

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

## MFS Prudent Capital FAM Fund

A SUB-FUND OF CORE SERIES

CLASS I ACC - EUR NON-DISTRIBUTING ISIN: LU2358913528

INVESTMENT MANAGER : MFS INVESTMENT MANAGEMENT COMPANY (LUX) S.À.R.L.

MANAGEMENT COMPANY : FINECO ASSET MANAGEMENT DAC, WHICH IS PART OF FINECOBANK GROUP

### Objectives and Investment Policy

This Sub-Fund seeks to achieve capital appreciation by investing across different asset classes, namely equity securities, debt instruments, and cash and cash-equivalent instruments, based on the Investment Manager's view of the relative value of different types of securities and/or other market conditions. Normally, the Sub-Fund will invest between 50% and 90% in equity securities and equity-linked instruments and between 10% and 30% in debt securities (excluding short-term U.S. government securities). The Sub-Fund may invest outside of the above ranges and its exposure to the above asset classes may vary from time to time on an opportunistic basis or under exceptional circumstances (i.e. high volatility), to the extent such variation is not material for the Sub-Fund. With respect to its equity investments, the Sub-Fund invests in companies of developed and emerging market countries showing above average earnings growth potential (growth companies), believed by the Investment Manager as undervalued compared to their perceived worth (value companies), or characterized by a combination of growth and value companies, with focus on larger companies generally. With respect to its debt investments, the Sub-Fund invests in corporate and government bonds (excluding short-term U.S. government securities), which may be rated (fixed or floating rate) or not rated, issued by developed and emerging market issuers, including contingent convertible bonds as well as Securitized Instruments, as defined in the prospectus (e.g. collateralized loan obligations and asset-back securities). The Sub-Fund may use derivatives for hedging and/or investment purposes but will not primarily use derivatives to achieve the fund's investment objective. There can be no guarantee that the investment objective will actually be attained, and investors are explicitly warned that this Sub-Fund is not a capital guaranteed product. Investors can redeem their Units on any business day in Luxembourg and in New York and ask for full or partial redemption of the Units held.

**Benchmark Information:** The Sub-Fund is actively managed. The Investment Manager uses MSCI World Index (USD) (net div) and ICE BofA Merrill Lynch 0-3 Month U.S. Treasury Bill Index (USD) for performance comparison purposes only. The Investment Manager has broad discretion to deviate from the Indices and thus the Sub-Fund's performance and portfolio allocation may significantly differ from those Indices in terms of sector, region and country weightings. **SFDR Classification:** The Sub-Fund is classified as an Art. 8 financial product under SFDR. For more detailed information on the ESG components of the Sub-Fund as well as the integration of sustainability risks into the investment decision process, please refer to the Prospectus.

#### Recommended for retail investors

- With a basic knowledge of investing in funds and no or limited experience of investing in funds that are similar to the Sub-Fund
- Who understand the risk of losing some or all of the capital invested
- Seeking capital appreciation over the recommended holding period of 7 years

*This is a non-distributing unit class. Investment income is re-invested. Investors may sell on demand on any business day in Luxembourg and New York.*

### Risk and Reward Profile

#### Additional key risks

The risk indicator reflects market conditions of recent years and may not adequately capture the following additional key risks of the Sub-Fund:

- **Operational risk:** Losses may occur due to human error or omission, process errors, system disruptions or external events.
- **Derivatives risk:** Derivatives create leverage in the Sub-Fund and may cause movements in the value of the underlying investments to amplify gains or losses to the Sub-Fund.
- **Counterparty risk:** Losses may occur due to the failure of derivative counterparties to the Sub-Fund and where collateral arrangements are insufficient to cover the risk.
- **Credit risk:** The protection level offered by the Sub-Fund is not guaranteed and it is at all times subject to the risk of the default of the issuer of the funding investments which the Sub-Fund has purchased.
- **Emerging market risk:** Emerging markets may be more volatile and less liquid than more developed markets.

#### What does this risk indicator mean?

The above risk indicator ranks potential risk and reward and is based on medium-term volatility (how sharply the Sub-Fund's actual or estimated unit price has gone up and down over five years). Historical data, such as that used in calculating this synthetic indicator, may not be a reliable indication of the future risk profile of the Sub-Fund. The lowest category does not mean a 'risk-free' investment. The Sub-Fund's risk indicator is not guaranteed and may change over time. The Sub-Fund's risk category reflects the risk profile of the mix of asset classes in which it invests. For unhedged currency classes, exchange rate movements may affect the risk indicator where the currency of the underlying investments differs from the currency of the unit class.

## Charges

These charges cover the costs of running the Sub-Fund, including the costs of marketing and distributing it, and they reduce the potential growth of your investment.

One-off charges taken before or after you invest		
Entry charge	None	Maximum charges that might be taken out of your money before it is invested or before the proceeds of your investment are paid out.
Exit charge	None	
Charges taken from the Sub-Fund over a year		
Ongoing charges	0.86%	The ongoing charge is based on expenses for the period/year ending 31 December 2023.
Charges taken from the Sub-Fund under certain conditions		
Performance fee	None	

- **For entry and exit charges** you may pay less than the maximum amounts shown. Please consult your financial advisor or distributor.
- **Ongoing charges** vary from year to year. They do not include portfolio transaction costs and performance fees. The Fund's annual report for each financial year will include details of the exact charges made at the Sub-Fund level.

For more information about charges, please consult the Prospectus of CoRe Series, available at [www.finecoassetmanagement.com](http://www.finecoassetmanagement.com)

## Past Performance

The performance of the Sub-Fund (in EUR) shown below, takes into account all ongoing charges, but no entry or exit charges. Past performance is not a reliable indicator of future performance.
