

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

Flexible Income FAM Fund

A SUB-FUND OF FAM SERIES UCITS ICAV

CLASS K ACC GBP - GBP ACCUMULATING ISIN: IE00BHNMXS08

INVESTMENT MANAGER : M&G INVESTMENT MANAGEMENT LIMITED

MANAGEMENT COMPANY : FINECO ASSET MANAGEMENT DAC, WHICH IS PART OF FINECOBANK GROUP

Objectives and Investment Policy

The investment objective of the Sub-Fund is to provide long-term income and capital growth. The Sub-Fund may invest up to 100% of its value in either bonds and/or shares. The Sub-Fund may also invest in money market instruments, deposits, ABS, MBS, Contingent Convertible Bonds and units in other collective investment schemes. The Sub-Fund may invest principally in debt rated below investment grade. In managing the Sub-Fund, the Investment Manager follows a three-stage process, involving formulating a macro-economic view, deciding on asset class weightings and risk-driven portfolio construction. The Manager forms a macroeconomic view based on fundamentals; sentiment; monetary and fiscal policy; and absolute and relative valuation metrics. The Investment Manager weights assets at the portfolio level (e.g. holds more shares than bonds or vice versa) based on this macro-economic view. These elements are complemented by risk-driven portfolio construction whereby the Investment Manager considers each investment position with regard to their macro-economic view and the objectives of the strategy as well as the size of each investment relative to the other holdings. The Sub-fund may invest in emerging markets and may invest in derivatives for investment, efficient portfolio management and hedging purposes. The Fund is actively Managed. The Fund does not aim to track the performance of a benchmark. Portfolio composition is determined based on active and discretionary investment decisions and choices. There can be no guarantee that the investment objective will actually be attained and investors are explicitly warned that this Sub-Fund is not a capital guaranteed product. Investors can redeem their Shares on any business day in Luxembourg. Investors can ask for full or partial redemption of the Shares held.

Recommended for retail investors

- With a basic knowledge of investing in funds and no or limited experience of investing in the Sub-Fund or similar funds
- Who understand the risk of losing some or all of the capital invested
- Seeking to increase the value of their investment and provide income and who are willing to accept a medium level of volatility
- This fund may not be appropriate for investors who plan to withdraw their money within 3 years

This is a non-distributing Share class. Investment income is re-invested. Investors may sell on demand on any business day in Luxembourg.

Risk and Reward Profile

Additional key risks

The risk indicator reflects market conditions of recent years and may not adequately capture the following additional key risks of the Sub-Fund:

- **Operational risk:** Losses may occur due to human error or omission, process errors, system disruptions or external events.
- **Derivatives risk:** Derivatives create leverage in the Sub-Fund and may cause movements in the value of the underlying investments to amplify gains or losses to the Sub-Fund.
- **Counterparty Risk:** Losses may occur due to the failure of derivative counterparties to the Sub-Fund and where collateral arrangements are insufficient to cover the risk.
- **Commodity Risk:** The Sub-Fund may contain indirect exposure to commodities through derivative contracts. In addition to general derivatives risk, commodity derivatives may become illiquid during periods of significant price fluctuation and losses may occur in the Sub-Fund.

What does this risk indicator mean?

The above risk indicator ranks potential risk and reward and is based on medium-term volatility (how sharply the Sub-Fund's actual or estimated unit price has gone up and down over five years). Historical data, such as that used in calculating this synthetic indicator, may not be a reliable indication of the future risk profile of the Sub-Fund. The lowest category does not mean a 'risk-free' investment. The Sub-Fund's risk indicator is not guaranteed and may change over time. For un-hedged currency classes, exchange rate movements may affect the risk indicator where the currency of the underlying investments differs from the currency of the unit class.

Charges

These charges cover the costs of running the Fund, including the costs of marketing and distributing it, and they reduce the potential growth of your investment.

| One-off charges taken before or after you invest | | |
|--|-------|---|
| Entry charge | None | Maximum charges that might be taken out of your money before it is invested or before the proceeds of your investment are paid out. |
| Exit charge | None | |
| Charges taken from the Fund over a year | | |
| Ongoing charges | 0.69% | The ongoing charge is based on expenses for the period/year ending 31 December 2023. |
| Charges taken from the Fund under certain conditions | | |
| Performance fee | None | |

- **For entry and exit charges** you may pay less than the maximum amounts shown. Please consult your financial advisor or distributor.
- **Ongoing charges** vary from year to year. They do not include portfolio transaction costs and performance fees. The Fund's annual report for each financial year will include details of the exact charges made at the Sub-Fund level.

For more information about charges, please consult the Prospectus of FAM Series UCITS ICAV, available at www.finecoassetmanagement.com

Past Performance

The performance of the Sub-Fund (in GBP) shown below, takes into account all ongoing charges, but no entry or exit charges. Past performance is not a reliable indicator of future performance.

Flexible Income FAM Fund
