

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

FAM MegaTrends Target October 2024

A SUB-FUND OF FAM EVOLUTION ICAV

CLASS L ACC - EUR ACCUMULATING ISIN: IE00BK6GQG97

MANAGEMENT COMPANY : FINECO ASSET MANAGEMENT DAC, WHICH IS PART OF FINECOBANK GROUP

Objectives and Investment Policy

The investment objective of the Sub-Fund is to achieve medium to long-term capital appreciation and to provide a return to investors at Maturity Date. After the initial 60-day Subscription Period (during which the Sub-Fund will gain exposure either directly or indirectly via units of Underlying Funds to instruments such as debt instruments, money market instruments and certificates of deposit i.e. the Initial Strategies), the Fund seeks to achieve this investment objective by rotating out of the Initial Strategies into the Longer Term Strategies (i.e. Averaging Out). This Averaging Out will continue on a pro-rata monthly basis up to the Maturity Date. The Longer Term Strategies may be achieved through purchasing: i) Underlying Funds that provide exposure to equities issued by companies incorporated anywhere in the world; ii) Underlying Funds with exposure to investment grade and below-investment grade debt securities of companies and governments issued anywhere in the world; iii) Underlying Funds with exposure to money market instruments and iv) Underlying Funds that are managed with absolute return/alternative investment strategies, including in Underlying Funds with indirect exposure to commodities. Investment in Underlying Funds will be made based on the examination of a number of factors including the investment policy and objectives, investment strategy and process, performance track record, team structure and risk management. The Manager uses in-house qualitative and quantitative techniques to evaluate, select and perform on-going monitoring of Underlying Funds and their investment managers. The Sub-Fund may utilize derivatives for investment purposes, hedging and risk reduction. The Fund is actively Managed. The Fund does not aim to track the performance of a benchmark. Portfolio composition is determined based on active and discretionary investment decisions and choices. There can be no guarantee that the investment objective will actually be attained and investors are explicitly warned that this Sub-Fund is not a capital guaranteed product. Investors can redeem their Shares on any business day in Luxembourg. Investors can ask for full or partial redemption of the Shares held. **SFDR Classification:** The Sub-Fund is classified as an Art. 8 financial product under SFDR. This means that, by pursuing its objective, this Sub-Fund promotes, among other characteristics, environmental and/or social characteristics, including the investment in companies that follow good governance practices ("ESG"). The underlying funds or the assets held directly by the Sub-Fund are assessed as related to ESG criteria and, where applicable, they must have an explicit commitment to responsible investing as per their investment process. For more detailed information on the ESG components of the Sub-Fund as well as the integration of sustainability risks into the investment decision process, please refer to the supplement and to the ICAV prospectus.

Recommended for retail investors

- Who can afford to set aside capital for the recommended holding period of 5 years;
- Seeking to increase value of their investment over the recommended holding period of 5 years;
- Who understand the risk of losing some or all of the capital invested;
- This Sub-Fund may not be appropriate for investors who plan to withdraw their money within the recommended holding period of 5 years.

This is a non-distributing Share Class. Any investment income is re-invested. Investors may sell on demand on any business day in Luxembourg.

Risk and Reward Profile

Additional key risks

The risk indicator reflects market conditions of recent years and may not adequately capture the following additional key risks of the Sub-Fund:

- **Operational risk:** Losses may occur due to human error or omission, process errors, system disruptions or external events.
- **Derivatives risk:** Derivatives create leverage in the Sub-Fund and may cause movements in the value of the underlying investments to amplify gains or losses to the Sub-Fund.
- **Counterparty Risk:** Losses may occur due to the failure of derivative counterparties to the Sub-Fund and where collateral arrangements are insufficient to cover the risk.
- **Commodity Risk:** The Sub-Fund may contain indirect exposure to commodities through derivative contracts. In addition to general derivatives risk, commodity derivatives may become illiquid during periods of significant price fluctuation and losses may occur in the Sub-Fund.

What does this risk indicator mean?

The above risk indicator ranks potential risk and reward and is based on medium-term volatility (how sharply the Sub-Fund's actual or estimated unit price has gone up and down over five years). Historical data, such as that used in calculating this synthetic indicator, may not be a reliable indication of the future risk profile of the Sub-Fund. The lowest category does not mean a 'risk-free' investment. The Sub-Fund's risk indicator is not guaranteed and may change over time. For un-hedged currency classes, exchange rate movements may affect the risk indicator where the currency of the underlying investments differs from the currency of the unit class.

Charges

These charges cover the costs of running the Fund, including the costs of marketing and distributing it, and they reduce the potential growth of your investment.

One-off charges taken before or after you invest		
Entry charge	None	Maximum charges that might be taken out of your money before it is invested or before the proceeds of your investment are paid out.
Exit charge	None	
Charges taken from the Fund over a year		
Ongoing charges	2.81%	The ongoing charge is based on expenses for the period/year ending 31 December 2023.
Charges taken from the Fund under certain conditions		
Performance fee	None	

- **For entry and exit charges** you may pay less than the maximum amounts shown. Please consult your financial advisor or distributor.
- **Ongoing charges** vary from year to year. They do not include portfolio transaction costs and performance fees. The Fund's annual report for each financial year will include details of the exact charges made at the Sub-Fund level.

For more information about charges, please consult the Prospectus of FAM Evolution ICAV, available at www.finecoassetmanagement.com

Past Performance

The performance of the Sub-Fund (in EUR) shown below, takes into account all ongoing charges, but no entry or exit charges. Past performance is not a reliable indicator of future performance.
