment universe and/or peers. These calculations formed the basis of assessment of adverse impacts on sustainability factors in order to determine what the Portfolio Managers could improve at Fund level and where the Portfolio Managers could engage with relevant issuers to improve on such indicators.

FAM Evolution ICAV

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: as at 31 December 2022

What was the proportion of sustainability-related investments?

42.55%

● What was the asset allocation?

97.52% of the Fund’s Investments are aligned with the environmental and/or social characteristics promoted by the Fund. The Fund also commits to a minimum proportion of 20% in sustainable investments and as at 31 December the Fund had a proportion of 42.55% of sustainable investments. The remaining investments of the Fund were invested in cash and cash equivalents for liquidity purposes and derivatives which may be used for investment, risk reduction and hedging purposes. Calculations may rely on incomplete or inaccurate underlying fund manager data and/or company or third-party data.

Asset allocation describes the share of investments in specific assets.

FAM Evolution ICAV

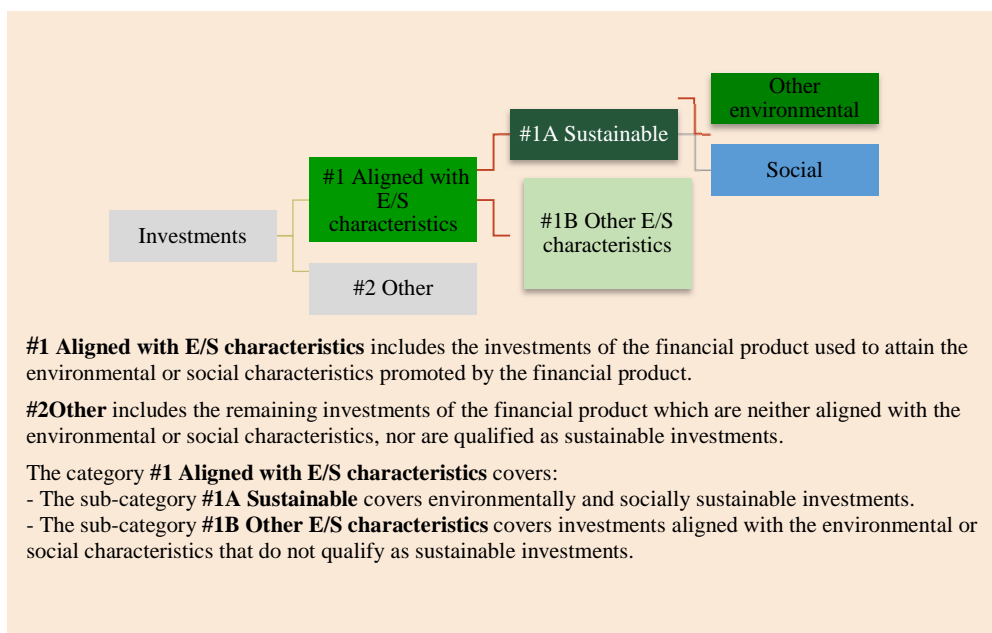

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● In which economic sectors were the investments made?

Largest investments	% Assets
Open-ended investment funds	97.52%

● To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

As the investments underlying this Fund do not take into account the EU criteria for environmentally sustainable economic activities within the meaning of the Taxonomy Regulation, the Fund's portfolio alignment with the Taxonomy Regulation is not calculated. It follows that the Fund does not currently commit to investing more than 0% of its assets in investments aligned with the Taxonomy.

● Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

- Yes:
- In fossil gas In nuclear energy
- No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

FAM Evolution ICAV

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

● What was the share of investments made in transitional and enabling activities?

The share of investments in transitional and enabling activities within the meaning of the Regulations Taxonomy is 0% for transitional activities and 0% for enabling activities.

● How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not applicable for the first periodic report.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

The share of sustainable investments with an environmental objective that are not aligned with the European Taxonomy Regulation is 31.69%.

What was the share of socially sustainable investments?

Socially sustainable investments represent 16.01% of the financial product.

 are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The remaining investments of the Fund includes cash and cash equivalents for liquidity purposes and derivatives which may be used for investment, risk reduction and hedging purposes.

Any “#2 Other” potential investments, other than cash or cash equivalents are screened according to the managers exclusion policy.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Manager has integrated various house ESG policies and procedures to ensure the binding elements of the investment strategy used to select the investments to attain each of the environmental or social characteristics promoted by this product, such as a minimum investment in funds in scope of Article 8 and 9 of the SFDR, Positive Screening, Fund Level ESG Scoring and Negative Screening have been implemented and are monitored regularly.

Furthermore, the Fund invested 42.55% of its assets in “sustainable investments” as defined in Article 2 (17) of SFDR. Criteria to qualify an investment as “sustainable investment” are indicated in the above question “*What are the objectives of the sustainable investments that the financial product partially intends to make and does the sustainable investments contribute to such objectives?*”.

The Fund invested 88.47% in Underlying Funds which fall within the meaning of either Article 8 or Article 9 of the SFDR, which means, the majority of the Underlying Funds which the Fund held promoted environmental and social characteristics while investing in companies which follow good governance practices.

No reference benchmark was designated for the purpose of attaining the environmental or social characteristics promoted.

How did this financial product perform compared to the reference benchmark?

- *How does the reference benchmark differ from a broad market index?*
Not applicable
- *How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?*
Not applicable
- *How did this financial product perform compared with the reference benchmark?*
Not applicable
- *How did this financial product perform compared with the broad market index?*
Not applicable

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

ANNEX IV

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: FAM Sustainable Target 2023 IV
Legal entity identifier: 2549008J0AEVQHN1IN68

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The EU Taxonomy is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

Yes

It made **sustainable investments with an environmental objective**: ___%

in economic activities that qualify as environmentally sustainable under the EU Taxonomy

in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made **sustainable investments with a social objective**: ___%

No

It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of 51.97% of sustainable investments

with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy

with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

with a social objective

It promoted E/S characteristics, but **did not make any sustainable investments**

All actual data within this periodic report are calculated on the closing date of the accounting year.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and/or social characteristics promoted by this financial product included;

FAM Evolution ICAV

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

a. Minimum investment in funds in scope of Article 8 and 9 of the SFDR

The Fund invested 90.11% in Underlying Funds which fall within the meaning of either Article 8 or Article 9 of the SFDR, which means, that the majority of the Underlying Funds which the Fund held promoted environmental and social characteristics while investing in companies which follow good governance practices.

b. Positive Screening

Consideration of ESG factors was a key element of portfolio construction/fund selection. Portfolio managers took a holistic approach which included the analysis of ESG factors as part of their overall risk adjusted valuation assessment. This supported the overall promotion of investment in funds which the Manager deems desirable on ESG grounds. By incorporating positive ESG factors as part of the overall portfolio construction/fund selection, the Fund through its investments, supported a tilt towards investment in Underlying Funds that have a more positive impact on the environment or society at large.

c. Fund Level ESG Scoring

A monthly independent analysis and classification of the Fund's ESG score was performed internally by the Manager. A minimum ESG score of "A" was applied at Fund Level to ensure that the Fund's ESG score did not fall below a level deemed by the Manager to be appropriate for a fund promoting environmental and/or social characteristics. This additional control served to highlight a minimum Fund level ESG score and promoted engagement and challenge of portfolio managers on ESG topics.

d. Negative Screening (Norm-based exclusions)

For any potential direct holdings the Manager applied norms-based exclusions based on its Exclusion Policy. Exclusion categories considered in the Exclusion Policy were:

- United Nations Global Compact Principles
- Controversial Weapons
- Tobacco
- Climate Change
- Forced Labour

No reference benchmark was designated for the purpose of attaining the environmental or social characteristics promoted.

