CoRe Target Allocation 50 (III)

A SUB-FUND OF CORE SERIES

CLASS E - EUR NON-DISTRIBUTING ISIN: LU1533944150

MANAGEMENT COMPANY : FINECO ASSET MANAGEMENT DAC, WHICH IS PART OF FINECOBANK GROUP

Objectives and Investment Policy

This Sub-Fund seeks to achieve capital appreciation over the recommended holding period by investing in a diversified portfolio of the permissible instruments described below. The Sub-Fund invests primarily in open-ended UCIs and UCITS, equities and equity-linked instruments, Money-Market Instruments, debt and debt-related instruments (including convertible bonds and bonds cum warrants), deposits subject to call with a maximum term of 12 months, and interest-rate certificates. During the first three years after launch, the allocation of the Sub-Fund’s assets to equity and equity-linked instruments (including through open-ended UCIs and UCITS) will gradually increase to approximately 50% of its assets, and at no time it will be more than 75%. Thereafter, the Sub-Fund will invest at least 25% and no more than 75% of its assets in equities and equity-linked instruments (including through open-ended UCIs and UCITS). Investment in underlying funds is made using in-house research techniques to evaluate the people involved, the team structure and experience, the investment philosophy, the key management and administration policies and processes (e.g. risk management, remuneration) of those underlying funds. Past performance is assessed in relation to the underlying funds’ risk in different markets conditions and in the context of relevant peer groups. The Sub-Fund is actively Managed. The Sub-Fund may use derivatives to reduce various risks, for hedging and investment purposes. The Sub-Fund does not aim to track the performance of a benchmark. Portfolio composition is determined based on active and discretionary investment decisions and choices. There can be no guarantee that the investment objective will actually be attained and investors are explicitly warned that this Sub-Fund is not a capital guaranteed product. Investors can redeem their Units on any business day in Luxembourg. Investors can ask for full or partial redemption of the Units held.

Recommended for retail investors

- With a basic knowledge of investing in funds and no or limited experience of investing in the Sub-Fund or similar funds
- Who understand the risk of losing some or all of the capital invested
- Seeking to increase the value of their investment over the recommended holding period of 4 years

This is a non-distributing unit class. Investment income is re-invested. Investors may sell on demand on any business day in Luxembourg.

Risk and Reward Profile

Additional key risks

The risk indicator reflects market conditions of recent years and may not adequately capture the following additional key risks of the Sub-Fund:

- **Operational risk:** Losses may occur due to human error or omission, process errors, system disruptions or external events. The Sub-Fund invests in other funds and may be indirectly exposed to a default by the depositary of an underlying fund.
- **Derivatives risk:** Derivatives create leverage in the Sub-Fund and may cause movements in the value of the underlying investments to amplify gains or losses to the Sub-Fund.

What does this risk indicator mean?

The above risk indicator ranks potential risk and reward and is based on medium-term volatility (how sharply the Sub-Fund’s actual or estimated unit price has gone up and down over five years). Historical data, such as that used in calculating this synthetic indicator, may not be a reliable indication of the future risk profile of the Sub-Fund. The lowest category does not mean a ‘risk-free’ investment. The Sub-Fund’s risk indicator is not guaranteed and may change over time. The Sub-Fund’s risk category reflects the risk profile of the mix of asset classes in which it invests. For unhedged currency classes, exchange rate movements may affect the risk indicator where the currency of the underlying investments differs from the currency of the unit class.

Charges

These charges cover the costs of running the Sub-Fund, including the costs of marketing and distributing it, and they reduce the potential growth of your investment.
