

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

FAM Emerging Markets Target 2023 II

A SUB-FUND OF FAM EVOLUTION ICAV

CLASS L ACC - EUR ACCUMULATING ISIN: IE000L4ZLW69

MANAGEMENT COMPANY : FINECO ASSET MANAGEMENT DAC, WHICH IS PART OF FINECOBANK GROUP

Objectives and Investment Policy

The Sub-Fund's investment objective is to achieve capital appreciation over its life. The Sub-Fund's life can be divided into these phases: i) Subscription Period, ii) Initial Strategies and iii) Longer Term Strategies, as described below. After the Subscription Period, up to the Target Date (during which the Sub-Fund will invest in Underlying Funds with exposure to debt instruments, as per supplement - the so called "Initial Strategies"), the Fund seeks to achieve its objective by rotating out of the Initial Strategies into the Longer Term Strategies (i.e. Averaging Out). This Averaging Out will continue, on a monthly basis, for approximately 22 months up to the Target Date. The Manager can alter the "Averaging Out" monthly amount by accelerating the reduction to the Initial Strategies, according to their analysis of the macroeconomic outlook and key trends that could influence financial markets. Exposure to the Longer Term Strategies may be achieved by purchasing Underlying Funds with exposure to: i) equities and equity-linked instruments issued by issuers in emerging markets; ii) absolute return/alternative investment strategies, including Underlying Funds with indirect exposure to commodities and (iii) money market instruments. The Sub-Fund may use derivatives to reduce various risks, for hedging and investment purposes. The Sub-Fund is not managed in reference to any benchmark. The portfolio composition is determined based on active investment decisions and hence the Sub-Fund is actively managed. There can be no guarantee that the investment objective will actually be attained. Investors can redeem their Shares on any business day in Luxembourg. Investors can ask for full or partial redemption of the Shares held.

Recommended for retail investors

- Who can afford to set aside capital for the recommended holding period of 2 years;
- Seeking to increase value of their investment over the recommended holding period of 2 years with a view to holding their investment for a recommended holding period of 5 years;
- Who understand the risk of losing some or all of the capital invested;
- This Sub-Fund may not be appropriate for investors who plan to withdraw their money within the recommended holding period of 2 years.

This is a non-distributing unit class. Any investment income is re-invested. Investors may sell on demand on any business day in Luxembourg.

Risk and Reward Profile

Additional key risks

The risk indicator reflects market conditions of recent years and may not adequately capture the following additional key risks of the Sub-Fund:

- **Operational risk:** Losses may occur due to human error or omission, process errors, system disruptions or external events.
- **Derivatives risk:** Derivatives create leverage in the Sub-Fund and may cause movements in the value of the underlying investments to amplify gains or losses to the Sub-Fund.
- **Counterparty Risk:** Losses may occur due to the failure of derivative counterparties to the Sub-Fund and where collateral arrangements are insufficient to cover the risk.
- **Credit risk:** The protection level offered by the Sub-Fund is not guaranteed and it is at all times subject to the risk of the default of the issuer of the funding investments which the Sub-Fund has purchased.
- **Concentration Risk:** Due to the composition of the Sub-Fund's investments, the Sub-Fund's portfolio may be more concentrated geographically and/or sectorally than other investment funds with more diversified portfolios.

What does this risk indicator mean?

The above risk indicator ranks potential risk and reward and is based on medium-term volatility (how sharply the Sub-Fund's actual or estimated unit price has gone up and down over five years). Historical data, such as that used in calculating this synthetic indicator, may not be a reliable indication of the future risk profile of the Sub-Fund. The lowest category does not mean a 'risk-free' investment. The Sub-Fund's risk indicator is not guaranteed and may change over time. For un-hedged currency classes, exchange rate movements may affect the risk indicator where the currency of the underlying investments differs from the currency of the unit class.

Charges

These charges cover the costs of running the Fund, including the costs of marketing and distributing it, and they reduce the potential growth of your investment.

One-off charges taken before or after you invest		
Entry charge	2.00%	Maximum charges that might be taken out of your money before it is invested or before the proceeds of your investment are paid out.
Exit charge	None	
Charges taken from the Fund over a year		
Ongoing charges	2.48%	The ongoing charge is based on expenses for the period/year ending 31 December 2023.
Charges taken from the Fund under certain conditions		
Performance fee	None	

- **For entry and exit charges** you may pay less than the maximum amounts shown. Please consult your financial advisor or distributor.
- **Ongoing charges** vary from year to year. They do not include portfolio transaction costs and performance fees. The Fund's annual report for each financial year will include details of the exact charges made at the Sub-Fund level.

For more information about charges, please consult the Prospectus of FAM Evolution ICAV, available at www.finecoassetmanagement.com

Past Performance

The performance of the Sub-Fund (in EUR) shown below, takes into account all ongoing charges, but no entry or exit charges. Past performance is not a reliable indicator of future performance.