● ***How did the sustainability indicators perform?***

The following sustainability indicators were used to measure the attainment of the environmental and social characteristics promoted by the Fund;

- i. The percentage of the Fund portfolio made in sustainable investments which was 51.97% as at 31 December 2022
- ii. the percentage of the Fund's Underlying Fund holdings rated A or above by MSCI ESG Manager (or another corresponding rating from a similar rating provider) which was 97.42% of holdings as at 31 December 2022

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

FAM Evolution ICAV

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

● *...and compared to previous periods?*

Not applicable for the first periodic report.

● *What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?*

Please note that the Fund currently follows a fund of funds investment approach and can invest principally in underlying open-ended UCIs and UCITS (as well as other permissible instruments). The Management Company therefore relies on data provided by the investment managers of the underlying fund investments when calculating the percentage proportion of sustainable investment of the Fund and when calculating the percentages required in the section below dealing with the asset allocation of the Fund.

The objectives of the sustainable investments that the Fund made was to promote environmental and/or social characteristics. On the basis that the Fund is currently following a fund of funds investment approach, the objectives of the sustainable investments that the Fund partially intends to make is linked to the sustainable investments made by the Underlying Funds. The Fund sought to make investments in Underlying Funds that committed/partially committed to invest in sustainable investments and who had a process for ensuring that their sustainable investments met the following criteria;

- a. Made in investee companies that demonstrate good governance;
- b. Made in a manner that demonstrates that they do no significant harm to other environmental objectives; and
- c. Made in investee companies that make a positive contribution towards an environmental or social objective. The Fund allocates between Underlying Funds which make sustainable investments of any type, i.e. investments with an environmental, and/or a social objective. The Fund did not favour any specific type of sustainable investment.

As at 31 December the Fund had a proportion of 51.97% of sustainable investments

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

FAM Evolution ICAV

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

The sustainable investments that the Fund made did not cause significant harm to any environmental or social sustainable investment objective based on the policies adopted by the relevant Underlying Fund investment managers. These policies are considered as part of the Manager's initial and ongoing investment due diligence procedures and are assessed for alignment with the indicators set out in Table 1 and any relevant additional indicator from Tables 2 and 3 of Annex I of the Delegated Regulation.

How were the indicators for adverse impacts on sustainability factors taken into account?

Principal adverse impact ("PAI") indicators were calculated at both the Fund level and the Underlying Fund level. The results were compared with that of a chosen proxy benchmark representative of the Fund's investment universe and/or peers. These calculations were used as the basis of assessment of adverse impacts on sustainability factors in order to determine whether the Manager could improve at Fund level and/or where Manager could engage with Underlying Fund investment managers to improve at the Underlying Fund level.

The Fund considered the following principal adverse sustainability impacts indicators for the proportion of assets qualified as sustainable investments:

Corporate mandatory indicators:

1. GreenHouse Gas (GHG) Emissions
2. Carbon footprint
3. GHG intensity of investee companies
4. Exposure to companies active in the fossil fuel sector
5. Share of non-renewable energy consumption and production
6. Energy consumption intensity per high impact climate sector
7. Activities negatively affecting biodiversity sensitive areas
8. Emissions to water
9. Hazardous waste ratio

FAM Evolution ICAV

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

10. Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises
11. Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact principles and OECD Guidelines for Multinational Enterprises
12. Unadjusted gender pay gap
13. Board gender diversity
14. Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons)

Corporate voluntary indicators: Environment

4. Investments in companies without carbon emission reduction initiatives Social

Corporate voluntary indicators: Social

9. Lack of a human rights policy

Sovereign mandatory indicator:

15. GHG intensity
16. Investee countries subject to social violations

— — — *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:*

The sustainable investments which the Fund made in the Underlying Funds and their alignment with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights were assessed in the following ways;

1. Via PAI monitoring of the following indicators;
 - Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises
 - Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact principles and OECD Guidelines for Multinational Enterprises

FAM Evolution ICAV

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

2. Through engagement with the Underlying Fund investment managers to ensure that the sustainable investments that the Underlying Funds made are:
 - a. Made in investee companies that demonstrate good governance;
 - b. Made in a manner that demonstrates that they do no significant harm to other environmental objectives; and
 - c. Made in investee companies that make a positive contribution towards an environmental or social objective.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The Manager considered principal adverse impacts of its investment decisions on sustainability factors on an ongoing basis by monitoring the Fund portfolio against mandatory and additional PAI indicators and as part of its investment decision making process and investment due diligence process and procedures. Principal adverse impacts were prioritized based on materiality relative to the objectives or characteristics of the Fund, provided that all minimum standards are met. The results were compared with that of a chosen proxy benchmark representative of the Fund’s investment universe and/or peers. These calculations formed the basis of assessment of adverse impacts on sustainability factors in order to determine what the Portfolio Managers could improve at Fund level and where the Portfolio Managers could engage with relevant issuers to improve on such indicators.

The specific PAI indicators that were taken into consideration for this product were;

Corporate mandatory indicators:

1. GreenHouse Gas (GHG) Emissions

What was the proportion of sustainability-related investments?

51.97%

● *What was the asset allocation?*

97.42% of the Fund's Investments were aligned with the environmental and/or social characteristics promoted by the Fund. The Fund also committed to a minimum proportion of 30% in sustainable investments and as at 31 December the Fund had a proportion of 51.97% of sustainable investments. The remaining investments of the Fund were invested in cash and cash equivalents for liquidity purposes and derivatives which may be used for investment, risk reduction and hedging purposes. Calculations may rely on incomplete or inaccurate underlying fund manager data and/or company or third-party data.

Asset allocation describes the share of investments in specific assets.

FAM Evolution ICAV

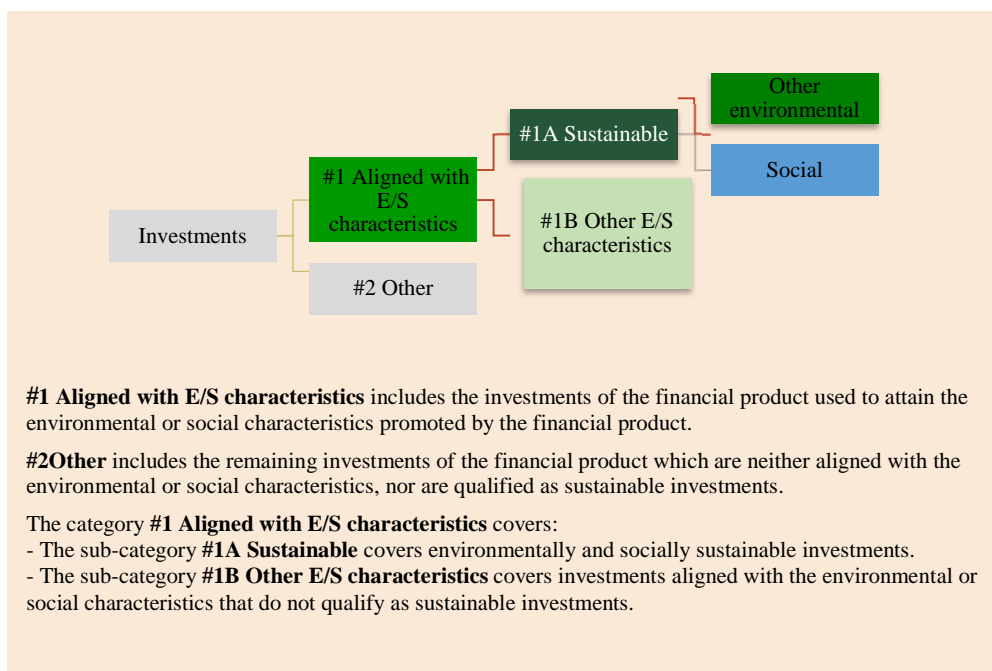

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● *In which economic sectors were the investments made?*

Largest investments	% Assets
Open-ended investment funds	100.00%

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

As the investments underlying this Fund do not take into account the EU criteria for environmentally sustainable economic activities within the meaning of the Taxonomy Regulation, the Fund's portfolio alignment with the Taxonomy Regulation was not calculated. It follows that the Fund does not currently commit to investing more than 0% of its assets in investments aligned with the Taxonomy.

