SMART GLOBAL DEFENCE FAM FUND 2026 II

A SUB-FUND OF FAM SERIES UCITS ICAV

CLASS A DIST - EUR DISTRIBUTING ISIN: IE00BK7YT299

MANAGEMENT COMPANY : FINECO ASSET MANAGEMENT DAC, WHICH IS PART OF FINECOBANK GROUP

Objectives and Investment Policy

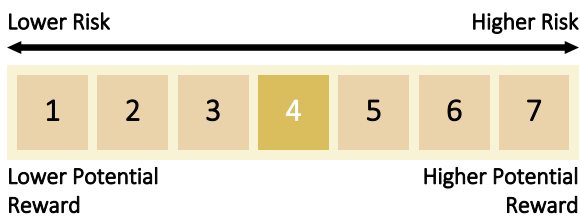

The Investment Objective of the Sub-Fund is to (i) aim to provide Shareholders with a Dividend on each Dividend Payment Date and (ii) seek to protect the Fund's Net Asset Value per Share at 100% of the Initial Offer Price at the Maturity Date. In order to achieve its Investment Objective, the Sub-Fund will invest in government and/or corporate bonds with a preference for Investment Grade government bonds issued by issuers located in any country and/or Investment Grade/non-Investment Grade Debt Instruments (including subordinated and non-subordinated debt securities) issued by credit institutions and/or insurance companies authorised to operate in the European Union and/or the European Economic Area, the United Kingdom, and/or the United States of America. The Fund will enter into certain Financial Derivative Instruments ("FDI") which may include Inflation Linked Swaps in which it will swap out an amount equal to the coupon it receives on the Debt Instruments it has purchased in return for payments received from an OTC counterparty. The Fund may also engage in the use of forwards and Credit Default Swaps. In particular, in order to generate additional income, the Fund may engage in the practice of selling or buying Credit Default Swaps ("CDS") on an index, while simultaneously entering into CDS to either buy or sell all of the individual constituents of the aforementioned index. By doing so, the Fund can profit from exploiting price differences between the index without being exposed to any default risk in respect of the underlying of the various CDS. The Fund may also invest principally in Debt Instruments and/or Money Market/Short Term Instruments during the Subscription Period, approaching the Maturity Date and after the Maturity Date. The Fund may engage in securities lending for efficient portfolio management purposes and may use additional FDI to those described in the investment policy section of the Fund for investment purposes, hedging and risk reduction. This KIID should be read in conjunction with the section entitled "Definitions" in the Prospectus and in the Sub-Fund Supplement. The Fund is not managed in reference to a benchmark. Portfolio composition is determined based on active investment decisions and hence the Fund is actively managed. There can be no guarantee that the investment objective will actually be attained and investors are explicitly warned that the Fund is not a capital guaranteed product. Investors can redeem their Shares on every Wednesday or if a particular Wednesday is not a Business Day, as defined in the supplement, on the next Business Day, or such other day or days as may be determined by the Directors and notified in advance to Shareholders. Investors can ask for full or partial repayment of the Shares held.

Recommended for retail investors

- For investors who can afford to set aside capital for the recommended holding period of 3 years.
- Seeking income over the recommended holding period of 3 years.
- Who understand the risk of losing some or all of the capital invested.
- This Fund may not be appropriate for investors who plan to withdraw their money within the recommended holding period of 3 years.

This is a distributing unit class.

Risk and Reward Profile

Additional key risks

The risk indicator reflects market conditions of recent years and may not adequately capture the following additional key risks of the Sub-Fund:

- **Operational risk:** Losses may occur due to human error or omission, process errors, system disruptions or external events.
- **Derivatives risk:** Derivatives create leverage in the Sub-Fund and may cause movements in the value of the underlying investments to amplify gains or losses to the Sub-Fund.
- **Counterparty Risk:** Losses may occur due to the failure of derivative counterparties to the Sub-Fund and where collateral arrangements are insufficient to cover the risk.
- **Credit risk:** The protection level offered by the Sub-Fund is not guaranteed and is at all times subject to the risk of the default of the issuer of the Funding Investments which the Sub-Fund has purchased.
- **Concentration Risk:** Due to the composition of the Sub-Fund's investments, the Sub-Fund's portfolio may be more concentrated geographically and/or sectorally than other investment funds with more diversified portfolios.
- **Liquidity Risk:** Losses may occur if adverse market conditions affect the ability to sell assets at a certain time and for a reasonable price.

What does this risk indicator mean?

The above risk indicator ranks potential risk and reward and is based on medium-term volatility (how sharply the Sub-Fund's actual or estimated unit price has gone up and down over five years). Historical data, such as that used in calculating this synthetic indicator, may not be a reliable indication of the future risk profile of the Sub-Fund. The lowest category does not mean a 'risk-free' investment. The Sub-Fund's risk indicator is not guaranteed and may change over time. For un-hedged currency classes, exchange rate movements may affect the risk indicator where the currency of the underlying investments differs from the currency of the unit class.
