

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

## Global Listed Infrastructure FAM Fund

A SUB-FUND OF FAM SERIES UCITS ICAV

CLASS I ACC - EUR ACCUMULATING ISIN: IE000D7BW9Y9

INVESTMENT MANAGER : M&G INVESTMENT MANAGEMENT LIMITED

MANAGEMENT COMPANY : FINECO ASSET MANAGEMENT DAC, WHICH IS PART OF FINECOBANK GROUP

### Objectives and Investment Policy

The investment objective of the Sub-Fund is to deliver a higher total return (combination of capital growth and income) than that of global equities markets over any five-year period. In managing the Sub-Fund's portfolio, the Investment Manager takes into account ESG considerations and the ability of issuers to comply with international ESG standards. The Sub-Fund seeks to achieve its objective by investing at least 80% of its Net Asset Value in equity securities issued by infrastructure companies, investment trusts and real estate investment trusts ("REITs") that may be domiciled in any country. The Investment Manager will target investments it believes offer capital appreciation and will deliver an income stream that increases every year based on an assessment of long-term earnings growth described below. The types of infrastructure companies the Sub-Fund may acquire include companies that operate in the following sectors: utilities, energy, transport, health, education, security, communications and transactions. The Sub-Fund has a global investment mandate insofar as its investments are not confined to or concentrated in any particular geographic region or market and it may invest up to 20% of its Net Asset Value in emerging market countries. The equity securities in which the Sub-Fund will invest include but are not limited to common stock, preferred stock, and convertible bonds (provided that no more than 20% of the Sub-Fund's Net Asset value may be invested in convertible bonds). The Sub-Fund may also invest in deposits, warrants, money market instruments such as T-bills, certificates of deposit, commercial paper and bankers' acceptances. Investment in warrants will not be leveraged and will be limited to 10% of the Sub-Fund's Net Asset Value. There can be no guarantee that the investment objective will actually be attained. Investors can redeem their Shares on any Business Day, as defined in the supplement. Investors can ask for full or partial redemption of the Shares held. The Sub-Fund may use derivatives to reduce various risks, for hedging and investment purposes. **SFDR Classification** : The Sub-Fund is classified as an Article 8 financial product under SFDR. For more detailed information on the ESG components of the Sub-Fund as well as the integration of sustainability risks into the investment decision process, please refer to the supplement and to the ICAV prospectus. **Benchmark Information** : The Sub-Fund is actively managed. The Investment Manager has selected the MSCI ACWI Net Return Index ("Index") that will be used as a comparison for the investment performance only. The Index is designed to represent performance of a broad range of large and mid-cap stocks from around the world, including developed markets and emerging markets. The Index is not an ESG benchmark and is not consistent with ESG or sustainability criteria. The Investment Manager does not intend to replicate the composition of such Index and may at all times exercise total freedom by investing in securities which are not included in the referenced Index or which are present in different proportions.

### Recommended for retail investors

- With a basic knowledge of investing in funds and no or limited experience of investing in the Sub-Fund or similar funds
- Who understand the risk of losing some or all of the capital invested
- Who are seeking income and capital growth, and who are willing to accept a high level of volatility
- This fund may not be appropriate for investors who plan to withdraw their money within 5 years

*This is a non-distributing unit class. Investment income is re-invested. Investors may sell on demand on any business day in Luxembourg.*

### Risk and Reward Profile

### Additional key risks

The risk indicator reflects market conditions of recent years and may not adequately capture the following additional key risks of the Sub-Fund:

- **Operational risk**: Losses may occur due to human error or omission, process errors, system disruptions or external events.
- **Derivatives risk**: Derivatives create leverage in the Sub-Fund and may cause movements in the value of the underlying investments to amplify gains or losses to the Sub-Fund.
- **Counterparty Risk**: Losses may occur due to the failure of derivative counterparties to the Sub-Fund and where collateral arrangements are insufficient to cover the risk.
- **Liquidity Risk**: Losses may occur if adverse market conditions affect the ability to sell assets at a certain time and for a reasonable price.
- **Emerging Markets Risk**: Some of the countries invested in may carry higher political, legal, economic and liquidity risks than investments in more developed countries.

### What does this risk indicator mean?

The above risk indicator ranks potential risk and reward and is based on medium-term volatility (how sharply the Sub-Fund's actual or estimated unit price has gone up and down over five years). Historical data, such as that used in calculating this synthetic indicator, may not be a reliable indication of the future risk profile of the Sub-Fund. The lowest category does not mean a 'risk-free' investment. The Sub-Fund's risk indicator is not guaranteed and may change over time. For un-hedged currency classes, exchange rate movements may affect the risk indicator where the currency of the underlying investments differs from the currency of the unit class.

## Charges

These charges cover the costs of running the Fund, including the costs of marketing and distributing it, and they reduce the potential growth of your investment.

One-off charges taken before or after you invest		
Entry charge	None	Maximum charges that might be taken out of your money before it is invested or before the proceeds of your investment are paid out.
Exit charge	None	
Charges taken from the Fund over a year		
Ongoing charges	1.06%	The ongoing charge is based on expenses for the period/year ending 31 December 2023.
Charges taken from the Fund under certain conditions		
Performance fee	None	

- **For entry and exit charges** you may pay less than the maximum amounts shown. Please consult your financial advisor or distributor.
- **Ongoing charges** vary from year to year. They do not include portfolio transaction costs and performance fees. The Fund's annual report for each financial year will include details of the exact charges made at the Sub-Fund level.

For more information about charges, please consult the Prospectus of FAM Series UCITS ICAV, available at [www.finecoassetmanagement.com](http://www.finecoassetmanagement.com)

## Past Performance

The performance of the Sub-Fund (in EUR) shown below, takes into account all ongoing charges, but no entry or exit charges. Past performance is not a reliable indicator of future performance.