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?**

- Yes:
- In fossil gas In nuclear energy
- No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

FAM Evolution ICAV

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

● What was the share of investments made in transitional and enabling activities?

The share of investments in transitional and enabling activities within the meaning of the EU Taxonomy Regulations was 0% for transitional activities and 0% for enabling activities.

● How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not applicable for the first periodic report.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

The share of sustainable investments with an environmental objective that was not aligned with the European Taxonomy Regulation is 35.10%.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

FAM Evolution ICAV

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

What was the share of socially sustainable investments?

Socially sustainable investments represented 28.41% of the financial product.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The remaining investments of the Fund included cash and cash equivalents for liquidity purposes and derivatives which may be used for investment, risk reduction and hedging purposes.

Any “#2 Other” potential investments, other than cash or cash equivalents were screened according to the Manager’s exclusion policy.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Manager has integrated various house ESG policies and procedures to ensure the binding elements of the investment strategy used to select the investments to attain each of the environmental or social characteristics promoted by this product, such as a minimum investment in funds in scope of Article 8 and 9 of the SFDR, Positive Screening, Fund Level ESG Scoring and Negative Screening have been implemented and are monitored regularly.

Furthermore, the Fund invested 51.97% of its assets in “sustainable investments” as defined in Article 2 (17) of SFDR. Criteria to qualify an investment as “sustainable investment” are indicated in the above question “*What were the objectives of the sustainable investments that the financial product partially intends to make and does the sustainable investments contribute to such objectives?*”.

The Fund invested 90.11% in Underlying Funds which fall within the meaning of either Article 8 or Article 9 of the SFDR, which means, the majority of the Underlying Funds which the Fund held promoted environmental and social characteristics while investing in companies which follow good governance practices.

No reference benchmark was designated for the purpose of attaining the environmental or social characteristics promoted.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

How did this financial product perform compared to the reference benchmark?

- *How does the reference benchmark differ from a broad market index?*
Not applicable
- *How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?*
Not applicable
- *How did this financial product perform compared with the reference benchmark?*
Not applicable
- *How did this financial product perform compared with the broad market index?*

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

ANNEX IV

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: FAM Megatrends Target 2023 V
Legal entity identifier: 2549006VK0Z329RDEP81

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

Yes

It made **sustainable investments with an environmental objective:** ___%

- in economic activities that qualify as environmentally sustainable under the EU Taxonomy
- in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made **sustainable investments with a social objective:** ___%

No

It promoted **Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of 40.32% of sustainable investments

- with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
- with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
- with a social objective

It promoted E/S characteristics, but **did not make any sustainable investments**

All actual data within this periodic report are calculated on the closing date of the accounting year.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and/or social characteristics promoted by this financial product included;

FAM Evolution ICAV

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

a. Minimum investment in funds in scope of Article 8 and 9 of the SFDR

The Fund invested 86.74% in Underlying Funds which fall within the meaning of either Article 8 or Article 9 of the SFDR, which means, that the majority of the Underlying Funds which the Fund held promoted environmental and social characteristics while investing in companies which follow good governance practices.

b. Positive Screening

Consideration of ESG factors were a key element of portfolio construction/fund selection. Portfolio managers took a holistic approach which included the analysis of ESG factors as part of their overall risk adjusted valuation assessment. This supported the overall promotion of investment in funds which the Manager deems desirable on ESG grounds. By incorporating positive ESG factors as part of the overall portfolio construction/fund selection, the Fund through its investments, supported a tilt towards investment in Underlying Funds that have a more positive impact on the environment or society at large.

c. Fund Level ESG Scoring

A monthly independent analysis and classification of the Fund's ESG score was performed internally by the Manager. A minimum ESG score of "A" was applied at Fund Level to ensure that the Fund's ESG score did not fall below a level deemed by the Manager to be appropriate for a fund promoting environmental and/or social characteristics. This additional control served to highlight a minimum Fund level ESG score and promoted engagement and challenge of portfolio managers on ESG topics.

d. Negative Screening (Norm-based exclusions)

For any potential direct holdings the Manager applied norms-based exclusions based on its Exclusion Policy. Exclusion categories considered in the Exclusion Policy were:

- United Nations Global Compact Principles
- Controversial Weapons
- Tobacco
- Climate Change
- Forced Labour

No reference benchmark was designated for the purpose of attaining the environmental or social characteristics promoted.

● ***How did the sustainability indicators perform?***

The following sustainability indicators were used to measure the attainment of the environmental and social characteristics promoted by the Fund;

- i. The percentage of the Fund portfolio made in sustainable investments was 40.32% as at 31 December 2022.
- ii. the percentage of the Fund's Underlying Fund holdings rated A or above by MSCI ESG Manager (or another corresponding rating from a similar rating provider) was 97.14% of holdings as at 31 December 2022.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

FAM Evolution ICAV

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

● *...and compared to previous periods?*

Not applicable for the first periodic report.

● *What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?*

Please note that the Fund currently follows a fund of funds investment approach and can invest principally in underlying open-ended UCIs and UCITS (as well as other permissible instruments). The Management Company therefore relies on data provided by the investment managers of the underlying fund investments when calculating the percentage proportion of sustainable investment of the Fund and when calculating the percentages required in the section below dealing with the asset allocation of the Fund.

The objectives of the sustainable investments that the Fund made was to promote environmental and/or social characteristics. On the basis that the Fund is currently following a fund of funds investment approach, the objectives of the sustainable investments that the Fund partially intends to make is linked to the sustainable investments made by the Underlying Funds. The Fund sought to make investments in Underlying Funds that committed/partially committed to invest in sustainable investments and who had a process for ensuring that their sustainable investments met the following criteria;

- a. Made in investee companies that demonstrate good governance;
- b. Made in a manner that demonstrates that they do no significant harm to other environmental objectives; and
- c. Made in investee companies that make a positive contribution towards an environmental or social objective. The Fund allocates between Underlying Funds which make sustainable investments of any type, i.e. investments with an environmental, and/or a social objective. The Fund did not favour any specific type of sustainable investment.

As at 31 December the Fund had a proportion of 40.32% of sustainable investments

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

FAM Evolution ICAV

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

The sustainable investments that the Fund makes did not cause significant harm to any environmental or social sustainable investment objective based on the policies adopted by the relevant Underlying Fund investment managers. These policies are considered as part of the Manager's initial and ongoing investment due diligence procedures and are assessed for alignment with the indicators set out in Table 1 and any relevant additional indicator from Tables 2 and 3 of Annex I of the Delegated Regulation.

How were the indicators for adverse impacts on sustainability factors taken into account?

Principal adverse impact ("PAI") indicators were calculated at both the Fund level and the Underlying Fund level. The results were compared with that of a chosen proxy benchmark representative of the Fund's investment universe and/or peers. These calculations are used as the basis of assessment of adverse impacts on sustainability factors in order to determine whether the Manager could improve at Fund level and/or where Manager could engage with Underlying Fund investment managers to improve at the Underlying Fund level.

