- **Derivatives risk:** Derivatives create leverage in the Sub-Fund and may cause movements in the value of the underlying investments to amplify gains or losses to the Sub-Fund.

- **Credit risk:** The protection level offered by the Sub-Fund is not guaranteed and it is at all times subject to the risk of the default of the issuer of the funding investments which the Sub-Fund has purchased.

The lowest category does not mean a ‘risk-free’ investment. The Sub-Fund’s risk indicator is not guaranteed and may change over time. For un-hedged currency classes, exchange rate movements may affect the risk indicator where the currency
