

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

Fidelity Sustainable Water and Waste FAM Fund

A SUB-FUND OF FAM SERIES UCITS ICAV

CLASS I ACC - EUR ACCUMULATING ISIN: IE00BKS BHG96

INVESTMENT MANAGER : FIL PENSIONS MANAGEMENT

MANAGEMENT COMPANY : FINECO ASSET MANAGEMENT DAC, WHICH IS PART OF FINECOBANK GROUP

Objectives and Investment Policy

The investment objective of the Sub-Fund is to achieve long-term capital growth from a portfolio made up of at least 70% of the Net Asset Value of equity securities of companies around the world which are involved in the design, manufacture, or sale of products and services used for or in connection with the water and waste management sectors and/or that in the opinion of the Investment Manager demonstrate effective governance and “superior management” of environmental, social and governance issues (“ESG Considerations”), as described in more detail in the Sub-Fund’s supplement. The equity securities in which the Sub-Fund will invest may include common stock, preferred stock, rights and warrants, and depositary receipts (traded on Recognised Markets, listed in Schedule I to the prospectus). By investing in companies which are world-wide based, the Sub-Fund may also take exposure to emerging markets for up to 20% of its Net Asset Value. This includes indirect exposure to China, India and Russia through investment in the abovementioned securities. The Sub-Fund may hold money market instruments or invest, within the limit of 10% of the Net Asset Value, in money market funds, for ancillary purposes only. The Sub-Fund may also invest up to 30% of its Net Asset Value in deposits and hold cash for ancillary purposes within the limits set out in the supplement and the prospectus. The Sub-Fund may use derivatives for investment purposes, to reduce various risks or for efficient portfolio management. **Benchmark Information:** This Sub-Fund is actively managed. The Investment Manager may from time to time select a benchmark appropriate to the investment policies, in reference to which the Sub-Fund is then managed and compared to which the Sub-Fund may seek to achieve a similar rate of return, gross of fees. The Sub-Fund currently references the MSCI All Country World Index, used as a performance comparator (the “Benchmark”). As this is an actively managed Sub-Fund, the Investment Manager has full discretion over the composition of the assets in the portfolio and it can always invest in assets which are not components of the Benchmark. Hence, there are no restrictions on the extent to which the portfolio’s performance may deviate from the one of the Benchmark. Investors can request to buy back their Shares on any business day in Luxembourg. Investors can ask for full or partial repayment of the Shares held. **SFDR Classification:** The Sub-Fund is classified as an Art. 8 financial product under SFDR. This means that, by pursuing its objective, this Sub-Fund promotes, among other characteristics, environmental and/or social characteristics, including the investment in companies that follow good governance practices (“ESG”). For more detailed information on the ESG components of the Sub-Fund as well as the integration of sustainability risks into the investment decision process, please refer to the supplement and to the ICAV prospectus.

Recommended for retail investors

- With a basic knowledge of investing in funds and no or limited experience of investing in the Sub-Fund or similar funds.
- Who understand the risk of losing some or all of the capital invested
- Seeking to increase the value of their investment, and who are willing to accept a high level of volatility
- This fund may not be appropriate for investors who plan to withdraw their money within 5 years

This is a non-distributing unit class. Investment income is re-invested. Investors may sell on demand on any business day in Luxembourg.

Risk and Reward Profile

Additional key risks

The risk indicator reflects market conditions of recent years and may not adequately capture the following additional key risks of the Sub-Fund:

- **Operational risk:** Losses may occur due to human error or omission, process errors, system disruptions or external events.
- **Derivatives risk:** Derivatives create leverage in the Sub-Fund and may cause movements in the value of the underlying investments to amplify gains or losses to the Sub-Fund.
- **Counterparty Risk:** Losses may occur due to the failure of derivative counterparties to the Sub-Fund and where collateral arrangements are insufficient to cover the risk.
- **Emerging market risk:** Some of the countries invested in may carry higher political, legal, economic and liquidity risks than investments in more developed countries.

What does this risk indicator mean?

The above risk indicator ranks potential risk and reward and is based on medium-term volatility (how sharply the Sub-Fund’s actual or estimated unit price has gone up and down over five years). Historical data, such as that used in calculating this synthetic indicator, may not be a reliable indication of the future risk profile of the Sub-Fund. The lowest category does not mean a ‘risk-free’ investment. The Sub-Fund’s risk indicator is not guaranteed and may change over time. For un-hedged currency classes, exchange rate movements may affect the risk indicator where the currency of the underlying investments differs from the currency of the unit class.

Charges

These charges cover the costs of running the Fund, including the costs of marketing and distributing it, and they reduce the potential growth of your investment.

One-off charges taken before or after you invest		
Entry charge	None	Maximum charges that might be taken out of your money before it is invested or before the proceeds of your investment are paid out.
Exit charge	None	
Charges taken from the Fund over a year		
Ongoing charges	0.94%	The ongoing charge is based on expenses for the period/year ending 31 December 2023.
Charges taken from the Fund under certain conditions		
Performance fee	None	

- **For entry and exit charges** you may pay less than the maximum amounts shown. Please consult your financial advisor or distributor.
- **Ongoing charges** vary from year to year. They do not include portfolio transaction costs and performance fees. The Fund's annual report for each financial year will include details of the exact charges made at the Sub-Fund level.

For more information about charges, please consult the Prospectus of FAM Series UCITS ICAV, available at www.finecoassetmanagement.com

Past Performance

The performance of the Sub-Fund (in EUR) shown below, takes into account all ongoing charges, but no entry or exit charges. Past performance is not a reliable indicator of future performance.

Fidelity Sustainable Water and Waste FAM Fund

Benchmark: MSCI All Country World Index