The Fund considered the following principal adverse sustainability impacts indicators for the proportion of assets qualified as sustainable investments:

Corporate mandatory indicators:

1. GreenHouse Gas (GHG) Emissions
2. Carbon footprint
3. GHG intensity of investee companies
4. Exposure to companies active in the fossil fuel sector
5. Share of non-renewable energy consumption and production
6. Energy consumption intensity per high impact climate sector
7. Activities negatively affecting biodiversity sensitive areas
8. Emissions to water
9. Hazardous waste ratio
10. Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises

FAM Evolution ICAV

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

11. Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact principles and OECD Guidelines for Multinational Enterprises
12. Unadjusted gender pay gap
13. Board gender diversity
14. Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons)

Corporate voluntary indicators: Environment

4. Investments in companies without carbon emission reduction initiatives Social

Corporate voluntary indicators: Social

9. Lack of a human rights policy

Sovereign mandatory indicator:

15. GHG intensity
16. Investee countries subject to social violations

— — — *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:*

The sustainable investments which the Fund made in the Underlying Funds and their alignment with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights were assessed in the following ways;

1. Via PAI monitoring of the following indicators;
 - Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises
 - Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact principles and OECD Guidelines for Multinational Enterprises

FAM Evolution ICAV

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

2. Through engagement with the Underlying Fund investment managers to ensure that the sustainable investments that the Underlying Funds made are:
 - a. Made in investee companies that demonstrate good governance:
 - b. Made in a manner that demonstrates that they do no significant harm to other environmental objectives; and
 - b. Made in investee companies that make a positive contribution towards an environmental or social objective.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The Manager considered principal adverse impacts of its investment decisions on sustainability factors on an ongoing basis by monitoring the Fund portfolio against mandatory and additional PAI indicators and as part of its investment decision making process and investment due diligence process and procedures. Principal adverse impacts were prioritized based on materiality relative to the objectives or characteristics of the Fund, provided that all minimum standards are met. The results were compared with that of a chosen proxy benchmark representative of the Fund’s investment universe and/or peers. These calculations formed the basis of assessment of adverse impacts on sustainability factors in order to determine what the Portfolio Managers could improve at Fund level and where the Portfolio Managers could engage with relevant issuers to improve on such indicators.

What was the proportion of sustainability-related investments?

40.32%

● What was the asset allocation?

97.14% of the Fund's Investments are aligned with the environmental and/or social characteristics promoted by the Fund. The Fund also commits to a minimum proportion of 20% in sustainable investments and as at 31 December the Fund had a proportion of 40.32% of sustainable investments. The remaining investments of the Fund were invested in cash and cash equivalents for liquidity purposes and derivatives which may be used for investment, risk reduction and hedging purposes. Calculations may rely on incomplete or inaccurate underlying fund manager data and/or company or third-party data.

Asset allocation describes the share of investments in specific assets.

FAM Evolution ICAV

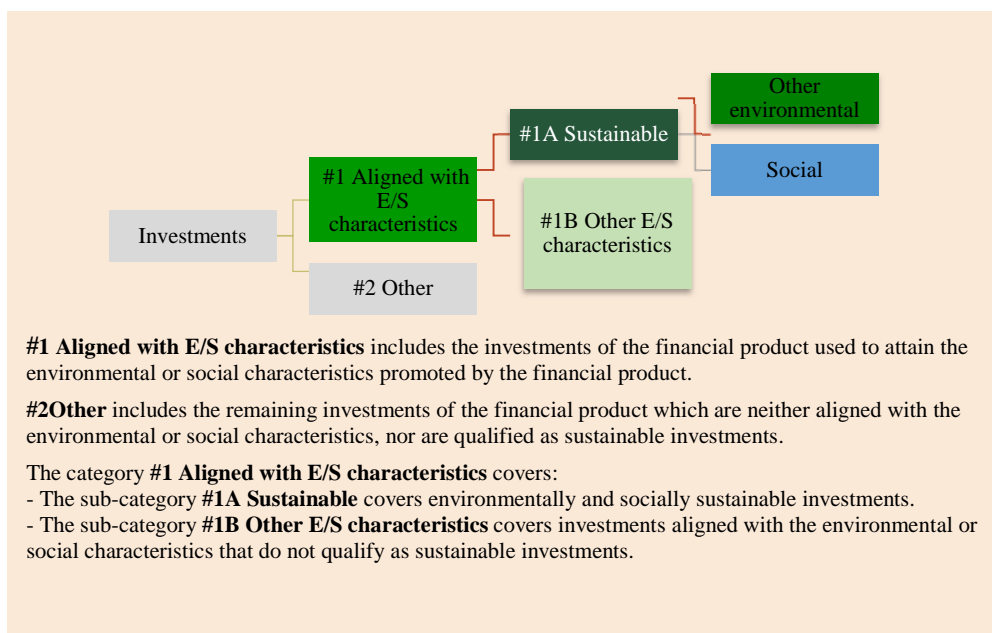

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● In which economic sectors were the investments made?

Largest investments	% Assets
Open-ended investment funds	97.14%

● To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

As the investments underlying this Fund do not take into account the EU criteria for environmentally sustainable economic activities within the meaning of the Taxonomy Regulation, the Fund's portfolio alignment with the Taxonomy Regulation is not calculated. It follows that the Fund does not currently commit to investing more than 0% of its assets in investments aligned with the Taxonomy.

● Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

- Yes:
- In fossil gas In nuclear energy
- No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

● What was the share of investments made in transitional and enabling activities?

The share of investments in transitional and enabling activities within the meaning of the Regulations Taxonomy is 0% for transitional activities and 0% for enabling activities.

● How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not applicable for the first periodic report.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

The share of sustainable investments with an environmental objective that are not aligned with the European Taxonomy Regulation is 30.50%.

What was the share of socially sustainable investments?

Socially sustainable investments represent 15.45% of the financial product.

 are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

Sustainable Finance Disclosure Regulation (SFDR) (continued)

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The remaining investments of the Fund includes cash and cash equivalents for liquidity purposes and derivatives which may be used for investment, risk reduction and hedging purposes.

Any “#2 Other” potential investments, other than cash or cash equivalents are screened according to the managers exclusion policy.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Manager has integrated various house ESG policies and procedures to ensure the binding elements of the investment strategy used to select the investments to attain each of the environmental or social characteristics promoted by this product, such as a minimum investment in funds in scope of Article 8 and 9 of the SFDR, Positive Screening, Fund Level ESG Scoring and Negative Screening have been implemented and are monitored regularly.

Furthermore, the Fund invested 40.32% of its assets in “sustainable investments” as defined in Article 2 (17) of SFDR. Criteria to qualify an investment as “sustainable investment” are indicated in the above question “*What are the objectives of the sustainable investments that the financial product partially intends to make and does the sustainable investments contribute to such objectives*”.

The Fund invested 86.74% in Underlying Funds which fall within the meaning of either Article 8 or Article 9 of the SFDR, which means, the majority of the Underlying Funds which the Fund held promoted environmental and social characteristics while investing in companies which follow good governance practices.

No reference benchmark was designated for the purpose of attaining the environmental or social characteristics promoted.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

How did this financial product perform compared to the reference benchmark?

- *How does the reference benchmark differ from a broad market index?*
Not applicable
- *How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?*
Not applicable
- *How did this financial product perform compared with the reference benchmark?*
Not applicable
- *How did this financial product perform compared with the broad market index?*
Not applicable

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

ANNEX IV

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: FAM Sustainable Target 2023 V
Legal entity identifier: 25490092ISIZFBQZGN84

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The EU Taxonomy is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

Yes

It made **sustainable investments with an environmental objective**: ___%

in economic activities that qualify as environmentally sustainable under the EU Taxonomy

in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made **sustainable investments with a social objective**: ___%

No

It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of 48.45% of sustainable investments

with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy

with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

with a social objective

It promoted E/S characteristics, but **did not make any sustainable investments**

All actual data within this periodic report are calculated on the closing date of the accounting year.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and/or social characteristics promoted by this financial product included;

FAM Evolution ICAV

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

a. Minimum investment in funds in scope of Article 8 and 9 of the SFDR

The Fund invested 88.47% in Underlying Funds which fall within the meaning of either Article 8 or Article 9 of the SFDR, which means, that the majority of the Underlying Funds which the Fund held promoted environmental and social characteristics while investing in companies which follow good governance practices.

b. Positive Screening

Consideration of ESG factors was a key element of portfolio construction/fund selection. Portfolio managers took a holistic approach which included the analysis of ESG factors as part of their overall risk adjusted valuation assessment. This supported the overall promotion of investment in funds which the Manager deems desirable on ESG grounds. By incorporating positive ESG factors as part of the overall portfolio construction/fund selection, the Fund through its investments, supported a tilt towards investment in Underlying Funds that have a more positive impact on the environment or society at large.

c. Fund Level ESG Scoring

A monthly independent analysis and classification of the Fund's ESG score was performed internally by the Manager. A minimum ESG score of "A" was applied at Fund Level to ensure that the Fund's ESG score did not fall below a level deemed by the Manager to be appropriate for a fund promoting environmental and/or social characteristics. This additional control served to highlight a minimum Fund level ESG score and promoted engagement and challenge of portfolio managers on ESG topics.

d. Negative Screening (Norm-based exclusions)

For any potential direct holdings the Manager applied norms-based exclusions based on its Exclusion Policy. Exclusion categories considered in the Exclusion Policy were:

- United Nations Global Compact Principles
- Controversial Weapons
- Tobacco
- Climate Change
- Forced Labour

No reference benchmark was designated for the purpose of attaining the environmental or social characteristics promoted.

● ***How did the sustainability indicators perform?***

The following sustainability indicators were used to measure the attainment of the environmental and social characteristics promoted by the Fund;

- i. The percentage of the Fund portfolio made in sustainable investments which was 48.45% as at 31 December 2022
- ii. the percentage of the Fund's Underlying Fund holdings rated A or above by MSCI ESG Manager (or another corresponding rating from a similar rating provider) which was 97.44% of holdings as at 31 December 2022

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

FAM Evolution ICAV

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

- *...and compared to previous periods?*

Not applicable for the first periodic report.

- *What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?*

Please note that the Fund currently follows a fund of funds investment approach and can invest principally in underlying open-ended UCIs and UCITS (as well as other permissible instruments). The Management Company therefore relies on data provided by the investment managers of the underlying fund investments when calculating the percentage proportion of sustainable investment of the Fund and when calculating the percentages required in the section below dealing with the asset allocation of the Fund.

The objectives of the sustainable investments that the Fund made was to promote environmental and/or social characteristics. On the basis that the Fund is currently following a fund of funds investment approach, the objectives of the sustainable investments that the Fund partially intends to make is linked to the sustainable investments made by the Underlying Funds. The Fund sought to make investments in Underlying Funds that committed/partially committed to invest in sustainable investments and who had a process for ensuring that their sustainable investments met the following criteria;

- Made in investee companies that demonstrate good governance;
- Made in a manner that demonstrates that they do no significant harm to other environmental objectives; and
- Made in investee companies that make a positive contribution towards an environmental or social objective. The Fund allocates between Underlying Funds which make sustainable investments of any type, i.e. investments with an environmental, and/or a social objective. The Fund did not favour any specific type of sustainable investment.

As at 31 December the Fund had a proportion of 48.45% of sustainable investments

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

The sustainable investments that the Fund made did not cause significant harm to any environmental or social sustainable investment objective based on the policies adopted by the relevant Underlying Fund investment managers. These policies are considered as part of the Manager's initial and ongoing investment due diligence procedures and are assessed for alignment with the indicators set out in Table 1 and any relevant additional indicator from Tables 2 and 3 of Annex I of the Delegated Regulation.

How were the indicators for adverse impacts on sustainability factors taken into account?

Principal adverse impact ("PAI") indicators were calculated at both the Fund level and the Underlying Fund level. The results were compared with that of a chosen proxy benchmark representative of the Fund's investment universe and/or peers. These calculations were used as the basis of assessment of adverse impacts on sustainability factors in order to determine whether the Manager could improve at Fund level and/or where Manager could engage with Underlying Fund investment managers to improve at the Underlying Fund level.

The Fund considered the following principal adverse sustainability impacts indicators for the proportion of assets qualified as sustainable investments:

Corporate mandatory indicators:

1. GreenHouse Gas (GHG) Emissions
2. Carbon footprint
3. GHG intensity of investee companies
4. Exposure to companies active in the fossil fuel sector
5. Share of non-renewable energy consumption and production
6. Energy consumption intensity per high impact climate sector
7. Activities negatively affecting biodiversity sensitive areas
8. Emissions to water
9. Hazardous waste ratio

9. Lack of a human rights policy

Sovereign mandatory indicator:

15. GHG intensity
16. Investee countries subject to social violations

— — — *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:*

The sustainable investments which the Fund made in the Underlying Funds and their alignment with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights were assessed in the following ways;

1. Via PAI monitoring of the following indicators;
 - Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises
 - Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact principles and OECD Guidelines for Multinational Enterprises

FAM Evolution ICAV

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

2. Through engagement with the Underlying Fund investment managers to ensure that the sustainable investments that the Underlying Funds made are:
 - a. Made in investee companies that demonstrate good governance;
 - b. Made in a manner that demonstrates that they do no significant harm to other environmental objectives; and
 - c. Made in investee companies that make a positive contribution towards an environmental or social objective.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The Manager considered principal adverse impacts of its investment decisions on sustainability factors on an ongoing basis by monitoring the Fund portfolio against mandatory and additional PAI indicators and as part of its investment decision making process and investment due diligence process and procedures. Principal adverse impacts were prioritized based on materiality relative to the objectives or characteristics of the Fund, provided that all minimum standards are met. The results were compared with that of a chosen proxy benchmark representative of the Fund’s investment universe and/or peers. These calculations formed the basis of assessment of adverse impacts on sustainability factors in order to determine what the Portfolio Managers could improve at Fund level and where the Portfolio Managers could engage with relevant issuers to improve on such indicators.

The specific PAI indicators that were taken into consideration for this product were;

Corporate mandatory indicators:

1. GreenHouse Gas (GHG) Emissions

Asset allocation describes the share of investments in specific assets.

What was the proportion of sustainability-related investments?

48.45%

● *What was the asset allocation?*

97.44% of the Fund's Investments were aligned with the environmental and/or social characteristics promoted by the Fund. The Fund also committed to a minimum proportion of 30% in sustainable investments and as at 31 December the Fund had a proportion of 48.45% of sustainable investments. The remaining investments of the Fund were invested in cash and cash equivalents for liquidity purposes and derivatives which may be used for investment, risk reduction and hedging purposes. Calculations may rely on incomplete or inaccurate underlying fund manager data and/or company or third-party data.

Sustainable Finance Disclosure Regulation (SFDR) (continued)

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● ***In which economic sectors were the investments made?***

Largest investments	% Assets
Open-ended investment funds	100.00%

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

As the investments underlying this Fund do not take into account the EU criteria for environmentally sustainable economic activities within the meaning of the Taxonomy Regulation, the Fund’s portfolio alignment with the Taxonomy Regulation was not calculated. It follows that the Fund does not currently commit to investing more than 0% of its assets in investments aligned with the Taxonomy.

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?**

- Yes:
 - In fossil gas In nuclear energy
- No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Sustainable Finance Disclosure Regulation (SFDR) (continued)

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

● What was the share of investments made in transitional and enabling activities?

The share of investments in transitional and enabling activities within the meaning of the EU Taxonomy Regulations was 0% for transitional activities and 0% for enabling activities.

● How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not applicable for the first periodic report.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

The share of sustainable investments with an environmental objective that was not aligned with the European Taxonomy Regulation is 33.50%.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

FAM Evolution ICAV

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

What was the share of socially sustainable investments?

Socially sustainable investments represented 25.97% of the financial product.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The remaining investments of the Fund included cash and cash equivalents for liquidity purposes and derivatives which may be used for investment, risk reduction and hedging purposes.

Any “#2 Other” potential investments, other than cash or cash equivalents were screened according to the Manager’s exclusion policy.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Manager has integrated various house ESG policies and procedures to ensure the binding elements of the investment strategy used to select the investments to attain each of the environmental or social characteristics promoted by this product, such as a minimum investment in funds in scope of Article 8 and 9 of the SFDR, Positive Screening, Fund Level ESG Scoring and Negative Screening have been implemented and are monitored regularly.

Furthermore, the Fund invested 48.45% of its assets in “sustainable investments” as defined in Article 2 (17) of SFDR. Criteria to qualify an investment as “sustainable investment” are indicated in the above question “*What were the objectives of the sustainable investments that the financial product partially intends to make and does the sustainable investments contribute to such objectives?*”.

The Fund invested 88.47% in Underlying Funds which fall within the meaning of either Article 8 or Article 9 of the SFDR, which means, the majority of the Underlying Funds which the Fund held promoted environmental and social characteristics while investing in companies which follow good governance practices.

No reference benchmark was designated for the purpose of attaining the environmental or social characteristics promoted.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

How did this financial product perform compared to the reference benchmark?

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

- *How does the reference benchmark differ from a broad market index?*
Not applicable
- *How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?*
Not applicable
- *How did this financial product perform compared with the reference benchmark?*
Not applicable
- *How did this financial product perform compared with the broad market index?*
Not applicable

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: Fineco AM Megatrends Target 2027
Legal entity identifier: 254900W5V6EWXXOHME20

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?	
<p style="text-align: center;"><input checked="" type="radio"/> <input type="radio"/> <input type="checkbox"/> Yes</p> <p><input type="checkbox"/> It made sustainable investments with an environmental objective: ___%</p> <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <p><input type="checkbox"/> It made sustainable investments with a social objective: ___%</p>	<p style="text-align: center;"><input checked="" type="radio"/> <input type="radio"/> <input checked="" type="checkbox"/> No</p> <p><input checked="" type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 34.04% of sustainable investments</p> <ul style="list-style-type: none"> <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with a social objective <p><input type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments</p>

All actual data within this periodic report are calculated on the closing date of the accounting year.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and/or social characteristics promoted by this financial product included;

a. Minimum investment in funds in scope of Article 8 and 9 of the SFDR

The Fund invested 87.33% in Underlying Funds which fall within the meaning of either Article 8 or Article 9 of the SFDR, which means, that the majority of the Underlying Funds which the Fund held promoted environmental and social characteristics while investing in companies which follow good governance practices.

b. Positive Screening

FAM Evolution ICAV

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

Consideration of ESG factors were a key element of portfolio construction/fund selection. Portfolio managers took a holistic approach which included the analysis of ESG factors as part of their overall risk adjusted valuation assessment. This supported the overall promotion of investment in funds which the Manager deems desirable on ESG grounds. By incorporating positive ESG factors as part of the overall portfolio construction/fund selection, the Fund through its investments, supported a tilt towards investment in Underlying Funds that have a more positive impact on the environment or society at large.

c. Fund Level ESG Scoring

A monthly independent analysis and classification of the Fund's ESG score was performed internally by the Manager. A minimum ESG score of "A" was applied at Fund Level to ensure that the Fund's ESG score did not fall below a level deemed by the Manager to be appropriate for a fund promoting environmental and/or social characteristics. This additional control served to highlight a minimum Fund level ESG score and promoted engagement and challenge of portfolio managers on ESG topics.

d. Negative Screening (Norm-based exclusions)

For any potential direct holdings the Manager applied norms-based exclusions based on its Exclusion Policy. Exclusion categories considered in the Exclusion Policy were:

- United Nations Global Compact Principles
- Controversial Weapons
- Tobacco
- Climate Change
- Forced Labour

No reference benchmark was designated for the purpose of attaining the environmental or social characteristics promoted.

● ***How did the sustainability indicators perform?***

The following sustainability indicators were used to measure the attainment of the environmental and social characteristics promoted by the Fund;

- i. The percentage of the Fund portfolio made in sustainable investments was 34.04% as at 31 December 2022.
- ii. the percentage of the Fund's Underlying Fund holdings rated A or above by MSCI ESG Manager (or another corresponding rating from a similar rating provider) was 98.04% of holdings as at 31 December 2022.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

FAM Evolution ICAV

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

● *...and compared to previous periods?*

Not applicable for the first periodic report.

● *What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?*

Please note that the Fund currently follows a fund of funds investment approach and can invest principally in underlying open-ended UCIs and UCITS (as well as other permissible instruments). The Management Company therefore relies on data provided by the investment managers of the underlying fund investments when calculating the percentage proportion of sustainable investment of the Fund and when calculating the percentages required in the section below dealing with the asset allocation of the Fund.

The objectives of the sustainable investments that the Fund made was to promote environmental and/or social characteristics. On the basis that the Fund is currently following a fund of funds investment approach, the objectives of the sustainable investments that the Fund partially intends to make is linked to the sustainable investments made by the Underlying Funds. The Fund sought to make investments in Underlying Funds that committed/partially committed to invest in sustainable investments and who had a process for ensuring that their sustainable investments met the following criteria;

- a. Made in investee companies that demonstrate good governance;
- b. Made in a manner that demonstrates that they do no significant harm to other environmental objectives; and
- c. Made in investee companies that make a positive contribution towards an environmental or social objective. The Fund allocates between Underlying Funds which make sustainable investments of any type, i.e. investments with an environmental, and/or a social objective. The Fund did not favour any specific type of sustainable investment.

As at 31 December the Fund had a proportion of 34.04% of sustainable investments

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

● *How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?*

The sustainable investments that the Fund makes did not cause significant harm to any environmental or social sustainable investment objective based on the policies adopted by the relevant Underlying Fund investment managers. These policies are considered as part of the Manager's initial and ongoing investment due diligence procedures and are assessed for alignment with the indicators set out in Table 1 and any relevant additional indicator from Tables 2 and 3 of Annex I of the Delegated Regulation.

— — *How were the indicators for adverse impacts on sustainability factors taken into account?*

Principal adverse impact ("PAI") indicators were calculated at both the Fund level and the Underlying Fund level. The results were compared with that of a chosen proxy benchmark representative of the Fund's investment universe and/or peers. These calculations are used as the basis of assessment of adverse impacts on sustainability factors in order to determine whether the Manager could improve at Fund level and/or where Manager could engage with Underlying Fund investment managers to improve at the Underlying Fund level.

The Fund considered the following principal adverse sustainability impacts indicators for the proportion of assets qualified as sustainable investments:

Corporate mandatory indicators:

1. GreenHouse Gas (GHG) Emissions
2. Carbon footprint
3. GHG intensity of investee companies
4. Exposure to companies active in the fossil fuel sector
5. Share of non-renewable energy consumption and production
6. Energy consumption intensity per high impact climate sector
7. Activities negatively affecting biodiversity sensitive areas
8. Emissions to water
9. Hazardous waste ratio
10. Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises

FAM Evolution ICAV

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

11. Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact principles and OECD Guidelines for Multinational Enterprises
12. Unadjusted gender pay gap
13. Board gender diversity
14. Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons)

Corporate voluntary indicators: Environment

4. Investments in companies without carbon emission reduction initiatives Social

Corporate voluntary indicators: Social

9. Lack of a human rights policy

Sovereign mandatory indicator:

15. GHG intensity
16. Investee countries subject to social violations

— — — *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:*

The sustainable investments which the Fund made in the Underlying Funds and their alignment with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights were assessed in the following ways;

1. Via PAI monitoring of the following indicators;
 - Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises
 - Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact principles and OECD Guidelines for Multinational Enterprises

FAM Evolution ICAV

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

2. Through engagement with the Underlying Fund investment managers to ensure that the sustainable investments that the Underlying Funds made are:
 - a. Made in investee companies that demonstrate good governance;
 - b. Made in a manner that demonstrates that they do no significant harm to other environmental objectives; and
 - c. Made in investee companies that make a positive contribution towards an environmental or social objective.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The Manager considered principal adverse impacts of its investment decisions on sustainability factors on an ongoing basis by monitoring the Fund portfolio against mandatory and additional PAI indicators and as part of its investment decision making process and investment due diligence process and procedures. Principal adverse impacts were prioritized based on materiality relative to the objectives or characteristics of the Fund, provided that all minimum standards are met. The results were compared with that of a chosen proxy benchmark representative of the Fund’s investment universe and/or peers. These calculations formed the basis of assessment of adverse impacts on sustainability factors in order to determine what the Portfolio Managers could improve at Fund level and where the Portfolio Managers could engage with relevant issuers to improve on such indicators.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● In which economic sectors were the investments made?

Largest investments	% Assets
Open-ended investment funds	98.06%

● To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

As the investments underlying this Fund do not take into account the EU criteria for environmentally sustainable economic activities within the meaning of the Taxonomy Regulation, the Fund's portfolio alignment with the Taxonomy Regulation is not calculated. It follows that the Fund does not currently commit to investing more than 0% of its assets in investments aligned with the Taxonomy.

● Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

- Yes:
- In fossil gas In nuclear energy
- No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

FAM Evolution ICAV

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

● What was the share of investments made in transitional and enabling activities?

The share of investments in transitional and enabling activities within the meaning of the Regulations Taxonomy is 0% for transitional activities and 0% for enabling activities.

● How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not applicable for the first periodic report.

● What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

The share of sustainable investments with an environmental objective that are not aligned with the European Taxonomy Regulation is 23.32%.

● What was the share of socially sustainable investments?

Socially sustainable investments represent 14.69% of the financial product.

 are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The remaining investments of the Fund includes cash and cash equivalents for liquidity purposes and derivatives which may be used for investment, risk reduction and hedging purposes.

Any “#2 Other” potential investments, other than cash or cash equivalents are screened according to the managers exclusion policy.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Manager has integrated various house ESG policies and procedures to ensure the binding elements of the investment strategy used to select the investments to attain each of the environmental or social characteristics promoted by this product, such as a minimum investment in funds in scope of Article 8 and 9 of the SFDR, Positive Screening, Fund Level ESG Scoring and Negative Screening have been implemented and are monitored regularly.

Furthermore, the Fund invested 34.04% of its assets in “sustainable investments” as defined in Article 2 (17) of SFDR. Criteria to qualify an investment as “sustainable investment” are indicated in the above question “*What are the objectives of the sustainable investments that the financial product partially intends to make and does the sustainable investments contribute to such objectives?*”.

The Fund invested 87.33% in Underlying Funds which fall within the meaning of either Article 8 or Article 9 of the SFDR, which means, the majority of the Underlying Funds which the Fund held promoted environmental and social characteristics while investing in companies which follow good governance practices.

No reference benchmark was designated for the purpose of attaining the environmental or social characteristics promoted.

How did this financial product perform compared to the reference benchmark?

- *How does the reference benchmark differ from a broad market index?*
Not applicable
- *How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?*
Not applicable
- *How did this financial product perform compared with the reference benchmark?*
Not applicable
- *How did this financial product perform compared with the broad market index?*
Not applicable

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

ANNEX IV

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: FINECO AM Sustainable Target 2024

Legal entity identifier: 25490069N47V587BIK70

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The EU Taxonomy is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

Yes

It made **sustainable investments with an environmental objective: ___%**

in economic activities that qualify as environmentally sustainable under the EU Taxonomy

in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made **sustainable investments with a social objective: ___%**

No

It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of 40.56% of sustainable investments

with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy

with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

with a social objective

It promoted E/S characteristics, but **did not make any sustainable investments**

All actual data within this periodic report are calculated on the closing date of the accounting year.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and/or social characteristics promoted by this financial product included;

FAM Evolution ICAV

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

a. Minimum investment in funds in scope of Article 8 and 9 of the SFDR

The Fund invested 83.96% in Underlying Funds which fall within the meaning of either Article 8 or Article 9 of the SFDR, which means, that the majority of the Underlying Funds which the Fund held promoted environmental and social characteristics while investing in companies which follow good governance practices.

b. Positive Screening

Consideration of ESG factors was a key element of portfolio construction/fund selection. Portfolio managers took a holistic approach which included the analysis of ESG factors as part of their overall risk adjusted valuation assessment. This supported the overall promotion of investment in funds which the Manager deems desirable on ESG grounds. By incorporating positive ESG factors as part of the overall portfolio construction/fund selection, the Fund through its investments, supported a tilt towards investment in Underlying Funds that have a more positive impact on the environment or society at large.

c. Fund Level ESG Scoring

A monthly independent analysis and classification of the Fund's ESG score was performed internally by the Manager. A minimum ESG score of "A" was applied at Fund Level to ensure that the Fund's ESG score did not fall below a level deemed by the Manager to be appropriate for a fund promoting environmental and/or social characteristics. This additional control served to highlight a minimum Fund level ESG score and promoted engagement and challenge of portfolio managers on ESG topics.

d. Negative Screening (Norm-based exclusions)

For any potential direct holdings the Manager applied norms-based exclusions based on its Exclusion Policy. Exclusion categories considered in the Exclusion Policy were:

- United Nations Global Compact Principles
- Controversial Weapons
- Tobacco
- Climate Change
- Forced Labour

No reference benchmark was designated for the purpose of attaining the environmental or social characteristics promoted.

● ***How did the sustainability indicators perform?***

The following sustainability indicators were used to measure the attainment of the environmental and social characteristics promoted by the Fund;

- i. The percentage of the Fund portfolio made in sustainable investments which was 40.56% as at 31 December 2022
- ii. the percentage of the Fund's Underlying Fund holdings rated A or above by MSCI ESG Manager (or another corresponding rating from a similar rating provider) which was 97.84% of holdings as at 31 December 2022

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

FAM Evolution ICAV

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

● *...and compared to previous periods?*

Not applicable for the first periodic report.

● *What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?*

Please note that the Fund currently follows a fund of funds investment approach and can invest principally in underlying open-ended UCIs and UCITS (as well as other permissible instruments). The Management Company therefore relies on data provided by the investment managers of the underlying fund investments when calculating the percentage proportion of sustainable investment of the Fund and when calculating the percentages required in the section below dealing with the asset allocation of the Fund.

The objectives of the sustainable investments that the Fund made was to promote environmental and/or social characteristics. On the basis that the Fund is currently following a fund of funds investment approach, the objectives of the sustainable investments that the Fund partially intends to make is linked to the sustainable investments made by the Underlying Funds. The Fund sought to make investments in Underlying Funds that committed/partially committed to invest in sustainable investments and who had a process for ensuring that their sustainable investments met the following criteria;

- a. Made in investee companies that demonstrate good governance;
- b. Made in a manner that demonstrates that they do no significant harm to other environmental objectives; and
- c. Made in investee companies that make a positive contribution towards an environmental or social objective. The Fund allocates between Underlying Funds which make sustainable investments of any type, i.e. investments with an environmental, and/or a social objective. The Fund did not favour any specific type of sustainable investment.

As at 31 December the Fund had a proportion of 40.56% of sustainable investments

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

FAM Evolution ICAV

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

The sustainable investments that the Fund made did not cause significant harm to any environmental or social sustainable investment objective based on the policies adopted by the relevant Underlying Fund investment managers. These policies are considered as part of the Manager's initial and ongoing investment due diligence procedures and are assessed for alignment with the indicators set out in Table 1 and any relevant additional indicator from Tables 2 and 3 of Annex I of the Delegated Regulation.

How were the indicators for adverse impacts on sustainability factors taken into account?

Principal adverse impact ("PAI") indicators were calculated at both the Fund level and the Underlying Fund level. The results were compared with that of a chosen proxy benchmark representative of the Fund's investment universe and/or peers. These calculations were used as the basis of assessment of adverse impacts on sustainability factors in order to determine whether the Manager could improve at Fund level and/or where Manager could engage with Underlying Fund investment managers to improve at the Underlying Fund level.

The Fund considered the following principal adverse sustainability impacts indicators for the proportion of assets qualified as sustainable investments:

Corporate mandatory indicators:

1. GreenHouse Gas (GHG) Emissions
2. Carbon footprint
3. GHG intensity of investee companies
4. Exposure to companies active in the fossil fuel sector
5. Share of non-renewable energy consumption and production
6. Energy consumption intensity per high impact climate sector
7. Activities negatively affecting biodiversity sensitive areas
8. Emissions to water
9. Hazardous waste ratio

FAM Evolution ICAV

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

10. Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises
11. Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact principles and OECD Guidelines for Multinational Enterprises
12. Unadjusted gender pay gap
13. Board gender diversity
14. Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons)

Corporate voluntary indicators: Environment

4. Investments in companies without carbon emission reduction initiatives Social

Corporate voluntary indicators: Social

9. Lack of a human rights policy

Sovereign mandatory indicator:

15. GHG intensity
16. Investee countries subject to social violations

— — — *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:*

The sustainable investments which the Fund made in the Underlying Funds and their alignment with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights were assessed in the following ways;

1. Via PAI monitoring of the following indicators;
 - Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises
 - Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact principles and OECD Guidelines for Multinational Enterprises

FAM Evolution ICAV

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

2. Through engagement with the Underlying Fund investment managers to ensure that the sustainable investments that the Underlying Funds made are:
 - a. Made in investee companies that demonstrate good governance;
 - b. Made in a manner that demonstrates that they do no significant harm to other environmental objectives; and
 - c. Made in investee companies that make a positive contribution towards an environmental or social objective.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The Manager considered principal adverse impacts of its investment decisions on sustainability factors on an ongoing basis by monitoring the Fund portfolio against mandatory and additional PAI indicators and as part of its investment decision making process and investment due diligence process and procedures. Principal adverse impacts were prioritized based on materiality relative to the objectives or characteristics of the Fund, provided that all minimum standards are met. The results were compared with that of a chosen proxy benchmark representative of the Fund’s investment universe and/or peers. These calculations formed the basis of assessment of adverse impacts on sustainability factors in order to determine what the Portfolio Managers could improve at Fund level and where the Portfolio Managers could engage with relevant issuers to improve on such indicators.

The specific PAI indicators that were taken into consideration for this product were;

Corporate mandatory indicators:

1. GreenHouse Gas (GHG) Emissions

What was the proportion of sustainability-related investments?

40.56%

● *What was the asset allocation?*

97.84% of the Fund's Investments were aligned with the environmental and/or social characteristics promoted by the Fund. The Fund also committed to a minimum proportion of 30% in sustainable investments and as at 31 December the Fund had a proportion of 40.56% of sustainable investments. The remaining investments of the Fund were invested in cash and cash equivalents for liquidity purposes and derivatives which may be used for investment, risk reduction and hedging purposes. Calculations may rely on incomplete or inaccurate underlying fund manager data and/or company or third-party data.

Asset allocation describes the share of investments in specific assets.

FAM Evolution ICAV

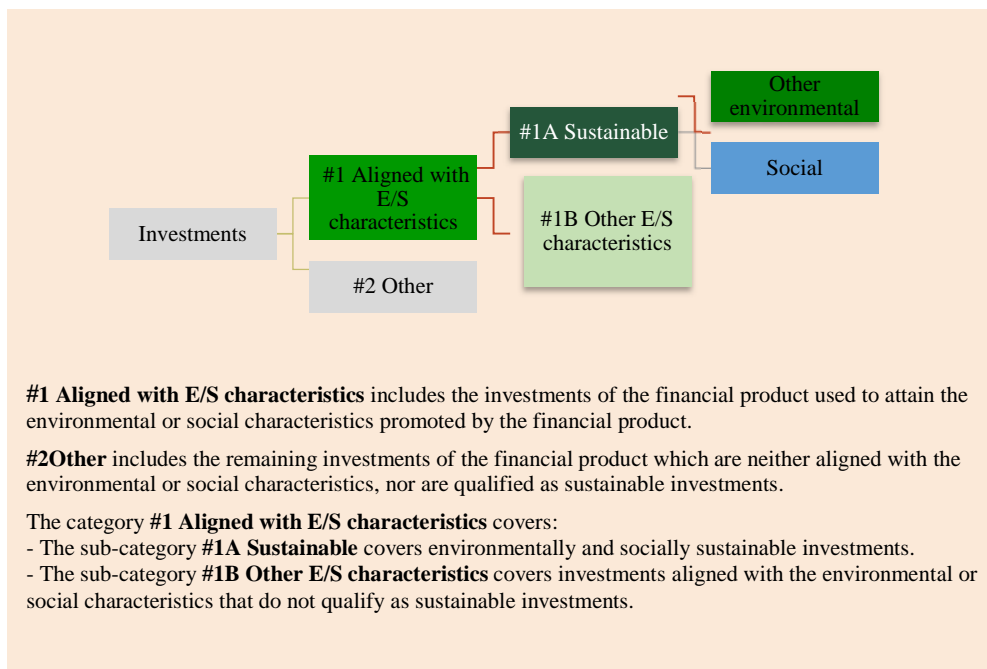

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● *In which economic sectors were the investments made?*

Largest investments	% Assets
Open-ended investment funds	100.00%

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

As the investments underlying this Fund do not take into account the EU criteria for environmentally sustainable economic activities within the meaning of the Taxonomy Regulation, the Fund’s portfolio alignment with the Taxonomy Regulation was not calculated. It follows that the Fund does not currently commit to investing more than 0% of its assets in investments aligned with the Taxonomy.

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?**

- Yes:
 - In fossil gas In nuclear energy
- No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

FAM Evolution ICAV

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

● What was the share of investments made in transitional and enabling activities?

The share of investments in transitional and enabling activities within the meaning of the EU Taxonomy Regulations was 0% for transitional activities and 0% for enabling activities.

● How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not applicable for the first periodic report.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

The share of sustainable investments with an environmental objective that was not aligned with the European Taxonomy Regulation is 29.55%.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

FAM Evolution ICAV

Unaudited Section (continued)

Sustainable Finance Disclosure Regulation (SFDR) (continued)

What was the share of socially sustainable investments?

Socially sustainable investments represented 21.07% of the financial product.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The remaining investments of the Fund included cash and cash equivalents for liquidity purposes and derivatives which may be used for investment, risk reduction and hedging purposes.

Any “#2 Other” potential investments, other than cash or cash equivalents were screened according to the Manager’s exclusion policy.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Manager has integrated various house ESG policies and procedures to ensure the binding elements of the investment strategy used to select the investments to attain each of the environmental or social characteristics promoted by this product, such as a minimum investment in funds in scope of Article 8 and 9 of the SFDR, Positive Screening, Fund Level ESG Scoring and Negative Screening have been implemented and are monitored regularly.

Furthermore, the Fund invested 40.56% of its assets in “sustainable investments” as defined in Article 2 (17) of SFDR. Criteria to qualify an investment as “sustainable investment” are indicated in the above question “*What were the objectives of the sustainable investments that the financial product partially intends to make and does the sustainable investments contribute to such objectives?*”.

The Fund invested 83.96% in Underlying Funds which fall within the meaning of either Article 8 or Article 9 of the SFDR, which means, the majority of the Underlying Funds which the Fund held promoted environmental and social characteristics while investing in companies which follow good governance practices.

No reference benchmark was designated for the purpose of attaining the environmental or social characteristics promoted.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

How did this financial product perform compared to the reference benchmark?

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

- *How does the reference benchmark differ from a broad market index?*
Not applicable
- *How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?*
Not applicable
- *How did this financial product perform compared with the reference benchmark?*
Not applicable
- *How did this financial product perform compared with the broad market index?*
Not applicable
